STEPHEN GREENE.

THE Charter Oak Life Insurance Co.

Has returned more than one-fourth of its entire income during the last seven years, to its policy holders, in the shape of dividends. No other company doing business in New England can show such results.

The Insurance Commissioner of Massachusetts, Hon. Julius L. Clarke, in report Jan. 1st, 1873, says of Deposit Insurance:

"There are two things which the Charter Oak Life Insurance Company definitely agrees to do, in its so-called Deposit Policies. First, it agrees to furnish insurance for a certain amount—say \$10,000—during a specified term; and secondly, it agrees to pay the policy holder, at the end of it, another amount, which is also specified—say \$2,500—with his proportion of profits. Such a policy, therefore, is held to combine temporary insurance with what is known in life insurance as a pure endowment. If the policy holder dies within the term, he receives the sum insured, and, if he lives until the end of it, he receives the amount of the endowment."
"They are called Deposit Policies because they promise, upon the surrender of the policies, during the term, the payment of a liquidated sum."

BOUNDARIES OF THE SEVERAL WARDS.

First Ward.—Including all that portion of the city lying north of the following line, to wit: Commencing at the intersection of the old line of North Providence with the Woonasquatucket river, and running thence easterly along said river to its junction with the Moshassuck; thence up the Moshassuck river to Church street, up Church to Benefit, thence in a direct line to Lloyd street, through Lloyd street and a line in continuation thereof, to Seekonk river.

Second Ward.—Includes that portion north and east of the Woonasquatucket and Providence rivers, between the line of the first Ward as above described, and a line drawn from Providence river up Power street to Brown, through Brown to Charles Field, through Charles Field to Hope, up Hope to Benevolent, through Benevolent to Governor, through Governor to Pitman, through Pitman to Angell, through Angell to the Seekonk river.

Third Ward.—Includes that portion of the city between the Providence and Seekonk rivers, lying south of the second Ward, as above described.

Fourth Ward.—Includes that portion of the city bounded by the following lines, to wit: Commencing at Weybosset Bridge and running thence up Westminster street to Weybosset, up Weybosset to Broad, up Broad to High, up High to Dean, through Dean to Atwell's avenue, through Atwell's avenue to Acorn street, through Acorn street to the Woonasquatucket river, thence down said river to the point of beginning.

Fifth Ward.—Includes that portion of the city bounded by the following lines, to wit: Commencing at Weybosset Bridge, and running thence up Westminster street to Weybosset, up Weybosset to Broad, up Broad to High, up High to Fenner, through Fenner to Broad, up Broad to Beacon, through Beacon, and Plane to the northerly line of the 9th Ward, thence along said line to the river, thence up said river to the point of beginning.

Sixth Ward.—Includes that portion of the city bounded by the following lines, to wit: Commencing at the intersection of Fenner and High streets, and running thence up High to Cranston, up Cranston to B, through B to Central, down Central to Major, through Major to Broad, up Broad to Linden, through Linden to West Clifford, up West Clifford to Dudley, through Dudley to the northerly line of the 9th Ward, thence along said line to Plane street, through Plane to Broad, down Broad to Fenner, through Fenner to the point of beginning.

Seventh Ward.—Includes that portion of the city bounded by the following lines, to wit: Commencing at the intersection of Dean and High streets, and running thence up High street to Cranston, up Cranston to Codding, through Codding to High, up High to Almy,

through Almy to Gesler, up Gesler to Ridge, through Ridge to Atwell's avenue, through Atwell's avenue to the Woonasquatucket River to Acorn street, through Acorn street to Atwell's avenue, down Atwell's avenue to Dean street, through Dean street to the point of beginning.

Eighth Ward.—Includes all that portion of the city lying westerly of the following line, to wit: Commencing at the intersection of Dudley street with the northerly line of the 9th Ward, and running thence through West Clifford to Linden, through Linden to Broad, down Broad to Major, through Major to Central, through Central to B, through B and Codding streets to High, up High to Almy, through Almy to Gesler, through Gesler to Ridge, through Ridgestreet to Atwell's avenue, through Atwell's avenue to the Woonasquatucket River.

Ninth Ward.—Includes all that portion of the city lying south of the southerly line of the 5th, 6th and 8th Wards. Commencing at the dividing line of the town of Johnston and the 8th Ward, then running southerly to the westerly line of the N. Y. & Prov. R. Road, thence on the westerly line of said R. Road to Cranston street, and across said street to the westerly line of Fenner avenue, thence along the westerly line of said avenue to Greenwich street, thence in a straight line easterly to the south-westerly corner of Jonas Manton's farm, so called, on the easterly side of Eddy street, thence on the southerly side of said farm to Providence River, and thence in a straight line easterly, passing through the most southerly portion of Starve-Goat Island at low water mark, to the channel of the river.

