Proposed Budget of Revenue and Expenditures of the City of Providence, Rhode Island, for the Fiscal Year Ending June 30, 1975. (Appended.)

An Ordinance Establishing a Compensation Plan for the City of Providence and Repealing Chapter 1974-4, Approved January 9, 1974, as Amended.

Be it ordained by the City of Providence:

Section 1. The following Compensation Plan is hereby adopted as the official Compensation Plan for all City Officials and Workers Services and shall be applied to positions in the service as hereinafter provided. Each salaried position is placed in one of thirty-five "Pay Grades" each of which contains five "Steps" in order to provide for periodic increases. All "Steps" are in even dollars. The "Pay Grades," "Steps" and

"Annual Range" totals are recorded herein. All other salaries paid to City Officials and employees not in above pay grades shall be specifically specified.

Sec. 2. The minimum rate of pay for any class of position shall be payable to any person on his first appointment to the position allocated to the class, provided however, that with the recommendation of the Director of Finance and approval of the Mayor, he may enter the position at any other step in the "Pay Grade" and provided further, that if a person already in the service is transferred, he may with the recommendation of the Director of Finance and approval of the Mayor, enter the new position at the same rate of pay as he had previously received.

Sec. 3. Any employees employed in a position allocated to a class carrying minimum and maximum pay rates may be granted a pay increase from one step to the next higher step within established grade, subject to the following:

1. One "Pay Grade" step per year.
2. Recommendations for step increases shall

be made by department heads or the Chairman of Bureaus or Commissioners at the time of submission of annual budget estimates, and at no other time. Such recommendations shall be made on the basis of the quality of work and the seniority of individual employees.

3. The Director of Finance shall review such proposed step increases for availability of funds and conformity to the provisions of this Ordinance, and shall recommend approval or disapproval of the increase to the Mayor.

4. An employee entering the city service shall be eligible for a step increase on the first day of the succeeding January, April, July or October next following the completion of twelve months of service by said employee in accordance with the provisions of sub-sections 1, 2, 3, and 5 of this Section.

5. Any employee who is transferred from a position not carrying a minimum and maximum pay rate to one that carries a minimum and maximum pay rate shall receive either his present salary or the minimum salary of the new position, whichever is greater, but in no case shall the new salary exceed the maximum salary of his new position.

6. Increased compensation received by an individual as the result of promotion from a lower to a higher class shall not be deemed a step increase in the sense of the term as used in this section and in the event of promotion shall automatically receive the minimum salary for the class to which he has been promoted. If such minimum salary is the same or less than the salary he received prior to his promotion, he may receive a salary which shall be one full increment higher than his prior salary, but in no case to exceed the maximum.

Sec. 4. A given rate of pay as expressed in the compensation plan may be commuted to weekly, daily or hourly rate and established by a department head or Chairman of a Bureau or Commission with the approval of the Mayor and the Director of Finance, as the rate of pay for employees of a particular class: provided, how-

ever, that all employees of a given class in a given unit of a department shall be paid on the same basis, excepting part-time and temporary employees.

Sec. 5 No Officer or employee of the City shall issue a check for payment of, or pay any salary or compensation to any person holding, or claiming to hold a position in the classified service, unless the Personnel Director shall have first certified that the persons named on the payroll or account of such compensation have been appointed and are employed in accordance with this Ordinance.

Sec. 6. Chapter 1974-4 of the Ordinances approved January 9, 1974 with all amendments thereto is hereby repealed.

Sec. 7. This Ordinance shall take effect July 1, 1974.

An Ordinance Establishing the Classes of Positions, the Maximum Number of Employees and the Number of Employees in Certain Classes in the City Departments and Repealing Ordinance Chapter 1973-30, Approved June 25, 1973, as Amended.

