(Approved January 6, 1953.)

RESOLVED, That the following rules be and they are hereby

adopted as the Rules of the City Council for the ensuing term. 1953-1954:

Rule 1. The President, and in his absence the President Pro Tempore of the City Council, shall preside. In case of the absence of both the President and President Pro Tempore or the inability of both of them to discharge the duties of the office of President, the City Council shall elect one of its other members to perform such duties during the absence or disability of both the President and the President Pro Tempore.

Rule 2. The City Council shall hold regular meetings in the Council Chamber of the City Hall at 8 o'clock P. M. on the first and third Thursday in each month, excepting, however, the months of June, July and August, when summer recess is held, and during said months of June, July and August the City Council shall hold meetings at 8 o'clock P. M. on the first Thursday of said months. All meetings of the City Council shall be open to the public; but the City Council may upon the affirmative vote of two-thirds of its members authorize an Executive Session. If any regular meeting day shall fall on a legal holiday the meeting shall be held on the day following.

Rule 3. Special meetings of the City Council shall be called by the City Clerk, or in his absence by one of his assistants thereunto duly authorized by said City Clerk or by said City Council, upon the written request of the Mayor, or of one-sixth of the members of the City Council. Notice of any special meeting shall be served personally on each member, or at least two days' notice thereof shall be given each member in any other manner prescribed by Ordinance.

Rule 4. At all special meetings called by the Mayor or the City Council or the City Clerk as provided for in Section 20, Chapter 832, Public Laws of 1940, the first order of business shall be the special business for which such meeting is called and shall be taken up and exclusively considered until it is finally acted upon or considered at such meeting, and no other business shall be acted upon or considered at such meeting except by the consent

of a majority of the whole number of members elected to the City Council.

Rule 5. The President shall take the chair at the hour designated for the meeting of the City Council, and shall promptly call the members to order. A majority of all members of the City Council shall constitute a quorum. A less number of members of the City Council than a quorum may adjourn from time to time and compel the attendance of absent members in such manner and under such penalties as may be prescribed by Ordinance. The President shall preserve decorum and order; he shall decide all questions of and points of order subject to an appeal to the City Council by any one member.

No other business shall be in order until the question on appeal shall have been decided by a majority of the members present. He may speak on points of order, in preference to other members. He may speak on general questions as other members, but he shall take the floor to do so.

Rule 6. The President of the City Council shall distinctly put every question. On all Ordinances, Resolutions and questions in relation to and involving the expenditure of City funds, the selling and leasing of City property and acting on the Mayor's veto the vote shall be by roll call. The "Yeas" and "Nays" of the members of the Council shall, at the desire of one-sixth of those present be taken and entered on the records of said City Council. After a roll call vote has been ordered, said roll call shall not be interrupted, delayed or stopped by the President or any member of the Council for any reason whatsoever, including points of order, personal privilege or for a member to explain his vote. After the roll call and before the President announces the result any member may change his vote. All roll calls shall be taken alphabetically, except that the name of the President of the Council shall be called first. In case of a tie vote the motion is not carried or passed. No motion shall be debated until it has been seconded. A member may explain his vote only with the unanimous consent of the body. Any motion may be withdrawn by the mover at any time before the taking of a vote thereon or before an amendment is made to such motion.

Rule 7. Any member desiring to speak, shall address the President, and after his right to speak has been recognized he shall not be interrupted, while speaking, except by a call to order, or for the correction of a mistake, or to yield to a member. He shall confine his remarks to the question under debate and shall avoid personalities. No member shall speak more than once on the same question, until all other members desiring to speak thereon shall have done so, and in no event, shall a member speak more than twice on any question. There shall be no conversation among members while a member is speaking, while a roll call is being taken, while any paper is being read or while a question is being stated by the President.

Rule 8. The President shall enforce order and decorum among persons outside the rail and any person addressing the City Council by permission or by request shall, while speaking, be subject to the same rules and shall be entitled to the same privileges of order as pertain to a member of the City Council; provided, however, that a member of the City Council may interrupt such speaker for the purpose of asking a question or of obtaining information. No persons, other than the Mayor, members of the City Council, members of the City Clerk's Office, members of the City Sergeant's Office, members of the Law Department and members of the press shall be allowed inside the rail and on the floor of the City Council, without receiving an invitation from the President, or from a member of the City Council through and with the approval of the President. On request of one-sixth of the members of the City Council, present, a department head or any employee of the City of Providence shall appear before the City Council to answer questions of members and explain any matter members may desire information about.

No. 105. Resolution Requesting Members of Congress from the State of Rhode Island to Urge Passage and Vote for the Revision of the McCarran-Walter Act.

(Approved February 6, 1953.)

