IN GENERAL ASSEMBLY

January Session, A.D. 1967

AN ACT

AUTHORIZING THE CITY OF PROVIDENCE TO ISSUE BONDS IN THE SUM OF TWO MILLION FOUR HUNDRED (\$2,400,000) DOLLARS FOR SCHOOL PURPOSES.

It is enacted by the General Assembly as follows:

Section 1. The city of Providence is hereby authorized and empowered, in addition to and not in substitution for authority previously granted, to issue, in addition to the bonds heretofore issued and now outstanding, under its corporate name and seal, serial bonds in any form which the city council of said city has heretofore approved or may approve, in an amount not exceeding two million four hundred thousand (\$2,400,000) dollars. Said bonds shall be of any denomination not exceeding twenty thousand (\$20,000) dollars each, the principal thereof and the interest thereon shall be payable in any coin or currency of the United States of America, which at the time of payment is legal tender for public and private debts, and the debts incurred by said bonds shall be obligatory on said city in the same manner and to the same extent as other debts lawfully contracted by said city. The dates of maturity of said bonds shall, in no case, be more than twenty-five (25) years after date of issue; provided, however, that the first installment of the principal of the bonds issued under the provisions of this act shall mature on such date as said city council shall determine, but not later than five (5) years after the date of issuance.

Sec. 2. Said bonds shall be signed by the city treasurer, and countersigned by the mayor of the city of Providence and shall be issued and sold at such times and in such amount as the city council of said city shall determine; provided, however, that the premiums, if any, arising from the sale of said bonds shall be applied to the payment

of the principal of said bonds in the order of their maturity. The proceeds arising from the sale of the bonds authorized by this act shall be delivered to the city treasurer, and such proceeds, except as hereinbefore provided in respect to the premiums arising from the sale thereof shall be expended for the construction, reconstruction, furnishing and equipping of public school buildings in said city. No purchaser of any of said bonds, however, shall be in any way responsible for the proper application of the proceeds derived from the sale thereof. The countersignature of the mayor may be by facsimile signature.

Sec. 3. The city of Providence shall annually appropriate a sum sufficient to pay the interest upon the bonds issued and outstanding under the authority of this act, and also to pay the principal of the bonds maturing in any such year, until said bonds are paid in full. All obligations of said city which are incurred under authority of this act shall be excepted from the operation of section 45-12-2 of the general laws of 1956.

Sec. 4. The voters of the city of Providence, having authorized the issuance of bonds in the said sum of two million four hundred thousand (\$2,400,000) dollars for the construction, reconstruction, furnishing and equipping of public school buildings in said city, at the general election held November 8, 1966 any further requirement for approval of this act by the voters, whether by charter or by special law, is hereby waived, and the bonds authorized by this act shall therefore be exempted from the provisions of section 135 of chapter 832 of the public laws, 1940, as amended by chapter 1266, public laws of 1943, and from any other requirement for approval by the voters.

Sec. 5. This act shall take effect upon its passage.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the work.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress to ensure that the objectives are being met.

5. Finally, the fifth step is to evaluate the results of the project. This involves assessing the effectiveness of the plan and identifying any areas for improvement or further action.
