Report.

Report.

To the Honorable the City Council of the City of Providence:

Manual Training tion.

The joint committee on education to whom was referred, April 28, 1890, the report of the school committee on manual training in the public schools, report they have given the subject careful consideration.

Your committee are of unanimous opinion, that manual training should at an early date, be connected with our public school system and they recommend the passage of the accompanying resolution.

Respectfully submitted,
J. H. Angell, Chairman.

Providence, May 19, 1890.

Read, whereupon it is ordered that the same be received.

Passed, In Common Council, May 19, 1890.
In Board of Aldermen, May 26, 1890.

No 340.

Resolved,

Manual Training School.

That the proposition of the school committee to establish a manual training school is approved, and the committee on education is hereby instructed to report a location and plans for a suitable building for a manual training school, to be a part of the public school system of this city, the cost of such plans to be paid for from the appropriation for school houses and lots.

Passed, In Common Council, May 19, 1890.
In Board of Aldermen, May 26, 1890.
Approved, June 2, 1890.
Henry R. Barker, Mayor.

No. 341.

Resolved.

That the joint committee on fire department be, and they are hereby authorized and directed to procure plans and estimates of the cost of making alterations in the old police station on Richmond street, so that the same may be used for fire department purposes; the expense thereof to be charged to the appropriation for the fire department.

Report.

To the Honorable the City Council of the City of Providence:

The joint standing committee on city property, who by resolution approved May 20, 1890, were directed to report plans and estimates for remodeling the Hammond street school house so as to provide suitable stairways and wardrobe rooms, also heating and ventilating apparatus, would respectfully report:

That they have given said building a critical examination and in submitting the accompanying plans feel that they can recommend their adoption as the best method of modernizing the structure without an excessive outlay, as will be seen by the plan, the contemplated improvement provides for the construction of wings upon the north and south sides for stairways, etc.

Hammond St. Sch. House.

The space from which the old stairs are to be removed is to be utilized for wardrobe rooms, the pupils' clothing is now hung in the school rooms. New floors are to be laid throughout the building, the wainscoting cut down and blackboards made which can be used by pupils

do. of primary and intermediate grades. The furnaces which have been so severely criticised are to be removed, heating and ventilation are to be provided by a central shaft and steam heating apparatus, fresh air to be introduced back of each radiator in the school rooms. The estimated cost including everything necessary to complete the improvements in a first-class manner, is nine thousand five hundred dollars.

If these alterations are decided upon it is necessary that operations be commenced as soon as possible, in order that the building may be in readiness for the commencement of the fall term.

Your committee recommend that the accompanying plan be adopted and also the passage of the accompanying resolution.

Respectfully submitted,
William H. Batchelder,
Chairman.

To the Honorable the City Council of the City of Providence:

The joint standing committee on city property, to whom on May 19, 1890, was referred a joint resolution

Clerk of the Municipal Court.

directing them to enquire into and report to the city council a plan for additional accommodations in the clerk's office of the municipal court, would respectfully report:

That they have given this subject their attention, have made a thorough examination of the premises, and have conferred with the judge and clerk of said municipal court. They find that the present accommodations are entirely insufficient for transacting a business that is yearly increasing in volume. Your committee would suggest that the room now occupied by the law department be vacated, and that it be utilized for municipal court business. To do this it will be necessary to cut a doorway through the partition wall now

do. dividing the two departments, move and adjust the present furniture and fittings, build an addition to the office counter, and possibly make several extra cupboards similar to those now in the clerk's office. Your committee have caused an estimate to be made and find that the cost will not exceed the sum of fifteen hundred dollars; this will include the removation of the rooms after the furniture has been removed. If this change is made the room to be vacated can be occupied by the law department, and in the judgment of your committee will be of ample size for its use.

Your committee unanimously recommend that the change suggested be authorized, and also the passage of the accompanying bill for an ordinance and resolution.

Respectfully submitted,

Report.

Report.

To the Honorable the City Council of the City of Providence:

The joint committee on ordinances, to whom on the twenty sixth day of May, 1890, was referred joint resolution of the city council relative to the act in amend-

Public Works.

Commissioners ment to chapter 677 of the public laws, respectfully report:

They have carefully considered questions contained in the resolution and have obtained the opinion of the city solicitor relative thereto, which opinion is made a portion of this report.