Sec. 63. No person shall be appointed to, and the City Treasurer shall not pay, nor shall an officer or employee of the City issue a check for the payment of, nor pay any salary or compensation to a person holding, or claiming to hold a position in the classified service in any department which is in excess of the total number of positions or the number of any individual class of position provided herein for the particular department, provided; however, that with the approval of the Department Head and the Director of Finance, said maximum may be exceeded temporarily when regular employees are absent

on vacation and the excess employees do not aggregate more than the number on vacation or during the absence of employees due to injuries received while discharging their duties as employees, or during the absence of employees on sick leave and it is necessary to employ temporary employees for the duration of the employees sick leave, or during the absence of employees who have been granted a temporary leave of absence, or when in the opinion of the Director of Finance, a temporary emergency exists.

Sec. 64. Where no maximum limit is fixed on the total number of positions or the number of any individual class of position in a Department, the number of persons appointed and employed shall be determined by the unexpended appropriation available.

Sec. 65. Chapter 1973-30 of the Ordinances of the City of Providence as approved June 25, 1973, with all amendments and additions thereto, is hereby repealed and all other Ordinances or parts thereof inconsistent herewith are likewise repealed.

Sec. 66. The limitations imposed by this Ordinance as to the total number of persons or number of any individual class of positions in a department shall not apply to those members of the armed forces of the United States of America and of the Merchant Marine who have been honorably discharged therefrom and who at the time of their induction or enlistment were employees of the City of Providence, and request within forty (40) days after discharge to return to the employ of the City, if the positions occupied or held by such persons at the time of their entrance into the service of the United States of America have not been included in the total number of positions or number of any individual class of position in a department, as fixed by this Ordinance.

Sec. 68. This Ordinance shall take effect and become operative as of July 1, 1974.

Severally Read and Collectively Passed, as

Amended, the Second Time, on motion of COUNCILMAN LYNCH, seconded by COUNCILMAN BEATINI, by the following Roll Call Vote:

Ayes: Council President Haxton and Councilmen Ahern, Beatini, Brown, Cirelli, Crowley, Fargnoli, Johnson, Kelly, Lynch, J. Murphy, W. Murphy, Payne, Storti, and Xavier—15.

Noes: Councilmen Addison, Bradshaw, Darian, DeVito, McKiernan, Moran, Pearlman, and Pisaturo—8.

Not Voting: None.

Absent: Councilmen Cola, Goldin, and Lorenzo—3.

The Following Ordinances were in City Council June 6, 1974, Read and Passed the First Time and are Returned for Passage the Second Time:

An Ordinance Amending the Appropriation Ordinance Chapter 1973-28, Approved June 25, 1973, by Transferring Certain Sums of Money Within Certain Public Works Departments.

Be It Ordained by the City of Providence:

Section 1. Chapter 1973-28 of the Ordinances of the City of Providence, as approved June 25, 1973 and entitled: "An Ordinance Making Appropriation of \$80,014,799.31 for the Support of the City Government for the Fiscal Year Ending June 30, 1974," is hereby further amended by transferring certain sums of money within certain *Public Works Departments*.

Sec. 2. This Ordinance shall take effect upon its passage.

An Ordinance in Amendment of the Building Code, Chapter 1079, Approved December 21, 1956, as Amended, by Amending Sections 432.0, 432.10, 432.11, 432.12, 432.13, 432.14, 432.15, 432.16, 432.20, 432.21, 432.22, 432.23, 432.24, 432.25, 432.26, 432.30, 432.40, 432.41, 432.17, 432.18, 432.42, 432.43, 432.50, 432.51, 432.52, 432.60.

Be It Ordained by the City of Providence:

Section 1. That the Building Code of the City of Providence, Chapter 1079, approved December 21, 1956, as amended, be and the same is hereby further amended by amending Sections 432.0, 432.10, 432.11, 432.12, 432.13, 432.14, 432.15, 432.16, 432.20, 432.21, 432.22, 432.23, 432.24, 432.25, 432.26, 432.30, 432.40, 432.41, 432.17, 432.18, 432.42, 432.43, 432.50, 432.51, 432.52 and 432.60 to read as follows:

Sec. 432.0 High Rise Buildings: The provisions of this section shall apply to all buildings of the following use groups when such buildings are more than six (6) stories or seventy-five (75) feet in height:

- 1) Use group E, Business
- 2) Use group L-1, Residential (hotel)
- 3) Use group L-2, Residential (multi-family)

Sec. 432.10 Compartmentation Option: Buildings designed in accordance with the Early Fire Control option as set forth in sub-section 432.20 are not subject to the provisions of this sub-section. Buildings more than twelve (12) stories

or one hundred fifty (150) feet shall be designed in accordance with this code and the Basic Mechanical Code listed in Appendix B.

