JAMES F. FIELD, Treasurer. BOX 1095.

Send Stamps for Illustrated Pamphlet "H."

Self-Clinching BELT HOOKS.

These hooks are the strongest, lightest and most durable belt fastener made.

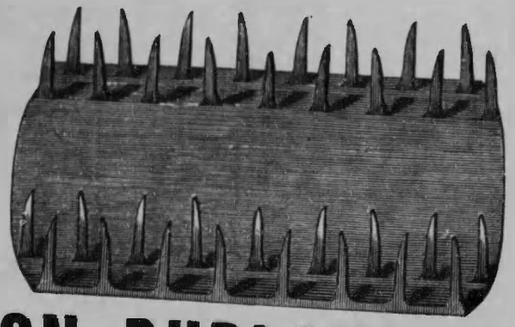

Among the many meritorious points are the following: No metal on the pulley side of the belt as, *being self-clinching*, the points are buried in the stock, thereby keeping up a constant and equal friction.

Is the narrowest, and as a result, the least rigid, being adapted for the smallest size pulleys for any kind of machinery, and is at the same time equally appropriate for the largest and heaviest belts.

They are made of the very best and toughest material, and every hook warranted perfect and satisfactory.

For **Cone Belts** will outwear and outstand any other joint, and for **Cotton Belts** of all makes are the only **successful belt fastener** in the market, and for **repairing old belts, they have no equal** in economy of time or saving of stock.

The special attention of all who are using machinery, and are troubled with belts breaking or tearing out at the joints, is directed to the above points of merit in our Self-Clinching Belt Hooks. (Correspondence solicited.)

SIMEON BUDLONG & CO.,

No. 3 Washington Street,

P. O. Box 180. PROVIDENCE, R. I.

CORLISS STEAM ENGINE CO.,

—ORIGINAL BUILDERS OF—

The "CORLISS ENGINE."

The works of this Company are conducted under the direct personal supervision of the inventor of the "CORLISS ENGINE," and are

THE ONLY WORKS

Where the most perfect type of this engine can be obtained.

GEORGE H. CORLISS, Treasurer.

WILLIAM A. HARRIS,

PARK STREET,

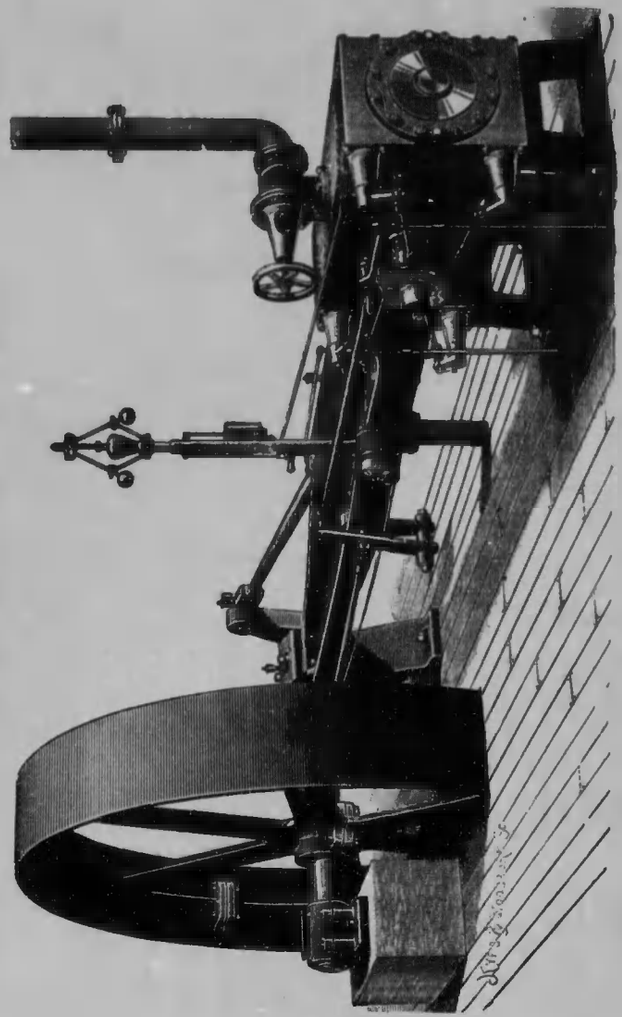

(Six minutes walk West from Passenger Station),

PROVIDENCE, R. I.

Original and only Builder of the

Harris-Corliss Steam Engine

FROM 10 TO 1000 HORSE POWER.

With Harris's Patented Improvements. HAS NO RIVAL IN THE WORLD.

These improvements consist of **Self-Packing Valve Stems, Stop Motion on Regulator, Recessed Valve Seats, Drip Collecting Devices,** and **Piston Packing. Small Parts** are made **Interchangeable,** and **kept in stock** for the convenience of repairs and filling orders for New Work at short notice. Also in **General Construction** and **Superior Workmanship.**

Engines of other Manufacture **Remodelled to Harris-Corliss Engines** if so desired by **Change of Cylinders and Valve Mechanism. The only works where this type of Engine can be obtained.**

—ESTABLISHED IN 1849.—

WM. H. FENNER & CO.,

Manufacturers and Dealers in

PREFACE.

In presenting this 46th number of the PROVIDENCE DIRECTORY AND RHODE ISLAND BUSINESS DIRECTORY to our patrons, we wish to congratulate them upon the early issue of this edition, it being a week or more in advance of the usual time, and on account of the new features which it contains, viz., the State Business Directory, *alphabetically arranged*—see page 681—incorporating the names given in the Classified State Business Directory, thus supplying the State Department of this book with two distinctive and valuable sections. This we believe will be readily appreciated by the public.

We congratulate our citizens on the evidences of growth in population and business enterprise found herein. New and important interests have sprung up among us, and old established houses have added new lines of trade or have improved their facilities for the prosecution of their increasing business, facts which can be discerned by a close reference to the pages of this book. The increase in the number of names, as seen below, in the General Directory of Providence, are strong indications of our growth in population.