Whereas, The McCarran-Walter Immigration Law has aroused considerable protests in this country and in all other democratic countries in Europe and other parts of the free world because of its inhuman prejudices and discriminating provisions, and

Whereas, Both candidates for the presidency of the United

States, before election, had advocated the revision of the present Act, and

Whereas, The report of the commission appointed by former President Harry S. Truman has called for complete revision of the existing Act which would abolish the quota system and admission of 100,000 additional aliens subject to the United States requirements and qualifications, and

Whereas, The present Act is anti-Catholic, anti-Protestant and anti-Jewish and if the commissioners' report was enacted into law by Congress, it would convince the free peoples of this world that we still have faith in the great principles upon which this nation was founded and prospered.

Now, Therefore, Be It Resolved, That the City Council of the City of Providence urgently requests the members of Congress from the State of Rhode Island to urge passage and vote for those Acts which have been presented to the Congress of the United States by Representatives Cellar and Javits.

No. 193. Resolution Approving the "Tentative Plan for Willard Center Unit One, Project Area D2-A1".

(Approved March 6, 1953.)

Whereas, The Providence Redevelopment Agency pursuant to the provisions of Article 5 of the "Slum Clearance and Redevelopment Act," constituting Chapter 2574 of the Public Laws of 1950 of the State of Rhode Island and Providence Plantations, has formulated and submitted on January 15, 1953 a tentative plan for a project area within Redevelopment Area D-2 designated by the City Council on July 6, 1948, Chapter 103 of the Ordinances of the City of Providence under the provisions of Section 22 of the Community Redevelopment Act, Chapter 1802 of the Public Laws of 1946 as amended, and

Whereas, A copy of said tentative plan was transmitted to the City Plan Commission on January 14, 1953, and said Commission reported to the City Council on February 3, 1953 that said tentative plan is in conformity with the master or general plan of the City of Providence, and

Whereas, Detailed inspections of 97 of the 115 occupied dwelling units within said Project Area made by inspectors of the Providence Department of Health using survey methods adopted and recommended by the United States Public Health Service indicate that 95% of the dwelling units inspected have serious deterioration, 78% have no central heating, 53% have no inside hot water, 42% have considerable daylight obstruction, 20% have seriously inadequate room facilities, 18% have no private bath, 18% have no bath available, 14% have serious overcrowding, 8% have no private or adequate toilet, and 2% have no dual egress, and

Whereas, The same survey shows that 86% of the dwelling units surveyed are considered inadequate because of insufficient dwelling facilities, deterioration, or obsolescent, hazardous or unsanitary conditions, and

Whereas, Said survey also indicates that 95% of the Project Area's dwelling units have one or more basic deficiences, and 9% of the dwelling units have three or more major deficiencies, and

Whereas, The Insurance Maps of Providence, Rhode Island, Volume I, published by the Sanborn Map Company, reveal that more than 60% of the structures containing dwelling units are of predominantly wooden construction three stories or over in height, and that nearly all the buildings are less than 12 feet away from other major buildings, and

Whereas, It is reported by the Providence Redevelopment Agency that all 37 of the lots occupied by dwellings within said Project Area are below the 5,000 square foot minimum for new construction established in the Providence Zoning Ordinance, and

Whereas, It is reported by the Providence Redevelopment Agency that one-third of the residential structures in said Project Area also contain stores or other non-residential uses, and

Whereas, The records of the Providence Health Department and State Health Department indicate that the incidence of venereal disease, tuberculosis and illegitimate births is proportionately higher in the area bounded by Blackstone, Plain, and Bogman streets and Prairie avenue, of which said Project Area is a part, than for the City as a whole, and

Whereas, The records of the Providence Department of Public Welfare and the Rhode Island Department of Social Welfare indicate that the incidence of aid to dependent children cases and training school admissions is disproportionately high in the said area of which said Project Area is a part.

NOW, THEREFORE, BE IT RESOLVED, (1) That redevelopment of the Project Area described in the tentative plan submitted by the Providence Redevelopment Agency on January 15, 1953 be and hereby is determined to be in the public interest and would tend to effectuate the purposes and policy of said Slum Clearance and Redevelopment Act; and that it be and hereby is determined that said Project Area is an approved redevelopment project area and shall be known as the Willard Center Unit One Project Area and shall be numbered D2-A1.

(2) That it be and hereby is determined that said Willard Center Unit One Project Area D2-A1 comprises that certain tract of land situated in the City of Providence and State of Rhode Island, which is bounded and described as follows:

dence Assessor's Plat No. 45, dated December 31, 1951, together with those portions of Blackstone street, Gay street and Robinson street as contained within the Project Area boundary line hereinbefore described.