Sec. 432.11 Areas of Refuge: Compartmentation shall be provided in every building to provide areas of refuge for the building occupants. This shall be provided by one of the following methods:

- 1) Installation of fire division, with horizontal exits therein, dividing each story into two (2) or more areas of approximately the same size but not exceeding thirty thousand (30,000) square feet per area, or
- 2) Subdividing the building into five (5) story compartments by interrupting the interior exitway stairways with smoke barriers every fifth floor, or by providing smokeproof enclosures for all exitway stairways, or by any approved method which will protect against the movement of smoke from one compartment to another.

Horizontal exit walls used for compartmenting a building shall have no openings which would permit transfer of smoke from one compartment to the other, except for required exits.

Sec. 432.12 Exterior Wall Openings: Openings located vertically above one another shall be separated by a three-quarter ($\frac{3}{4}$) hour fire-resistive noncombustible spandrel or flame barrier. The minimum height of spandrels shall be three (3) feet. The flame barriers (eyebrows) shall extend thirty (30) inches beyond the exterior wall in the plane of the floor.

Sec. 432.13 Fire-Smoke Detectors: An approved, automatic products-of-combustion (other than heat) detection system shall be installed in the following locations:

- 1) Boiler rooms and furnace rooms

- 2) Return air ducts and plenums of heating, ventilating and air conditioning systems serving floors other than the floor on which the HVAC equipment is located. The detectors shall be located at each opening into the vertical return air duct or shaft.

- 3) Elevator lobby areas (see Sec. 1614.3).

The detection system shall be designed to activate the voice alarm system on a selective basis dependent upon the compartmentation design. The indicator panels shall be located in the Central Control Station.

Sec. 432.14 Fire Alarm: An approved fire alarm system shall be installed as required by Sec. 1210.0 and shall be designed to activate the voice alarm system only, on a selective basis dependent upon the compartmentation design. The zoning indicator panels and controls shall be located in the Central Control Station.

Sec. 432.15 Voice Alarm System: Both the fire detection system and the fire alarm system shall automatically activate a voice alarm system only, on a predetermined selective basis dependent upon the compartmentation design.

The Central Control Station shall contain controls for the voice alarm system so that a selective or general voice alarm may be manually initiated.

Upon activation of the voice alarm system a pre-recorded message shall be automatically transmitted via one of the voice communication systems.

Sec. 432.16 Voice Communication System: There shall be two (2) approved, electrically supervised communication systems as follows:

- 1) A two-way fire department communication system. The system shall provide two-way communication capabilities between the Central Control Station and the fol-

lowing terminal areas: elevators, elevator lobbies, exitway access corridors and exitway stairways.

- 2) A one-way (address) communication system for transmission of the voice alarm system message to the building occupants. The system shall provide one-way communication capabilities between the Central Control Station and throughout the following terminal areas: elevators, elevator lobbies, exitway access corridors and exitway stairways; office areas exceeding one thousand (1,000) square feet in area; dwelling units; and hotel guest rooms or suites.

The two-way fire department communication system may be combined with the one-way (address) communication system.

Sec. 432.17 Smoke Control: Natural or mechanical ventilation for the removal of products-of-combustion shall be provided in every story and shall consist of one or more of the following:

- 1) Panels or windows, in the exterior wall, which can be opened from an approved location other than the fire floor. Such venting facilities shall be provided at the rate of twenty (20) square feet per fifty (50) lineal feet of exterior wall in each story, and distributed around the perimeter at not more than fifty (50) foot intervals. Such panels shall be clearly identified as required by the Fire Department.
- 2) Approved tempered glass may be used in lieu of the openable panels described above.
- 3) A continuous shaft through which smoke and heat can be mechanically vented to the outdoors. The size of the shaft shall be uniform throughout and of such dimensions to provide one (1) air change per

minute in the largest compartment served anywhere in the building. Openings into the shaft shall be protected with an automatic single piece shutter located as high in the room as possible and designed to vent the entire compartment.