Tenth Ward.—Includes that portion of the city bounded by the following lines, to wit: Commencing at the intersection of the boundary line of Ward 1, with the Woonasquatucket River, up said river to a point on the easterly bank of the pond north of the Village of Manton, being a large elm tree marked; running thence northeasterly in a straight line, to a chestnut tree marked, on Wilbur hill, on the easterly side of, and on the Woodward road, so called; thence on a straight line to, and across the Smithfield turnpike near the slaughter houses, where a post of the fence bounding said turnpike, is marked, and an iron spike driven therein; thence southerly, on the easterly side of said turnpike, and the Power road, so called, to the northeasterly corner of the railroad bridge crossing the Providence and Worcester railroad, thence easterly on a straight line to the northwest corner of the Swan Point Cemetery; thence following the northern boundary of said Swan Point Cemetery to the Seekonk river, thence southerly to the boundary line of Ward 1, thence along the northerly and westerly boundary line of Ward 1 to the point of beginning.

COLORED PAPER

Letter-Press and Lithographic Printers,

UNION BLOCK, CENTRAL FALLS, R. I.

It is with no small degree of satisfaction that the Proprietors call the attention of their friends and the public to the success that has crowned their efforts in improving the style of Printing executed in this State. It is but a few years ago, that to procure a neat, unique, original and correct job of Printing in Rhode Island was almost an impossibility, and Boston and New York were called upon to supply work that should have been done at home. This necessity no longer exists; for several years we have been endeavoring to bring up the art, and are happy to be able to state that our efforts have been appreciated by the public.

The proofs of our success are not only shown by the constantly increasing patronage which we have received, but the fact that we have been awarded within the last two years THE HIGHEST PRIZES AT FIVE DIFFERENT FAIRS, having been granted

TEN DIPLOMAS

For the Best Specimens of Book, Card, Lithographic and Ornamental Printing, is testimony that cannot be controverted.

We desire to return our thanks to our friends and customers and also to assure them that we shall not rest contented on the laurels already gained, but shall give our best endeavors to merit their patronage in the future.

We have many advantages over any office in the State for the production of all kinds of PRINTING, as we alone execute both Letter-Press and Lithographic work in the same establishment. We have arrangements with some of the best artists in the country to furnish Designs and Engraving for

Checks, Cards, Bill-heads, Letter-heads, Invitations, Labels, etc.

AND CAN WARRANT THEIR WORK EQUAL TO ANY IN THE COUNTRY.

We are ready to give estimates, furnish Designs, and execute all kinds of BOOK AND FANCY PRINTING, and, if desired, can refer by permission to some of the largest and best known houses in the State.

E. L. FREEMAN.
J. E. GOLDSWORTHY

With our LOW RATES we can furnish Insurance Cheaper than any other Company. GAY & KEYES, General Agents.

SAMUEL F. KNIGHT & CO.

receive orders for their work from New-Orleans to San Francisco.

Of the Mutual Benefit Life it is a pleasure to speak in terms of unstinted approval. It is sound as an oak in every branch and fibre.—[New York Ins. Monitor.

Secure a Policy on YOUR LIFE while in good health, - so say Gay & Keyes, General Agents.

THE CHARTER OAK was felled in colonial times, and remains the same now. TRY IT.

TWENTY-EIGHT CENTS a day will keep a five thousand non-forfeiting Life Policy in force, at the age of 35, in the Travelers, noted as a low rate Company.

THE CHARTER OAK is known for its Promptness in PAYING its LOSSES, and its liberality towards its members.

THE CHARTER OAK was founded in COLONIAL times, and remains the same now. 125 W. Weybosset

Life insurance is based upon one of the noblest of precepts — PROTECT THE WIDOW and the FATHERLESS. Any form of Life Policy may be obtained at No. 27 Butler Exchange.

THE CHARTER OAK is known for its Promptness in PAYING its LOSSES, and its liberality towards its members.

THE CHARTER OAK was faithful in COLONIAL times, and remains the same now. TRY IT.

If you use a circular saw, or act as engineer or fireman on a locomotive, you can be insured at \$20 per thousand, against all Accidents.