The Directory of 1880 contained in its City Department 39,227 names, and this Directory, after deducting Johnston names, 50,917, an increase of 11,690 names. How this can be without a corresponding increased rate in population, we fail to see. Our method of canvassing and compiling names is the same from year to year, and we assume, naturally, that the results of our work must point with some positive significance in the direction of numerical facts as applied to our inhabitants. Without purposing or having any wish to criticise the statements furnished by the last census, which was conducted with a zeal and an unqualified sincere desire to get at facts, certainly commendable, we are compelled by what we have before us to estimate the population of our city to-day as being very much in excess of the figures given in 1885, and, to make a plain statement, to be upwards of 125,000. This we believe to be a very modest estimate.

In connection with this issue and going with it to the public "hand in hand," is a Reprint of the first directory of the "Town of Providence." We take great satisfaction in being able to present to each of our patrons a copy of this work. It will, we have no doubt, be acceptable not only because of its value as a reminder of the past, but as something of a memento of the Anniversary Observances rig upon us. This has seemed to us a very favorable time for the issue of this little book, and we have bee able, through the generous patronage of many of our leading business men, to publish a very large editi and thus benefit them and the public generally.

The 250th anniversary of the settlement of Providence is a proud epoch in its history, and from our citizens may receive an inspiration that shall cause the starting into new life of many energies an forces now dormant and unappreciated.

To-day, while enjoying the blessings of peace, health and comfort, of business prosperity and a increased commercial importance, and of an enlightened and conscientious citizenship, we can enter in the celebration of this birthday of our home and the home of our fathers, with thankfulness for the past an high hopes and noble purposes for the future.

The changes which have occurred among our citizens during the past year, as recorded on the page of this Directory, are as follows: Of those whose names appeared in the Directory of 1885, 11,492 have changed the location of their residences, 2845 their business location, 1951 the nature of their business o occupation, and in 213 firms changes have been made either in their names or membership.

The following is a list of citizens whose names appeared in the first Directory of Providence, pu lished in 1824, and are recorded in the Directory of 1886. The year of birth is also given:—

Resolved Waterman, 1787; Philip W. Martin, 1795; Thomas Harkness, 1799; Lucian Draper, 180 Jonathan G. Draper, 1801; James C. Bucklin, 1801; James H. Read, 1801; David W. Pettey, 1801; R. H. N. Bates, 1801; Amasa Waterman, 1801; Edward Congdon, 1802; Thomas R. Briggs, 1807; John S. Harri 1809; Jeremiah S. Barrett, 1810.

CHANGES IN THE PROVIDENCE DIRECTORY.

*Names in Directory of 1886 (including 1264 Johnston names)	52,181
Names in Directory of 1885 (including 1135 Johnston names)	50,127
Increase	2,05
Names added in preparing Directory for 1886	9,16
Names erased in preparing Directory for 1886	7,11
Changes in the address of names, etc	17,85
Whole number of changes in preparing Providence General Directory	34,13

*This number includes the names of 1908 individuals who have died since the canvass of the Directory of 1885, with date of death, or have removed from this city, with locality to which they have gone.

SIX-LIGHT CLUSTER.

Albo-Carbon Light Company

—OFFER—

AN IMPROVED SYSTEM OF LIGHTING CHURCHES, HALLS, PUBLIC BUILDINGS, STATIONS, SHOPS, STORES and PRIVATE HOUSES.

By our method of enriching gas we are enabled to give THREE TIMES the light obtained by burning it the usual way, and to give a SOFT, STEADY, WHITE LIGHT. [We use a solid material for enriching, called ALBO-CARBON.]

→*THE PERFECTION OF GAS LIGHTING.*←

It saves one-half the cost of gas. Our Cluster Lights, from 60 to 2,000 candle power [actual], equal in effect to the electric. Adapted to any style of reflectors. Brilliant, economical, perfectly safe and healthful. Our Single Lights can be attached to any gas fixture.

Electric light patrons will find it very advantageous to thoroughly investigate *The Albo-Carbon System* before signing any more contracts. It has undergone the severest tests both in this country and in Europe and has been pronounced The Best Artificial Illuminant.

NORTHWESTERN MUTUAL LIFE INSURANCE CO.,

MILWAUKEE, WIS.

The President, Hon. H. L. Palmer, is well known to the business men of this community, as is also the New England Trustee, Gen'l Samuel C. Lawrence. The Company was organized and commenced business in 1858, and is purely mutual.

Since its organization the Company has paid to the representatives of deceased policy holders for death.....

And to its living policy-holders for dividends, matured endowments, surrendered and lapsed policies.....

	$13,282,000.15
	23,490,836.98
Total	$36,772,837.13
Add present assets	24,265,256.56
Amount paid to policy-holders and held for them	$61,038,093.69
Total premiums received	52,422,966.39
Excess of assets and payments to policy-holders over premium receipts	$8,615,127.30

From the above statement it will be seen that the Company has paid to policy-holders, and has invested for them **more than Eight and a Half Millions of Dollars in excess of the entire premium receipts.** Its location enables it to select the choicest securities, **and to command the highest rates of interest. No loans are made by the Company on stocks, collaterals, or any kind of fluctuating or doubtful securities. The interest receipts** of the Company since organization have exceeded its losses by death by more than five and a half millions of dollars, as shown by the following figures:

Interest Receipts since organization	
Death Losses paid since organization	$18,912,450.10
Excess of Interest Receipts	13,282,000.15
	$ 5,630,449.95

It is the only Company which has in recent years printed tables of current cash dividends for the information of the public. The Northwestern has done this for many consecutive years, and in each of the past thirteen years they have been unequaled by those of any other Company on Similar policies. Its policy contract is of the most liberal character consistent with safety, and after three years, all restrictions on occupation, residence and travel will cease. It is the only Company issuing Tontine or Semi-Tontines that will furnish during Tontine period, a statement of the accumulated surplus. The most thorough investigation is invited by

NORTHWESTERN MUTUAL LIFE INSURANCE CO.,

MILWAUKEE, WIS.

The President, Hon. H. L. Palmer, is well known to the business men of this community, as is also the New England Trustee, Gen'l Samuel C. Lawrence. The Company was organized and commenced business in 1858, and is purely mutual.

