March 5, 2019

Hello Task Force Members:

I will be resigning effective immediately. I have continued to take on additional responsibilities at work and need to focus efforts on that, among other things, right now. I am in agreement with Julia's resignation communications and believe these positions should be shared and I have enjoyed serving on the task force for the past three years. I hope the Task Force can find support from the Council and Mayor in more actively engaging in, and advocating resources for, a variety of sustainability efforts. I truly value the relationships I have made and hope we can work together in the future.

-Jess Berry
