DISCLAIMER: *The information provided herein was obtained from third party managers and/or custodians independent of and not affiliated with Wainwright Investment Counsel, LLC ("Wainwright") or its affiliates and has not been independently audited or verified by Wainwright as a result. The information was gathered from sources deemed to be reliable; however, no assurance is made as to the accuracy of the data.*

This summary and information provided herein does not constitute an offer to sell or a solicitation of an offer to buy any securities and may not be used or relied upon in connection with any offer or sale of securities. This summary is qualified in its entirety by, among other things, the disclosures incorporated in any investment management agreement and the disclaimers included therein.

Providence Employees' Retirement System
Fossil Fuel Holdings as of February 28, 2015

We have reviewed the holdings of the separate account managers and compared them to the list of the two hundred publicly-traded companies with the largest coal, oil and gas reserves as listed in the Carbon Tracker Initiative's "Unburnable Carbon" report and referenced in the Resolution of the City Council approved on March 2, 2015. Our findings, which are shown below, do not include the holdings in the commingled accounts. Had commingled accounts been included, the market value of the fossil fuel holdings may be higher than what is shown below. The data below should be considered estimated, unaudited and subject to change without notice.
