CHILSON'S PATENT CONE FURNACES, —AND— DOUBLE OVEN COOKING RANGES.

CHILSON'S CONE FURNACE.
(Patented in America, England and France.)

The extensive use of this superior Furnace in the United States has acquired for it a reputation too well and favorably known to need more than to call the special attention of those in want of the best possible means of warming dwellings, public buildings, etc., with pure, fresh, healthful heat, (free from that dry, red-hot iron heat and coal gas, so common to hot-air Furnaces), to an examination of this superior invention, which represents a cluster of Cones, or tapering Radiators, over a broad flaring shallow fire-pot. These cones being large at the base, and small at the top, secure the great and important object of retaining and holding the smoke and gases back, in contact with the burning fuel—thus thoroughly consuming the gases, while their heat is compressed up into the Cones, and made to impinge against and radiate from the tapering surfaces,—thereby securing twice as much heat from a given amount of coal than can be obtained from any other plan known to man. This Furnace is very simple in its construction, and easily managed, and much less liable to need repairs than any other plan of Furnace in use.

Also five sizes of PORTABLE FURNACES, on the same principle, that are giving the most perfect satisfaction. The Cone Furnace received a Gold Medal at a recent fair in Boston, and the only gold medal ever awarded to a Furnace in Massachusetts.

CHILSON'S NEW COOKING STOVES.

Several sizes of my New Cooking Stove, are just completed. I invite the especial attention of those in want of a Stove, to an examination of the improvements which render this Stove much more perfect than any other before offered to the public.

PARLOR STOVES.

CHILSON'S NEW PARLOR STOVE has improvements over any other in the market, for its great economy in fuel, keeping fire day and night, and warming the cold air near the floor for a great distance around the Stove. An Oven and Boiler attached when desired. Its arrangements for ventilating the room are complete.

CHILSON'S NEW VENTILATOR AND DAMPER COMBINED.—Just patented. May be attached to the Smoke Pipe of any Furnace, Stove, etc., effecting a saving of at least 50 per cent. in fuel, and keeping one continuous fire through the season. Please notice this invention.

☞ Circulars giving full descriptions of the above sent to any address.

Registers, Ventilators, Mantels, Frame Grates, Stoves, etc., with every variety of Heating, Cooking, and Ventilating Apparatus.

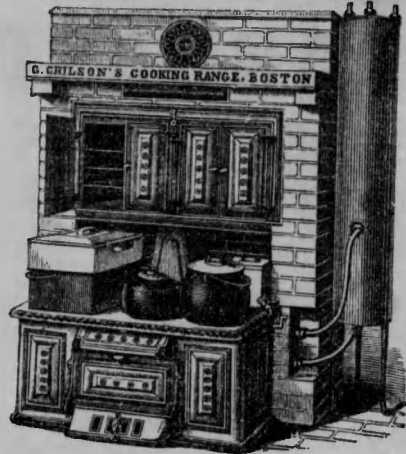

Personal attention given to their erection when desired. The above may be obtained at wholesale or retail, at the subscriber's store, 99 and 101 BLACKSTONE STREET, BOSTON, or at his FOUNDRY IN MANSFIELD, MASS.

GARDNER CHILSON.

☞ The above articles may be obtained in Providence, of my authorized Agents,

Messrs. WM. H. FENNER & CO., 121 Broad Street.

**CHILSON'S PATENT
ELEVATED DOUBLE-OVEN COOKING RANGE.**

Housekeepers and others interested in the use of Ranges, whether wishing to purchase or not, are invited to examine the great improvements secured by five patented claims in this truly superior Range, now in so general use.

The subscriber confidently asserts these improvements to be far in advance of any other plan of Range in the United States, and believes an examination of them, together with the many thousand testimonials received from those in use, will fully substantiate this assertion. Sizes adapted for Hotels, Dwellings, Restaurants, or any public or private institution, fitted when desired with hot water backs for bathing or other washing purposes; hot air fixtures for heating additional rooms, and hot closets or plate warmers.

PREFACE.

Another year brings with it a new edition of the PROVIDENCE DIRECTORY, larger and more complete than ever, and with the additional accuracy, experience only can furnish. We have increased the number of names about 800, and have taken unusual pains to render this book worthy the liberal patronage of the public. Besides the usual information, we have prepared at considerable expense, a Business Directory of the entire State of Rhode Island, and this feature will, no doubt, prove very valuable to Business Men.

