Brick and Portable Furnaces.

(With new improvements of 1875, for warming buildings of all classes.)

My thorough practical experience in Furnace making for nearly forty years,—in all their various forms, of cast and wrought-iron,—has enabled me to know how a furnace should be made to accomplish the best results. No pains or expense will be spared in keeping up the high reputation this furnace has attained. Nearly Thirty Thousand are now in use. In addition to the above, my new

WROUGHT-IRON FURNACE

Will soon be out, to which I would ask the attention of all in pursuit of the best Wrought-Iron Furnace in the Market.

CHILSON'S

New and Splendid *Brick Set Cooking Range, the Arlington.* All in want of the most Splendid and thoroughly made *Brick Range* ever seen in any Kitchen, are invited to examine this Range. The latest and best improvements have been adopted to make it complete, especially for Water and Air heating.

CHILSON'S

Arlington Portable Range, which has met with such Splendid Success for the past four years, is still being manufactured, and in July, I shall bring out my entire new pattern, *Arlington Improved 1875,* and all I ask is, for those in want of *Portable Ranges,* to look at this Range.

Chilson's Arlington Cooking Stove, and the *Arlington Parlor Stove,* are still the leading stoves.

Chilson's Cone Disk Stove, for warming Rail Road Cars, Stores, Halls, Factories, School Rooms, &c.

Special attention given to putting up Furnaces and Ranges, and the ventilation of buildings in any part of the country.

Corinthian Monuments.

The growing objection to Stone for Monumental purposes, but more especially to Marble, has become so general that the discovery of

MONUMENTS CAST IN PURE UNADULTERATED ZINC,

well known as one of the non-corrosive and imperishable metals, responds to a universal demand. The Monuments are plain or elaborate in design and closely resemble

POLISHED GRANITE,

and as enduring as time. Testimonials from Prof. John W. Armstrong, Professor of Chemistry and Geology, and Principal of the State Normal School, Fredonia, N. Y., recommend these Monuments to public favor, both for their durability and for their granite-like color, which will remain unchanged by any action of the weather, and can see no good reason why these Monuments should not last as long as the Pyramids of Egypt. Also testimonials from Prof. B. F. Craig, of the Surgeon General's office, Washington, and from Prof. J. P. Duffield, Consulting Chemist of the State University of Michigan, to the effect, based on scientific principles, that cast Zinc Monuments or Statues will outlast Bronze or two of the finest Granite that could be erected, without partaking of the discoloration that Marble always show after a few years exposure.

PROPRIETORS.

No. 21 Mill Street, Pawtucket, R. I.

The reputation which this establishment has built up and steadily maintained for the excellence of its printing of all descriptions, will be kept fully up to the standard in the future as in the past. Our facilities enable us to execute orders of any magnitude with rapidity and the best results known to the art. In the matter of fine color printing our work has long ranked with the best productions of this particular class in the country, and has received the encomiums of the press and master printers throughout the United States and the Canadas. As a specimen of printing in delicate tints we refer the reader to the preceding page where a finely executed design in this particular style of color printing will be found. All orders for this kind of work will receive prompt attention. Our facilities for Book Printing are unsurpassed, having first class bed and platen and cylinder presses, with which we are enabled to turn out work not surpassed in beauty of typography by similar productions of Boston or New York houses. All the minor grades of printing, such as cards, posters, dodgers, handbills, etc., executed in the best style, promptly, and at fair living prices, though not competitive with those of amateur or third rate offices. Legal and Mercantile printing in every form. Specimens shown or forwarded to any address on application. Horse Cars pass the office every fifteen minutes.

The design on the preceding page is a representation of the regulation banner of the Order of Knights of Pythias, of which it is a good fac simile, with the exception of the colors, which have been varied for effect. We are indebted for its use to the officers of the Grand Lodge of this State, to whom it belongs.

TELEGRAPHIC FIRE ALARM.

New Code of Fire Alarm Signals. Gamewell & Co.'s Automatic System.

Directions to be observed when a fire is discovered:

1. Go to the nearest box and open the door, pull the hook down as far as you can, (firmly without jerking,) and then let it slide back, close the door and remove the key.

2. On giving an alarm if the small bell inside is heard ringing, it is an indication that an alarm is being sent over the wires, in all such cases count the signals being sounded, and be certain whether it is for the same fire or not; if not for the same fire, wait until the signals have entirely ceased, before pulling the box.

Key holders are cautioned not to give an alarm until certain of a fire; not to give an alarm for a fire seen at a distance; and to be sure after giving an alarm that the door is securely closed before leaving the box.