- 4) Any other approved design (see *Sec. 108.40*) which will produce equivalent results.

Sec. 432.18 Elevators: At least one elevator shall be provided for fire department emergency access to all floors. The elevator shall be located in a smokeproof enclosure; or shall open into a lobby (which may serve additional elevators), separated from the remainder of the building by three-quarter ($\frac{3}{4}$) hour fire-resistive construction. Elevator operation shall be in accordance with Appendix E of the Safety Code for Elevators listed in Appendix B, said elevator cab shall be of such size as to accommodate an ambulance cot in its horizontal open position.

Sec. 432.20 Early Fire Control Option: Buildings designed in accordance with the compartmentation option as set forth in subsection 432.10 and if so designed are not subject to the provisions of this subsection except buildings more than twelve (12) stories or one hundred fifty (150) feet in height shall be designed in accordance with this code and the Basic Mechanical Code listed in Appendix B.

Sec. 432.21 Fire Suppression System: An approved fire suppression system shall be provided throughout every building. The system shall be hydraulically designed using the parameters as set forth in the applicable standards listed in Appendix I and the following:

- 1) *Valves and Waterflow devices:* Shut-off valves and water flow devices shall be provided at the riser connection on each floor. In addition to actuating a voice alarm on the floor where water flow is detected, the valves and waterflow devices shall be supervised by a continu-

ously manned central control station or by a central station.

- 2) Standpipes: Each floor shall be supplied by two or more combination (suppression system and standpipe) risers. In seismic zones 2 and 3, at each point of connection of the suppression system to a riser, an approved check valve or anti-backflow device shall be installed so that one riser can remain operational if a break occurs in the other riser.
- 3) Secondary Water Supply: In seismic zones 2 and 3 an on-site supply of water equal to a twenty (20) minute demand, or fifteen thousand (15,000) gallons on a combined suppression-standpipe system (whichever is smaller) shall be provided. This supply shall be automatically available if the principal supply fails. At least two independently driven 500 gpm fire pumps shall be provided.
- 4) Piping may be copper or steel with no minimum size of pipe required. Solder connections may be used if composed of ninety-five (95) per cent and five (5) per cent antimony.

Sec. 432.22 Voice Alarm System: All fire detection devices and suppression system waterflow devices shall automatically activate a voice alarm system only, on a predetermined selective basis dependent upon the locations of the detectors and waterflow devices.

The central control station shall contain controls for the voice alarm system so that a selective or general voice alarm may be manually initiated.

Upon activation of the voice alarm system a pre-recorded message shall be automatically transmitted via one of the voice communication systems.

Sec. 432.23 Voice Communication System:

There shall be two (2) approved, electrically supervised communication systems as follows:

- 1) A two-way fire department communication system. The system shall provide two-way communication capabilities between the Central Control Station and the following terminal areas: elevators, elevator lobbies, exitway access corridors and exitway stairways.
- 2) A one-way (address) communication system for transmission of the voice alarm system message to the building occupants. The system shall provide one-way communication capabilities between the Central Control Station and throughout the following terminal areas: elevators, elevator lobbies, exitway access corridors and exitway stairways; office areas exceeding one thousand (1,000) square feet in area; dwelling units; and hotel guest rooms or suites.

The two-way fire department communication system may be combined with the one-way (address) communication system.

Sec. 432.24 Smoke Control: Natural or mechanical ventilation for the removal of products-of-combustion shall be provided in every story and shall consist of one or more of the following:

- 1) Mechanical air handling equipment designed to direct return and exhaust air directly to the outdoors under fire conditions.
- 2) Panels or windows, in the exterior wall, which can be opened from an approved location other than the fire floor. Such venting facilities shall be provided at the rate of twenty (20) square feet per fifty (50) lineal feet of exterior wall in each story, and distributed around the perimeter at not more than fifty (50) foot intervals. Such panels shall be clearly identified as required by the Fire Department.