(3) That it be and hereby is found and determined in relation to Willard Center Unit One Project Area D2-A1 on the basis of the facts set forth in the reports and documents mentioned in the preamble of this Resolution:

(a) That within the Willard Center Unit One Project Area D2-A1:

(i) 95% of the dwelling units surveyed have serious deterioration;

(ii) 78% of the dwelling units surveyed have no central heating;

(iii) 53% of the dwelling units surveyed have no inside hot water;

(iv) 42% of the dwelling units surveyed have considerable daylight obstruction;

(v) 20% of the dwelling units surveyed have seriously inadequate room facilities;

(vi) 18% of the dwelling units surveyed have no private bath;

(vii) 18% of the dwelling units surveyed have no bath available;

(viii) 14% of the dwelling units surveyed are seriously overcrowded;

(ix) 8% of the dwelling units surveyed have no private or adequate toilet;

(x) 2% of the dwelling units surveyed have no dual egress;

(xi) 86% of the dwelling units surveyed are inadequate because of insufficient dwelling facilities, deterioration, or obsolescent, hazardous or unsanitary conditions;

(xii) 95% of the dwelling units surveyed have one or more major deficiencies, and 9% of the Project Area's dwelling units have three or more basic deficiencies;

(xiii) More than 60% of the structures containing dwelling

units are of predominantly wooden construction three stories or over in height and the narrow passageways between the buildings constitute serious fire hazards;

(xiv) One-third of the residential structures also contain stores or other non-residential uses resulting in close intermixture of business and industry and housing;

(b) That within the area bounded by Blackstone, Plain, and Bogman streets and Prairie avenue of which said Project Area is a part:

(i) The incidence of venereal disease, tuberculosis and illegitimate birth cases is proportionately higher than in the City as a whole;

(ii) The incidence of training school admissions and aid to dependent children cases is disproportionately high;

(4) That it be and hereby is found and determined that said facts demonstrate that because of a predominance of conditions of dilapidation, deterioration, obsolescence, inadequate provision for light, sanitation and open spaces between buildings, overcrowding of population, unsanitary and unsafe character and condition of physical construction, mixed character of uses which injuriously affect the entire area and constitute a menace to the public health, safety and welfare of the inhabitants of the area and of the community generally, said Project Area is a slum-blighted area within the meaning of Sections 2 (A) and 7 (A) of the "Slum Clearance and Redevelopment Act" of 1950 and that said Willard Center Unit One Project Area numbered D2-A1 is hereby determined to be a slum-blighted area.

(5) That the following constitutes the approved tentative plan for the redevelopment of Willard Center Unit One Project Area D2-A1:

(a) Location and Description of Boundaries

The Willard Center Unit One Project Area is located in upper South Providence. A legal description of the boundaries of the Project Area is included in Section (2) of this Resolution;

(b) Description of Conditions Existing in and in the Vicinity of the Project Area

That part of the tentative plan describing the condition of housing and social conditions is set forth in the preamble and Section 3 of this Resolution. Approximately 390 people occupy 115 dwelling units in the Project Area. 88% of the lots are occupied by the 44 structures containing these dwelling units, most of which have been individually classified as inadequate on account of major defects and serious deterioration. Fifteen of the 44 buildings containing dwelling units are partially occupied by commercial concerns. Social data on the larger blighted area bounded by Blackstone street, Plain street, Bogman street and Prairie avenue, of which the Project Area is a typical part, reflect the severe social pressures placed upon many of these people, particularly the children, living in an area of poor housing.

The land varies from about 56 feet above mean sea level at the corner of Blackstone and Gay streets to about 72 feet along its western boundary.

About 75% of the dwelling units in this vicinity of Willard Center were built before 1900, and almost all of the remaining units between 1900 and 1920. In this vicinity, as bounded above, average monthly contract rentals for dwelling units increased only $1.09 from 1940 to 1950 compared with a City-wide increase of $2.67 for the same period. Since 1945 assessed land values in this area have decreased 11% while the value of land within the City generally held virtually even. The character of the commercial and industrial investments within this area has been such as to discourage any further residential investment for either new construction or remodeling.

(c) Reasons for Selection of Willard Center Unit One as a Project Area

Redevelopment of the Willard Center Unit One Area is to be undertaken at this time for the following reasons:

(i) *The Removal of Blighted Conditions*

The conditions described in the preamble and Section 3 of this Resolution demonstrate that the Project Area is severely blighted.

(ii) *The Scheduling of Other Public Improvements*

The City's Capital Improvement Program schedules the construction of an elementary school for upper South Providence within the next few years. Bonds for financing the construction of this school were approved by referendum in 1950.

Redevelopment of the Willard Center Unit One Project Area with an elementary school will permit the eventual provision of adequate recreation facilities for the school, since existing blight that must be cleared covers a larger area than is contained in the project. Since only the minimum space demands for these uses can be met in such a densely built up area as South Providence, these public improvements are feasible only if consolidated in one location. The opportunity is present in Willard Center to replace blight by, first, an elementary school, and then by these other well-integrated improvements around it.

