January 14, 1958

The Honorable City Council
City Hall
Providence, Rhode Island

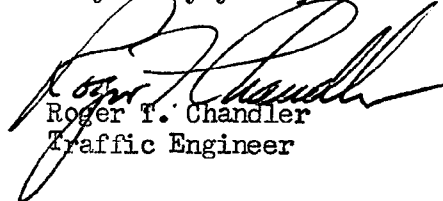

Gentlemen:

Enclosed is a plan showing the construction of a channelization island on Crawford Street between South Main Street and South Water Street. This plan was originally sent to the Committee on Public Works on November 5, 1957, with the proposal to construct this island.

Since South Main Street and South Water Street have been made one way streets, the construction of this island permits a traffic connector from South Main Street to South Water Street, thereby eliminating the necessity for traffic to travel through Market Square in order to make a reversal of direction.

It is therefore requested that the appropriate resolution be approved to establish the southerly half of Crawford Street as a one way street in a westerly direction from South Main Street to South Water Street. The northerly half of Crawford Street will remain a one way street in an easterly direction as approved by a previous resolution.

Very truly yours,

Roger T. Chandler
Traffic Engineer