- 3) Approved tempered glass may be used in lieu of the openable panels described above.
- 4) A continuous shaft through which smoke and heat can be mechanically vented to the outdoors. The size of the shaft shall be uniform throughout and of such dimensions as to provide one (1) air change per minute in the largest compartment served anywhere in the building. Openings into the shaft shall be protected with an automatic single piece shutter located as high in the room as possible and designed to vent the entire compartment.
- 5) Any other approved design (see Sec. 108.40) which will produce equivalent results.

Sec. 432.25 Elevators: At least one elevator shall be provided for fire department emergency access to all floors. Elevator operation shall be in accordance with Appendix E of the Safety Code for Elevators listed in Appendix B, said elevator cab shall be of such size as to accommodate an ambulance cot in its horizontal open position.

Sec. 432.26 Modifications: When a fire suppression system is installed, the following modifications to this code are permitted:

- 1) The type of construction required by this code may be modified as follows:

Type of Construction Set Forth in Table 5	Modified Type of Construction Permitted Hereunder
1A	1B
1B	2A
2A	2B

- 2) The fire-resistance rating of exitway access hallways and vertical separation of tenant spaces may be reduced by: a) three-quarter ($\frac{3}{4}$) hour in use group E (business) buildings, and b) one quarter

($\frac{1}{4}$) hour in use group L-1 (hotel) and L-2 (multi-family) buildings; and the wall or partitions may be terminated at the lowest portion of the fire-resistive floor-ceiling assembly above.

- 3) The fire-resistive rating of shafts other than exitway stairways and hoistway enclosure shafts, may be reduced by one (1) hour in use group L-1 (hotel) and L-2 (multi-family) buildings.
- 4) The exitway access and common hallway doors need not meet the requirements of Sec. 612.40 except they shall be self-closing.
- 5) The hose line, nozzle, rack and cabinet set forth in Sec. 1205-41 may be omitted.
- 6) The exitway access travel distance set forth in Table 11, may be increased to three hundred (300) feet.
- 7) Smokeproof enclosures set forth in Sec. 620.0 may be omitted, but required stairways shall be pressurized to 0.15 inches of water column in the manner describing Sec. 620.83.
- 8) Fire dampers as set forth in Secs. 1019, 1812 and the standards listed in Appendix B may be omitted except where ducts penetrate firewalls, horizontal exits and vertical shaft walls.
- 9) Fire alarm systems (manual pull stations) as set forth in Secs. 1012.17 and 1210.18 may be omitted.

Sec. 432.30 Central Control Station: A central control station for fire department operations shall be provided in a location approved by the fire department. It shall contain the following listed facilities when they are required by this section:

- 1) voice alarm system apparatus

- 2) voice communication system panel and apparatus
- 3) fire detection system panel
- 4) fire alarm system panel
- 5) status indicator and controls for elevators
- 6) status indicator and controls for air handling systems
- 7) sprinkler valve and waterflow detector indicators
- 8) fire department telephone
- 9) standby power controls
- 10) public telephone
- 11) exitway stairway door unlocking system
- 3) fire department elevator
- 4) mechanical air handling system
- 5) fire alarm system
- 6) fire detection system
- 7) fire protection equipment and devices
- 8) exitway and other emergency lighting
- 9) exitway stairway door unlocking system

Sec. 423.43 Fuel Supply: An on-premises fuel supply adequate for two (2) hours full demand operation of the system shall be provided.

Sec. 432.50 Exitway Stairways:

Sec. 432.51 Doors: All exitway stairway doors which are to be locked from the stairway side shall have approved locksets with the capability of being unlocked remotely upon a manual signal from the Central Control Station.

Sec. 432.52 Emergency Telephones: Emergency telephones shall be provided at not less than every fifth floor in each required exitway stairway which is normally locked from the stairway side.