(iii) *The Improvement of Adjacent Housing Areas*

It is expected that the removal of substandard housing and blight-producing non-residential uses from the Willard Center Area as a whole and the provision of school and recreation facilities will stimulate a general improvement of housing conditions in areas adjacent to Willard Center. The recovery of real estate values and the investment of funds by private owners for improvements on their property will thereby be promoted. In addition, as a later project, redevelopment can provide an opportunity for new shopping facilities to be replaced by those now inadequate. This should further encourage people to remain in South Providence and to improve their properties.

(d) General Statement of Redevelopment Proposals

The redevelopment plan shall provide for the elimination of the blighted housing within the Project Area and shall provide for the acquisition of lands, buildings or improvements necessary to assure the proper clearance and redevelopment of the entire area and to prevent the spread or recurrence of conditions of blight thereby protecting the health, safety and welfare of the inhabitants of the City of Providence.

An elementary school and recreational open space are to be the re-uses of the cleared sites in the Project Area.

There shall be no resident population in the Project Area after complete redevelopment.

(e) Conformity of Redevelopment Proposals to the Master Plan

The following principal features of the master or general plan apply to this Project Area:

The Project Area is within Redevelopment Area D2 defined by the City Plan Commission in the "Master Plan for Redevelopment of Residential Areas" adopted by the City Plan Commission, November 25, 1946.

The school re-use herein proposed for the Project Area is in conformance with the "Master Plan for Public School Sites" approved by the City Plan Commission, October 18, 1949.

(f) Financial Feasibility of the Tentative Plan

The expenditures for property acquisition, street improvements, demolition of structures, regrading, and other project development activities to accomplish the purpose of slum clearance and redevelopment have been estimated at $385,000. These expenditures will exceed the amount the City of Providence would be able to pay for the improved site. The fair re-use value to the City of Providence of the site which could be made available has been estimated at $70,000.

The difference between the total gross cost of undertaking the project and the fair re-use value is the *cost of redevelopment.* This project appears to be eligible for the Federal assistance needed to enable the City of Providence to finance redevelopment. Under the provisions of the Housing Act of 1949, two-thirds of the estimated cost of redevelopment of this Project Area could be covered by a Federal grant. The balance would be the net redevelopment cost to the City of Providence.

This total cost of redevelopment and the net redevelopment cost to the City to be financed out of the authorized Redevelopment Revolving Fund will be precised in the redevelopment plan.

(g) How Purposes of the Slum Clearance and Redevelopment Act of 1950 Would Be Attained by the Proposed Redevelopment of the Project Area

Article 2, Section 4 of said "Slum Clearance and Redevelopment Act" of 1950 declares that "The purposes of this Act are . . . to eliminate and redevelop slum-blighted areas . . . in the manner and by the means provided in this Act, thereby to carry out the policy of this State . . . to protect and promote the health, safety and welfare of the people of the State . . ."

(6) That it be and hereby is determined that it is necessary that the blighted conditions be eliminated and said Project Area be redeveloped in accordance with the approved tentative plan to attain the purposes of the Slum Clearance and Redevelopment Act, and

(7) That the Providence Redevelopment Agency be and hereby is directed to prepare and submit a redevelopment plan for said Project Area based upon the approved tentative plan, and

(8) That the City Clerk be and hereby is authorized and directed to transmit a copy of this Resolution to the Redevelopment Agency and to the Inspector of Buildings Department, and

(9) That the City Clerk be and hereby is authorized and directed to file in the Registry of Deeds of the City of Providence a description of the land within the Project Area and a statement that proceedings for the redevelopment of said Project Area have been instituted under the "Slum Clearance and Redevelopment Act" of 1950.

(10) That this Resolution shall take effect immediately.

No. 194. Resolution Approving Filing by the Providence Redevelopment Agency of a Final Advance Application for Financial Assistance from the Housing and Home Finance Agency Under Title I of the Housing Act of 1949 for Surveys and Plans for Willard Center Unit Two, Project Area D2-A2.

(Approved March 6, 1953.)

Whereas, It is necessary and in the public interest that the Providence Redevelopment Agency avail itself of the financial assistance provided by Title I of the Housing Act of 1949 to assist local slum clearance and urban redevelopment projects; and

Whereas, It is necessary that surveys be made and other activities be performed preparatory to undertaking such projects; and

Whereas, It is recognized that Title I of the Housing Act of 1949 requires that contracts for financial assistance thereunder impose certain obligations and responsibilities upon local public agencies availing themselves of such financial assistance, including among other things: (1) the approval of the redevelopment plan by the governing body of the locality in which the project is situated, with appropriate findings (a) that financial aid by the Federal Government is necessary, (b) that the redevelopment plans for the redevelopment areas in the locality will afford maximum opportunity, consistent with the sound needs of the locality as a whole, for the redevelopment of such areas by private enterprise, and (c) that the redevelopment plan conforms to a general plan for the development of the locality as a whole; (2) the provision of local grants-in-aid; (3) the development of a feasible method for the relocation of families displaced from the Project Area; and (4) the several other local obligations and responsibilities that are imposed pursuant to Title I of the Housing Act of 1949 in connection with the undertaking and carrying out of slum clearance and urban redevelopment projects; and

