Dear Evelyn:

Thank you for the opportunity to be a member of the special commission to study the financial side of the Providence School Department

I became totally involved by attending all scheduled meetings in addition to two grand meetings held at City Hall. In addition, I did extensive research on my own to be more knowledgeable about the subject.

It became apparent that there was little that I could contribute to these meetings. Therefore, I regret to inform you that I no longer wish to serve on this commission.

Sincerely,

Joseph R. Masson
