

RESOLUTION OF THE CITY COUNCIL

No. 271

Approved May 13, 1981

RESOLVED, DECREED AND ORDERED

That the following named street shown as cross-hatched area on the accompanying plan entitled "Providence, Rhode Island, Section Plan No. 064126, dated December 17, 1980",

VIZ:

Wells Street commencing at its beginning at the northerly line of Power Street and running generally northwesterly approximately two hundred twenty five (225) feet more or less to its termination with the southerly line of Planet Street, shown as cross-hatched area on the accompanying plan and designated by the letters (A-B-C-D-E-F-G-H-A), having ceased to be useful to the public and is proposed to be abandoned as a Public Highway, subject to the petitioner conveying easements acceptable to the following: no building to be allowed within the easement and the area to be accessible at all times for any repair work necessary as incorporated in communication from Chief Engineer Water Supply Board dated March 10, 1981; New England Telephone and Telegraph Company be permitted the retention of their facilities with the right to inspect, maintain, operate and replace the same; and that the Department of Public Works be provided with a full sewer easement; and the damage to the abutters is appraised at nothing and so awarded, and it is further

ORDERED, That the Director of Public Works be and he is hereby directed to cause a sign to be placed on the above-named highway abandoned as aforesaid, having thereon the words, "Not a Public Highway", and it is further

ORDERED, That after the entry of this order or decree the City Clerk shall cause a notice thereof to be published in a newspaper published in the County of Providence at least once a week for three successive weeks and a further and personal notice shall be served by the City Sergeant upon every owner of land abutting the above-named highway which have been abandoned, who is known to reside within the State.

RE: Abandonment of Well Street

Dear Councilman Flynn:

The Petitioner, Mr. James F. Reynolds, has requested we evaluate the possibility of securing an easement to maintain the cast iron water mains in the street, which would not require us to abandon same.

We have checked into this request and find that if we secure a permanent easement equivalent to present street width and length, it will not be necessary for us to abandon our facilities. Additionally, it must be understood that no building will be allowed within the easement and the area must be accessible to us at all times for any repair work necessary.

RE: PETITION TO ABANDON WELL STREET

The New England Telephone and Telegraph Company presently has underground facilities consisting of conduits located in said Well Street. These facilities are an important telephone supply system to this area and would be difficult and costly to relocate, as they serve customers in the general area.

The New England Telephone and Telegraph Company will not object to the granting of said petition, provided that in the event the petition is granted, the petitioners will convey an easement acceptable to New England Telephone and Telegraph Company, which will permit the retention of our facilities in existing locations in said street, together with the right to inspect, maintain, operate and replace same.

Referral No. 2033 - Abandonment of Well Street

A communication from the Committee on Public Works dated July 3, 1980 proposes the abandonment of Well Street between Planet and Power Streets. This petition was submitted to the City Council by James J. Reynolds of Sulzberger-Rolfe, Inc. and Russell Gower of Gower and Company Pension Trust. It was introduced to the City Council by Councilman Xavier on July 2, 1980 and was referred to the Committee of Public Works for further study.

A field inspection revealed that Well Street is an improved public right-of-way without sidewalks. It is presently used as a driveway or vehicle access to serve the parking lots at both sides of Well Street. The surrounding area is mixed commercial and residential and is in generally good to excellent condition within the "East Side" urban renewal project. Well Street was also proposed to be vacated under the "East Side" official redevelopment plan which was approved by the City Council on December 28, 1972.

This narrow street, 25' in width and 225' in length, has no important value as a thoroughfare, but is a service road to the adjoining properties. The petitioners own all the lots adjoining the street in question.

— Therefore, it is recommended by DPUD that the Commission advise the Committee on Public Works that no objection is offered on this petition.

Re: Street Abandonments
Well Street - East Side Project

Gentlemen:

This is in regard to the Notice of the Public Hearing on the abandonment of Well Street from the northerly line of Power Street to its termination with Planet Street.

It is noted that said abandonment was proposed as part of the Official Redevelopment Plan for the East Side Renewal Project, and that the property adjoining both sides of Well Street and at the corner of Power Street was sold by this Agency to a developer who is constructing a professional office building with adjacent off-street parking.

The abandonment of the aforesaid Well Street will ensure adequate off-street parking for the office building and make the project more viable. The Providence Redevelopment Agency, therefore, recommends that the abandonment of Well Street be approved.

Sincerely,

Dear Mr. Flynn:

I have spoken to Mr. John Capaldi, developer of the new office building abutting Well Street, relative to the Water Supply Board's cost to cut and plug their 6 inch cast iron water main. Also, I have spoken to Mr. Sulzberger and Mr. Gower, the abutting property owners of Well Street.

No one has any objection to the retention of an easement in the abandoned highway.

Therefore, your favorable consideration of the proposed abandonment with the necessary easements will be sincerely appreciated.
