**COUNCILMAN JOHNSON moves the Resolution be Read and Passed. This motion is seconded by COUNCILMAN FLYNN.**

**COUNCILMAN MANSOLILLO presents a communication from John M. Voccolo of 90 Dudley Street, Providence, Rhode Island, dated September 2, 1982, and requests that the same be allowed to become part of the record, this day.**

Gentlemen of the Providence City Council:

I come before you this evening to ask this honorable body to table the recommendation of the Public Works Committee for the abandonment of Plain St. as R.I. Hospital has requested and the plan for re-routing Plain St. I give the following reasons as to why a more comprehensive study should be made:

1) Closing Plain St. will have an adverse effect on several businesses in the area. Testimony was given by myself, Atty. Richard F. Daley and several other property owners who objected.

2) Vanasse Hanger Assoc., Inc. of Boston claims to have made a traffic count, yet, no figures were introduced. I saw the traffic count made and it only lasted several hours for Plain and Dudley Sts.

3) No evidence was furnished to the Public Safety Committee, however the approval was given. This committee will never object if there is no remonstrance. Why was the approval given prior to public hearing?

4) Closing of Plain St. can cause a fire hazard, not only to the hospital, but also to the surrounding properties. It will detour the fire apparatus by taking a longer route.

5) Testimony was given that a feasible study was made in keeping the street open, and an overpass or underpass considered. No figures were submitted as to the cost or plans. Everything presented that evening was "hear-say." We have no objection to the overpass or underpass. We feel it will not hinder us.

6) From the moment the meeting started it was obvious that the committee was in accord as to the final disposition of the hearing. No sooner had the last person testified, one member made a motion to approve, it was seconded immediately and passed. A motion to adjourn was entertained and passed. For these reasons the general public becomes disappointed with public officials, and their general feeling is, "you can't beat City Hall."

I ask you once again, please table the abandonment of Plain St. Have the hospital come forth with the overpass or underpass survey cost and traffic count survey to substantiate the cost between both projects.

Will the expense of road, curbing, storm drains and lighting be paid by the hospital, or will the

city of Providence be paying for all the improvements with the taxpayers' money. We are all aware that the hospital is tax exempt.

Please be advised, gentlemen that the hospital has an office building in the middle of this complexed area, which is competing with other buildings in the area. Rumors have it that this building was sold to a private enterprise. If so, this will land-lock the building. The general assembly years ago passed laws that no property can be land-locked.

What may seem like a simple resolution by the city council today, will cause a tremendous headache tomorrow.

I must make one more comment before I close. Has anyone taken into consideration the nursing home at the fringe of this area? Also the housing for the elderly behind it. They both will become an "Island."

I request once more that this honorable body table the abandonment and consider all the evidence submitted.

Thank you,

John M. Voccola