We find that in accordance with the ruling of the city solicitor, the engineering department of the city and the city engineer are entirely under the control of the commissioner of public works. The city can only obtain the services of its engineer through the commissioner of public works.

We recommend the appointment of a joint special committee of the city council, which shall examine carefully all statutes and ordinances pertaining to the department of public works, and recommend to the city council such changes in the existing statutes and ordinances as they shall deem for
do. the best interest of the city.

In behalf of the committee,
Mortimer A. Hartwell, Chairman.

Read, whereupon it is ordered, that the same be received.

Passed, In Common Council, June 9, 1890.
In Board of Aldermen, June 19, 1890.

(For Opinion of City Solicitor See City Council File June 19, 1890 also Printed Resolutions Series, 1890, Page 287).

Communication:

City Auditor

City of Providence,
City Auditor's Office,
City Hall, June 23, 1890.

Salary of City Clerk.

To the Honorable the City Council:

The undersigned respectfully notifies the

do. city council that the salary to be paid to the city clerk for the balance of the municipal year, will be at the rate of thirty-five hundred dollars per annum.

In reply to a communication from this department, the city solicitor has given an opinion that as Chapter CCLVIII of the ordinances, fixing the salary of the city clerk from and after the first Monday in June, 1890, at the rate of twenty-five hundred dollars per annum, did not become a law until June 5, 1890, after the present City Clerk was qualified to act, the salary of the present incumbent cannot be changed to twenty-five hundred dollars per annum until the first Monday in January, 1891.

Respectfully submitted,
William D. Nisbet,
City Auditor.

No. 422.

Report.

To the Honorable the City Council.

Report.

The joint standing committee on fire department who were directed by resolution No. 341, current series, to procure plans and estimates of the cost of making alterations in the old police station on Richmond street, respectfully report:

That they have attended to this duty and present herewith the necessary plans, together with an estimate of the cost, and recommend their adoption. The estimated cost is sixty-five hundred dollars. These plans have been made with the view of reserving this portion of the building, which is at present unoccupied, available for fire department purposes, it being the desire of the committee to have the company and apparatus of the protective department removed thereto. The insurance associations are heartily in accord with this movement and have expressed their intention, if these plans are carried into effect, to add at their own expense, another wagon together with the necessary equipments, and also to make

Fire Station on Richmond St.

other improvements in this branch of the service which will afford greater facilities of preventing damage to property at times of fire.

In order that the alterations may be made as soon as possible the committee recommend the passage of the accompanying bill for an ordinance.

Report.

Report.

To the Honorable the City Council of the City of Providence:

The joint committee on highways, to whom on the fifth day of June, 1890 was referred a resolution of the board of Aldermen directing the committee to inquire into and report whether or not any land at the junction of High and Cranston streets will be needed for highway purposes, respectfully report:

That they have carefully considered the matter, have examined the territory named in company with the commissioner of public works and the city engineer, and have conferred with owners of the property. Your committee are of the opinion that it is very desirable for the city to secure this land for highway purposes, and therefore recommend the passage of the accompanying resolution authorizing the mayor to purchase said land at an expense not exceeding fifteen hundred dollars.

Report.

To the Honorable the City Council of the City of Providence:

The joint committee on ordinances, to whom on the twenty-third day of June, 1890, was referred the petition of the New England Printing Company for permission to erect poles and maintain wires in certain streets, respectfully report:

New England Telegraph Printing Co.

That they have considered the matter, have given a public hearing thereon, as required by ordinance, and find from the report of the city engineer that no reason is found by that officer to the construction of a telegraph line in the streets asked for by the petitioners, who agree to replace the present fire alarm poles with new and more modern poles and to string thereon, without expense to the city, the fire alarm signal wires, as no additional poles are to be placed in any of the streets of the city by this company, your committee recommend the passage of the accompanying bill for an ordinance.

Respectfully submitted for the committee.

To the Honorable the City Council of the City of Providence.

