PREFACE.

THE aim of the publishers of this Directory is to give information in keeping with its declared purpose; to give such information with clearness, avoiding confusion, and to make it full in detail and complete in substance. These results are not accomplished without many hindrances, some of which are apparent to all, while of others the public have no appreciation. In a city of the size of Providence, and one in which there are so many and varied manufacturing interests, there must be very many changes continually occurring among its inhabitants, which, with the vicissitudes of business, give occasion for many alterations in the record of the previous year. These facts it is the province of the Directory to give, and it is reasonable to assume that the 26,999 changes which have been made this year in its preparation, evidence faithful work in this direction.

In the body of this book there are 41,376 names, which is an increase of 2,149 over last year. The proportion of names in the Directory of 1880 to the population was nearly 37½ per cent. Applying this ratio to this year's figures we find Providence to have a population of 110,631, an increase of 5,779 since the last census. This is certainly a very great advance to make in one year, yet the estimate is a legitimate one.

Few Directories are as comprehensive as this. While it is primarily a Directory of the city of Providence, it is no less a complete BUSINESS DIRECTORY OF THE STATE OF RHODE ISLAND. No State is more thoroughly canvassed for a record of its business interests than is this, and as much care is taken in the compilation of the State department as is given to any other section of the book. There are many good reasons for this combination. The peculiarly intimate relations existing between Providence and the rest of the State in its manufactures, and the fact that such a large proportion of its business interests are centered here, make it desirable to incorporate in one volume a *Business Directory* of the entire State, and a *General Directory* of its principal city. And in this the people of Providence and Rhode Island have an advantage which is probably realized in no other State, as this *one* book contains what is ordinarily found in *two*, thus avoiding expense and trouble to the reader. Advertisers also reap a benefit in the fact that their cards have thus a circulation throughout the State.

In arranging the matter in this book in two columns, and printing in plain but medium sized type, the publishers have in mind the general aversion to handling bulky volumes, an objection especially pertinent in the case of a Directory.

The revision of this work has been thorough and complete, and it is hoped it will meet the approval of those who have favored us with their patronage.

WATER FILTER

Patented June 29, 1880. Jan. 4, 1881.

AN ABSOLUTE NECESSITY.

No family should be without one of these Filters.

Users of Steam Boilers and Manufacturers desiring clear water will find it invaluable. A majority of physicians decide that the germs of disease are found in our water supplies. The Domestic Filter is readily cleaned without removing from the faucet or connections. Allows a full and free flow of water, without filtration, when desired.

After a practical test of eight months, this Filter is acknowledged to be the BEST ever made, and is rapidly taking the place of all others. Don't waste your money on a Filter which will become inoperative, and have to be removed in two or three months.

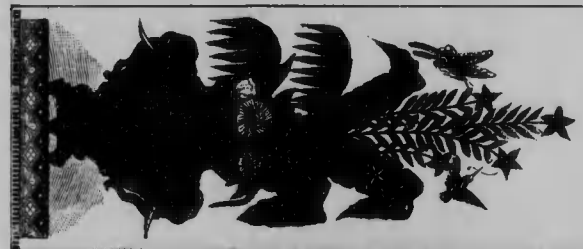

Nearly 10,000 domestic Filters have already been sold, besides a good number of large sizes for use on Boilers, in Paper Mills and Sugar Refineries, giving universal satisfaction. We guarantee satisfaction in every case. Manufactured in three sizes for domestic use, and in five sizes for Main Water Pipes, Steam Boilers, and Manufacturing purposes. Capable of furnishing from 1000 to 20,000 gallons of filtered water per hour. FOR SALE AT RETAIL STORE.

**THE FASTEST PRINTING PRESS IN THE WORLD BUILT EXPRESSLY FOR EVENING BULLETIN
PRINTING THE**

The circulation of the EVENING BULLETIN having increased so rapidly as to require faster machinery, the Publishers, at a large expense, have added to their office the Hoe Web Perfecting Press, the latest perfection in speed and simplicity, and capable of throwing off printed sheets at the rate of five hundred per minute, or thirty thousand an hour, and this machine they have devoted to the service of the Bulletin. The daily circulation of the EVENING BULLETIN now ranges from 18,000 to 20,000 copies. The Bulletin reaches every considerable town and village in the State, and along the borders of Massachusetts, on the evening of its issue, and is a most effective medium of communication with the people. It is a complete newspaper in all respects; contains the morning as well as evening dispatches from every quarter of the world, and is furnished at the low price of Six Dollars per annum.

KNOWLES, ANTHONY & DANIELSON, Office, No. 2 Weybosset Street.

FOUR CYLINDER TYPE REVOLVING PRESS, on which the PROVIDENCE JOURNAL IS PRINTED.