The cost of this, together with the great advance in the price of Paper, Printing, Labor, &c., has compelled us to fix the price of the book at \$2. This course was only adopted with reluctance, and will be appreciated by every person who will compare his present expenses with what they were a few years since. Thanking all those who by their Advertisements and Subscriptions have encouraged us in our labors, we present to their kind consideration,

THE PROVIDENCE DIRECTORY FOR 1865.

SUPERPHOSPHATE OF LIME.**

MANUFACTURED AT PROVIDENCE, R. I.

From many years' experience, the proprietors can, with confidence, recommend their SUPERPHOSPHATE OF LIME as a TOP DRESSING for WHEAT, CLOVER, GRASS, (*Pasture or Meadow*), and at time of sowing or drilling, for INDIAN and SPRING CORN, POTATOES, CARROTS, TURNIPS, ONIONS, CELERY, &c.

Weight per acre, from five to six hundred pounds where farm yard manure is not used with it, but when the land receives, say half a dressing of farm yard manure, then from two to three hundred pounds will be sufficient.

If sown broadcast, the land should be immediately harrowed or ridged up, so that the manure will not be exposed to the air or sun; when drilled, it must be well mixed with loam, and care taken that the seed and manure do not come in immediate contact.

BAILEY'S

PATENT SPRING-ROLL & COG-WHEEL

Washing and Wringing Machine.

Machines with Cog-Wheels will not grind up the rolls or wear out the Clothes.

The Oscillating Board and a Bench makes it a Valuable Washing Machine.

This Machine combines the Allender and Bailey Patents, the two first patents granted in the United States, for Clothes Wringers, with Vulcanized Rubber Rolls. This machine has given such universal satisfaction, and found so great a sale, that some unprincipled parties have put a cheap, inferior imitation in market, which is calculated to deceive the public, and wring us out of our rights. That you may not be deceived, we will mention some of our claims, as those that sell or use are alike infringers as well as the manufacturers, and liable for damage.

CLAIM 1st—A ROLL, so constructed as to yield more in the centre than at or near its ends covered with any flexible material.

2nd—COG WHEELS, when used with Rubber Rolls for Washing or Wringing Machines.

3d—SPRINGS, when used with Rubber Rolls, to adjust the Rolls to the inequality of things that are passing through, as set forth.

4th—SPRING, when used in combination with SET SCREW, or screws and rubber rolls to adjust the rolls to large or small articles.

5th—An OSCILLATING BOARD, in combination with rubber rolls to conduct the water to either tub, as it is pressed from the clothes.

Be not deceived, but buy this machine and not only have the best Wringer, but the best Washing Machine in the market. It is constructed on scientific principles. It does not rub nor twist but presses the water and dirt from the clothes without injury to the fabric. It does not attach to the side of a tub—to tear it in pieces, but is constructed on a good bench, with suitable room for two large tubs. In this way the machine is held firm, and you can do your work well and with ease, and not destroy your tubs. Every machine is well made and warranted, and if after one month's trial it does not give perfect satisfaction, it can be returned and the money will be refunded.

Large Power Machines for Factories, Hotels, Dye Houses and Laundries made to order.

Colds, Coughs, Soreness of the Throat, Chest, or of the whole system, accompanied with Headache, Hoarseness, Tightness of the Chest, or Shortness of Breath, Asthma, or Spasmodic Breathing, Influenza, Croup, Spasms of the Stomach, Whooping Cough, Bronchitis, or Irritation of the Throat, and all Inflammation of the Chest and Lungs.

THE MOST VIOLENT CASES OF PLEURISY, LUNG FEVER, AND CONGESTION OF THE LUNGS,

are immediately relieved, the patient made comfortable, and cured in less than one half of the time required by any other remedy or treatment ever used or known. The Cough Killer gives immediate relief, and cures in a short time all Nervous and Rheumatic Complaints, Gravel, Strangury, or Scalding of the Urine.

Prepared only by DR. SETH ARNOLD, at his Laboratory, Woonsocket, R. I.

Price, 35 cents.

**Whitman's Improved Water-Wheel Regulator
OR GOVERNOR.**

This Machine combines the well-known principles of the cone and compound gear with the conical governor. Its main peculiarities are, that it remains constantly in gear with the gate, moving in either direction as the speed varies from the proper standard, with a velocity in proportion to such variation. It operates with great rapidity from the extreme points of variation, gradually diminishing in velocity as it approaches the standard speed, until its action on the gate ceases as the equilibrium is restored; consequently there is no tendency to "run by" and produce a reaction.