The joint committee on parks, to whom on the 19th day of June, 1890, was referred a resolution of the city council to take certain land for park purposes, with instructions to consult with the city solicitor thereon, and to report to either branch of the city council, respectfully report:

That they have considered the same, have obtained the opinion of the city solicitor upon said resolution, which accompanies this report. Your committee find that the resolution referred to them is slightly inaccurate under the provisions of chapter 876 of the public laws, and they therefore recommend that the resolution be amended by inserting in the second line after the words "East and Wickenden streets" the words "in said city of Providence," and also by adding after the word "City" in line 22 the words "said description and statement to be filed in said office on or before the eleventh day of September, 1890." With these amendments to the resolution your committee unanimously recommend the passage of the same.

Finance Committee Report.

Report.

To the Honorable the City Council of the City of Providence:

The joint standing committee on finance present herewith a bill for an ordinance making appropriations for the support of the city government for the financial year ending September 30, 1891. The city auditor's estimated expenditures, made to the city council March 17, 1890, were $2,912,190.91.

The taxable valuation of the real estate and personal property for the year ending September 30, 1891, as returned by the assessors of taxes September 1, 1890, is:

Real estate,	$104,684,440.00
Personal property,	35,932,620.00
Total,	$140,617,060.00

These figures show a gain in real estate of $1,834,340.00 and a loss in personal property of $1,694,620.00, which gives a total gain of $139,720.00 as compared with the valuation of 1889. The rate of tax as approved by the city council May 21, 1890, was $1.50 on each $100.00 of the valuation, which will produce a revenue of $2,109,255.90.

The revenue from other sources will be as follows:

For lay out of Dexter street,	$4,407.00
For lay out of West Exchange street,	32.00
For concreting sidewalks,	20.56
For unlawful building,	50.00

From receipts as estimated by the city auditor, $523,200.00

This shows a total revenue of $2,636,965.45. As will be seen by a comparison of the above figures the deficiency between the auditor's estimates of receipts and expenditures leaves a deficit of $275,225.46.

Your committee have sought to present a bill for an ordinance that would come within the estimates as shown above. After a careful study of the needs of the various departments, the bill as presented still shows a deficiency of $61,725.45, but as the receipts for liquor licenses for 1891 are not included in the estimates, as made by the city auditor, your committee are of the opinion that there will be ample receipts to meet the appropriations as recommended. Your committee submit the accompanying bill for an ordinance and recommend its passage.

Respectfully submitted for the committee,
William P. Vaughan,
Chairman.

Read, whereupon it is ordrd, that the same be received

Report of 4th of July.

Fourth of July.

To the Honorable the City Council of the City of Providence:

The joint special committee on the fourth of July celebration respectfully report:

That immediately upon their appointment and organization they proceeded to formulate a program for the celebration, which, with but few modifications, was successfully carried out.

The amount appropriated by the city council was four thousand dollars, and the full sum allowed to the committee was expended, as may be seen on the schedule of the several items of expense on file with the vouchers therefor in the office of the city auditor.

That the celebration was eminently successful and very satisfactory to the citizens, was in a great measure due to the hearty co-operation of the several persons who aided the committee in carrying out the details of the program. Especially do the committee desire to recognize the efficient services of General Charles A. Wilcox, Chief Marshal of the military procession, who devoted much valuable time in organizing a parade which in recent years has not been excelled. To John Shepard, Jr., Esq. the committee are greatly indebted. His services as chief marshal of the trades procession cannot be too highly commended, and the energy which he displayed in inciting among the merchants and trades people an interest in the celebration, resulted in securing a display which has never been equaled.

The committee desire also to place upon record their full appreciation of the services of all who in any way, assisted in making the anniversary of American independence of 1890, memorable in the history of the municipality.

Park Commissioners.

To the Honorable the City Council of the City of Providence:

The joint committee on Ordinances, to whom on the 27th. day of October, 1890, was referred a bill for an ordinance providing for the election of park commissioners," with authority to report to either branch of the city council, respectfully report to either branch of the city council, respectfully report:

Park Commissioners Report.

That they have given this matter the attention its importance merits. The bill referred to the committee by the board of aldermen places the custody and control of all parks within the city, under the care and direction of park commissioners, upon whom will be conferred all of the powers of the joint committee on parks. The commissioners are also required to perform all of the duties of said committee and all of the duties that from time to time may be determined by the city council. Having devoted some time to the present method of management respecting parks your committee are of the opinion that the change proposed cannot fail to inure to the best interests of the city. They therefore return the bill for an ordinance referred to them, and recommend its passage, with two amendments thereto, viz:

In line 7, section 1, strike out all after the words, "without pay" and insert in lieu thereof the following, "during their term of office, which term shall continue until their successors are elected and qualified to act."