Whereas, Pursuant to Title I every contract for a Federal capital grant will require local grants-in-aid in connection with the project which, together with the local grants-in-aid to be provided in connection with all other projects of the local public agency on which contracts for Federal capital grants have been made, will be at least equal to one-third of the aggregate net project costs involved in such projects; and

Whereas, Such local grants-in-aid may be provided by a state,

municipality or other public body, or by any other entity, and may consist of donations of cash, land, demolition or removal work, and streets, utilities, or other site improvements, and the provision of parks, playgrounds, and other public buildings or facilities which (1) are primarily of direct benefit to the project and are necessary to serve or support the new uses of land in the project area or (2) are of direct and substantial benefit both to the project and to other areas in the community; and

Whereas, It is recognized that it is necessary to provide a playground of adequate size to meet the needs of the school proposed to be built on the site of the project designated as Willard Center Unit One, and that the clearance and redevelopment of the area described below will make this possible; and

Whereas, The redevelopment of the area described below is necessary also to complete the sound redevelopment of the neighborhood, of which the project designated Willard Center Unit One will constitute the first stage.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PROVIDENCE, AS FOLLOWS:

SECTION 1. That it considers it necessary to carry forward and complete the redevelopment of the area described below; and

SEC. 2. That the financial assistance provided by Title I of the Housing Act of 1949 to assist local slum clearance and urban redevelopment projects is necessary; and

SEC. 3. That it is fully cognizant of the foregoing obligations and responsibilities that are imposed under contracts for financial assistance pursuant to Title I and it is the sense of this body that such obligations and responsibilities can and will be fulfilled; and

SEC. 4. That the filing of an application or applications by the Providence Redevelopment Agency for financial assistance from the Housing and Home Finance Administrator under Title I for surveys and plans for the following general area: Willard Center Unit Two Project Area D2-A2 be and is hereby approved.

Henry Fletcher was a native of Birmingham, England where he was born January 17, 1859. He came to this country as a

small boy, attended local schools and received a commercial education at Schofield Commercial School.

Early in life he entered the jewelry trade and later established the firm of Fletcher, Burrows and Company which he headed for forty years until his retirement in 1921. His interest in civic affairs led to his election as a Republican councilman from the old 8th Ward in 1898. He continued to serve his City in various capacities until 1931, as councilman and alderman from the old 7th Ward, as President of the Board of Aldermen and as Mayor of the City of Providence from 1909 to 1913. He was elected a Commissioner of Dexter Donation and served from December 21, 1912 through January 5, 1920. He also was a Commissioner of Sinking Funds from 1913 until 1931 and Chairman of Providence draft boards during World War I.

During his term of office as Mayor he advocated and advanced plans for the establishment of our splendid water system and gave encouragement to the development of the Port of Providence. His pleasing personality, coupled with his astute business acumen and sincerity of purpose in civic affairs merited the high honors which were accorded him.

Mr. Fletcher's fraternal and civic associations included membership in St. John's Commandery, Adelphi Lodge, F. and A. M., Providence Central Club, Town Criers, Jewelers Board of Trade and Providence Chamber of Commerce. Despite his advanced age he continued to be active and interested in current affairs. Until a week prior to his death he visited his beloved City twice weekly to confer with old friends at the Town Criers Headquarters.

The members of this City Council desiring to put in some enduring form their sorrow in the loss of such an outstanding citizen, hereby express their deep regret in the loss this City, and most of all his family, have sustained in the death of Mr. Fletcher and extend to the family of the deceased their heartfelt sympathy in the hour of their bereavement.

No. 720. Resolution Approving Tentative Plan for Willard Center Unit 2 Project Area D2-A2.

(Approved November 20, 1953.)

RESOLVED, That whereas the Providence Redevelopment

Agency pursuant to the provisions of Article 5 of the "Slum Clearance and Redevelopment Act," constituting Chapter 2574 of the Public Laws of 1950 of the State of Rhode Island and Providence Plantations, has formulated and submitted on November 2, 1953 a tentative plan for a Project Area within Redevelopment Area D-2 designated by the City Council on July 6, 1948, Chapter 103 of the Ordinances of the City of Providence under the provisions of Section 22 of the Community Redevelopment Act, Chapter 1802 of the Public Laws of 1946 as amended, and

Whereas, A copy of said tentative plan was transmitted to the City Plan Commission on October 21, 1953, and said Commission reported to the City Council on November 2, 1953 that said tentative plan is in conformity with the master or general plan of the City of Providence, and

Whereas, Detailed inspection of 243 of the 298 occupied dwelling units within said Project Area made by inspectors of the Providence Department of Health using survey methods adopted and recommended by the United States Public Health Service indicate that 99% of the dwelling units inspected have serious deterioration, 78% have no central heating, 76% have no inside hot water, 16% have considerable daylight obstruction, 24% have seriously inadequate room facilities, 37% have no private bath, 37% have no bath available, 26% have serious overcrowding, 6% have no private or adequate toilet, and 14% have no dual egress, and

