

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

COASTAL RESOURCES MANAGEMENT COUNCIL
83 Park Street
Providence, R.I. 02903

June 15, 1976

City Clerk
City Hall
Providence, Rhode Island 02903

Dear Sir:

We are in the final phase of completing a Coastal Resources Management Program for Rhode Island.

This program is the result of more than two (2) years of study by the Coastal Resources Management Council of Rhode Island. We hope to submit the program for evaluation and review by the Federal Office of Coastal Zone Management in Washington, D.C. in the immediate future.

When the program is accepted by the Federal Government, the State of Rhode Island will be eligible for Federal monies for funding the management of this program, under U.S. Public Laws 92-583, Section 306.

We would appreciate the opportunity of explaining the process and answer any questions the City Council, Planning or Zoning Boards of your town have in regard to the Coastal Resources Management Plan for Rhode Island.

Will you please notify us of a time and place that will be convenient for us to make our presentation?

Yours truly,

John A. Lyons, Chairman
Coastal Resources Management Council

JAL/ly
