Councilman William J. Moise

Providence, Rhode Island

Dear Bill,

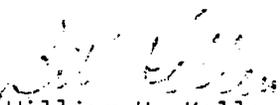

I have tried to reach you by telephone relative to a resolution you introduced to the Providence City Council regarding Operator handling of emergency calls. I would like to discuss this with you in further detail whenever it is convenient for you.

Frankly, I am not aware of any problems that have occurred where Operators have delayed forwarding calls to either the Police or Fire Departments. I feel we have an excellent rapport with Public Safety Officials, and when problems do occur, Al Mello is usually very prompt in notifying the Telephone Company of them so that we can take appropriate corrective action.

In connection with the recommendation of placing Emergency Telephone Numbers in all outdoor booths, we have attempted to do this in the past, but we are faced with a continuing problem of vandalism and the numbers are often destroyed as fast as we can place them.

I would, however, be pleased to discuss the problem with you if you would call me at the above number.

Sincerely,

William H. Kelley

Assistant to General Manager