Whereas, The same survey shows that 92% of the dwelling units surveyed are considered inadequate because of insufficient dwelling facilities, deterioration, or obsolescent, hazardous or unsanitary conditions, and

Whereas, Said survey also indicated that 99% of the Project Area's dwelling units have one or more basic deficiencies, and 25% of the dwelling units have three or more basic deficiencies, and

RESOLVED, *whereas,* the Insurance Maps of Providence, Rhode Island, Volume I, published by the Sanborn Map Com-

pany, reveal that 45% of the structures containing dwelling units are of predominantly wooden construction three stories or over in height, and that nearly two-thirds of the buildings are less than 12 feet away from other major buildings, and

Whereas, It is reported by the Providence Redevelopment Agency that 96% of the lots occupied by dwellings within said Project Area are below the 5,000 square foot minimum for new construction established in the Providence Zoning Ordinance, and

Whereas, It is reported by the Providence Redevelopment Agency that one-third of the residential structures in said Project Area also contain stores or other non-residential uses, and

Whereas, The records of the Providence Health Department and State Health Department indicate that the incidence of venereal disease, tuberculosis and illegitimate births is proportionately higher in the area bounded by Blackstone, Plain and Bogman streets and Prairie avenue, of which said Project Area is a part, than for the City as a whole, and

Whereas, The records of the Providence Department of Public Welfare and the Rhode Island Department of Social Welfare indicate that the incidence of aid to dependent children cases and training school admissions is disproportionately high in the said area of which said Project Area is a part,

Now, Therefore, Be It Resolved, (1) That redevelopment of the Project Area described in the tentative plan submitted by the Providence Redevelopment Agency on Novembr 2, 1953 be and hereby is determined to be in the public interest and would tend to effectuate the purposes and policy of said Slum Clearance and Redevelopment Act; and that it be and hereby is determined that said Project Area is an approved redevelopment project area and shall be known as the Willard Center Unit Two Project Area and shall be numbered D2-A2.

(3) That it be and hereby is found and determined in relation to Willard Center Unit Two Project Area D2-A2 on the basis of the facts set forth in the reports and documents mentioned in the Preamble of this Resolution:

(a) That within the Willard Center Unit Two Project Area D2-A2:

(i) 99% of the dwelling units surveyed have serious deterioration;

(ii) 78% of the dwelling units surveyed have no central heating;

(iii) 76% of the dwelling units surveyed have no inside hot water;

(iv) 16% of the dwelling units surveyed have considerable daylight obstruction;

(v) 24% of the dwelling units surveyed have seriously inadequate room facilities;

(vi) 37% of the dwelling units surveyed have no private bath:

(vii) 37% of the dwelling units surveyed have no bath available;

(viii) 26% of the dwelling units surveyed are seriously overcrowded;

(ix) 6% of the dwelling units surveyed have no private or adequate toilet;

(x) 14% of the dwelling units surveyed have no dual egress;

(xi) 92% of the dwelling units surveyed are inadequate because of insufficient dwelling facilities, deterioration, or obsolescent, hazardous or unsanitary conditions;

(xii) 99% of the dwelling units surveyed have one or more basic deficiencies, and 25% of the Project Area's dwelling units have three or more basic deficiencies;

(xiii) 45% of the structures containing dwelling units are of predominantly wooden construction three stories or over in height and the narrow passageways between the buildings constitute serious fire hazards;

(xiv) One-third of the residential structures also contain stores or other non-residential uses resulting in close intermixture of business and industry and housing.

(b) That within the area bounded by Blackstone, Plain and Bogman streets and Prairie avenue of which said Project Area is a part:

(i) The incidence of venereal disease, tuberculosis and illegitimate birth cases is proportionately higher than in the City as a whole;

(ii) The incidence of training school admissions and aid to dependent children cases is disproportionately high.

(4) That it be and hereby is found and determined that said facts demonstrate that because of a predominance of conditions of dilapidation, deterioration, obsolescence, inadequate provi-

sion for light, sanitation and open spaces between buildings, overcrowding of population, unsanitary and unsafe character and condition of physical construction, mixed character of uses which injuriously affect the entire area and constitute a menace to the public health, safety and welfare of the inhabitants of the area and of the community generally, said Project Area is a slum-blighted area within the meaning of Section 2 (a) and 7 (a) of the "Slum Clearance and Redevelopment Act" of 1950 and that said Willard Center Unit Two Project Area numbered D2-A2 is hereby determined to be a slum-blighted area.

(5) That the following constitutes the approved tentative plan for the Redevelopment of Willard Center Unit Two Project Area, D2-A2:

(a) Location and Description of Boundaries

The Willard Center Unit Two Project Area is located in upper South Providence. A legal description of the boundaries of the Project Area is included in Section (2) of this Resolution.

