

# RESOLUTION OF THE CITY COUNCIL

*No.* 126

*Approved* April 7, 2004

WHEREAS, "Healthy Cat Rooms" were conceived with the goal of providing a humane and rewarding method of housing cats for potential adoption; and

WHEREAS, "Healthy Cat Rooms" allow the animals to live in communal settings once they are found to be free of illness and without behavioral problems, providing environmental enrichment while the animals wait for placement with loving families; and

WHEREAS, Bristol's Animal Shelter has benefited for some time by this method of housing felines, and with proper management and attention to disease control, sanitation and behavior, the staff has done an exemplary job in ensuring the "Healthy Cat Room's" success; and

WHEREAS, It has been determined that the Department of Environmental Management is currently drafting animal health regulations which may significantly impact the way our animals are housed and cared for at the various animal shelters throughout the State; and

WHEREAS, The Providence City Council is on record as supporting the "Healthy Cat Room" concept and its continuation in local shelters.

NOW, THEREFORE, BE IT RESOLVED, That the Providence City Council respectfully requests your support in ensuring that the regulations being drafted by the DEM allow for the continuation of this humane method of housing cats and that you notify the appropriate state authorities, as well as your local members of the General Assembly, that you support this practice.

## MEMORANDUM

To: Rhode Island City & Town Councils

From: Diane C. Mederos, Council Clerk

Date: March 4, 2004

Subject: Support for "Healthy Cat Rooms" at Municipal Animal Shelters

-----  
Enclosed is a resolution in support of maintaining "Healthy Cat Rooms" at municipal animal shelters which the Bristol Town Council approved at their meeting of February 18, 2004. Also enclosed is a letter to Christopher Hannafin, the State Veterinarian, concerning this issue.

Regulations regarding animal health are currently being drafted by the Department of Environmental Management, and it is the hope of the Council that the new regulations allow for the continuation of these communal living settings at shelters. It is the position of the Council, after hearing from animal control personnel and professionals, that this is the most humane method of housing cats as they await adoption.

The Town Council respectfully requests that this resolution be placed on your next available Council agenda and that you join them in giving your support in an effort to allow the continuation of "Healthy Cat Rooms" at municipal shelters.

Christopher Hannafin, DVM  
State Veterinarian  
DEM Division of Agriculture  
235 Promenade Street  
Providence, RI 02908-5767

Dear Dr. Hannafin:

The Bristol Town Council heard from various members of the community at their meeting of February 18, 2004 regarding the forecasted changes to the animal health regulations as they pertained to "healthy cat rooms". In addition to Dr. Edward Wakem, Bristol Animal Shelter's veterinarian, and Dyanne Gibree, our Animal Control Officer, several others sent correspondence to the council decrying the possible elimination of healthy cat rooms in the regulations currently being drafted by DEM. After hearing the discussion, the Council took the following action:

Barboza/Herreshoff Voted unanimously to send a letter to the appropriate authority opposing the proposed regulations regarding caging cats, and to also notify the local members of the general assembly; and to send a resolution to other Rhode Island communities asking for their support in this effort.

Your Letter to the Editor in our local paper last week in which you cited inaccurate information being circulated in a previous week's letter is acknowledged and appreciated. However, the Council wishes to go on record as supporting "healthy cat rooms" and requesting that any proposed changes in the regulations be published so that those with concerns about the changes will have an opportunity to air them.

(more)

The Council recognizes that with the proper management and attention to disease control, sanitation and behavior, attributes which our shelter is noted for, communal living increases the potential for adoption. It is the Council's position that not allowing such an environment would be detrimental to the mission of the shelter, lessening the probability for adoption and increasing the possibility of euthanasia.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Diane C. Mederos".

# RESOLUTION OF THE CITY COUNCIL

*No.* 127

*Approved* April 7, 2004

WHEREAS, Rhode Island residents pay the highest health insurance premiums in the nation; and

WHEREAS, Rhode Island recently experienced one of the largest increases in the number of uninsured; and

WHEREAS, 78,350 Rhode Island residents have no health coverage and 66% of them have a full-time worker at home; and

WHEREAS, Due to these rising costs almost half of Rhode Island's small businesses not cannot afford health coverage for their employees.

NOW, THEREFORE, BE IT RESOLVED, That we, the citizens of Providence, Rhode Island, call on our elected officials from all levels of government, and those seeking office, to work with consumers, businesses, and health care providers to ensure that:

- Everyone including the self-employed, unemployed, un-and underinsured, and small business owners, has access to an affordable basic health plan similar to what federal employees receive;
- Everyone, including employers, consumers, and the state, local and federal government makes a responsible and fair contribution to finance the health care system;
- Everyone receives high quality care that is cost efficient and medically effective; and
- That these efforts help control the skyrocketing cost of health care.

### A Resolution in Support of the Rhode Island for Healthcare Campaign

#### The Rhode Island for health care Resolution

Whereas, Rhode Island residents pay the highest health insurance premiums in the nation; and  
Whereas, Rhode Island recently experienced one of the largest increases in the number of uninsured; and  
Whereas, 78,350 Rhode Island residents have no health coverage and 80% of them have a full-time worker at home; and  
Whereas, due to these rising costs almost half of Rhode Island's small businesses now cannot afford health coverage for their employees, therefore be it resolved

That we, the citizens of Providence, Rhode Island, call on our elected officials from all levels of government, and those seeking office, to work with consumers, businesses, and health care providers to ensure that:

- Everyone, including the self-employed, unemployed, un- and underinsured, and small business owners, has access to an affordable basic health plan similar to what federal employees receive;
- Everyone, including employers, consumers, and the state, local and federal government makes a responsible and fair contribution to finance the health care system;
- Everyone receives high quality care that is cost efficient and medically effective; and
- That these efforts help control the skyrocketing cost of health care.