Sec. 432.60 Seismic Considerations: In seismic zones 2 and 3 the anchorage of the following mechanical and electrical equipment required by this section shall be designed in accordance with Appendix K-11 for a lateral force based on a "Cp" value of 0.5 unless data substantiating a lesser value is furnished:

Sec. 432.40 Standby Power and Light:

Sec. 432.41 Standby Power System: A permanently installed standby power generation system conforming to the requirements of Article 15 of this code shall be provided. The system shall be equipped with approved means for automatically starting the generator-set upon failure of the normal electrical service and for automatic transfer and operation of all functions, required by this section, at full power within sixty (60) seconds of such normal service failure. System supervision devices with manual start and transfer features, shall be provided at the central control station.

Sec. 432.42 Power Requirements: The power requirement shall be determined so as to provide service to the following listed facilities when they are required by this section:

- 1) voice alarm system
- 2) voice communication system
- 1) elevator drive and suspension systems,
- 2) standby power and lighting facilities, and
- 3) fire pumps and other fire protection equipment.

Sec. 2: This Ordinance shall take effect upon its passage.

An Ordinance in Amendment of Chapter 1974-15, Approved May 8, 1974, Being an Amendment of Chapter 544 of 1951, Relative to a Change of Zoning of Certain Lots Situated Along the Northerly Side of Lester Street, from Bridgham Street.

Be It Ordained by the City of Providence:

Whereas, Chapter 1974-15, approved May 8, 1974, being an Ordinance in amendment of Chapter 544 of 1951 relative to an amendment to the Zoning Map of certain lots situated along the northerly side of Lester Street, from Bridgham Street, is incorrect in that the City Assessor's Plat 73 was cited in error, whereas, it should have been City Assessor's Plat 30, and

Whereas, The said correct City Assessor's Plat 30 was duly advertised in accordance with the related statutory requirements,

Now, Therefore, Be It Ordained by the City of Providence:

Section 1. Chapter 1974-15, approved May 8, 1974, is hereby amended by deleting any reference to "City Assessor's Plat 73" and inserting in lieu thereof, "City Assessor's Plat 30."

Sec. 2. The said Chapter 1974-15, approved May 8, 1974, is not further amended with the exception as above noted.

Sec. 3. This Ordinance shall take effect upon its passage.

Severally Read and Collectively Passed, the Second Time, on motion of COUNCILMAN LYNCH, seconded by COUNCILMAN DARIGAN, by the following Roll Call Vote:

Ayes: Council President Haxton and Councilmen Addison, Ahern, Beatini, Bradshaw, Brown, Cirelli, Crowley, Darigan, DeVito, Fagnoli, Johnson, Kelly, Lynch, McKiernan, Moran, W. Murphy, Payne, Pearlman, Pisaturo, Storti, and Xavier—22.

Noes: None.

Absent: Councilmen Cola, Goldin, Lorenzo, and J. Murphy—4.

REPORT FROM COMMITTEE

COUNCILMAN LAWRENCE E. BROWN, Chairman COMMITTEE ON URBAN REDEVELOPMENT, RENEWAL AND PLANNING

**Transmits the Following with Recommendation
the Same be Adopted:**

Resolution Approving Application of the Provisions of Section 23 of the United States Housing Act of 1937, as Amended, to Locality.

Whereas, Under the provisions of Section 23 of the United States Housing Act of 1937, as amended, the United States of America, acting through the Secretary of Housing and Urban Development, is authorized to provide financial assistance to local public housing agencies in providing low-rent housing by leasing dwelling units in privately-owned structures; and

Whereas, Said Section 23 provides that the provisions thereof shall not apply to any locality unless the governing body of the locality has by resolution approved the application of such provisions to such locality.

Now, Therefore, be it resolved by the City Council of the City of Providence, Rhode Island, as follows:

That the application of the provisions of Sec-

tion 23 of the United States Housing Act of 1937, as amended, to The Housing Authority of the City of Providence, Rhode Island, is approved.
