THE PROVIDENCE JOURNAL OF COMMERCE is devoted to the presentation of all matters relating to the interests of Commerce and Manufactures in the New England States. Complete Commercial Statistics of the port of Providence are given in each number. Articles are constantly published relating to new machinery, to technical and special subjects, and to improvements in railroad and commercial facilities, while trade and commercial news of a general character are also presented in every issue.

Special attention has been given to the subject of the manufacture of Ramie, so that the Journal has become the recognized channel of communication on this important industry, and has done a great deal to awaken interest in the matter.

The Journal of Commerce, in the opinion of its contemporaries, is the most artistic and elegantly printed commercial paper published in America, and will compare favorably even with artistic printers' publications. It is printed on coated paper, contains many half-tone illustrations, and is a large folio of from 60 to 80 pages, published monthly.

On all these accounts, in its own field, it is one of the best advertising mediums in the country. It has a special value to many manufacturers, because it is sent abroad to all the foreign consuls, and contains full consular reports. During the past two years it has produced very profitable returns to its patrons

PRACTICAL EDUCATION.

A BUSINESS COLLEGE WHICH IS A RARE AND MARKED EXCEPTION TO THE UNWORTHY CONCERNS WHICH AFFLICT THE COMMUNITY.

SCHOLFIELD'S COMMERCIAL COLLEGE, 224 WESTMINSTER STREET, PROVIDENCE, R. I.

Editorial Correspondence:

It is needless to say to the readers of this journal that our investigation of this business college we now review was conducted upon the lines laid down in the past by the management of this paper. In this case, as in all others, no charge was made, no gifts accepted, no advertisements solicited. The only interests consulted were those who ask honest, unprejudiced advice concerning the relative merits of the various commercial schools which seek the patronage of the people. This information cannot be obtained through college catalogues or paid write-ups. Devoid of all such features is the report herewith given. We single out and endorse this high-grade institution upon its own high merit alone. We recommend it unqualifiedly to those who would discriminate between a business college which really fits its graduates for the highest positions of trust and emolument in the business world, and the un-business-like affairs which almost cast discredit upon the very name of "business college." The latter are to be found in every city and upon every cross-road. Ignorance, incompetency and pretense characterize their management. They are a blot, a blight, a shadow upon the field of higher commercial instruction. The establishment we now review stands

out better and brighter by reason of the contrast it offers in superiority, genuine merit, and trustworthiness. It is ably conducted, splendidly equipped, and by all rights of supreme and inherent work takes front rank. In all essential features it is a leader. Its faculty is above criticism—the result accomplished speaks emphatically as to the fitness of each individual teacher. The courses of instruction are excellently arranged, and in all things thorough and complete. As a result of such excellence in all material details graduates come forth ready to take responsible places to which are attached high salaries which are willingly paid to the able and competent.

For some days past this college has been the subject of investigation by a trained and trusted editorial correspondent, and as a result of such unbiased examination, we do not hesitate to single it out as an example for all such institutions, and to heartily endorse it to every reader who either for himself or others desires the highest practical education at the lowest possible cost. We bestow upon it our approval and commendation. Would there were far more such institutions throughout the country to-day. It occupies the same relative position to the inferior business colleges which surround it as does our own great University of Chicago to the primary schools of the land. It is a grand, a noble, a beneficent institution, a business college par excellence. Those seeking the best will certainly find it here. We heartily endorse it all.

YOUR HOUSE WILL BE **BEAUTIFUL**
PAINTED WITH
AVERILL PAINT.

The following is a fair statement of the advantages to be derived by the use of the **AVERILL PAINT** for house painting.
1st.—It is the best paint in the market.
2d.—It is ready for use and easily applied.
3d.—It is more economical than lead and oil, in first cost and spreading qualities, and far more durable.
4th.—It produces a handsomer finish than any other paint, leaving a rich, glossy surface.
5th.—It will not "chalk off," but will remain firm and durable.
6th.—It does not fade, whereas other paint loses its freshness and color soon after application.
7th.—It is peculiarly adapted to salt or sea air exposure, experience having demonstrated that it will wear twice as long as lead and oil.
8th.—It is GUARANTEED.
Send for sample cards of beautiful tints.