2.- In line 12, Sec. 2, strike out the words "one thousand dollars" and insert in lieu thereof the words "seven hundred dollars".

Respectfully submitted,
For the committee,
H. N. Harwell,
Providence Dec. 22, 1890. Chairman.

Manufacturers' Waste.

Manufacturers Waste.

To the Honorable the City Council, The Joint Special Committee of the City Council appointed by resolution No. 313, series of 1890, "to take into consideration and report upon the whole matter of the disposition of manufacturers' waste", respectfully submit the following preliminary report:

That the committee, immediately after its organization, consulted with the commissioner of public works and the city engineer, having in view the adoption of a general comprehensive system of inquiry into this important problem. Leading manufacturers were invited to afford the committee such co-operation as they deemed for the best interests of the community, and it is gratifying to record that in almost every instance a disposition has been manifested to extend to the committee every assistance possible. Several gentlemen have exhibited to the committee the methods employed at their respective establishments in treating mill wastes

Do. at a profit. The systems chiefly in use in this vicinity are the evaporation process, the filtration and the irrigation methods, each of which your committee have carefully inspected. The result so far obtained by the evaporation system does not show that state of perfection that its projectors confidently hope to attain in the near future.

A company has been organized in this city for continuing the experiments that have already proved partially successful in the treatment of wool washings, and the results accomplished by this evaporation process will be awaited with deep interest.

The committee have endeavored in their investigations, first, to ascertain the principal sources of defilement of the rivers; and second, to obtain a thorough knowledge of the best means for utilizing or disposing of such defiling matter. The committee has made considerable progress in obtaining testimony covering both of these points, and as soon as their work of investigation is completed will report in detail thereon to the city

Do. council.

Do. Your committee recommend the passage of the accompanying resolution continuing the joint special committee on manufacturers' wastes.

Respectfully submitted,
George L. Vose,
Chairman.

Message of the Mayor.

Messages

City of Providence
Executive Department,
City Hall, January 29, 1891.

Gentlemen of the City Council:

I learn that there are several city officials who are receiving money in behalf of and are custodians of funds belonging to the city and from whom bonds have never been required.

While there seems to be no impropriety in these officers receiving money in behalf of the city, as a matter of convenience in the conduct of business of their depart-

ments, yet they should be required to give bonds in accordance with the provisions of the City Charter.

I therefore recommend that the matter be referred to the committee on ordinances, with instructions to prepare and report an ordinance requiring from such officials bonds with satisfactory sureties for the faithful performance of their duties, in accordance with the requirements of clause 13 of the city charter.

Mayor's Message.

City of Providence
Executive Department
City Hall, February 2, 1891.

Gentlemen of the City Council:

Boundary line at Manton.

I have received from the city solicitor the accompanying communication, submitting an act proposed by the town of Johnston, together with a plat, relative to a change in the boundary line between that town and the City of Providence at the location of the new bridge constructed over the Woonasquatucket river at Manton.

By resolution of the city council No. 163, series of 1890, the city solicitor was directed to unite with a committee from the Town of Johnston in procuring from the general assembly the passage of an act submitted to and approved by the city council at that time, and which was supposed to be satisfactory to the town.

The town, however, has failed to agree upon the act as proposed by the city council, and has submitted the accompanying act as a substitute therefor, and by which a largely increased area is transferred from the city to the town of Johnston.

I recommend that a joint special committee be appointed to confer with the committee of the town of Johnston relative to the matter, with power to act.

Charles Sydney Smith, Mayor.

Police Surgeon.

Police Surgeon.

To the Honorable City Council of the City of Providence:

The joint committee on ordinances to whom on the twentieth day of January, 1891 was referred a message of his Honor the Mayor relative to a police surgeon, together with a resolution of the City Council, directing the committee on ordinances to prepare and report an ordinance providing for the appointment of and fixing the salary and defining the duties of a police surgeon, respectfully report:

That they have fully discharged the duty assigned them, and have given the matter careful consideration. The committee find that under the rules of the board of aldermen for the government of the police department provision is made for and the duties to be performed by a police surgeon defined, but there is no authority for the appointment of this officer. It has been the custom for some time for an acting surgeon to fulfill the duties of this office, and monthly bills have been rendered for his services. Your committee think that practice should not be allowed to continue and they are of the opinion that the efficiency of the police department will be greatly enhanced by the adoption of an ordinance providing for the election, fixing the salary and defining the duties of a police Surgeon.