THE CHARTER OAK is known for its Promptness in PAYING its LOSSES, and its liberality towards its members.

THE DEPOSIT POLICIES issued by the CHESTER OAK can always be used as collateral for loans.

CHOICE OATS, (Wholesale and Retail, by J. H. & J. B. SWEET, 68 Canal.

Any person in doubt about the Company in which to insure his life, should seek that one which is the most economical in its expenses. That is the Mutual Benefit Life.

A GOOD INVESTMENT — the DEPOSIT POLICY issued by the CHARTER OAK { 14 Westminister St. Office.

\$10,000 INSURANCE costs the first year \$228.50 less each following year. { 14 Westminister St. Office.

DON'T LEAVE THE CITY

before seeing Samuel F. Knight & Co.'s TORTOISE SHELL JEWELRY.

There is no better standard of punctuality in all matters, business and social, than the regularity with which a thoughtful man renews his Policy of Life Insurance.

CHARTER OAK LIFE commenced business in 1860; assets \$1,500,000. Gay & Keyes, General Agents.

Of one hundred components that make up contentment for the man who has a family,
 a Policy in the Mutual Benefit Life may count for ninety-nine.

THE CHARTER OAK has over \$15,000,000 Safely Invested for the benefit of its 30,000 Policy holders.

DEPOSIT POLICIES issued by the CHARTER OAK are the best for Business Purposes. 14 W. Commercial St.

SAMUEL F. KNIGHT & CO.'S TORTOISE SHELL works have been in operation more than 30 years.

The annual premiums required to insure one's life at No. 27 Butler Exchange, are comparatively small, while the Policy at maturity is often the difference between thrift and penury.

THE ENTIRE AMOUNT of Deposits can be withdrawn at the end of any Policy year. { GAY & KEYSER, Agents.

THE DEPOSIT POLICIES issued by the CHARLES OAK can always be used as collateral for loans.

It is no imaginary contingency that the Mutual Benefit Life seeks to guard against, but a firm reality; a competence for the widow and the orphan.

A GOOD INVESTMENT — the DEPOSIT POLICY issued by the CHARTER OAK } 14 Westminster St. Omece,

 Zwingle R. boarding-house, 180 Pine, h. do.

The Census taken by order of the City Authorities shows the population of Providence on the first day of May 1874, to be 99,608. This gives an increase of 30,704 or more than 44 per cent. in four years. Of this increase, however, 15,120 is by the annexation of the Tenth Ward. The following shows the number of dwelling-houses, the number of families, and the total population in each Ward of the city:

Wards.	Dwelling Houses.	Families.	Population.
I.....	1,842	2,847	13,470
II.....	719	930	5,338
III.....	1,136	2,116	10,238
IV.....	828	1,304	7,469
V.....	1,003	1,852	8,751
VI.....	834	1,513	6,426
VII.....	1,002	1,914	8,453
VIII.....	1,509	2,505	11,308
IX.....	1,766	2,817	13,035
Total.....	10,439	17,708	84,488
Ward X.....	1,749	3,136	15,120
Whole city.....	12,188	20,834	99,608

The numbers by the last three censuses of the city, excluding the Tenth Ward, were as follows:

Years.	Dwelling Houses.	Families.	Population.
1865.....	6,773	11,303	54,505
1870.....	9,227	14,775	68,904
1874.....	10,439	17,798	84,488

The colored population of the city, in 1874, is 3,557, an increase of 998, or 39 per cent. in four years. The number of voters returned by the census is 17,294, of whom 2,759 are of foreign birth.