Since its organization the Company has paid to the representatives of deceased policy holders for death $13,282,000.15

And to its living policy-holders for dividends, matured endowments, surrendered and lapsed policies 27,490,836.98

Total $36,772,837.13

Add present assets 24,265,256.56

Amount paid to policy-holders and held for them $61,038,093.69

Total premiums received 52,422,966.39

Excess of assets and payments to policy-holders over premium receipts $8,615,127.30

From the above statement it will be seen that the Company has paid to policy-holders, and has invested for them **more than Eight and a Half Millions of Dollars in excess of the entire premium receipts.** Its location enables it to select the choicest securities, **and to command the highest rates of interest. No loans are made by the Company on stocks, collaterals, or any kind of fluctuating or doubtful securities. The interest receipts** of the Company since organization have exceeded its losses by death by more than five and a half millions of dollars, as shown by the following figures:

Interest Receipts since organization $18,912,450.10

Death Losses paid since organization 13,282,000.15

Excess of Interest Receipts ..... $ 5,630,449.95

It is the only Company which has in recent years printed tables of current cash dividends for the information of the public. The Northwestern has done this for many consecutive years, and in each of the past thirteen years they have been unequaled by those of any other Company on Similar policies. Its policy contract is of the most liberal character consistent with safety, and after three years, all restrictions on occupation, residence and travel will cease. It is the only Company issuing Tontine or Semi-Tontines that will furnish during Tontine period, a statement of the accumulated surplus. The most thorough investigation is invited by

W. P. CANNETT, Gen'l Agent, 91 Westminster St., Providence, R. I.

PROVIDENCE. CENTRAL FALLS.

(CONNECTED BY TELEPHONE.)

IN consequence of our constantly increasing business we have recently enlarged and refitted our Store and made large additions to our stock; we are therefore prepared to serve our customers in a more satisfactory manner, and can show a larger variety of goods than ever before.

We call especial attention to our line of BLANK BOOKS, and believe we carry the *largest stock* and *greatest variety* to be found in the State. We can make to order books of any description at short notice. Our prices are as low as the lowest, always.

We carry a large stock of STATIONERY, including all the well known brands of papers of both domestic and foreign manufacture. Buying direct from the manufacturers, we are enabled to furnish everything in this line at low prices.

OUR PRINTING OFFICE at CENTRAL FALLS, is one of the largest establishments in the State, and we are prepared to execute any orders for PRINTING, ENGRAVING, or LITHOGRAPHING with which we may be favored, in a first-class manner and at short notice.

SEND FOR ESTIMATES.

We shall be pleased to give you prices at any time on anything you may require.

WARD BOUNDARIES.

First Ward—The Southern boundary of the 1st Ward is a line commencing at the intersection of the old boundary line of North Providence with the Woonasquatucket river, and running easterly along said river to its junction with the Moshassuck; thence up the Moshassuck river to Church street, up Church to Benefit, thence in a direct line to the west end of Lloyd street at Congdon street, through Lloyd street to Hope, thence in a direct line the continuation of Lloyd street to the Seekonk river, near the junction of Rhode Island avenue with Oriole avenue. The Eastern boundary of the 1st Ward is the Seekonk river. The Western and Northern boundary of the 1st Ward is a line commencing at the intersection of the old boundary line of North Providence with the Woonasquatucket river, thence running northeasterly on said old boundary, in a straight line to a boundary stone on Branch avenue, near the junction of said avenue with Smithfield avenue, thence northerly on Smithfield avenue to North Grove street, thence through North Grove street to Cemetery street, through Cemetery street to Pawtucket avenue, through Pawtucket avenue to North street, through North street and Swan Point or Neck road to a point opposite the east end of Methyl street, thence easterly on the old Northern boundary of Swan Point Cemetery to the Seekonk river.

Second Ward—Includes that portion north and east of Woonasquatucket and Providence rivers, between the southerly line of the 1st Ward as above described, and a line drawn from Providence river up Power street to Brown, through Brown to Charles Field, through Charles Field to Hope, up Hope to Benevolent, through Benevolent to Governor, through Governor to Pitman, through Pitman to East River street, through East River to Waterman and through Waterman to Central Bridge.

Third Ward—Includes that portion of the city between the Providence and Seekonk rivers, lying south of the 2d Ward, as above described.

Fourth Ward—Includes that portion of the city bounded by the following lines, to wit: Commencing at Weybosset Bridge and running thence up Westminster street to Weybosset, up Weybosset to Broad, up Broad to High, up High to Dean, through Dean to Atwell's avenue, through Atwell's avenue to Acorn street, through Acorn street to the Woonasquatucket river, thence down said river to the point of beginning.

Fifth Ward—Includes that portion of the city bounded by the following lines, to wit: Commencing at Weybosset Bridge, and running thence up Westminster street to Weybosset, up Weybosset to Broad, up Broad to High, up High to Fenner, through Fenner to Broad, up Broad to Beacon, through Beacon, and Plain to the northerly line of the 9th Ward, thence along said line to the river, thence up said river to the point of beginning.

Sixth Ward—Includes that portion of the city bounded by the following lines to wit: Commencing at the intersection of Fenner and High streets, and running thence up High to Cranston, up Cranston to B, through B to Central, down Central to Major, through Major to Broad, up Broad to Linden, through Linden to West Clifford, up West Clifford to Dudley, through Dudley to the northerly line of the 9th Ward, thence along said line to Plain street, through Plain Beacon, Broad and Fenner streets to the point of beginning.

Seventh Ward—Includes that portion of the city bounded by the following lines, to wit: Commencing at the intersection of Dean and High streets, and running thence up High street to Cranston, up Cranston to Codding, through Codding to High, up High to Almy, through Almy to Gesler, up Gesler to Ridge, through Ridge to Atwell's avenue, through Atwell's avenue to the Woonasquatucket river to Acorn street, through Acorn street to Atwell's avenue, down Atwell's avenue to Dean street, through Dean street to the point of beginning.

