## SELECTED PROFESSIONAL ACCOMPLISHMENTS

My passion for arts and culture education has manifested itself with experience in museum work with folklife and cultural heritage; education systems from youth engagement to the college level; as well as in the community itself in leadership positions for arts organizations, as a seasoned professional and as a performer and creative place maker. My relationships with local and national performing artists is long-standing and highly valued.

Over the course of my career I have been able to use my Master's degree in Education with a professional development concentration in a variety of applications including pre-K, post-secondary and college levels, working effectively with administrations serving low income students. My specialties include curriculum development, parent and volunteer engagement and supervision, and team oversight and coaching.

Recognizing that the most creative and important arts education programs only work when well administered, I have extensive experience in managing staff, funds development including program design to secure grant funding. In addition, building good working relationships and partnerships is vital to "win-win" success for students, administrators, and artists.