ALL WORKS OF ART
Must bear a price in proportion to the skill, taste, time, experience and risk
attending their invention and manufacture.
Those things called dear, are, when justly estimated, the cheapest; they are attended with much less profit
to the artist than those which everybody calls cheap.
A competition for cheapness and not for excellence of workmanship is the most frequent
and certain cause of the rapid decay and entire destruction of
arts and manufactures.

DR. WM. B. SOLOMON,
INDIAN PHYSICIAN,

HAS REMOVED HIS OFFICE TO

No. 154 Westminster Street,

CORNER EDDY ST., PROVIDENCE, R. I.

Where he may be found every day throughout the week.

Office Hours from 9 to 12 A. M., and 2 to 6 P. M.

HIS MEDICINES ARE PURELY VEGETABLE; HIS MEDICINE CURES BUT DOES NOT KILL; IT SAVES BUT DOES NOT DESTROY; WITH THESE YOU MAY KEEP DISEASE AT BAY, AND LET HEALTH, THE MOTHER OF HAPPINESS AND THE HANDMAID OF PLENTY, PRESIDE OVER YOUR HOUSEHOLD.

A TESTIMONIAL.

My daughter had a severe attack of Acute Dyspepsia, and for two months she was unable to keep a particle of solid food on her stomach; even soda crackers soaked in water produced nausea, accompanied by intense pain. She was a mere skeleton, her weight in the course of sickness having been reduced from 115 to 70 pounds; finally her stomach rejected both food and medicine. I had five physicians in attendance, and they produced no beneficial effect. Having heard of Dr. Solomon, I sent for him, without any hopes of his giving relief, but was surprised to see a decided improvement, and in three months she was restored to better health than she had seen for five years.

Yours,

THOMAS LEHIGH, 35 Eagle St., Providence, R. I.

THE CHALMERS-SPENCE PATENT
NON-CONDUCTOR,

(A Non-Combustible Substitute for Hair Felting.)

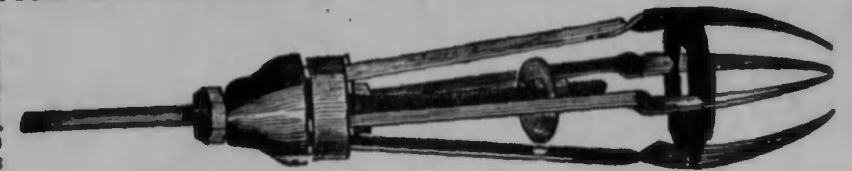

Absolutely guaranteed TO PREVENT CONDENSATION in Steam Pipes, under all circumstances.

R. I. References:—The Lonsdale Co., Social Manufacturing Co., Amos D. Smith & Co., Corliss Steam Engine Co., Dunnell Manufacturing Co., Conant Thread Co., and other first-class concerns.

THE NATIONAL STEEL TUBE CLEANER.

Carbon is one of the worst conductors of heat known. A deposit of 1/32 of an inch on the tubes, causing a loss of 15 per cent of fuel.

N. B.—The above is on first principles, and is absolutely correct.

LANGLEY'S CELEBRATED SLATE COATING PAINT FOR ROOFS,

is especially designed for the protection and preservation of Shingled roofs. It is also the best paint for Tin or Sheet-Iron. Being FIRE-PROOF, Insurance Co.'s make the same tariff for it as they do for a slated roof. As it prevents the action of the weather on the Shingle, it makes it last as long again as without painting. Real Estate owners are beginning to see the advantage of avoiding the necessity of re-shingling, by using this indestructible Paint.

THE SMITH WESTERLY GRANITE.

The White Granite taken from the Smith Ledge in Westerly, R. I., is justly celebrated for its special adaptation to fine Monumental Work. The composition of the Stone is such that it receives a dark, glassy polish, which, in contrast with the white hammered surface, is much admired. Not only do we claim superiority in quality, but we have taken care to employ none but the best mechanics and artizans to execute our work. Our Steam Polishing Department is in the care of a Scotchman who has brought from his native country this Art, which until within the last few years was confined principally to Scotland. As evidence of the permanency of the polish on Granites, specimens may be seen abroad, that have stood for centuries untarnished. It is now generally understood that Marble is not to be depended upon as a permanent material in our climate, where the frost and ice of Winter make serious impressions upon it. It is predicted that in a few years hence, Granite will entirely supersede Marble in our Cemeteries. We wish particularly to call attention to our facilities for executing Monumental Statuary, and for producing artistic Designs in this line. We are prepared to furnish models for White Granite Statuary on any subject desired. Granite admits of as effective treatment in the hands of Artists as either Marble or Bronze, and the original color is retained, while the other materials are soon discolored. Our Designing Department is in the hands of experienced workmen, who are prepared to produce new designs for all our customers, that shall be true in proportion and correct in design.
