Dear Sir:

Since the inactment of the ordinance making it unlawful to use automatic shut-off nozzles, there has been placed on the market, many improved types which have been tested and approved by many recognized testing laboratories. In addition to this there has been passed in the last session of the General Assembly, an Act H-1540 in ammendment of Sec. 23-36-13 and 23-36-14 of the General Laws in Chapter 23-36 entitles "Inspection and Handling of Inflammable Substances" which permits the use of the automatic shut-off nozzle. The use of the automatic nozzle is now permitted in several of the neighboring states.

In order that we may conform with the rest of the State and due to the above mentioned improvements, I feel that we should permit the use of the automatic shut-off nozzle, through a change of our City Ordinance.

Enclosed herewith is a copy of the Act which was passed in the last General Assembly.

Very truly yours,

JOHN E. BUTLER