Police Surgeon.

The committee, therefore, respectfully submit the accompanying bill for an ordinance and unanimously recommend its passage.

For the Committee,
Leander K Peck
Chairman.

Thomas Davis Estate.

To the Honorable the City Council of the City of Providence:

The joint special committee of the city council appointed by resolution No. 664, approved November 10, 1890, "to confer with Thomas Davis and secure, if possible, both in form and in fact, a good and sufficient title to the Thomas Davis Estate, so called, being the estate now owned by the said Thomas Davis, and situated in the tenth ward of the City of Providence, which estate the city council has voted to purchase for park purposes, said title to be subject to the approval of the city solicitor," respectfully report:

Thomas Davis Estate.

That they have given the matter thorough examina-

Do. tion and have conferred with the city solicitor and several other legal authorities respecting the imperfections that are said to exist in the title to this property. The law department, in October, 1890, reported that the title to the Thomas Davis estate was defective, in that there is no evidence of a proper discharge of a mortgage upon the estate in the office of the recorder of deeds, and also that there is no evidence that there are no judgments outstanding against Thomas Davis, who made an assignment in 1878. Your Committee have given a hearing to Mr. Thomas Davis, who presented to them the original deed of this estate and was willing to make oath that the mortgage had been duly cancelled, but that unfortunately he had mislaid and lost one of the notes. The other notes paid by Mr. Davis were submitted in evidence and a close inspection of the paper upon which they are written discloses unmistakable indications that a section of the page had been cut off and this portion, it is claimed, is probably the missing note, which was evidently cut off when it was paid.

Do. In addition to the declaration of Mr. Davis that the mortgage has been fully and legally discharged, he also agrees to deposit a guarantee fund of $5,000.00 to protect the city against any judgments that may be held by creditors arising from the assignment made in 1878.

The committee have had the city engineer make a new survey of the Davis estate, which is attached to and made a part of this report and therein it is shown that the boundary lines are sufficient and accurately defined. In view of all the facts presented, your committee are unanimously of the opinion that the city council can secure, both in form and in fact, a good and sufficient title to the Thomas Davis estate, so called, and they, therefore, recommend the passage of the accompanying resolution, directing the city solicitor to approve the title to said estate whenever

No. 115. Old Town Records.

To the Honorable the City Council of the City of Providence.

The joint standing committee of the city council on education, to whom was referred in board of aldermen, July 2, 1890, and in common council, January 19, 1891, petitions praying that the early records of the town may be printed, respectfully report:

Old Records.

That there are several ancient books of record in the offices of the city clerk, of the clerk of the municipal court and of the recorder of deeds, which are in such a condition, from long use, that the preservation of their valuable contents can be accomplished only by reproducing them in a substantial and permanent form. These records are highly valuable, first, as furnishing material for the very important and interesting early history of the town; and, secondly, as furnishing evidence by deeds, layouts, wills, and many other particulars of the greatest consequence in tracing and proving the ownership and descent of property. In their present condition, they are in large part legible only by experts, and they are subject to the chances of destruction from wear and accident.

Do.

Your committee are of the opinion that these records should be reproduced by printing rather than by writing. The printed copies will be more legible, can be examined by several investigators at the same time, will not be subject to mischievous alteration, and the possession of a number of copies will enable the city to make to other municipal governments and to public libraries such distribution of these monumental records of our early history as may seem proper.

They have endeavored to ascertain approximately the cost of such printed copies, but they find that a careful examination of the record books must first be made in order to determine how many volumes require to be reproduced, and in what style it is best that they be printed. They therefore recom-

Old Records.

-mmd that this work be begun by the appointment of a commission, with authority to do the preliminary work, and produce one volume of copies in a manner worthy of the importance of the work. On the completion of this volume, the commission will be able to report much more definitely than can be estimated, the probable extent and cost of the work, and the city council can better decide when and how far it is advisable to continue.

The committee, therefore, recommend the passage of the accompanying resolution.

Bonds of City Officers.

