## CHAPTER 1313

No. 53 **AN ORDINANCE** AMENDING THE APPROPRIATION ORDINANCE,  
CHAPTER 1288, BY APPROPRIATING THE SUM OF SIXTY-FIVE  
HUNDRED (\$6500) DOLLARS TO SEWAGE PUMPING STATION, ITEM 1.

Approved February 5, 1960

*Be it ordained by the City of Providence:*

SECTION 1. Chapter 1288 of the Ordinances of the City of Providence as approved September 18, 1959, entitled: "An Ordinance Making Appropriation of \$39,301,585.32 for the Support of the City Government for the Fiscal Year Ending September 30, 1960", as amended, is hereby further amended by appropriating the sum of Sixty-Five Hundred (\$6500) Dollars to SEWAGE PUMPING STATION, ITEM 1.

SECTION 2. The said sum of Sixty-Five Hundred (\$6500) Dollars as thus added and appropriated shall be obtained by authorizing and directing the City Controller and City Treasurer to transfer a like amount from the Reserve for Extraordinary Expenditures Account to the Receipts Account.

SECTION 3. The estimated receipts from Reserve for Extraordinary Expenditures are hereby increased by Sixty-Five Hundred (\$6500) Dollars.

SECTION 4. This Ordinance shall take effect upon its passage.

# RESOLUTION OF THE CITY COUNCIL

No. 54

Approved February 5, 1960

Resolved,

**That** the City Treasurer acting under the direction of the Committee on Finance be and he hereby is authorized to borrow from time to time such sums as may be necessary, not exceeding One Million Seven Hundred Thousand (\$1,700,000.00) Dollars in accordance with the authority granted by Chapter 2514 of the Public Laws, passed by the General Assembly at its January Session, A. D. 1950 and approved April 25, 1950 entitled "An Act Providing for Off-Street Parking Facilities in Providence" and to issue the City's notes therefor bearing interest at a rate not exceeding three and one-half (3½%) percent per annum signed by him and countersigned by the Mayor and Chairman of the Finance Committee; and to renew any such notes from time to time as the same become due. The money thus obtained is hereby appropriated for and shall be exclusively used and expended for the acquisition, designing, construction, alteration or enlargement of off-street parking facilities.

REPORT

OFF-STREET PARKING FACILITY  
(Broad, Chestnut, Gould  
and Claverick Streets)

\* \* \*

January 21, 1960

CITY OF PROVIDENCE  
EXECUTIVE CHAMBER  
PROVIDENCE, R.I.

WALTER H. REYNOLDS  
MAYOR

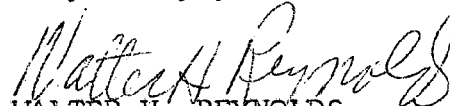

January 21, 1960

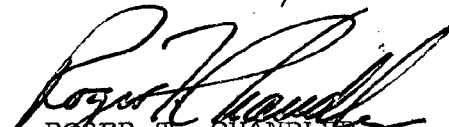

The Honorable City Council  
of the City of Providence  
City Hall  
Providence, Rhode Island

Gentlemen:

In accordance with the provisions of Chapter 2514, Section 9 of the Public Laws of 1950, we are pleased to transmit to your Honorable Body, with a recommendation for adoption, a report on the proposed purchase for off-street parking purposes of the land and buildings contained in the block bounded by Broad, Chestnut, Gould, and Claverick Streets with the exception of the property owned by the Salvation Army.

Very truly yours,

  
WALTER H. REYNOLDS  
MAYOR OF PROVIDENCE

  
ROGER T. CHANDLER  
TRAFFIC ENGINEER

## REPORT ON PROPOSED PARKING FACILITIES

(Block Bounded by Broad, Chestnut, Gould, and Claverick Streets)

The parking problem in Providence was studied through a comprehensive parking survey conducted in 1945 through the co-operative efforts of the Rhode Island Department of Public Works, Highway Planning Section and the Bureau of Public Roads of the United States Department of Commerce. A report on the results of this survey was published by the Rhode Island Department of Public Works in 1946, copies of which are on file in the office of the City Plan Commission and the Traffic Engineering Department.

In 1950, the City Plan Commission, in collaboration with the Redevelopment Agency and the Traffic Engineer, published a report entitled "Parking in Downtown Providence." This report comprised a general plan for automobile parking facilities in the Providence Central Business District. The report was published in September, 1950, and copies were filed with the City Clerk and distributed at that time. The general plan contained in that report fulfills the requirements of Section 4 of the 1950 Off-Street Parking Act approved April 25, 1950, (Chapter 2514, Public Laws 1950, H-852 Amended).

The inventory of off-street and on-street parking in the downtown area has been maintained on a current basis to reflect all changes that have been made, including all new facilities, as well as the loss of any spaces to other land uses. During the past fifteen years there have been a significant number of such changes in land use by private developments of one form or another, in addition to the loss of approximately 2,800 spaces for construction of the North-South Freeway.

While the total number of spaces in public off-street parking lots has changed from 5,091 in 1945 to 7,219 in 1959 for an increase of 2,128 spaces, 1,929 of these spaces were created by the City of Providence or by the combined effort of the City working with other interests. These 1,929 spaces are accounted for in three facilities--Pershing Square Parking Plaza, Park 'N' Lock (Railroad Yard 15), and the Francis Street Parking Deck, all three being located on the northerly edge of the downtown area.