Eighth Ward—Includes all that portion of the city lying westerly of the following line, to wit: Commencing at the intersection of Dudley street with the northerly line of the 9th Ward, and running thence through Dudley to West Clifford, through West Clifford to Linden, through Linden to Broad, down Broad to Major, through Major to Central, through Central to B, through B and Codding streets to High, up High to Almy, through Almy to Gesler, through Gesler to Ridge, through Ridge street to Atwell's avenue, through Atwell's avenue to the Woonasquatucket river. The southerly line of this Ward is the old boundary line between Providence and Cranston, running westerly from the intersection of Dudley st. with the northerly line of Ward 9.

Ninth Ward—Includes all that portion of the city lying south of the southerly line of the 5th, 6th and 8th Wards. Commencing at the dividing line of the town of Johnston and the 8th Ward, then running southerly to the westerly line of the N. Y. and Providence R. R., thence on the westerly line of said railroad to Cranston street, and across said street to the westerly line of Fenner avenue, thence along the westerly line of said avenue to Reservoir avenue, thence in a straight line easterly to the southwesterly corner of Jonas Manton's farm, so called, on the easterly side of Eddy street (including that portion of Roger Williams Park lying south of said line), thence on the southerly side of said farm to Providence river, and thence in a straight line easterly, passing through the most southerly portion of Starve-Goat Island at low water mark, to the channel of the river.

Tenth Ward—Includes all that portion of the city lying north of the Woonasquatucket river, bounded by the towns of Pawtucket, North Providence and Johnston, and west and north of the westerly and northerly line of the 1st Ward, already described.

PROVIDENCE POST-OFFICE.

Stamp Department.

JOHN F. CLARK, *Clerk.*

Open from 7 A. M. to 7.30 P. M., except on Sundays and legal holidays. Stamps and postal cards can be procured in small quantities at the mail room wicket from 7.30 to 11 P. M. Sundays at the wicket in mail room from 6 to 11 P. M. *only.*

Money Order Department.

FRANK S. CONGDON, *Superintendent.*

Open from 9 A. M. to 6 P. M., except on Sundays and legal holidays. Money sent with absolute safety to all the principal towns and cities in the United States, Canadas, England, Ireland, Scotland, Wales, Germany and Switzerland. Fees for domestic orders, not exceeding $10, 5 cents; for foreign orders, 10 cents; larger sums up to $150, at proportionate rates.

Rates of Postage.

First Class.—Letters and all other written matter, *whether sealed or unsealed*, and all other matter, *sealed, nailed, sewed, tied, or fastened in any manner* so that it cannot be easily examined, 2 cents per ounce or fraction thereof, to all parts of the United States and the Canadas, except Newfoundland. To Germany, Austria, Hungary, Belgium, Denmark (including Iceland and the Faroe Islands), Egypt, Spain (including the Baleric Isles, the Canary Islands, the Spanish possessions on the northern coast of Africa, and the postal establishment of Spain upon the western coast of Morocco), Great Britain (including Gibraltar and the island of Malta, with the dependencies of the latter, namely, the islands of Gozzo, Comino and Cominotto), Greece, Italy, Luxembourg, Norway, the Netherlands, Portugal (including the island of Maderia, and the Azores), Roumania, Russia (including the Grand Duchy of Finland), Servia, Sweden, Switzerland, Turkey, Montenegro, and France, 5 cents per half ounce or fraction thereof.

Second Class.—For publishers and news agents, 1 cent for each pound or fraction thereof. Second class matter, sent by other than publishers, in *unsealed wrappers only* (all other matter inclosed in notched envelopes must pay letter rates) one cent for each four ounces or fraction thereof, *which must be fully prepaid.*

Third Class.—This includes circulars, chromos, engravings, handbills, lithographs, proof sheets, and manuscript accompanying the same, productions by the electric pen, hektograph, metallograph, papyrograph, and in short any *reproduction upon paper by any process except handwriting and the copying press*, 1 cent for each two ounces or fraction thereof. Limit of weight, 4 lbs., except for a single book which may weigh more.

Fourth Class.—All mailable matter not included in the three preceding classes which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. Rate 1 cent per ounce or fraction thereof. Limit of weight 4 lbs. Full payment compulsory.

WARD BOUNDARIES.

First Ward—The Southern boundary of the 1st Ward is a line commencing at the intersection of the old boundary line of North Providence with the Woonasquatucket river, and running easterly along said river to its junction with the Moshassuck; thence up the Moshassuck river to Church street, up Church to Benefit, thence in a direct line to the west end of Lloyd street at Congdon street, through Lloyd street to Hope, thence in a direct line the continuation of Lloyd street to the Seekonk river, near the junction of Rhode Island avenue with Oriole avenue. The Eastern boundary of the 1st Ward is the Seekonk river. The Western and Northern boundary of the 1st Ward is a line commencing at the intersection of the old boundary line of North Providence with the Woonasquatucket river, thence running northeasterly on said old boundary, in a straight line to a boundary stone on Branch avenue, near the junction of said avenue with Smithfield avenue, thence northerly on Smithfield avenue to North Grove street, thence through North Grove street to Cemetery street, through Cemetery street to Pawtucket avenue, through Pawtucket avenue to North street, through North street and Swan Point or Neck road to a point opposite the east end of Methyl street, thence easterly on the old Northern boundary of Swan Point Cemetery to the Seekonk river.

Second Ward—Includes that portion north and east of Woonasquatucket and Providence rivers, between the southerly line of the 1st Ward as above described, and a line drawn from Providence river up Power street to Brown, through Brown to Charles Field, through Charles Field to Hope, up Hope to Benevolent, through Benevolent to Governor, through Governor to Pitman, through Pitman to East River street, through East River to Waterman and through Waterman to Central Bridge.

Third Ward—Includes that portion of the city between the Providence and Seekonk rivers, lying south of the 2d Ward, as above described.

Fourth Ward—Includes that portion of the city bounded by the following lines, to wit: Commencing at Weybosset Bridge and running thence up Westminster street to Weybosset, up Weybosset to Broad, up Broad to High, up High to Dean, through Dean to Atwell's avenue, through Atwell's avenue to Acorn street, through Acorn street to the Woonasquatucket river, thence down said river to the point of beginning.

