THE ARLINGTON,

Chilson's Entirely New and Greatly Improved Portable RANGE, 1876-7.

I desire to call special attention of every housekeeper in want, or who ever expect to want a STRICTLY FIRST-CLASS RANGE, to the great improvements over my old pattern Range, in broiling, heating water, anti-stinker grate, nickel-plated trimmings, towel dryer, four extra shelves, and extra heavy, fine, smooth castings, of rich and beautiful design, no place for dirt, rust, or grease to lodge to keep women scrubbing, but always a clean surface. This beautiful range has no equal in this country. This will be proved on examination and trial.

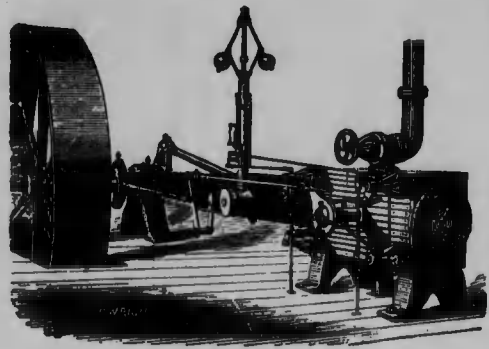

I also desire to call the attention of gentlemen, in want of the most substantial and beautiful range for brick setting ever put up in any kitchen, to my ARLINGTON BRICK RANGE, which is acknowledged by all to be the most splendid piece of work, for a range, ever got up. Also the Chilson Brick Not Range that has acquired such a high reputation in the use of over ten thousand ranges in giving the most perfect satisfaction. This range comes at less price than the Arlington, and is within the reach of all. A full line of Furnaces, Ranges, Stoves, etc., at the lowest market prices. Special attention given to putting up furnaces and ranges in any part of the country. Nothing but what is strictly first-class work is manufactured by me.

MASON'S
Improved Cemented Wells.

(PATENTED MARCH 14TH, 1871.)

TELEGRAPHIC FIRE ALARM.

New Code of Fire Alarm Signals. Gamewell & Co.'s Automatic System.

Directions to be observed when a fire is discovered:
 1. Go to the nearest box and open the door, pull the hook down as far as you can (firmly, without jerking), and then let it slide back, close the door and remove the key.
 2. On giving an alarm, if the small bell inside is heard ringing, it is an indication that an alarm is being sent over the wires; in all such cases, count the signals being sounded, and be certain whether it is for the same fire or not: if not for the same fire, wait until the signals have entirely ceased, before pulling the box.
 Key holders are cautioned not to give an alarm until certain of a fire; not to give an alarm for a fire seen at a distance: and to be sure, after giving an alarm, that the door is securely closed before leaving the box.

The Publishers of The **PROVIDENCE JOURNAL** continue to bestow labor and expense in unstinted measure to meet the demands of the people of the City and State for a complete newspaper. Having secured a location central and convenient, they are constantly adding features of interest to their counting-room equipments, and increased facilities for newspaper-making in their other departments. Their press force is large enough to secure the prompt publication of the news by day or night. The terms of subscription have not been advanced since the establishment of the **JOURNAL** in 1820, but have rather been reduced, as postage is now prepaid on newspapers sent by mail for which the subscription price has been remitted. The terms of subscription are as follows:—

BUSINESS WRITING,

We claim that every one may learn to write a good, easy, rapid business hand

And offer for \$50 to guarantee this result to anyone, old or young.

This is not DECEPTION nor BOASTFULNESS, but a MATTER OF FACT, experienced by hundreds of seemingly hopeless cases—young men and old men—who had practiced other systems, at other Commercial Colleges and Schools, until they had come to the conviction that they were among the number who could not learn to write. They had tried many times, spent much money, and were convinced, "T'WAS NO USE."

To such we say COME, and we will show you the names and hand-writing of scores, who like you, have become discouraged under the old system, and have declared "OF WHAT USE IS IT LONGER TO TRY!"

 Old Carpets made to look Nearly as Good as New by the use of the
PATENT CARPET BEATING MACHINE.

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

SCHOLFIELD'S Commercial College,

No. 137 Westminster Street,
PROVIDENCE, R. I.