This means that while commercial parking lot operators and private investors have made substantial contributions to the downtown area in the creation of several improved parking structures during the past fifteen years, the effect in terms of the total number of parking spaces provided has been primarily one of changing land uses and improvement of the type of facility provided, without any significant increase in the total number of parking spaces. Therefore, in the public interest and for the economic welfare of the citizens of Providence it becomes necessary that the supply of off-street parking spaces continues to be increased at every opportunity. These increases should also be made to assure the continued high valuation of the Central Business District, and to assure the creation and continuation of conveniently located off-street parking facilities.

Another reason for creating additional off-street parking in this particular location is the relative location of this block with respect to the exit ramp from the North-South Freeway at Pine and Claverick Streets.

Also, the construction of Dexter Manor (the Providence Housing Authority project) will require the elimination of two off-street lots in the near neighborhood, the loss of which will be partially offset by the improvement of this facility.

On the following page is a statement by Frank H. Malley, Director of the City Plan Commission, certifying that the proposed parking facility shown on the accompanying plan does conform to the general plan for automobile parking in downtown Providence and the requirements of Section 4 Chapter 2514 of the Public Laws of 1950.

January 21, 1960

The Honorable Walter H. Reynolds, Mayor  
The Honorable City Council  
of the City of Providence  
City Hall  
Providence, Rhode Island

Gentlemen:

SUBJECT: Purchase of land on Claverick, Broad, Chestnut and  
Gould Streets for parking purposes

In connection with the Off-Street Parking Plan submitted by the Traffic Engineer this is to report that this Off-Street Parking Plan is in conformity with the General Plan, and also with the Weybosset Hill section of the Downtown Master Plan, developed by the City Plan Commission in collaboration with the Traffic Engineer in accordance with provisions of Section 4 of Chapter 2514, Public Laws 1950; and that the City Plan Commission recommends approval and execution of this Plan as being necessary in the public interest.

Very truly yours,

FRANK H. MALLEY  
DIRECTOR  
CITY PLAN COMMISSION

FHM:MK

The attached plan shows the development of parking facilities recommended for the block bounded by Broad, Chestnut, Gould and Claverick Streets, with the exception of the land owned by the Salvation Army. These facilities include the existing garage which would continue to be operated under the existing lease agreement for an annual rental of \$10,000.00 per year until the present lease expires in 1961. On the remainder of the land area, it is recommended that all of the existing buildings be demolished and a parking lot created with a capacity of 176 metered spaces.

Through the demolition of the existing buildings and the improvement of what would become a "corner lot" at the intersection of Broad and Chestnut Streets, the effect is to bring the entire lot into visual contact with downtown; and it is therefore recommended that operational emphasis be given to shopper parking, rather than all-day employee or long-term parking. As in the case of the Pershing Square Parking Plaza, the average shopping trip will be between three and four hours duration with a strong preference for self or customer parking on a park-and-lock basis. On this basis it is reasonable to estimate the turnover rate at two. This means that each space will be used by two or more customers each day during the hours of meter operation (8AM to 6PM). One of the distinct advantages of this form of operation over any form of all-day operation is that a greater number of customers can be accommodated, and therefore a greater service is offered to the motoring public.

The assessed valuations for each of the lots and buildings are shown in Table 1. The total valuation of the property recommended for purchase is \$410,000.00.

A breakdown of the estimated cost of development is shown in Table 2.

A breakdown of the estimated cost of operation and estimated income yield is shown on Table 3.

# RESOLUTION OF THE CITY COUNCIL

No. 56

Approved February 5, 1960

Resolved,

**That** His Honor the Mayor be and he hereby is authorized to execute a lease to Brewster Building Materials Co. of approximately 126,270 square feet of land at Fields Point now leased to said Company, said lease to be for a period of five (5) years beginning March 1, 1960 at a base rental of Four Thousand Six Hundred Eighty (\$4,680.00) Dollars with a right to renew for a further term of five (5) years upon the same terms, including rent and a further right to renew for a period of ten (10) years thereafter, the rental to be fixed at the beginning of each five (5) year period of the term beginning March 1, 1970; the lease to further provide that the Lessee shall erect a building upon said premises costing approximately Fifty Thousand (\$50,000.00) Dollars which building shall become the property of the City on February 28, 1970 or sooner if said lease ends before that date, and to contain such further terms and conditions as may be approved by His Honor the Mayor and the City Solicitor.

# RESOLUTION OF THE CITY COUNCIL

No. 57

Approved February 5, 1960

Resolved,

**That** His Honor the Mayor be and he is hereby authorized to execute a lease to Abbott Glass Company of the Transit Shed, Municipal Wharf, Fields Point, with an approximate floor area of 63,600 square feet, for a term of ten (10) years; the base rental for the first five (5) years to be at the rate of \$.20 per foot per annum and the usual wharfage and dockage payments. Said lease shall also provide that for the second five year period the Lessee shall pay \$.20 per foot per annum, plus a guarantee that the City shall receive from wharfage and dockage on consignments to the Lessee a minimum sum of Twelve Thousand Seven Hundred Twenty (\$12,720.00) Dollars. The Lessee shall be required to make all interior repairs and the Lessor shall make all exterior repairs. The lease shall also contain a right of renewal for two successive ten (10) year periods upon the same terms and conditions except as to renewal, including wharfage and dockage which shall be determined at the beginning of each five-year period of said renewal period and to contain such further terms and conditions as may be approved by His Honor and the City Solicitor.