Fifth Ward—Includes that portion of the city bounded by the following lines, to wit: Commencing at Weybosset Bridge, and running thence up Westminster street to Weybosset, up Weybosset to Broad, up Broad to High, up High to Fenner, through Fenner to Broad, up Broad to Beacon, through Beacon, and Plain to the northerly line of the 9th Ward, thence along said line to the river, thence up said river to the point of beginning.

Sixth Ward—Includes that portion of the city bounded by the following lines to wit: Commencing at the intersection of Fenner and High streets, and running thence up High to Cranston, up Cranston to B, through B to Central, down Central to Major, through Major to Broad, up Broad to Linden, through Linden to West Clifford, up West Clifford to Dudley, through Dudley to the northerly line of the 9th Ward, thence along said line to Plain street, through Plain Beacon, Broad and Fenner streets to the point of beginning.

Seventh Ward—Includes that portion of the city bounded by the following lines, to wit: Commencing at the intersection of Dean and High streets, and running thence up High street to Cranston, up Cranston to Codding, through Codding to High, up High to Almy, through Almy to Gesler, up Gesler to Ridge, through Ridge to Atwell's avenue, through Atwell's avenue to the Woonasquatucket river to Acorn street, through Acorn street to Atwell's avenue, down Atwell's avenue to Dean street, through Dean street to the point of beginning.

Eighth Ward—Includes all that portion of the city lying westerly of the following line, to wit: Commencing at the intersection of Dudley street with the northerly line of the 9th Ward, and running thence through Dudley to West Clifford, through West Clifford to Linden, through Linden to Broad, down Broad to Major, through Major to Central, through Central to B, through B and Codding streets to High, up High to Almy, through Almy to Gesler, through Gesler to Ridge, through Ridge street to Atwell's avenue, through Atwell's avenue to the Woonasquatucket river. The southerly line of this Ward is the old boundary line between Providence and Cranston, running westerly from the intersection of Dudley st. with the northerly line of Ward 9.

Ninth Ward—Includes all that portion of the city lying south of the southerly line of the 5th, 6th and 8th Wards. Commencing at the dividing line of the town of Johnston and the 8th Ward, then running southerly to the westerly line of the N. Y. and Providence R. R., thence on the westerly line of said railroad to Cranston street, and across said street to the westerly line of Fenner avenue, thence along the westerly line of said avenue to Reservoir avenue, thence in a straight line easterly to the southwesterly corner of Jonas Manton's farm, so called, on the easterly side of Eddy street (including that portion of Roger Williams Park lying south of said line), thence on the southerly side of said farm to Providence river, and thence in a straight line easterly, passing through the most southerly portion of Starve-Goat Island at low water mark, to the channel of the river.

Tenth Ward—Includes all that portion of the city lying north of the Woonasquatucket river, bounded by the towns of Pawtucket, North Providence and Johnston, and west and north of the westerly and northerly line of the 1st Ward, already described.

—SEASON TICKETS—

—Are sold subject to the following—

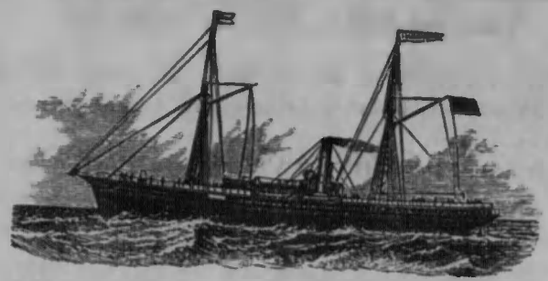

RULES AND CONDITIONS

Which form a part of the Contract of Sale.

SEASON TICKETS are good only for the persons named thereon.
They must be presented to the Conductor for each ride, who will detach one coupon.
All coupons not detached by the Conductor will be void.
They are good only between stations named thereon, and if the holder leaves the train short of those named, he forfeits all claim to be carried over the remaining portion of the route, except on the surrender of an additional coupon.
All coupons not used within the time named on the ticket will be void.
They are not to be used on Express Business, and, if so used, will be forfeited.
THEY ARE NOT GOOD ON SUNDAY TRAINS.
Only ordinary personal baggage will be carried on these tickets, the value of which shall not exceed Fifty Dollars, except by special agreement.
On the expiration of the date of the tickets, they with all attached coupons, must be surrendered to the Conductor.

BRISTOL,
WARREN,
AND
BARRINGTON.

These publications and those issued by Sampson, Murdock & Co., from their Boston, Albany, and Troy offices, and many other City and State Directories issued in this and other countries, can be seen and are for sale at this office.

Lists of Business Men from State and City Directories supplied at reasonable rates.

ARLINGTON WHEAT MEAL.

AN UNEQUALLED FOOD FOR ALL.

REASONS WHY IT IS PREFERABLE TO FLOUR.

FLOUR is the only impoverished food used by mankind—impoverished by the withdrawal of the tegumentary portion of the wheat, leaving the internal or starchy portion. See the facts!

In chemistry we find that in 100 parts of substance—

Wheat has an ash of 17.7 parts;

Flour an ash of 4.1 parts—an impoverishment of over three-quarters.

Wheat has 8.2 parts of Phosphoric acid;

Flour 2.1 parts Phosphoric Acid,—an impoverishment of about three-quarters.

Wheat has 0.6 Lime and 0.6 Soda;

Flour has 0.1 Lime and 0.1 Soda,—an impoverishment of five-sixths Lime and Soda each.

Wheat has Sulphur 1.5. Flour has no Sulphur.

Wheat has Sulphuric Acid 0.5. Flour has no Sulphuric Acid.

Wheat has Silica. Flour has no Silica.

SEND FOR CIRCULAR.

BEWARE OF IMITATIONS.

For Sale by all Grocers.

Endorsed by all Physicians as an unequalled food for Invalids and Families.

Pure Wheat Meal contains more life sustaining properties than any other food.

It is a natural food for every Brain Worker, containing the necessary Elements to strengthen the Brain.