This institution was founded by its present proprietor, A. D. 1846, and has been in successful operation thirty-one years.

The object and aim of this institution is to impart to both sexes a **BUSINESS EDUCATION**, embracing WRITING, BOOKKEEPING, and the LAWS OF BUSINESS, and the COMMON and HIGHER ENGLISH BRANCHES, MECHANICAL and PERSPECTIVE DRAWING.

DAILY LECTURES will be given before the Students by the Principal, on COMMERCIAL LAW, POLITICAL ECONOMY, PARTNERSHIP, AGENCY, BILLS OF EXCHANGE, MERCANTILE CORRESPONDENCE, ETC., ETC. This institution approximates nearer to actual business in its plan of teaching the Science of Bookkeeping than that of any other institution in America. No Text Books are used, and each Student is favored with Separate and Special Instruction. For further particulars, call or send for our Illustrated Circular and Catalogue. Address,

A. G. SCHOLFIELD.

As indisputable evidence of the merits of this Institution as a Business College, I submit the following Testimonial from a few of its Graduates:—

TESTIMONIAL.

The undersigned, at various times pupils of A. G. Scholfield, Teacher of Book-keeping, cheerfully bear testimony to the following facts:

- 1st. His method is *scientific*, indicating a thorough acquaintance with the fundamental principles on which the various systems of Book-keeping are based.
- 2d. His system is eminently *practical*, well adapted to give his scholars a thorough insight into the various transactions of business life; and all his illustrations and solutions are made in such a plain and impressive manner as to leave every essential point perfectly intelligible to the pupil and fasten it indelibly upon his memory.
- 3d. His mode of teaching is *original*. Following no "illustrious predecessor," he adopts his *own* rules and examples, which, though simple and easily understood, are nevertheless *thorough* and *comprehensive*. With a knowledge of the best methods by other authors, he brings to the work, what we esteem of far greater value, *his own mature experience* as a practical accountant.

In conclusion, we would only add our *entire confidence* in Mr. S. as a *man* and a *teacher*. His long experience, close application, faithfulness and unwearied devotion to his favorite pursuit, entitle him, as we believe, to the entire confidence and liberal encouragement of this enlightened community.

SHEDD & SAWYER,

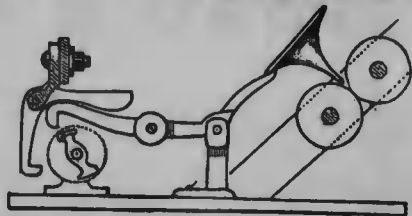

Civil, Mechanical, and Mill ENGINEERS,

65 WESTMINSTER ST., PROVIDENCE, R. I.,

Attend to all branches of **ENGINEERING** and **SURVEYING**, especially to Water-Supply, Drainage, and other Sanitary and Hydraulic Engineering, and the development of Real Property.

The Arrangement, Construction, and Extension of Mills and Machinery, including the Application of Steam and Water Power, is a Specialty.

TO COTTON MANUFACTURERS.

STOP MOTIONS FOR DRAWING FRAMES.

This **STOP MOTION** has been in constant use for the last five years with the best results, giving good satisfaction. This **MOTION** prevents single drawing from passing into the Cans, also prevents Rollers Lapping. When a breakage occurs between the Calender and Draft Rolls, or a bunch chokes the Trumpet, or when the Frame begins to make waste from any cause whatever, the **MOTION** shifts the belt from the fast to the loose pulley instantaneously. 12,000 in operation.

STOP MOTIONS FOR RAIL WAY HEADS.

This **MOTION** is a counterpart, or modification of the Stop Motion used upon the Drawing Frame, equally simple and efficient, being built strictly upon mechanical principles, and springs of all kinds have been avoided.

The **Belt Shipper** is a novelty, and is operated by gravity and the belt combined. No weights, no springs. It strikes a **Gong Bell** when it stops the Head, calling the attention of the attendant to the stoppage of the machine. It has been in constant use for the last two years; 634 have been sold up to March 1st, 1877. We are **Making them Rapidly**. This inducement to **MANUFACTURERS** I have to offer, viz.,

MORE YARDS and better CLOTH at LESS COST from a BALE OF COTTON.

