#3161

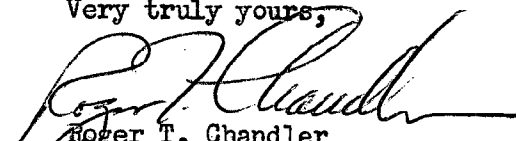

The Hon. City Council
City Hall

Gentlemen:

The Traffic Engineering Department has investigated the intersection of Stokes Street and Dike Street and the intersection of Bough Street with Dike Street in order to determine the need for Boulevard Stop Signs or Yield Signs.

At each of these two intersections there has been reported only two accidents since 1951. Because of the minor nature of the volumes on these streets and the excellent accident history, we feel that no controls should be established at this time.

Very truly yours,

Roger T. Chandler
Traffic Engineer

REF: #3152

The Hon. City Council
City Hall

Gentlemen:

The Traffic Engineering Department has recently reviewed the request for Stop Signs at the intersection of Salina Street and Hawkins Street. Because of the extremely low volume of traffic and the fact that there were only three accidents reported since 1954, we feel that Stop Control should not be established at this time.

Very truly yours,

Roger T. Chandler
Traffic Engineer