People who live mostly upon flour will, if they use the Arlington Wheat Meal, find their expenses in this department diminished three-fourths. The Wheat Meal will go further and give four times as much nutriment as an equal amount of flour.

Laboring men can do their work with less exhaustion, because it contains more Sustaining Forces than any other food.

Children who feed on this need never be troubled with Cholera Infantum which destroys so many children.

REGIMEN AND DIET.

Every effort of the mind or movement of a muscle involves the expenditure, or waste, of nervous energy and vitality, in proportion to the magnitude of the effort; these wasted products pass off with effete substances from the body, while recuperation is effected by nutrition. The loss of physical force by using Common Flour is immense, which analysis proves. First, then, make use of

ARLINGTON WHEAT MEAL,

(MADE FROM ALL THE WHEAT)

A perfect food for Children, making them Strong and Vigorous—also imparts strength to the aged.

This article contains ALL THE WHEAT. In the coverings of the wheat are the Phosphates which go to constitute bone and muscle, and materially assist digestion by causing the rapid decomposition of the food. It is in this way the Phosphates in Arlington Wheat Meal act, giving new power and strength to the system.

Many cases of Dyspepsia of long duration have been cured by eating Wheat Meal, and it is a positive cure for constipation.

Dogs fed by Magendie (vide Kirke & Paget's Physiology) on flour, died in forty days; other dogs fed on wheat meal bread flourished and throve. The three-fourths impoverishment of the mineral ingredients proved fatal to the first. Why should mankind suffer from living on impoverished food as they do?

The history of the Roman Empire in the time of Julius Cæsar, shows that wheat, as an article of food, combined with fresh out-door air life, is capable of producing and sustaining the highest type of physical manhood the world ever saw. The empire was built up and maintained by soldiers whose main article of food was wheat.—*See Boston Journal of Chemistry, February, 1875.*

EVERY BARREL GUARANTEED TO GIVE SATISFACTION.

It contains all the NITROGENIZED SUBSTANCES which PRODUCE BLOOD and the LIVING ORGANISM.

[OVER]

THE FAMOUS

ARLINGTON WHEAT MEAL.

AN ARTICLE THAT EVERYBODY SHOULD USE.

ITS WONDERFUL NUTRITIOUS QUALITIES.

No subject is of greater importance to the entire community than the food it consumes, as upon the latter its health and strength in a great measure depenus, and therefore all our readers must be more or less interested in an edible that for its nutritious qualities is worthy of universal adoption. Our modern methods of preparing food are in many cases of such a nature as to extract the most essential properties, and while leaving it perhaps with a more palatable flavor to jaded appetites, nevertheless render it of little value for human consumption. The manufacture of flour is a notable instance of this fact, and it is a notorious fact that in its preparation it is impoverished by the discarding of the tegumentary portion of the wheat and leaving only the interual or starchy portion. Physicians and scientists generally have long recognized this fact, and the public at last have begun to give it their serious consideration. As bread is literally the "staff of life," there is the utmost necessity of employing a substitute for flour in its production.

A fitting substitute, however, has been found and placed upon the market and is widely known in all portions of the country as **Arlington Wheat Meal.** This meal has now been in use for a period sufficient in length to adequately test its merits, and has conclusively proven itself all and more than its makers claimed. It is of more value at the present time as an article of food than any material that we can call to mind, and as a restorative of physical vigor to shattered systems is worth all the medicine that the researches of pharmacy have given to the world. It is full of life and strength sustaining properties, and contains not even an atom of matter that is either hard to digest or that would be waste when introduced into the stomach. It not only does all the work of flour as food, but helps to sustain and build up the body; and if a person who hitherto has confined his diet to flour bread could eat for the same time that made of this wheat meal, he would find a radical difference in his health for the better. It increases the vital forces and strengthens the tissues, containing, as it does, the vital principle of strength contained in wheat and which renders it of such value as food, and that the bolting of flour prevents the latter from possessing.

Arlington Wheat Meal is made from the choicest selected pure white wheat and contains nothing that can possibly have the least injurious effect on the weakest invalid. In this country, where we live so fast and so quickly exhaust our energies, it promises to be a boon to the entire nation, and in the recuperation of vital energies will do much to eradicate the evils of our commercial and social habits.

This wheat meal is manufactured by **Mr. S. A. Fowle,** the proprietor of the **Arlington Mills,** at Arlington, Mass., and is for sale by leading grocers everywhere. People who will give it a trial will find it far cheaper than flour, as it will give as much nutriment and go four times as far as a similar amount of the latter, thus reducing the expense of this department of the family larder no less than seventy-five per cent. It has received the endorsement of the medical fraternity whenever it has come under their notice, and if any of the large numbers of grocers who are among our readers will give it a trial, they will find when once fairly introduced that it is one of the readiest selling articles they ever handled.

Wheat, a natural food, contains all the fifteen elements found in the human body, and chemical analysis shows all natural foods, vegetable and animal, to contain these same fifteen elements, and nearly in the same proportion as the human body. *Deficiency of vitalizing elements is the trouble with Fine Flour.* In bolting, all but three of these needful elements are bolted out; so that one bushel of wheat, ground fine and unbolted, contains as much nourishment for the body as twelve bushels of superfine flour. Where phosphorus, the physical element of all vitality, is wanting in food, the same will be wanting in the system, and the body will come short in vital energy, or the power of endurance. Thus the wasteful expense of living on the basis of superfine flour is enormous and foolish.

Flour is mostly starch (68.7 per cent.) and contains three chemical elements, Carbon, Hydrogen, and Oxygen. The human body contains at least twelve elements besides those of starch. How, then, can flour be nutritious with about three elements, when it should contain fifteen elements in order to properly nourish and sustain the human body?

Flour is less gluten than wheat. Gluten is the albuminoid principle corresponding to the albumen, fibrin and gelatine in the human body.