The saving by the use of these Stop Motions will cover their **ENTIRE COST** in one year's run of a Cotton Mill, and in many mills they will save twice or thrice their cost in a single year. I feel warranted in this assertion by the voluminous testimonials received from all around, copies of which are for distribution. These Stop Motions are easily and quickly applied to all frames now in operation, and will last as long as the frame lasts.

Again, I have another great improvement in the weighting of calender rolls on **Rail Way Heads, and Drawing Frames, &c.** A very simple device, which I call a **Compensating Weight Clip**, which takes the place of the ordinary levers, weights, springs, &c. By **this device** the weight is applied in a direct line to the centre, and at right angle to the strand passing through the rolls, and it matters not at what pitch or angle the calender rolls are set. Therefore no power is lost by pressing the bearings of the rolls, upon or against their stands. In the ordinary way of weighting calender rolls, the weight applied to the top roll has to be sustained by the bearings of the bottom roll, hence the heavy driving and wearing out of bearings and stands. The **Clip** entirely does away with this evil, inasmuch as there is more friction or pressure on the bearings of the bottom roll, whether there is little or much pressure on the sliver of cotton passing through the rolls.

I am supplying an improved **CUT ROLL** for Power Looms which winds the cloth snug and square upon the same. A cure for oily and dirty selvages, simple and good. Also a very simple and ingenious device for **CLOSING WINDOWS** when it rains.

DR. F. BARDEEN,
Eclectic Physician and Oculist,

OFFICE, No. 2 GIRARD BUILDING,
PITTSBURG, PA.

Has returned to his old home in Providence, R. I. No. 120 Smith Street, and has opened an Infirmary of fifty rooms, where he can accommodate, at short notice, any persons wishing treatment and board on reasonable terms, for a short time, until they are able to return to their homes.

Mrs. A. BARDEEN has rooms to herself at the same place, and attends to all Female Complaints, or any other diseases.

The following are a few of the many cures performed in this and other places:

INFLAMED EYES.

My daughter had Inflammation of the Eyes; a whole year, totally blind, when I brought her to DR. F. BARDEEN, 47 Westminster Street. She was out to play in ten days, in the hot sun, and in four weeks was perfectly cured.

J. H. WARREN, South Providence.

Sworn to before THOMAS A. DOYLE, Mayor of the City of Providence.

CANKER AND INFLAMMATION of the STOMACH AND LUNGS CURED.

I had Inflammation of the Lungs and Stomach, coughed night and day, raised great quantities of phlegm; large, deep Canker Ulcers, throat and mouth nearly eaten through. Four Physicians of this city gave me up as a hopeless case. In twelve days, DR. F. BARDEEN cured my Canker and Cough; gained seventeen pounds of flesh, and have worked every day since.

Gratefully yours,
PATRICK DOYLE, No. 104 North Main Street.

July 17, 1866.

SCROFULA AND NEURALGIA CURED.

My daughter has been afflicted with Scrofula and Neuralgia; her Palate was eaten off, deep Ulcers in the Throat, and the power of speech entirely gone; cured and her speech restored in six weeks, by Dr. F. BARDEEN.

Providence, Sept. 8, 1866.

LOUIS DELCORE, 120 Eddy Street.

More than thirty years since, I began to have spells of something rising and choking me; again, I had very severe fits; for twenty-five years these choking spells would leave my throat scratched and bleeding; at other times, and often, I would bleed a quart at a time, from the mouth. My appetite all the time was voracious; I craved fat pork, and none but the strongest kinds of food, although naturally very delicate; my greatest weight was 97 pounds. At one time I passed a worm or parasite as large and hard as a man's thumb, and it had horns as long as its body. In a few days Mrs. BARDEEN'S treatment brought away a great number of objects resembling the former, but smaller, all embodied in a tough, opaque, jelly-like substance; I have had no choking, bleeding spells or fits since; my health has become good.

MARIA C. EDDY, Pontiac, R. I.

Sworn to before OSCAR LAPHAM, Notary Public.

DEAFNESS CURED.

One of my Ears was totally deaf, four years. DR. F. BARDEEN'S medicines perfectly restored my hearing in six weeks.

LINUS COBB, Pawtucket, R. I.