Report To the Honorable the City Council of the City of
Providence:

Bonds of City Officers. The joint committee on ordinances, to
whom was referred the message of his honor
the mayor relative to bonds of certain officers, to-
gether with a resolution instructing "the com-
mittee on ordinances to prepare an ordinance
requiring from all persons entrusted with the
receipt, custody or disbursement of the funds of
the city, bonds with sufficient sureties and penal-
ties, in accordance with the requirements of
clause 13 of the City Charter," respectfully report:

That
they have given the matter appropriate consider-
ation, and have consulted with his honor the

Bonds of City Officers.

mayor respecting the change contemplated. The committee find that there are a number of city officials receiving money in behalf of the city, as well as several who are the custodians of funds of the city, from whom bonds have never been required.

This practice, it is unnecessary to state, is disapproved by your committee, and in their opinion should not be permitted to continue. After a careful examination of this subject, your committee submit the following bill for an ordinance requiring all officials having the receipt, custody or disbursement of the funds of the city to give a satisfactory bond, to be approved by the board of aldermen. The ordinance also authorizes city officers who receive any fees or other funds belonging to the city to take a satisfactory bond from every subordinate or assistant who is authorized to receive or have the custody of such fees or other funds in behalf of such officer. The committee herewith return the resolution directing them to inquire into this matter and present the accompanying bill for an ordinance, and unanimously recommend its passage.

Respectfully submitted, for the committee,

Finances.

Report

"Finances"

To the Honorable the City Council of the City of Providence:

The Joint Committee on Ordinances, to whom, on the fourth day of May, 1891, was referred a bill for an ordinance in amendment of and in addition to Chapter XIV. of the ordinances, entitled "Finances," respectfully report:

That they have given the matter careful consideration and find that the proposed ordinance differs from the one passed by the common council April 27, 1891, in two particulars:

Finances.

First, it authorizes the issuing of notes by the city treasurer under the advice and direction of the committee on finance, payable on fixed dates as well as on demand.

Second. It does not limit the power to issue notes to the provision "of funds for the payment of any city note, bond or other obligation which now is or shall hereafter become due and payable."

The proposed ordinance is objectionable in that it permits or may be construed to permit the city treasurer and the committee on finance to issue notes for any

Finances. city purposes within the limit of the Charter without previous action by the City Council. This power should, we think, be confined to issuing notes either to provide for obligations already outstanding or for loans authorized by vote of the City Council.

The purpose of the ordinance, however, to allow the issuing of city notes payable to the commissioners of sinking funds on demand, instead of at a fixed day, so as to relieve the city officials from unnecessary labor in attending to repeated renewals, is perfectly proper and should be provided for.

The committee therefore recommend that the bill for an ordinance referred to them be indefinitely postponed and recommend the passage of the accompanying bill as a substitute.

For the Committee,
Leander K. Rick, Chairman.

Fire Station on Richmond Street.

Report

Fire Station

To the Honorable the City Council of the City of Providence.

The Joint Standing Committee on City Property would respectfully represent that they are unable to complete the

Richmond St. necessary repairs and alterations at the fire station on Richmond Street with the money at their disposal.

Your committee made as careful an estimate of the amount required as was possible under the circumstances, and the sum requested was sufficient to cover all items which to their knowledge was needed. After commencing upon the work alterations which were not contemplated by them were requested and urged by the chief of the fire department, and such representations made as to their necessity that your committee felt it imperative for the best working of the force that they should be complied with. Painting remains to be done upon the exterior and portions of the interior. The sum of three hundred dollars is needed to make a complete finish.

Your committee feel unwilling, after the extended alterations and improvements which have been made, to leave it in an unfinished condition. They therefore respectfully request that they may be allowed to complete the work by the passage of the accompanying resolution.

Respectfully submitted,
William W. Batchelder,
Chairman Committee on City Property.

Sewerage.

To the Honorable City Council:

The communication from Mr. Robert

Robert Coscadon. Coscadon, referred to me, has been considered with the city engineer and Chairman of the committee on sewers. His system of treatment of the sewerage was fully explained, and it seems to be an effective way of disposing of the same if he can accomplish by his method all he claims for it; his manner of trapping the catch-basins is substantially the same as that now in use by the city, and is considered very efficient.