EXCESS OF STARCH produces FATTY DEGENERATION, which is one cause of *Bright's Disease, Diabetes and Apoplexy.* Flour produces fat, which weakens all the tissues. WHEAT MEAL is a PERFECT FOOD FOR INFANTS and CHILDREN, containing all the material for a strong and vigorous constitution. It is a PERFECT FOOD for the DYSPEPTIC, as it is the best condition for gastric juice to act upon, furnishing the power to digest, feeding the nerve centres, etc. For the BRAIN WORKER it is unsurpassed, containing all the phosphatic properties which the brain demands, and without which it is incapable of endurance.

This article makes the most delicious Gems or Biscuits. Also for Brown Bread, use half Corn Meal, which will excel anything of the kind.

WILLIAM J. DANIELSON,

Newspaper Advertising

—AND—

SUBSCRIPTION AGENT,

No. 62 Westminster St., Providence, R. I.

JUDICIOUS ADVERTISING PROMOTES TRADE.

Mr. Danielson, for the past twenty years connected with the "Providence Journal," has established a general Newspaper Advertising and Subscription Agency, in the Lyceum Building, No. 62 Westminster Street.

Large experience in the newspaper business, and a familiarity with the best mediums for advertising, enable him to offer practical advice and assistance in so placing advertisements that the advertiser may reap the best results from the money expended.

Advertisements and Subscriptions received for all the leading Newspapers and Magazines, at low rates. Special attention given to "locals," or reading notices in the Providence papers.

Libraries, Societies, or individuals requiring any considerable number of Newspapers and Periodicals will find it to their advantage to send for terms.

Estimates for any amount of Advertising and information as to best mediums cheerfully furnished.

PROVIDENCE STEAM ENGINE CO.

—SOLE BUILDERS OF THE—

IMPROVED

"Greene Engine,"

Shafting, Mill Gearing, Sheet-Iron Work, Bolt and Nut Forging Machines, Boilers, Tanks, Gas Holders, Iron Roofs, Steam Riveting Machines,

WILLIAM J. DANIELSON,

Newspaper Advertising

—AND—

SUBSCRIPTION AGENT,

No. 62 Westminster St., Providence, R. I.

JUDICIOUS ADVERTISING PROMOTES TRADE.

Mr. Danielson, for the past twenty years connected with the "Providence Journal," has established a general Newspaper Advertising and Subscription Agency, in the Lyceum Building, No. 62 Westminster Street.

Large experience in the newspaper business, and a familiarity with the best mediums for advertising, enable him to offer practical advice and assistance in so placing advertisements that the advertiser may reap the best results from the money expended.

Advertisements and Subscriptions received for all the leading Newspapers and Magazines, at low rates. Special attention given to "locals," or reading notices in the Providence papers.

Libraries, Societies, or individuals requiring any considerable number of Newspapers and Periodicals will find it to their advantage to send for terms.

Estimates for any amount of Advertising and information as to best mediums cheerfully furnished.

PROVIDENCE STEAM ENGINE CO.

—SOLE BUILDERS OF THE—

IMPROVED

"Greene Engine,"

Shafting, Mill Gearing, Sheet-Iron Work, Bolt and Nut Forging Machines, Boilers, Tanks, Gas Holders, Iron Roofs, Steam Riveting Machines,

STEAM HEATING

—OF—

PUBLIC BUILDINGS & MANUFACTORIES

MADE A SPECIALTY.

Where Manufactories are heated by EXHAUST STEAM, a great saving in Fuel is effected where the Exhaust Steam is used without the excessive back pressure usually produced on the Engine. By our system we guarantee to UTILIZE THE EXHAUST STEAM with the highest degree of Economy, in a simple and inexpensive manner. *Abundant References Given.*

GRINNELL SENSITIVE AUTOMATIC SPRINKLER.

The AUTOMATIC SPRINKLER has been practically proved to be the most efficient Fire Apparatus ever invented. The water is liberated by the effects of HEAT. It concentrates all available water on the fire, thus securing GREATER EFFICIENCY AND LESS DAMAGE BY WATER than any other apparatus. It has been subjected to One Hundred and One accidental fires, and worked with entire success, and is endorsed by all the Factory Mutual Insurance Companies of New England.

—BUILDERS OF—

OIL AND ROSIN GAS WORKS, AND GAS HOLDERS,

PROVIDENCE STEAM TRAP COMPANY,

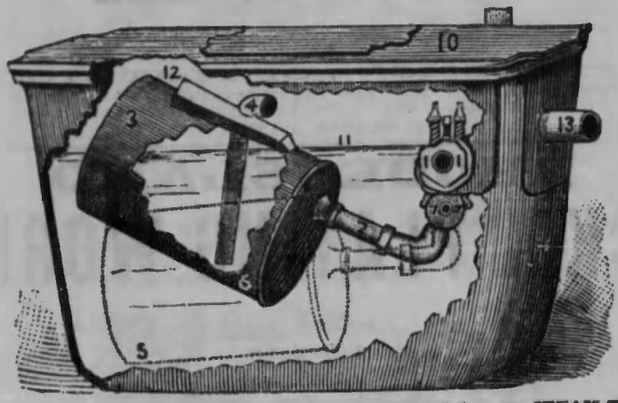

—MANUFACTURERS OF—

NEWTON'S PATENT

Steam Trap,

Newton's Patent Oscillating Fire Bars,

Newton's Patent Compensating Valve.

THE attention of Manufacturers and Steam Users in general is called to our STEAM TRAP which we claim to be superior to any other now in use, and to have a simplicity of construction which alone gives it an advantage over all others. It cannot get out of order as it always works to a face and will stand a pressure of from 1 to 140 pounds and is adapted to conditions where much dry Steam is needed. We shall be glad to send one of these Traps to any one who may wish to try it, and it can be retained for thirty days and if not satisfactory, returned at our expense. We have sold our Traps to some of the largest mills in New England where they are working and giving perfect satisfaction.

REFERENCES: Boott Cotton Mill, Lowell; Lawrence Manufacturing Co., Lowell; Washington Mills, Lawrence; Manchester Print Works, Manchester, N. H.; S. H. Greene & Sons, River Point, R. I.; Providence Worsted Mills, Providence; B. B. & R. Knight, Providence; Allen Print Works, Providence.