The Publishers of the PROVIDENCE JOURNAL continue to bestow labor and expense in unstinted measure to meet the demands of the people of the City and State for a complete newspaper. Having secured a location central and convenient, they are constantly adding features of interest to their counting-room equipments, and increased facilities for newspaper making in their other departments. Their presses are capable of making twenty thousand impressions in an hour, and their working force is large enough to secure the prompt publication of the news by day or night. The terms of subscription have not been advanced since the establishment of the JOURNAL in 1820, but have rather been reduced, as postage is now prepaid on newspapers sent by mail for which the subscription price has been remitted. The terms of subscription are as follows:—

THE PROVIDENCE JOURNAL,
DAILY, \$8.00 per annum.
SEMI-WEEKLY (Monday and Thursday), \$3.50 in advance.
WEEKLY (Friday), \$2.00 in advance.

The JOURNAL is recognized as one of the best advertising mediums in the Country, and its prices are uncommonly reasonable for the service rendered.

Old Carpets made to look Nearly as GOOD as NEW by the use of the

GREASE REMOVED BY A NEW PROCESS. SPECIAL RATES FOR RENOVATING.

The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

The Bon Ton Game,

Patented November 13, 1877, by J. BROWN, Providence, R. I. 291 Broad Street.
This is a new and fascinating Game, for the parlor or any place where games are desired. It is made in a variety of sizes, from 10x30 to 36x120, full size. 12x48 34 games can be played. Full size, 85 games are played. The game is instructive as well as amusing. The largest sizes have rubber cushions, and the bed of table covered with billiard cloth. The pins are polygonal, each side numbered. Played with balls and cue (a nice game of billiards can be played). Hundreds of billiard players have pronounced it superior to pool or billiards. Send for rules of the game. Prices from \$1 to \$100. State, county and city rights for sale. The medal of excellence awarded at the American Institute Fair, New York, 1878. N. A. WOODARD & CO.,

MANUFACTURERS OF

The MACEE PATENT LOOM FRICTION.

We have the pleasure of calling your attention to one of the most VALUABLE inventions yet known in connection with a Loom. It is the *Magee Patent Friction*. It does away with the Straps, Levers and Weights now in use. Any desired friction can be applied with ease. When adjusted, it is not changed until desired by the Overseer. We claim more regularity in goods on this account. There is no friction on the beam when turning back. It can be done with perfect ease, and avoids the present system of lifting on and off the weights, and the calling of assistance, which takes time and lessens production. It is neatly applied, and very much improves the appearance of the weaving room.

All kinds of Machinery Made and Repaired. Stone Tools of all kinds on Hand or Made to Order. Repairing done on Reasonable Terms, and Satisfaction Guaranteed.

SCIENTIFIC SHOEING,

For the Benefit of the

L A M EAnd the Prevention of Sound Ones Coming
L A M E.

Conducted by a foot Veterinarian who offers his special professional services to the owners of Horses; especially "Lame Horses" (in Providence and neighboring towns,) which are chiefly caused by Defective Methods of Shoeing, arising from a misconception of the true functions of the component parts of the Horse's foot. Have made the horse a LIFE-LONG STUDY, and the Last Six Years the Anatomy of the Foot, and the Science of Shoeing a SPECIAL STUDY, will show that five-sixths at least of the "Sore-Footed" and "Lame Horses" to be seen on our streets, are not lame from any actual necessity of their being so; that there really are principles underlying the "Shoeing" of horses, which, if the foot is sound, will keep it so, and if abnormal or diseased, will restore it, in the majority of cases, to a condition of soundness. It is also important that it should be generally known that the methods of treatment for "Lame Horses," based upon those principles, are essentially humane in their character, and ameliorating and curative in their results.

A NEW PUBLICATION, ENTITLED

"AN ESSAY ON DEBIT AND CREDIT,"

— COMBINING —

An elementary and practical treatise on Bookkeeping, including nine distinct sets of business transactions, has been published by A. G. SCHOLFIELD, the Principal and Founder of Scholfield's Commercial College, in Providence, R. I.

This exhaustive essay combines an elementary and practical treatise on Bookkeeping, in which is developed and elucidated a simple and practical system of

DOUBLE ENTRY BOOKKEEPING,

Never before published. This treatise contains also the most simple, brief and practical method of recording the financial transactions of an Administrator, also of a Guardian, of an Assignee, and of a Treasurer of an Association.

This work, it is confidently expected, will be found to be indispensable to teachers of the Science of Accounts, to Professional men, and to practical Accountants.

A new and exceedingly valuable feature is incorporated into this book, viz: THIRTY-TWO BUSINESS LETTERS OF CORRESPONDENCE, growing out of the subject-matter narrated in this work.

☞ Circulars descriptive of this work sent to any address.

Counting-House Edition by Mail, \$2.00.
