RE: PENDING REQUEST

---

**Request:** To install a traffic signal device at the intersection of Killingly Street and Petteys Avenue.

**Disposition:** This intersection is presently being studied with regard to accident history and vehicular volume studies. The City presently has a list of intersections requiring a traffic signal control system or a flashing beacon. Since there are a number of intersections already on the waiting list, if the warrants were met for this intersection for the installation of a traffic signal or flashing beacon, it would be a few years before funding became available for this intersection. In light of the State funding cuts for Fiscal Year 1991, I do not feel that monies will be appropriated to meet the requests we have made.

# RESOLUTION OF THE CITY COUNCIL