(b) Description of Conditions Existing in the Project Area

That part of the tentative plan describing the condition of housing and social conditions is set forth in the Preamble and Section 3 of this Resolution. Within the 14.7 acres of land in the Project Area, approximately 1,023 people occupy 298 dwelling units. Social data on the larger blighted area bounded by Blackstone street, Plain street, Bogman street and Prairie avenue, of which the Project Area is a typical part, reflect the severe social pressures placed upon many of these people, particularly the children, living in an area of poor housing.

The Willard Center Unit Two Project Area is a predominantly residential area, but the housing is intermixed with incompatible land uses. 68 per cent of the net project area is occupied residentially based on predominant use, although land in wholly residential and supporting use occupies less than 40 per cent of the net Project Area. Both sides of Ash street are occupied by salvage yards. Retail outlets, located for the most

part on the ground floors of deteriorated frame residential structures, are concentrated along both sides of Willard avenue, as well as along Prairie avenue. There are 131 residential structures in the area, and business establishments occupy space in 31 of these.

About 70 per cent of the dwelling units in the neighborhood were built before 1900, and all but 2 per cent of the remaining units were built between 1900 and 1920. No dwellings have been constructed in the area during the past twenty years. 7.8% of those dwelling units in the Project Area reporting tenure are owner-occupied, as compared with about 30% for the City of Providence as a whole.

The Willard avenue and Prairie avenue commercial frontages are congested, the spaces between the predominately wooden structures ranging from one or two feet to eight or ten feet in width. 40% of the 63 structures in the Project Area containing non-residential uses are entirely of wood frame construction, 36% have frame construction in some portion of their exterior walls, and 24% are entirely of masonry construction. The Ash street area is considered one of the worst fire hazards in the City by the Providence Fire Department's Fire Prevention Bureau.

There are 44 retail establishments in the Project Area including 25 selling food or liquor and 19 variety, dry goods, hardware and personal service shops. At the time of survey, some 15 per cent of the stores in the area were vacant, some of these being located in the street-level basements of residential structures. About 40 per cent of the operating business units were found to be owner-occupied. Most of the retail business units lack adequate off-street parking and delivery facilities.

The Project Area ranges in elevation from slightly less than 60 feet above mean sea level at the corner of Willard avenue and Staniford street to about 75 feet along its Prairie avenue boundary, and there are no abrupt topographical changes.

Since 1945, assessed land values in the Project Area decreased 11 per cent, while the value of land within the City generally

held virtually even. By 1950, while building valuations increased 22 per cent throughout the City as a result of a general reassessment, building valuations in the Project Area increased only 18 per cent. The increase for total valuations in the City was 14 per cent, while in the Project Area, the increase was only 9 per cent.

The quality of the neighborhood environment was carefully evaluated by block frontages through the use of American Public Health Association methods. 29% of the neighborhood's blocks are characterized by extreme land crowding, 39% of its block frontages have an extreme incidence of non-residential land uses, and the residential premises in 100% of the blocks have a serious lack of minimum unbuilt yard area. The dwellings in the Project Area are located in an environment which is inadequate for the needs of sound, wholesome neighborhoods. The increasing inadequacy of environment has provided the area's home owners little encouragement to improve their properties or to resist the continual overcrowding of land and the physical deterioration which has ultimately placed their homes and their neighborhood beyond the point of economically feasible rehabilitation.

(c) Reasons for Selection of Willard Center Unit Two as a Project Area

Redevelopment of the Willard Center Unit Two area is to be undertaken at this time for the following reasons:

(i) *The Removal of Blighted Conditions*

The conditions described in the Preamble and Section 3 of this Resolution demonstrate that the Project Area is severely blighted. The redevelopment of the Project Area is designed to eliminate this severe blight by removing inadequate housing and non-residential activities which are detrimental to a neighborhood of homes.

(ii) *The Improvement of Adjacent Housing Areas*

It is expected that the removal of substandard housing and blight-producing non-residential uses from the Project Area and the provision of new recreation facilities and new shopping fa-

cilities to replace those now inadequate will promote the recovery of real estate values in adjacent areas and will stimulate the investment of funds by private owners for improvements on their property.

(iii) *The Scheduling of Other Public Improvements*

The "Master Plan for Playgrounds and Playfields" published in January of 1953 states "A playground of approximately 2.4 acres is proposed in the vicinity of Blackstone street and Prairie avenue to serve upper South Providence. This playground should be acquired and built at the same time as the proposed upper South Providence School. A new playfield is needed to serve the densely populated South Providence neighborhood. The site should contain a minimum area of 6.6 acres and should be located adjacent to the proposed upper South Providence Elementary School and Playground. The plan for development of all three facilities as a single integrated school and recreation center will afford opportunities for a most efficient layout."