Sewerage. The large sewers now being constructed will empty themselves by gravity, and there is no necessity of changing the plans adopted by the city council. It seems unnecessary to further consider this matter until some sewers have been ordered by the city council which will require the use of some such device.

Very respectfully,
Robert E. Smith,
Commissioner.

Read, whereupon it is ordered, that the same be received.

Passed, In Common Council, May 25, 1891.
In Board of Aldermen, May 25, 1891.

Resolved,

That the city solicitor be and he is hereby requested and directed to appear before the general assembly at its May session and request and advocate the passage of such legislation and the submission of such amendments to the constitution as will provide that in all elections of senator and representatives in the legislature from the City of Providence and in all elections of officers in said city now elected by popular vote, and requiring a majority to elect, in case a special or second election shall be required by reason of no candidate receiving a majority of all the votes cast at the first election, the candidate receiving a plurality of the votes cast at such second election shall be declared elected.

Plurality Election.

Gentlemen of the City Council:

The banking firms, to whom were given the recently issued sewer bonds, have requested that the ordinance of the City Council authorizing said loan should contain a more explicit reference to the acts of the General Assembly by authority of which said bonds were issued before their acceptance of the same. I have communicated you at this time that such amendment may be made to the ordinance as will meet the requirements of the parties to whom the loan was issued. I would therefore recommend the passage of the accompany-

Communication.

Kingston, R. I. September 8, 1891.

To the City Council of the City of Providence:

I see by the newspapers that the Common Council has passed an "ordinance" or vote providing for the endorsement of the bonds of the Providence & Springfield Railroad Company by the City of Providence for the amount of five hundred thousand dollars, this being as I understand, renewal of some former guarantee and also to guarantee the bonds of the same company an amount not exceeding twenty five thousand dollars per mile of track laid or the extension of railroad from its present terminus in Pascoag to a connection with the New York and New England Railroad at or near East Thompson in Connecticut. This vote is passed under some pretence or power conferred by an act of our legislature.

Wm. S. Potter

Prov. & Springfield R. R. Co.

The constitution of the state of Rhode Island, article 6, section 13, is as follows: "The General Assembly shall have no power hereafter, without the express consent of the people to incur state debts to an amount exceeding fifty thousand dollars, except in time of war or in case of insurrection or invasion; nor shall they in any case without such consent, pledge the faith of the state for the payment of the obligations of others. This section shall not be construed to refer to any money that may be deposited with this state by the government of the United States.

By the constitution the state is expressly prohibited from pledging the faith of the state in any form unless it first has the express consent of the people to

Bnor. v. Springfield R.R. Co.

dr er.

Can, then, the General Assembly authorize or empower the state treasurer or any other state officer or person to guarantee the bonds or debts of any person or corporation, or can it authorize or empower any city or town to guarantee the debts or bonds of any person or corporation? That is, can the General Assembly in anywise authorize the doing of that which itself is expressly prohibited from doing; can the agent have a greater power than the principal, or can the state dr indirectly that which it is expressly prohibited from doing directly?

If the General Assembly can authorize the City of Providence to guarantee their bonds, mortgage and pledge, its power of taxation to pay them, it can authorize every other city and town in the state to dr the same and without limit, and er mortgage and pledge the whole of the state for the debts of others, whether they others be persons or corporations and within or without the state.

It is a maxim of law that when anything is forbidden to be done, whatever tends or leads to it, as a means of compassing it is at the same time forbidden.

There is another feature of this proceeding (nr more than the other) namely: That this guarantee is to include and cover bonds issued to build a railroad in another state, Connecticut. Why may not the Assembly pass an act authorizing the City of Providence to extend this, their Connecticut railroad, to Alaska? It has precisely the same power to dr the latter as to dr the former.

One thing, however, is settled, that is, that whoever deals with cities or municipalities deals at his peril.

Both as a citizen of the State and as a taxpayer in Providence I protest against said act of the General Assembly and against said City of Providence renewing any guaranty to any of said bonds specified in said act of the Assembly or in said vote of said city, and also against its guaranteeing in any form or manner any of said bonds specified either in said act of the Assembly or in said vote of said Common Council of the said City of Providence.

Report of the Joint Special Committee upon the Fourth of July Celebration.

