RE: LETTER OF DECEMBER 2, 1986, REGARDING E.D. ZONES

Dear Mr. Chairman:

I have reviewed your request and the legislation creating the E.D. Zones.

With regard to amending the Ordinance to allow a portion of a particular census tract, the enabling legislation provides as follows "...must consist of one (1) or more contiguous tract or tracts, or any portion thereof, and...".

Therefore, it is my opinion that any portion or all of a particular census tract may be designated as a E.D. Zone.

As to your second question, it is the opinion of this department that, the local licensing authority can restrict the number of licenses that may be granted in a particular E.D. Zone. This however, should be done in the rules and regulations contemplated as a result of the legislation by the Board of Licenses.

If you have any further questions, please do not hesitate to contact me.

Very truly yours,

Dear Mr. Clifton,

I have been directed by Councilman Thomas F. O'Connor, Jr., Chairman of the Committee on Urban Redevelopment, Renewal and Planning, to forward to you the attached matter for your study and report back in writing to the said Committee.

It is requested that you check the legality as to whether or not, that the City and State legislation allows amending the Ordinance to include a portion of a particular census tract, that is less than half, as opposed to an entire census tract and secondly whether the number of licenses within the district can be restricted.

If you have any questions, please don't hesitate to call me.