VOLNEY W. MASON & CO.,

LAFAYETTE STREET, PROVIDENCE,

MANUFACTURERS OF

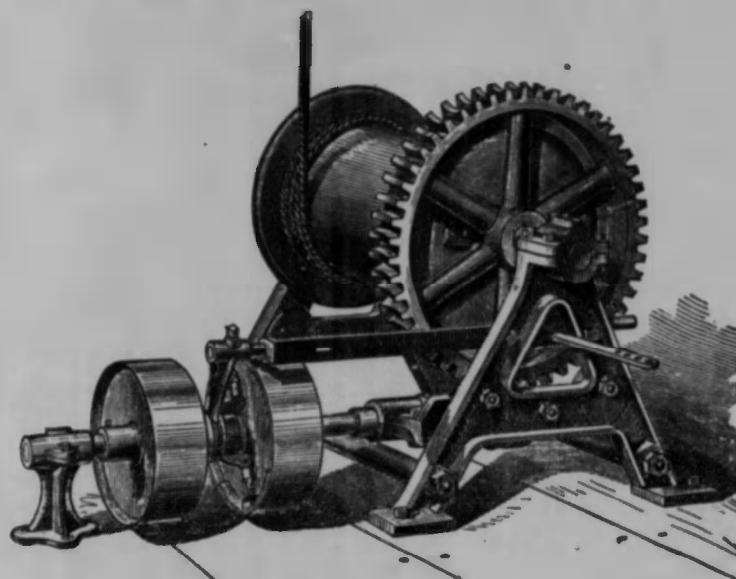

Patent Friction Pulleys and Friction Clutches,

FOR CONNECTING SHAFTING AND GEARING.

HOISTING MACHINERY,

OF NEW AND IMPROVED PATTERNS,

FOR ELEVATORS AND OTHER PURPOSES.

These machines operate without noise or shifting of Belts; always having the full width and power of the Belts on the Pulleys, CAN be STOPPED or STARTED or REVERSED QUICKER than any other.

(See Page 558.)

PURE WATER CONDUCE TO GOOD HEALTH.

MASONS'

Improved Cemented Wells.

(PATENTED MARCH 14TH, 1871.)

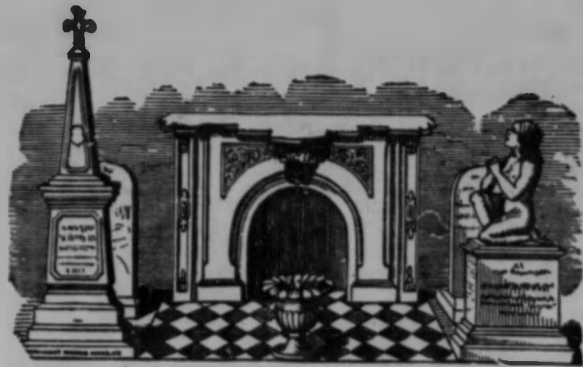

The novelty of this Well consists in using Hydraulic Cement, plastered directly on the earth of the vertical sides of the well, of proper thickness to prevent the ground from caving in, thereby very effectually shutting out all impure surface water from entering the well.

For Circular and full information, address

WILLIAM MASON, 378 Cranston St., Providence, R. I.

Or at V. W. MASON & CO.'S MACHINE SHOP, Lafayette Street.

HOOK & LADDER NO. 3, house on Haymarket street.—S. S. Shepard, foreman; John McCoy, driver.

TELEGRAPH FIRE ALARM.

GAMEWELL'S AUTOMATIC SYSTEM, ADOPTED BY THE CITY OF PROVIDENCE, Dec. 1870.

DIRECTIONS.

When a fire has been discovered, go to the nearest box and open the door, pull the hook down as far as you can (firmly without jerking), then let it slide back, close the door and remove the key.

When the bell inside the alarm box is heard to ring, it is an indication that an alarm has been already given, and in order to ascertain if it is for the same fire, carefully count the signals. If the signals indicate a fire in another district, wait until all the signals have sounded and then give the alarm.

The key-holders will be careful not to give an alarm unless they are certain there is a fire, nor for a fire seen at a distance. After giving an alarm they will see that the box is securely closed.

LOCATION OF SIGNAL BOXES AND KEYS.

The lines not numbered indicate where the keys may be found.

- 1 On pole, cor. Wayland and Angell streets. Residence of Wm. A. Harris, corner Wayland and Angell streets.
- 2 On pole, corner Hope and Bowen streets. Dexter Asylum and Friends School.

The Business College

OF PROVIDENCE,

A prominent member of the Associated Business Colleges of America, and

THE ONLY INSTITUTION IN RHODE ISLAND

WHERE

Book-Keeping is taught as a Science,

AND WHERE

THEORY AND PRACTICE

Are so harmoniously blended that when a principle is enunciated its application is immediately shown.

WARNER'S

BRYANT & STRATTON

Business College,

(NATIONAL)

PROVIDENCE, R. I.

The fundamental idea of this Institution is the practical fact that MATERIAL WEALTH is an important element and instrument of Christian and refined civilization and power, and that the development and improvement of MAN are its grand objects. The course of instruction and training is based on this idea, and will continue to be enlarged as the standard of public intelligence and the revenue of the College warrant.

The course of study is Polytechnic, and is divided into Five Departments, as follows: Preparatory, English and Scientific, Commercial, Drawing and Design, and Penmanship.

SPECIAL INSTRUCTION.