The above Machinery is all made of the best material, carefully selected and thoroughly kiln-dried. In the Woolen Cards, gas-pipe Strippers are used, which are lighter, and not liable to warp. We also furnish

Steel Ring Burring Machines,

CARD CLOTHING, SPOOLS, BOBBINS, COMB PLATES, BELTING, &c.
At Manufacturers' Prices.

MANUFACTURERS AND IMPORTERS OF

**SURGICAL and DENTAL
INSTRUMENTS,**

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

TRUSSES.

A large assortment of best patterns from which to select to meet the requirements of each case. If possible, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also, the measure around the person two inches below the top of the hip-bone.

If the rupture is at the navel, the measure should be around the body at the navel.

ELASTIC HOSE

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the "Stout Silk" being usually the most satisfactory. The sizes are, full length (of leg), three-quarters, half, or knee hose, knee caps, and anklets.

Also, Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-legs, Club-feet, &c.

Also, CRUTCHES of various and most improved kinds; SYRINGES, RUBBER URINALS,

to wear on the person day or night, for Males and Females; GALVANIC BATTERIES;

HEARING TRUMPETS; AURICLES and CONVERSATION TUBES for the

DEAF; RESPIRATORS to prevent coughing on entering cold or warm air;

together with many other articles for use of the sick and invalids.

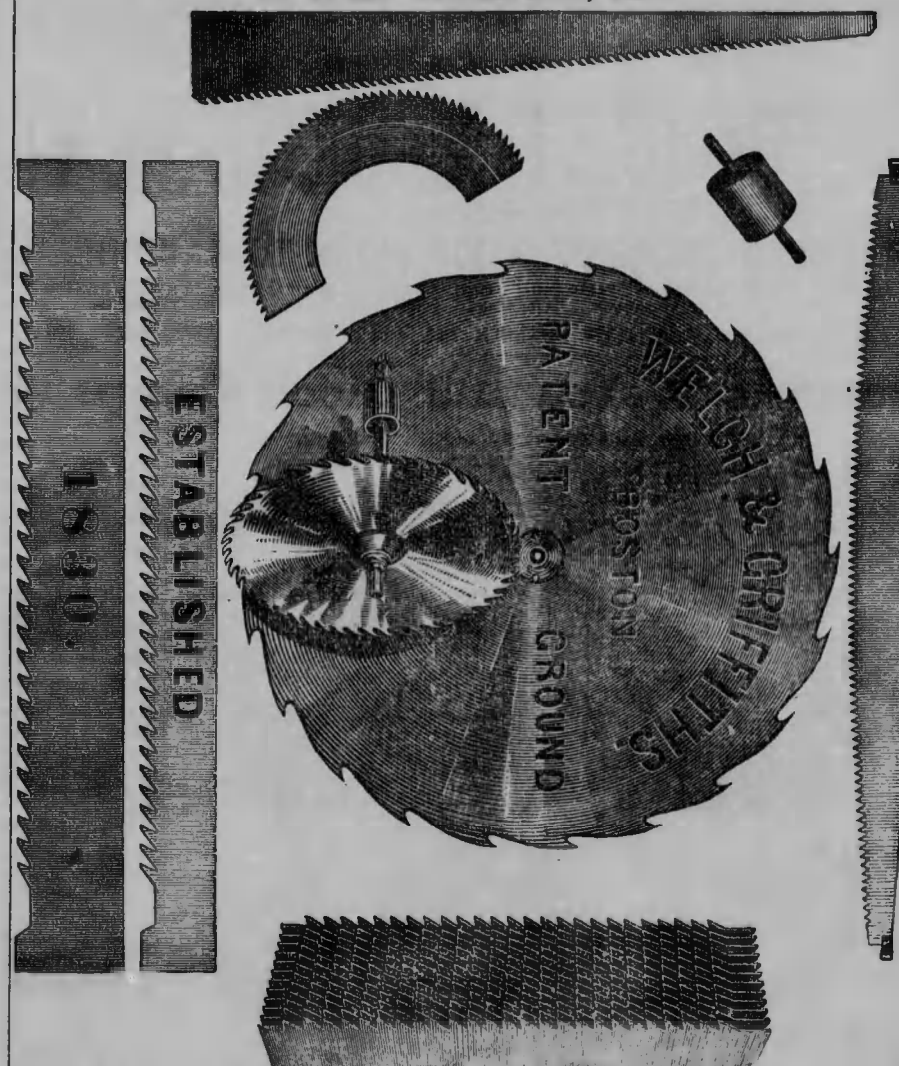

N. B.—A LIBERAL DISCOUNT TO THE TRADE.