THE PATENT FIRE BARS,

Which are very much appreciated where they are used, will consume from 1 to 26 pounds of fuel per square foot per hour, and will not warp as they are free from expansion and contraction, both transversal and longitudinal.

The following Companies, etc., to whom we refer have them in successful operation:—Providence Worsted Mills, Providence, R. I.; Lewiston Bleaching and Dyeing Co., Lewiston, Me.; Shove Mills, Fall River, Mass.; Elizabeth Mills, Hill's Grove, R. I.; Augustus Chace, Fall River, Mass.; Durfee Mills, Fall River, Mass.; S. H. Greene & Sons, River Point, R. I.

We thank our patrons for past favors, and hope to be able to serve them as well, if not better in the future.

R. NEWTON, C. E., M. E., SUPT. and TREASURER.

The CHATTERTON'S

File Works.

Established 1839.

Established in Sheffield, Eng., 1769.

Trade Mark: PHILO, 1769.

Manufacturers of the Celebrated Patent Adamantine Files.

ORDERS FILLED AT ONCE FROM A LARGE AND VARIED STOCK.

George Chatterton, Proprietor.

Office and Manufactory, No. 25 Randall Street, Providence, R. I.

These Files have been in use in New England near one-half of a century, and in competition with the best imported Files during that period.

THEY ARE MADE AND CUT ENTIRELY BY HAND,

And in tempering, are heated by the only reliable uniform process, the metallic bath, and cooled by means which at once secure a temper uniform, combined with hardness and toughness not found in other Files.

All kinds made to order of any pattern. Re cutting also done and warranted equal to new for use.

Price for both New and Re-Cut Files as Low as any Responsible Manufacturer.

All kinds of Jewelers' Dies, Rolls, etc., hardended by patented process. All kinds of

THE PROVIDENCE

Steam Carpet Beating Establishment,

No. 117 SUMMER STREET,

ECONOMY! NEATNESS!! DESPATCH!!!

Old Carpets Made to Look Nearly as GOOD as NEW by the Use of the

PATENT CARPET BEATING MACHINE.

Grease Removed by a New Process. **Special Rates for Renovating.**

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, *yet thoroughly expel all the Dust and Moths.* The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

Orders sent by Mail or otherwise to the Factory will receive prompt attention. Open every working day of the year. ☞ALL WORK GUARANTEED.

Carpets called for, Cleaned and Returned without regard to weather. Cartage free. Carpets Taken Up and Re-laid when desired. Send for Circulars. Connected by Telephone.

THOMAS A. EASTON, Proprietor, 117 Summer Street, Providence, R. I.

NARRAGANSETT GRANULATED SOAP,

Is a Perfect Compound for

—THE—
Mutual Life Insurance Co.,
OF NEW YORK.

The new policy of this Company, issued Sept. 1, 1885, and now in force, is a marvel of brevity and simplicity. It does away with all restrictions on Residence, Occupation and Travel.

After being in force for three years, it is non-forfeitable. It is practically incontestable, and provides a certain legacy, instead of a possible law-suit. In fact it amounts to this: If the insured pays his Premium while he lives, the Company will pay the Policy when he dies.

SAVE WATER RATES!

—AND PROCURE BETTER WATER BY—

Artesian and Driven Wells.

Thousands of these wells are in use for suppling cities, towns and manufactories to save water rates. Gas works, breweries, tanneries, creameries and dairies, where cooler water is needed. When made properly they last a great many years. Any size pipe driven, from 1¼ inch to 8 inches in diameter. The larger size sunk by steam power through earth or rock.

Patented Sept. 11, 1877. No. 195,051.
Patented July 27, 1880. No. 230,579.

SAND AND VACUUM CHAMBER.

It is a singular, but **positive** fact, that when this Chamber is used, no sand will arise from the bottom of the well, unless the sand is fine—like quicksand; in that case a large Sand Chamber will stop it. Should the Chamber not be large enough, and any sand should rise, the plug in the bottom can be removed, and the sand in the Chamber taken out. These Chambers are warranted not to collapse or leak; will stop sand, or money refunded.

Advantages of this System.

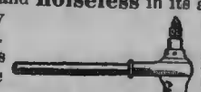

1. It puts the consumer in direct communication with a pure fountain of water within the earth, and enables him to select such a quality as is most desirable.
2. It can penetrate the earth beneath salt water bays or rivers, till it reaches and supplies fresh water, as successfully as if there were no salt water on the surface.
3. All surface drainage is excluded, and it protects the water from all foreign substances and impurities. It may be put down in the immediate vicinity of stables, cattle yards, cess pools, etc., and be beyond the possibility of contamination from them.
4. It can be put down in house, store, shop, mill or barn, in cellar or vault, wherever wanted, without injuring or disturbing the buildings.
5. It is practically inexhaustible and cannot, like a dug well be pumped dry, but will supply the same amount of water continuously, as has been thoroughly demonstrated.
6. For supplying towns and villages, for fire purposes, being inexhaustible, it supplies an urgent want heretofore unattainable, except at a large expense. Large numbers are in use for this purpose.
7. The driven well is invaluable, as a promoter of health, by furnishing water at all times sweet, cool and pure—beyond the reach of surface drainage, or contamination by accident, or from insects, reptiles, vermin or fungi, to which dug wells are always liable, and to which cause a large proportion of fevers and other diseases owe their origin, especially in low grounds and in crowded towns and villages, where open or dug wells are depended upon.

☞Parties are saving by the use of these wells from $50.00 to $10,000 per year for manufacturing purposes.

—Send for Circulars of References.—

All Orders promptly attended to. B. F. SMITH, 266 Washington St., Boston, Mass.

Also, manufacturer and proprietor of the **ANTI-RATCHET FRICTION DRILL. No lost motion** and **noiseless** in its action. The merits of this drill are such, as to make it particularly advantageous to Machinists, and especially so to Boiler Makers. In all Ratchet Drills, great annoyance and inconvenience arises in contracted places, where but little movement can be given to the handle, and none whatever to the Drill.

With this Drill ALL Motion given to the handle is imparted in revolving the Drill.