Mechanical, Architectural and Free-hand Drawing and Designing, Chalk Shading, Painting in Oil and Water Colors; also, Writing, Rhetoric, Book-Keeping, Business Correspondence, Business Arithmetic, Letter Writing, Common and Higher English and Languages.

Address for particulars,

W. W. WARNER,

Principal.

This is a specimen of my writing
 taken by George B. Warner
 July 20th Toucey Kellogg

The above specimen was written by me BEFORE receiving instruction
 at WARNER'S BRYANT & STRATTON BUSINESS COLLEGE, 164 Westminster
 Street, Providence, R. I.

TOUCEY KELLOGG.

The specimen below was written by me AFTER receiving about 60
 lessons at WARNER'S BRYANT AND STRATTON BUSINESS COLLEGE, 164
 Westminster Street, Providence, R. I.

TOUCEY KELLOGG.

This is a specimen of my writing
 taken by George B. Warner
 July 20th Toucey Kellogg

Personally appeared the above named Toucey Kellogg, and made oath that the above specimens were written by him as above stated.
 GEORGE T. PAINE, Justice of the Peace.

THE PROVIDENCE

Steam Carpet Beating Establishment,

No. 117 SUMMER STREET.

ECONOMY, NEATNESS, AND DISPATCH.

Old Carpets Made to Look Nearly as Good as New.

The undersigned having purchased the exclusive right for this State, to use the Patent Carpet Cleaning Machines, which have been in successful operation for a number of years in most of the principal cities of the Union, and having had nine years experience in this business, feels confident, now that he has opened an establishment in this city, that he can give entire satisfaction, and would respectfully solicit the patronage of the public.

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. Orders sent by mail or otherwise to the factory will receive prompt attention.

ALL WORK GUARANTEED.

PRICES FOR CLEANING CARPETS.

Ingrain and Three Ply,.....	5 cents per yard.
Brussels and Tapestry,.....	6 " " "
Velvet and Aubusson,.....	7 " " "

 PROVIDENCE, R. I.
 Physicians' Prescriptions
 Carefully Compounded.

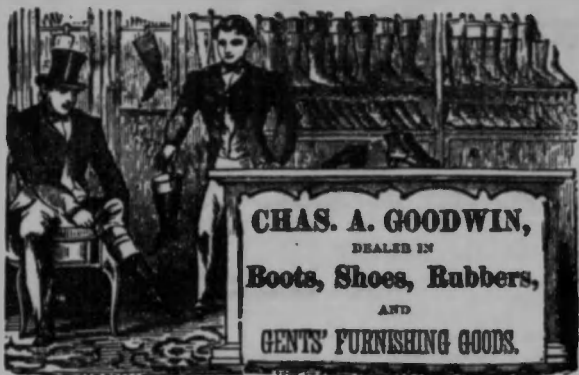

WONDERFUL CURES,
 BY MRS. S. B. STOWE,
Rheumatism! Paralysis! Deformity!!!
 Flee before her remarkable Antidotes. Suffering humanity take courage. The Rheumatic throws away crutch and cane; the Paralytic springs into new life; the Deformed again stand erect, in the image of his Maker; the hopeless, helpless Cripple is transformed to a vigorous, healthy being; Joy and Gratitude supplant Sorrow and Despondency.

MRS. STOWE accomplishes the Startling Result at her **REMEDIAL INSTITUTE,** by means of her **HYDRAULIC MEDICATED BATHS,** in conjunction with a **TINCTURE** invented by herself.

DESK OPEN.

DESK CLOSED.

We call your attention to the above cuts representing our celebrated ROLL-TOP DESK, which we manufacture and sell to Banks, Insurance Companies, etc. It is the best arranged Desk we have ever manufactured. By simply pulling the top over, the papers, books, &c., are covered; it also locks all the drawers. It has slides to pull out over the drawers, and is finished complete on the back, so it can be placed in any part of the room. They are made of the best coal-fire seasoned stock, and warranted not to shrink or crack. Should you require a nice desk, we should be pleased to receive your order.

Feather Renovator and Mattress Upholsterer.

ALSO, MANUFACTURER OF AND DEALER IN
MATTRESSES, FEATHER BEDS, BOLSTERS AND PILLOWS.
 Save your Beds and make them nearly as good as new for
 Two Dollars per Bed.

Pillows and Bolsters One Dollar per set.
BED & MATTRESS TICKS WASHED FOR 50 CENTS.

