Dear Sir:

Parkside Drive is in an area between Roger Williams Park and Park Avenue. It contains 20 houses within the City of Providence but the only sewer outlet is into the sewers of the City of Cranston, which will require building a sewer 470 ft. long, to be built across the recreation field of the Park View High School in Cranston. We have applied to the Cranston Public Works Department for permission to make this connection.

It is now recommended that the Providence City Council authorize the construction of this sewer.

Very truly yours,
