"DOLPHIN" is the belting to use in wet places. It is impervious to moisture and gives entire satisfaction. You can run it in water and the cement will hold fast. No rivets or sewing necessary.

"Black Diamond" for high speed Machinery, Dynamos and heavy drivers. Will do more work and easier than any other belt made. Give it a trial.

WHAT IT IS

To get the most good from your directory you must know what it contains, and how to use it. You can not get this knowledge by glancing hastily through the book, and assuming that your mind grasps a full idea of its contents from the name.

To show briefly what the directory contains, and to suggest a few of the ways in which it may be used, is the object of this leaflet.

To Find

How to use it	*See page 3*
What it contains	" " *4-5*
Why you need it	" " *6-7*
Mailing lists	" " *8*
Changes each year	" " *9*
List of Publications	" " *11*

Remember

True efficiency does not consist in burdening the mind with details, but rather in a well ordered ability to locate accurate information quickly.

The directory is a mine of condensed information, and careful study of how to use it will be well repaid in your business.

HOW TO USE IT

In Buying

Look under the headings in the Business Directory for everyone who sells what you require. To know *all* who sell is to know *how* to buy.

In Selling

Go after everyone who might be interested in what you have to sell. If you do a good piece of work, or sell a large order to a man in one line of business, tell others in the same line about it. The Classified Lists make this easy.

In the Credit Department

Look up applicants for credit in the General Directory, and check their stories and references with the information found there. It pays.

In Shipping Goods

Reduce errors and complaints, by verifying addresses before delivering merchandise.

In Sending Bills

letters or advertising matter, avoid the impression of inaccuracy that goes with mis-directed mail matter (See letter from the Postmaster of Boston in this connection, on page eight.)

In Collecting Money

The directory often plays an important part in locating those who have moved to a new address or to another city. (See library notice on page ten.)

In Using Telephone

Instruments are frequently listed under other names than the party wanted. The City Directory gives business connection or address, from which the 'phone can be located. For convenience in telephoning, the City Directory should be used as a supplement to the telephone book.

WHAT IT CONTAINS

Map

The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Street Directory

A complete list of Streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

Halls, Blocks and Buildings

An alphabetical list from which street and number may be found for addresses which only give name of a certain building.

"Miscellany"

Organization of City Departments, giving officers and salaries,—List of monuments and their designers,—Cemeteries,—Railway stations,—Schools,—Churches and ministers,—Societies, Institutions, etc. with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Cab and Taxi fares, etc.

Alphabetical or "General" Directory

Gives names, occupations, and addresses of all men twenty years old or over, women who carry on business, widows, and all business houses. Dates of deaths during the previous year are given, and where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere

Business or Classified Directory

All business houses, individuals in business for themselves, and professional men are listed under the heading that best describes them. The more progressive houses, realising that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "publicity section."

Publicity Section

Where more information than is possible to give under the headings is placed on file for buyers' reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

We were recently told by the information bureau of the Boston Chamber of Commerce, that they have thousands of inquiries from all over the world, as to who does this or that particular thing. They look under the headings in their file of directories, and frequently by referring to the reference spaces, are able to find just the party making a specialty of what is wanted.

As a Matter of Convenience

Every busy man has to answer frequent questions of "Who?" and "Where?" To be able instantly to connect name and address is a real convenience. To prevent the little work-stopping delays, while someone "tries to remember," "looks in the file," or "goes to ask John," is worth a postage stamp a day.

For "Scientific Management" of the day's work, have the latest City Directory within reach of your right hand.

A Reputation for Accuracy

Is an asset valued by every business man. How does it affect you when you get a letter with a wrong street address? You probably think, "Hm, So-and-so's getting careless, or he has a poor stenographer." You certainly notice it. Is your own mail matter proof against this criticism? To protect it say, "Verify" to your stenographer, after a doubtful address and have the latest directory where she can look it up.

The Value of Information

Is recognized today more than ever before. Success depends upon it in every profession and in every line of business. The well-equipped man has at hand accurate and complete information about the vital factors of his business. What factor is more vital in any man's business than the people he does business with? The City Directory is a catalog of the people with whom you do business, and one of its greatest advantages is that it tells you not only about customers, but also about those who might be your customers. Aren't they worth knowing about?

Looking for Business

From twenty to twenty-five percent of the names in the directory each year were not there the year before. It seems impossible, but the figures prove it. To a keen mind this fact at once suggests possibilities for new business.