All Orders will receive prompt attention if left at Nos. 14 and 16 Maple St., or addressed to HORACE LUKE, Lock Box 287, Providence R. I.

SAVE YOUR BEDS.

Now is the time to have your Feather Beds Renovated, when you are about cleaning house, by a Feather Renovator that surpasses all others. All moths are destroyed and removed, the Feathers cleansed, and the fibres relieved from their matted position, giving to a goose feather bed an astonishing increase in bulk, often more than ONE HALF; also removing all disagreeable scent, which is so common to new feathers; and relieving them from all liability to moths, by the removal of all gummy and glutinous matter from the quill. Our facilities are such that at short notice we can take and return beds the same day, well dressed and ready for immediate use, for \$2.00 per bed. \$1.00 per set for Pillows and Bolsters.

Ticks washed, and well washed, for FIFTY CENTS EACH. Mattresses upholstered in good style. Orders left at No. 14 and 16 Maple Street, or addressed to HORACE LUKE, Lock Box 287, Providence, R. I., promptly attended to. Beds called for and returned free of charge, in Providence, Pawtucket and Central Falls.

Orders where there has been sickness and death, where the disease is not contagious, promptly attended to.

VOLNEY W. MASON & CO.,
 MANUFACTURERS OF

Mason's Patent Friction Clutches,
 — FOR —
STARTING MACHINERY
 Without Sudden Shock or Jar.

Reference can be given to many of our best Manufacturers who have them in use, among others, the

Corliss Steam Engine Co., Providence; S. H. Greene & Sons, Riverpoint; Atlantic Print Works, E. Greenwich; Oriental Print Works, Apponaug, R. I.; James Sanders, Centreville, R. I.; W. F. & F. C. Sayles' Bleachery, Pawtucket, R. I., and many others in Providence and vicinity.

RIVERPOINT, R. I., May 10, 1860.

VOLNEY W. MASON & Co.—Dear Sirs: Our experience with your Friction Pulleys and Clutches extends over a period of at least eight years. We first applied them to Mangles, two of them requiring great power to operate them; so great as to cause excessive breakage of gears in starting, when other kinds of Clutches were used. Since the application of **MASON'S FRICTION CLUTCH**, no gears have been broken through their means. Besides five mangles, there are here, twenty other machines driven by Mason's Friction Clutches and Pulleys, varying in size from 14 in. diameter, 2 1-2 in. face, to 30 in. diameter, 10 inch face. Among these are a Singeing Machine, Washing Machine, Madder Dye Becks, Second Dyeing Machines, Hot Watering Machine, &c., &c. Their application to machinery in the Madder Dye House, is especially satisfactory and useful, for the reason that the belts running in a moist atmosphere, stretch badly and unevenly on the edges, and the butts and laps are separated where they come in contact with the shipper; while in case your Pulleys are used, no such injury is inflicted. With ordinary care, your Pulleys and Clutches will last many years, though subjected to continual use, as in the case of those in our establishment. Yours truly,

Clyde Bleachery and Print Works.

See colored page at end of General Directory.

For Durability, Compactness, Cleanliness,
Ventilation, Simplicity, and Adjustment,

NEVER EQUALED!

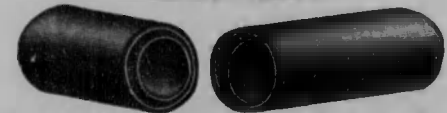

FOR CHIMNEYS & CHIMNEY TOPS.

This material cannot be excelled, as the gases in chimneys tend to make these hard and more stone-like — cement being a non-conductor of heat, making it impossible for heat enough to generate through it to ignite any combustible. In many localities they are used very extensively.

PROVIDENCE POWER C.
Drain Pipe Company,

MANUFACTURERS OF

DRAIN PIPE, GARDEN VASES, &c.

761 to 771 North Main St.,
PROVIDENCE, R. I.

A. W. TRIPP, Agent and Treasurer.

This Pipe is manufactured by NEW and IMPROVED MACHINERY, and PRESSED BY POWER, making it FAR SUPERIOR to hand-made. It HARDENS by age UNDER GROUND, and stands the Test of Time in all its uses. We also keep on hand a large stock of Glazed or Vitrified Pipe of all sizes, which we sell as low as other dealers.

1874.

THE FAVORITE GALVANIZED LIGHTNING ROD.

1874.

RESIDENCE OF CAPT. THOMAS KING.

