SUBJECT: Referral No. 1207 - ZONING CHANGE AT 324 ANGELL STREET

Gentlemen:

The subject referral received consideration by the City Plan Commission at a meeting held on Tuesday, July 25, 1961.

This referral is a request for the study, report and recommendation concerning the proposed change of zoning from an R-1 One-Family Zone to an R-4 Multiple-Dwelling Zone of Lot 12 on Assessor's Plat 11 located at the northeasterly corner of Angell Street and Stimson Avenue and designated as number 324 Angell Street. The area in question contains 8,957 square feet.

It was determined on an inspection and photographic survey that the area in question contained a 2½-story frame house and a one-stall frame garage.

The granting of this petition would establish a foothold, deteriorating in nature, in this R-1 Zone. Experience has shown that such spot zoning as proposed in this petition provides precedent for further residential overcrowding and decay. Therefore,

The Commission

VOTED: To recommend that this petition be denied. The Commission would, however, be happy to review a new application for a change to an R-3 Zone.

Gentlemen:

In my letter of May 15 I recommended that Gladstone Street be made a one-way street in a westerly direction from Baxter to Broad, and that Norwich Avenue be made a one-way street in an easterly direction from Broad to Baxter. This reversed the directions as originally suggested.

As indicated in this earlier letter, this decision was reached on the basis of existing parking regulations which were already in effect, on the basis of the current directional usage of the two streets, and on the basis of the ease of turning movements and sight distances of the intersections involved. It is my considered opinion that on the basis of these several factors, if these streets are to be made one way, the directions I originally recommended are the correct ones. However, it is my understanding that there is some local opposition to the establishment of these one-way streets in the directions cited above, and a local preference for the reversed directions. The volume of traffic using these two streets is very small, and the streets are both one block long. Therefore, they do not influence the traffic circulation of the area to any significant degree.

In view of this very small volume of traffic that uses these two streets and the almost exclusive local nature of the traffic involved, I am willing to change my original recommendations. I recommend that Gladstone Avenue be made a one-way street in an easterly direction from Broad to Baxter, and that Norwich Street be made a one-way street in a westerly direction from Baxter to Broad.

Very truly yours,

Roger Chandler

Dear Mr. McInnis:

This is in response to your recent inquiry concerning the status of the zoning of lots 61 and 62 on City Assessor's Plat 88, being also 1053 to 1063 Elmwood Avenue.

The petition of your client, Margaret C. Aitken, was granted Leave to Withdraw by the City Council at its meeting of August 7, 1952; therefore the status of the said lots are that of R-2 two-family zone.

Enclosed are original and copies of letters left with me dated February 25, May 12, 20, 23 and 27, 1952.

SUBJECT: Referral No. 1190 - ZONING CHANGE AT 1053-1063 ELMWOOD AVENUE

Gentlemen:

The subject referral received consideration by the City Plan Commission at a meeting held on Tuesday, January 10, 1961.

This referral is a request to rezone Lots 61 and 62 as set out and delineated on City Assessor's Plat 88 from an R-2 Two-family Zone to a C-4 Heavy Commercial Zone; said lots being situated at 1053-1063 Elmwood Avenue.

On an inspection and photographic survey it was determined that the property in question was surfaced and contained a vacant frame office structure which was formerly a used auto sales office. Further survey of the immediate area indicated the presence of a new single-family dwelling which demonstrates a desire for people to locate in the area.

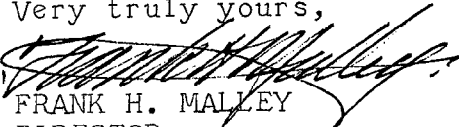

Reference is made to a previous Commission recommendation dated June 25, 1952 at which time the Commission Voted: That this area be kept in an R-2 Zone to prevent spot zoning and protect the character of the neighborhood. The petitioner withdrew the request before Council action was taken.

A piecemeal or spot zoning change at this location would have a deteriorating influence on the residential properties in the vicinity. Changing land use patterns unduly affect the character and environment of a neighborhood. The granting of this petition would affect the stability of this predominantly residential area which should be protected and preserved from causes of obsolescence. Therefore,

The Commission

VOTED: To recommend that this petition to rezone this property be denied.

FRANK H. MALLEY