Report

To the Honorable the City Council of the City of Providence:

The joint special committee upon the Fourth of July Celebration, respectfully report;

That they attended to the duties assigned them by successfully carrying out a programme which appeared to be satisfactory to all our citizens.

Fourth of July.

The amount appropriated by the city council was four thousand dollars, and the full sum allowed to the committee was expended, as may be seen on the schedule of the several items of expense on file with the vouchers therefor in the office of the city auditor.

The committee hereby acknowledge the valuable aid rendered them by General Elisha H. Rhodes, chief marshal of the military parade; Captain John H. Kenyon, chief marshal of the pyrotechnic parade; Chief of Police Benjamin A. Childs, for his admirable police arrangements, and their full appreciation of the services of all who in any way assisted in making the celebration of the One Hundred and Fiftieth Anniversary of American Independence a complete success.

Respectfully submitted.

Pawtuxet River

Department of Public Works,
Commissioner's Office, City Hall,
Providence R. I. January 20, 1892.

To the Honorable City Council:

Gentlemen: The subject of the pollution of the Pawtuxet river and its tributaries above the point where the City of Providence takes its supply demands immediate attention, and more effectual means should be taken to prevent said pollution.

Various measures have been adopted in the past to remedy the trouble, by admonishment, negociations, and through the channel of the public laws. The result has been unsatisfactory, although a large number of nuisances have been removed.

As it became evident that a more rigorous method was necessary to abate the trouble, Mr. F. C. Butterworth was last summer appointed to make a careful and thorough inspection of the river.

The result of his work is stated in a full report to this department and accompanies this communication.

Since the report was received, the attention of D. W.

Pawtuxet River

Thompson, engineer for B. B. & R. Knight, has been called to the condition of the property of that firm. He immediately expressed a willingness to remedy the trouble, and is now proceeding with the work suggested by this department. Mr. A. L. Ordway, president of the Interlaken Mills, has been likewise interviewed, and is now taking steps to prevent the further defilement of the Pawtuxet from said mills.

Several other parties mentioned in the report have also stated that the nuisances would be abated.

The power conveyed by chapter 640, Sec. 7, of the public laws, relating to the matter, has proved unsatisfactory, and to enable the city to obtain pure water the commissioners urgently request that a resolution be adopted directing the city solicitor to appear before the general assembly at this January session and request the enactment of such additional legislation as shall effectually prevent the further defilement or pollution of the waters of the Pawtuxet river.

Very respectfully,
Robert E. Smith,
Commissioner.

No. 73.

Peter Mc Kenna.

Whereas Doubt has been raised as to the validity of a certain conveyance of lands from the City of Providence to Peter Mc Kenna of said city, by deed dated June 10, 1887, and recorded in the records of land evidence in said Providence in deed-book No. 243 at page 201, by which said city intended to convey to said Mc Kenna the lands in said deed described, to wit: a lot of land on the northerly side of Cypress street in said city, bounded as follows: beginning from the southeasterly corner of the lot hereby conveyed, at a stone bound on the northerly side of Cypress street, thence running westerly in the line of said Cypress street fifty feet to a stone bound, thence turning a right angle and running northerly eighty-six and 22-100 feet to an assumed northerly line of the lot hereby conveyed, passing through a stone bound

Do. eighty-four and 22-100 feet from said last mentioned stone bound, thence making an interior angle 89° 49 2-3' and running easterly in said assumed northerly line fifty-four to a stone bound, thence making an interior angle of 90° 10 1-3', and running southerly eighty-six feet and 17-100 to the point of beginning, containing 4312 1-4 feet more or less, and hereon bounded, being lot number twenty on the map of the "Seekonk Lot," recorded in plat book 7, page 4, in the office of the recorder of deeds in said city.

And whereas, it appears that said Mc Kenna (having paid full consideration for said lands and being still in possession of the same) is justly entitled to a further assurance of said lands, therefore be it

Resolved That the sale of said lands by said city, its officers and agents to said Mc Kenna be and the same is hereby ratified and confirmed, and that His Honor the Mayor is hereby authorized and requested to execute in the name of the City of Providence, a deed of release and quit-claim to said Peter Mc Kenna, his heirs and assigns, of all right, title and interest of the City of Providence in and to the aforedescribed tract of land; said deed to be prepared at the expense of said Mc Kenna and approved by the city solicitor.