On the 25th., day of July 1873, I employed Mr. J. F. Holmes, of Providence, R. I., to erect the *Favorite Galvanized Lightning Rod* on the house which I own and occupy near the West Ferry. Two days afterwards during the terrific thunder storm that passed over the Island, these Rods were struck by lightning, which passed off without doing any damage to either life or property.

THOMAS KING.

Subscribed and sworn to this 21st., day of March, 1874, before me,
WM. P. SHEFFIELD, Notary Public.

A frequent and dangerous mistake is the erection of a number of points without sufficient connection with the ground to discharge the heavy currents liable to be received. Where there are two or more points on a building, they should all be connected together by rods on the roof. These most important facts are often disregarded by ignorant or unprincipled vendors of Rods.

The Rods on the Smithsonian Building have been struck several times within the last ten years, but in every instance it has been transmitted innocuously to the ground. If a house is properly provided with Lightning Rods, no damage can ensue to the occupants within. I regard *Insulation* as an additional safeguard, and should therefore not be discarded. The glass Insulators should be firmly enclosed by the attachments. Prof. JOSEPH HENBY, Smithsonian Institute. [From Report to the U. S. Government.]

Forty years of investigation fail to show a single instance of the loss of human life in a building upon which Lightning Rods had been erected and kept in good repair. But a Rod covered with a coat of rust or paint cannot be relied upon to conduct electricity. E. MERRIAM, Brooklyn Heights, N. Y. [In Report to the U. S. Government.]

Lightning Rods whose surface is covered with rust or paint are very little protection.

EDWARD HITCHCOCK,
President Amherst College, Mass.

The flanges running spirally the whole length of the Rod enables the fluid to traverse a course natural to its movement. A Lightning Rod is soon spoiled by rust and rendered nearly worthless by painting.

E. D. BUCKMAN,
Prof. of Chemistry, Philadelphia, Pa.

Its spiral flanges stiffen the Rod and the sharp edges are favorable to conduction.

Prof. JOHN F. BOYNTON,
Lecturer on Natural Science.

St. DAVID BREWSTER, the highest English authority, says the Lightning Rod should pass through rings of glass or other Insulators.

The Insulation of Lightning Rods I deem indispensable to security.

Prof. ALEXANDER WINCHELL,
University of Michigan.

This Rod is constructed on scientific principles.

It has great strength and ample surface.

Being fluted and twisted, it presents a series of sharp edges favorable to conduction.

Solid Copper Screw Couplings make it continuous.

Our Cluster Points are made from pure Copper and covered with fine Gold, and are unsurpassed for beauty or excellence by any in use.

We use Insulators of the most improved patterns.

It will never rust, but always remain bright.

It is a combined, practical, and ornamental safeguard against damage by Lightning.

We still continue to make a specialty of this Rod; but will erect other kinds when wanted.

With eleven years' practice and an experienced workman, we do not hesitate to guarantee the most thorough work in our line.

Failing to protect, we will refund the money. Old Rods examined Free of Charge.

We also furnish VANES from two of the largest manufactories in the United States, on the most favorable terms.

P. S. — No connection with any teeth except the one we operate with.

ADDRESS,

J. F. HOLMES,
14 Chapin Avenue,
PROVIDENCE, R. I.

Read the following Eminent Testimony in favor of Lightning Rods:

This from our well-known fellow-townsmen cannot fail to be both reliable and convincing:

BROWN UNIVERSITY, Providence, R. I.

J. F. HOLMES—Sir: I have examined the

Lightning Rod and Points constructed of Galvanized Iron with Spiral Twist, Copper Couplings and Gilded Points, and consider it to be

constructed on scientific principles, and to afford efficient protection against damage by lightning. Yours Respectfully,

J. H. APPLETON, Prof. of Chemistry.

Galvanism is the crowning advantage to Lightning Rods.

S. TALBOT,
Pres. Dennison University, Ohio.

NEW YORK SAFETY STEAM POWER CO.

**BUILDERS OF
STEAM
ENGINES
—AND—
BOILERS,
ORDERED AND DELIVERED**

G. H. BARBOCK, President
A. G. NICHOLS, Secretary
& WILCOX, Treasurer

REDUCED PRICES.

COST OF FUEL
From Eight to Twenty Cents
per Horse-Power
per Day.

3 H.P. ENGINE
The Vertical Engine

5 H.P. VERTICAL ENGINE

10 H.P. VERTICAL ENGINE

VERTICAL TUBULAR BOILER
(Small Portable.)

