You may be remembered a hundred years from now

It seems a long time in this era of change but it is a fact that the influence of our forefathers is often carried on for generations.

Especially in business and financial affairs is the record of the past liable to be of vast importance to the present.

The silent testimony of old directories is often accepted by courts as valuable evidence and too much care cannot be taken by business men to insure that all such records are accurate and complete.

Unlike most other mediums for advertising, the Directory is kept on file in many law and public libraries for years after its immediate usefulness as an address book has disappeared and it becomes a permanent record of the firms and individuals listed therein.

A very small sum insures adequate representation from year to year and such record may prove of great service at some future date.
