Re: Petition of Old Colony

Dear Mr. Andrew:

This is in response to your April 13th communication addressed to the Committee on Ordinances of the City Council. With reference to your request for specific information concerning the nature of the change for pertinent zoning ordinances, may I advise that the petition is filed in the broad sense in that the request is to change to an M-1 General Industrial Zone, and not for a specific use permitted within the said zone.

The purpose for the public hearing is so that abutters of property within 100 feet radius of the locus in question can be informed as to specific intended use by the petitioner.

The citation concerned in this petition is Chapter 544, of the Ordinances of the City of Providence, Approved September 21, 1951, as amended more specifically Art. VI-Sec. 61. Unfortunately, there are no available copies of this specific ordinance for distribution. However, inspection of the above can be made in this office.

I trust the above information will be helpful.

being hereinafter called the "Town".

W I T N E S S E T H:

That the parties hereto, in consideration of the
mutual covenants and agreements herein contained, mutually
covenant and agree each with the other as follows:

FIRST: Said City, for itself and its successors,
hereby covenants and agrees with the said Town, and its successors,
that it will take and admit into its sewer system from said Town
and its successors, for and during the period of two (2) years
from the first day of May, A. D. 1962, all the domestic sewage from
the sewer system of the said Town now or hereafter constructed,

by and through connections between said sewer system in said Town and the sewer system in the said City, and made at various places at or near the dividing boundary line between the said City and the said Town; and said City will at its expense dispose of such sewage by means of its sewage disposal plant at or near Fields' Point in said City, or otherwise.

SECOND: Said Town shall pay to the City Collector of said City for service charges for the treatment and disposal of said sewage and all charges in connection with the handling thereof the sum of TWO HUNDRED THOUSAND (\$200,000) DOLLARS. Such amount shall be paid by the said Town in equal installments of TWENTY-FIVE THOUSAND (\$25,000) DOLLARS, commencing on May 1, 1962, and succeeding payments shall be made on the first business day of August, November, 1962; February, May, August, and November, 1963; February 1964.

THIRD: The right of said Town hereunder to connect its said sewers with said Providence sewers and discharge its said sewage into said Providence sewer system shall be subject to and in conformity with all laws of the State of Rhode Island and all general laws, ordinances, resolutions and regulations of said City now or hereafter in force during the continuance of this Agreement and said City shall be under no obligation to receive from said Town any sewage or other matters into its sewer system which is prohibited by any of the same, and no live steam, oil, gasoline, or other explosive or other matter injurious to said Providence sewers or sewer system or the use thereof in said City shall be allowed by said Town to be turned, conducted, or discharged into said Providence sewer or sewer system, and any work including labor, and materials, or repairing or otherwise, remedying any damages to said Providence sewers or sewer system, resulting from any breach of this condition shall be paid for by said Town, any damages suffered by any person or persons by reason of any breach of the same which said City shall be liable

to pay shall be paid by said Town, or if paid by said City, said Town shall reimburse said City therefor, as the charges for the service rendered said Town hereafter are not adequate to warrant said City's undertaking, assuming or paying for any of the same.

FOURTH: On or before the termination of this Agreement, the said Town agrees to install meters for the measure of flowage of all sewage into the sewer system of the City, and the said Town agrees that the meters shall first be approved by the City as to type, and that the City shall also have the right to determine the method in which these meters are installed and operated.

With the approval of the Director of Public Works of the City of Providence, sewage may be conducted into the sewer system of the City at locations considered impracticable for the installation of meters because of small sewage flow in areas where few houses are to be served. At such locations the flow shall be estimated, based upon a per capita flow of 100 gallons each 24 hours.

FIFTH: Upon the termination of this Agreement, all subsequent agreements between the City and Town relative to the disposition of sewage of the Town shall be based on the readings of the meters hereinafter installed and the estimated flow at locations where meters are impracticable, and as estimated by the Director of Public Works of the City of Providence in case of failure of any meter at any time to register the flow of sewage.

IN WITNESS WHEREOF, the said CITY OF PROVIDENCE has caused these presents in quadruplicate hereof to be executed and its municipal seal to be thereto affixed by WALTER H.
