Dear Mayor Smiley:

The Providence Police Department respectfully requests approval to continue the Behavioral Health Diversion Program with The Providence Center (TPC) to provide Police Navigators/Diversion Clinicians for the period July 1, 2024, through June 30, 2025, in an amount not to exceed \$197,720 for FY2025 (Pending Budget Approval).

The Providence Center is an integral component of the Police Department's behavioral health diversion program. Clinicians from the center provide on-scene assessments of individuals who may be experiencing behavioral health crises. They also refer individuals who require assistance when appropriate to hospitalization, treatment services, or other clinical or recovery support services. This program was originally approved by the BOCS on June 25, 2018 as a three-year program via single source, and it has been renewed every year since then.

Continuation funding of \$197,720 is requested within the FY25 Proposed Budget for the continuation of the diversion program in account 101-302-53227.

EXHIBIT A – Providence Police Navigator/Clinician Scope of Work

The Providence Center (TPC) will provide the following staff and services to the Providence Police Department.

- TPC will provide two full-time (37.5 hours/week) police navigators/diversion clinicians (each a "Police Navigator/Diversion Clinician") to work under the operational direction of the Providence Police Department. The schedule for this workweek shall be determined by the Providence Police Department in collaboration with TPC management. The Providence Police Department may utilize TPC's 24 hour Emergency Services line (401-274-7111) to consult with a clinician at any time the Police Navigator/Diversion Clinician is not available. Such Police Navigator/Diversion Clinician shall hold the Qualified Mental Health Professional (QMHP) credential and will receive Crisis Intervention Training. TPC agrees to involve representatives of the Providence Police Department, as designated by the Chief, in interviewing any potential clinician candidates. Further, should the agreed upon Police Navigator/Diversion Clinician leave this position during the duration of this Agreement or its extension, TPC agrees that no substitute staffing will be agreed without the written permission of the Providence Police Department. Clinical direction and supervision of the Police Navigators/Diversion Clinicians will be provided by TPC and TPC shall exercise control and direction over the methods by which the Police Navigator/Diversion Clinicians perform the services hereunder.
- The Police Navigators/Diversion Clinicians shall aid the Department's efforts by providing on-scene assessments of individuals who may be experiencing behavioral health crises. Such assessments shall be at the request of Providence Police Department officers. The Police Navigators/Diversion Clinicians shall refer people, as appropriate, to hospitalization, treatment services, or other clinical services and recovery support services. These referrals shall be to the treatment or recovery support services provider most appropriate to the individual's needs, without any preference for treatment or recovery support services provided by TPC.
- The Police Navigators/Diversion Clinicians shall also provide follow up to individuals and families, case management, and consultation with other community agencies, probation and parole, as directed by representatives of the Providence Police Department. These visits or meetings may include an accompanying Providence Police Department officer as indicated for safety.
- TPC shall provide the Police Navigators/Diversion Clinicians with computers and other devices that are, at its discretion, necessary to perform the tasks of this Agreement in the community.
- The Police Navigators/Diversion Clinicians may also participate in trainings of Providence Police Department officers and staff or staff of other community agencies. Such trainings might include but are not limited to effective use of verbal de-escalation techniques, Naloxone training, awareness and access for community resources, etc.
- The Police Navigators/Diversion Clinicians will document all clinical services and outreach to individuals in TPC's electronic health record. Clinical services provided by the Police Navigators/Diversion Clinicians will follow protocols developed for TPC electronic health records. Community meetings and trainings provided by the Police Navigators/Diversion Clinicians will be documented outside the electronic health record.

- The Police Navigators/Diversion Clinicians shall track program data to include the number of crises responded to with outcomes of those responses, the number of trainings provided and personnel provided to, etc. The Police Navigators/Diversion Clinicians will work to identify and track other outcomes measures which capture efficacy of the program without compromising consumer's rights to privacy and protected health information. The Police Navigator/Diversion Clinicians will provide quarterly reports to a designated representative of the Providence Police Department.
- The Police Navigators/Diversion Clinicians shall participate in community integration meetings and partnership activities at the direction of Providence Police Department Command staff.
- TPC will provide the Police Navigators/Diversion Clinicians with clinical supervision.
- TPC and the Providence Police Department recognize and agree that the amount to be invoiced under this Agreement does not equal the full costs to TPC of the services provided under this Agreement. The full costs of the services provided under this Agreement, include the salary, fringe benefits, and payroll taxes for the Police Navigators/Diversion Clinicians, local travel for the Police Navigators/Diversion Clinicians, the costs of clinical supervision and program coordination, training and professional development, and indirect costs that include TPC-wide functions such as payroll processing, legal, auditing, professional and general liability insurance, and administrative functions such as information technology, performance improvement, compliance, human resources, finance, billing, marketing, and health information services.