The elementary school is scheduled for the Willard Center Unit One Project Area. In conformity to the Master Plan, Willard Center Unit Two proposes a unified site for playground and playfield adjacent to the school site.

The "Capital Improvement Program 1953-1959" published in May 1953 states "$470,000 has been requested for 1953-1954 and $1,130,000 for 1954-1955 for the (Upper South Providence Elementary School) recommended in the Master Plan. This will co-ordinate (the school) with the Willard Avenue Redevelopment Project expected to begin in the fall of 1953." This publication further states that $90,000 has been requested for 1958-1959 to construct a much needed playground and playfield in the Willard avenue vicinity. Its recommendation is "that this project be scheduled for 1954-1955 and be financed with bond funds. This earlier date will be coordinated with the opening of the new elementary school."

Surveys and studies made by the Redevelopment Agency indicate that the Willard Center Unit One and Unit Two Project Areas are in the only location in South Providence where such

severe blighted conditions can be eliminated and these proposed and much needed public improvements can be developed.

(d) General Statement of Redevelopment Proposals

The redevelopment plan shall provide for the elimination of the blighted housing within the Project Area and shall provide for the acquisition of lands, buildings or improvements necessary to assure the proper clearance and redevelopment of the entire area and to prevent the spread or recurrence of conditions of blight thereby protecting the health, safety and welfare of the inhabitants of the City of Providence.

A playground, a playfield and a commercial shopping center are the proposed re-uses on the cleared sites in the Project Area.

No less than one off-street automobile parking space will be required for each 500 square feet or gross floor area in the shopping center building or buildings. The height of said building or buildings shall not exceed 3 stories or 45 feet. Off-street loading facilities will also be required.

(e) Conformity of Redevelopment Proposals to the Master Plan

All the proposals conform to the Master Plan for the community.

The Project Area is within Redevelopment Area D2 defined by the City Plan Commission in the "Master Plan for Redevelopment of Residential Areas" adopted by the City Plan Commission November 25, 1946.

The playground-playfield re-use is in conformance with the "Master Plan for Playgrounds and Playfields" approved by the City Plan Commission on January 13, 1953.

The shopping center re-use is in conformance with the "Master Plan for Land Use and Population Distribution" approved by the City Plan Commission on August 12, 1946. The redevelopment proposals are also in conformance with the recommendations of said "Master Plan for Land Use and Population Distribution" which call for a reduction of densities in the higher density residential districts such as upper South Providence;

for a substantial increase of play facilities in residential neighborhoods; and for the removal of industrial uses, (such as the salvage yards in the congested Ash street vicinity) from residential neighborhoods.

There is no conflict with the "Master Plan for Thoroughfares" (1946).

(f) Financial Feasibility of the Tentative Plan

Preliminary studies of the problems of land acquisition and re-use, marketability and such clearance and development activities as planning, relocation, management, demolition, site improvement and administrative overhead indicate that the gross cost of making the land in the project area available for the new users will be approximately $2,000,000. Estimating that the return to the Agency for sale of land will be approximately $300,000, the net redevelopment cost is estimated at $1,700,000.

This project appears to be eligible for the Federal financial assistance needed to enable the City of Providence to finance redevelopment under provisions of the Housing Act of 1949, and therefore two-thirds of the cost of redevelopment could be paid with Federal funds. The one-third cost of redevelopment which the City of Providence may be required to pay could be financed from the $2,000,000 bond issue for redevelopment purposes authorized by the voters in 1948.

This total cost of redevelopment and the net redevelopment cost to the City will be precised in the redevelopment plan.

(g) How Purposes of the Slum Clearance and Redevelopment Act of 1950 Would Be Attained by the Proposed Redevelopment of the Project Area

Article 2, Section 4 of said "Slum Clearance and Redevelopment Act" of 1950 declares that "The purposes of this Act are . . . to eliminate and redevelop slum-blighted areas . . . in the manner and by the means provided in this Act, thereby to carry out the policy of this State . . . to protect and promote the health, safety and welfare of the people of the State . . .

(6) That it be and hereby is determined that it is necessary that the blighted conditions be eliminated and said Project Area be redeveloped in accordance with the approved tentative plan to attain the purposes of the Slum Clearance and Redevelopment Act, and

(7) That the Providence Redevelopment Agency be and hereby is directed to prepare and submit a redevelopment plan for said Project Area based upon the approved tentative plan, and

(8) That the City Clerk be and hereby is authorized and directed to transmit a copy of this Resolution to the Redevelopment Agency and to the Inspector of Buildings Department, and

(9) That the City Clerk be and hereby is authorized and directed to file in the Registry of Deeds of the City of Providence a description of the land within the Project Area and a statement that proceedings for the redevelopment of said Project Area have been instituted under the "Slum Clearance and Redevelopment Act" of 1950.

(10) That this Resolution shall take effect immediately.