This great proportion of the city's population must contain many with whom you might do business. The question is how to get at them, and the answer is "advertise." Use the forms of publicity that best suit your particular case. If you deal with people to be found under the headings in the Business Directory, direct advertising by means of letters and circulars will be the most effective means. If you draw trade from the population at large, a certain amount of study of the alphabetical directory will be useful. In any case, remember that the directory is where a possible customer would naturally look you up, and see to it that you are properly represented there.

Do You Ever Get Letters Like This?

Your Mailing List

Is valuable in proportion to its accuracy and completeness. Of course such changes as come to light are noted as they occur. But if there are changes in two out of three names each year in the City Directory, you can estimate the necessity of revising your mailing list when the issue of a new directory makes it possible. The following letter is of interest in this connection.

From the Boston Postmaster

OFFICE OF THE POSTMASTER **United States Post Office**
BOSTON, MASSACHUSETTS

April 25, 1913.

Sampson & Murdock Co.,
246 Summer St, Boston,

Gentlemen:

In ordering the copies of the Boston Directory for the year, which are to be used in the Boston Post Office, and its numerous stations and branches, I am impressed with the fact that too much emphasis cannot be put upon the value of the new directory with its revised list of names, in connection with Post Office work.

Thousands of letters are constantly received bearing erroneous addresses, or with the street address omitted altogether. Practically all this mail has to be handled by clerks whose duty it is to search the directory for the proper addresses. This means a delay in the delivery of mail matter, and a great amount of clerical labor.

If patrons of the Post Office would take pains to consult revised directories, they would receive much better service, while the Post Office would be relieved of a great amount of labor which it is now obliged to perform.

Respectfully
J. Crawford
Postmaster

Why use the Latest?

Few people realize how many changes occur in a city's population during a single year. The actual changes are shown below:

New names written in	*22%*
Old names taken out	*19%*
Changes in location	*29%*
Total Changes	***70%***

This shows the danger in trusting to an old edition of the directory. It may be right, but is apt to be wrong. It is cheaper to buy a new book than to take chances.

A Suggestion

Before using a directory anywhere, look to see if it is the latest edition. The merchant who does not keep the latest directory for his customers' convenience, does not show them a courtesy they may obtain elsewhere.

THE CITY DIRECTORY

You Should be Registered

Under every heading in the Directory where people might look for you. The Directory is the natural buyer's guide, and one glance at the advertising section will convince you that keen business men realize this fact.

Your name in bold type under the headings, cross-indexed to a space description, not only gives you an advantage over competitors not so described, but protects all other advertising you may do.

Frequently the desire to purchase is not aroused until the display advertisement that suggested it is misplaced or thrown away. Then the natural place to look is in the City Directory.

The Cost

Of registration is so slight when one considers its value, and the fact that it is working 365 days in the year, that no live concern can afford to overlook it.

Library and List Service

We maintain a very complete library of current Directories, which is free to our customers, for ordinary reference. A nominal charge is made when lists are copied.

Wasted postage is the smallest part of the loss from inaccurate mailing lists. The flat cost of letters and inclosures is considerable in itself, but not when compared to ***the business you do not get.***

We are specialists in the compiling of special lists. If you will let us know your requirements, we will be glad to make an estimate.

How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day, they would use it in their personal as well as business affairs.

Well, now,—doesn't it concern you? It has your name, business and address correctly listed, where your friends looking for you will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, gives numbers at corners; the clearest map of the City; Buildings, Government, Societies, and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest.** See page 9 for the reason.

For Trade Lists outside of New England

The use of this book may suggest uses for lists in other States. There are, however, few State Directories issued outside of New England. To get such information one must have access to the ***very latest*** city and town directories. A few lines of business are fairly well covered by trade directories, but as these are of necessity compiled in large part from the local directories of the year before, and as there are sometimes as many as ***seventy-three per cent changes*** in a city directory in a single year, it is evident that they can hardly contain the latest changes and new names.

To perform this service properly we maintain a very complete Library, containing over five hundred current local directories, and are prepared to compile special lists as desired for almost any locality at reasonable rates.

We do not keep lists on hand, waiting for a customer, as is done by many "addressing agencies," who issue quite complete price lists of carbon copies left over from special orders. We are sometimes called upon to correct such lists, which give evidence of having been prepared several years before. There is such a large variation in the requirements for special lists, that to hold copies of one order in expectation of another call for the same list, must result in most cases in that list becoming old before sold. The latest information is worth all it costs, and usually it does not cost more than old lists.

We will be glad to make estimates on any work of this nature.

Note:—We publish directories for thirty-five cities and towns in New England and New York State, and will be pleased to quote prices on these, or directories issued by any other publishers.
