**Are You
Leaving A Record For The Future?**

It may prove a serious matter in years to come if by any chance you should be incorrectly listed in or left out of the City Directory. Cases have occurred where the evidence of the City Directory, as to residence or occupation, has had an important bearing on the disposal of a fortune. Business men, especially, should see to it that their firm's record is absolutely correct and all changes should at once be reported.

"Better Be Safe Than Sorry"

A small amount invested will list you under several lines of your business.

"A Friendly Banking Service"

1851—Chartered as a State Bank in May. First business quarters of the "Bank of Commerce" were in the "What Cheer Block" at 20 Market Square.

1854—Increased business resulted in the lease of land on the north side of Market Square, known as the "Coffee House Estate," where the Bank's second home was erected at No. 4.

1865—On August 1st, this Bank began transacting business under the National Bank Act of 1864, and became "The National Bank of Commerce of Providence."

1913—Continued growth necessitated the leasing of more commodious quarters. Banking rooms were opened on the street floor of the Turks Head Building.

1923—In January, larger and more prosperous than ever, the Bank moved into its own building, at the corner of Westminister and Orange Streets, just above the Arcade.

Here, at 146 Westminister Street, The National Bank of Commerce & Trust Company, offers every modern facility, and prompt, accurate handling of any financial requirements of customers who desire . . .

YOU LIKE to Patronize those Concerns Who are in Business to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

**IF YOU ARE NOT ADVERTISING YOUR
BUSINESS IN THE DIRECTORY, MAY WE
EXPLAIN HOW AND WHY IT WILL PAY
YOU.**

To the commercial, professional and industrial interests.

The Classified Section---

A guide to the many business interests, arranged under typical headings.

The Householders' Guide---

A guide to the streets and avenues and the residents and tenants thereon.

The Guide Post to the City

*Is Never Further Removed From You
Than the Nearest City Directory*

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising suggests wants and creates desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.

PROVIDENCE HOUSE DIRECTORY

REFERENCE DEPARTMENT

Where more information than is possible to give under the classified listings is placed on file for buyers reference. The value of this department is inestimable. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information.

A PROVIDENCE INVENTION

The most practical, handsomest, and simplest window ventilator made.

In use in best homes, offices, factories and institutions thruout the country. Our forty years experience in making and marketing window ventilators has taught us that the best results are obtained only by using adjustable brackets, thereby permitting the air-flow to be regulated according to atmospheric conditions and individual requirements.

Providence House and Street Directory

Copyright, 1935, Sampson & Murdock Co., Boston, Mass.

Giving the location of Streets, Avenues, Parks and Places, and showing what other streets and places run from or across them.

A list of Householders and Business Places arranged in numerical order upon their respective streets, even numbers on left side with a few exceptions.

The streets are arranged in alphabetical order.

A HOME OWNERS AND TENANTS DIRECTORY—a new feature showing which houses are owned by the occupants. The symbol, © following the name of a householder indicates that the house is owned by the person listed or by some member of the family.

This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Business places are denoted by the street number printed in bold-face figures. When a persons place of business and residence are at the same place, it is indicated by the use both of bold-face figures for the street number and of the abbreviation h at the end of the line. Names preceded by light-faced figures and having no abbreviation after them are housekeepers.

* Shows building incorrectly numbered.

For condensed street directory see Providence City Directory.

The Sign Over Your Door

is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, would it interest you?

THE CITY DIRECTORY

is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory, properly indexed under all headings where he might look for you.

To be properly registered costs less less than to be left out

Too Late for This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Providence House Directory.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe its product is wise.