**FIVE HUNDRED ENGINES IN OPERATION,
FROM 2 TO 200 HORSE-POWER.**

These engines are built in quantities, and the parts fabricated by special machinery, which secures great accuracy and uniformity of workmanship, and allows of any part being quickly and cheaply replaced, when worn or broken by accident.

The vertical position, there is no tendency to slide wear of cylinder or piston. The packing-rings are self-adjusting and work free and tight. All the bearings have a bearing outside the fly-wheel, and this bearing, as well as that in the frame and both ends of the connecting-rod, are made self-adjusting to the line of the bearing, so that, on this, it, by the setting of the mechanism or other cause, the engine "goes out of line," the bearings will not heat, vibrate, or clamp. The main by counter-balance, the crank-pin, cross-heads, piston-rod, valve-stem, etc., are made of cast steel. All the bearing surfaces are made extra large and are accurately fitted, and the best quality of lubricating oil only used for the bearing bearings.

Being attached to one base, the Steam Engine and Boiler is easily transported, occupies little space, and may very readily be mounted upon rails, rendering it particularly adapted for agricultural purposes.

The engine is not intended to or used for boiler, and its operation, not affected by its position, nor are the bearings affected by vibrations or the ascending heat from the boiler.

The fly-wheel, being at the base, causes the engine to run under the high speed which is necessary for economy of fuel.

The boilers are of the upright tubular type, with horizontal fire box, are made of the best material and workmanship, and are so fitted to fill precisely pressure per inch. The heating surface and area of grate are in excess of the quantities usually allowed for the same power. They are fitted with our patent hot-water and circulating pumps, in general practice, and also with our PATENT FURNACE PLOW, which will melt and prevent the boiler burning, if the water gets low.

Our flexible pipes, though in the most direct, never come in contact with water or they are not become corroded; and when the water falls so as to overheat the boiler, the pipe melts and causes steam to be discharged into the air, putting it out, and giving no alarm.

LAUNCH ENGINE

New York Safety Steam Power Co.'s Steam Launches.

WE GIVE SPECIAL ATTENTION TO MACHINERY FOR

Pleasure Yachts, Tugs, and Small Steamers.

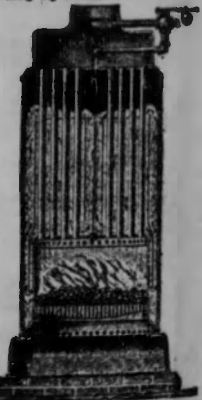

and are prepared to furnish any desired size at short notice. For these purposes our launch engines are fitted with self-adjusting bearings, which will allow the parts to be thrown out or they without causing strain, heating, or clamping, giving them a degree of flexibility in every direction necessary adapting them to various uses.

We are now able to furnish **LIGHT AND QUICKLY RUN** of remarkable efficiency, and managed by any one with a little instruction. They are fitted with light and strong boilers, able to make a heavy amount of dry steam with little fuel, and a light engine, capable of running at a high speed without straining or jar, and taking steam very economically.

Illustrative and Descriptive Price-List Sent on Application.

FIRST PREMIUM!

For the Best and Cheapest Soap for Family use in the World!

You can save One-half your Money, Time, and Labor, by using

T. P. MERRIAM'S CHEMICAL OLIVE SOAP,

Which is the BEST and CHEAPEST FAMILY SOAP in the world; and thousands that have used it for more than twenty years will attest to the fact, that one pound will do more washing than two pounds of any other soap. It does not require one-fourth the rubbing; it makes the clothes much whiter; it preserves and brightens all colors, and clothing will last four times as long; it softens the skin, and prevents the hands from chapping. Warranted to make salt or hard water soft, and to remove Grease, Tar, Paint, Varnish, Mildew, &c., from goods of every description. It is unsurpassed.

[ESTABLISHED AND COPYRIGHT SECURED IN 1844.]

None can be genuine without the name of T. P. MERRIAM'S Chemical Olive Soap branded on every box.

The Monarch of all Soaps!

T. P. MERRIAM'S IMPERIAL FAMILY SOAP.

[ESTABLISHED IN 1860.]

First
Premium
for the Best
and
Cheapest
Family &
Toilet
SOAP

Ever
offered to
the Public,
for every
purpose
that Soap
may be
used for.

It is equal in mildness and hardness to the best Castile soap. It will remove Paint, Grease, Tar, Varnish, Oil Stains, &c., from Silk, and goods of every description. It renews and makes all colors bright. It leaves clothes in a white, soft, and glossy state. It will make goods stronger. We have woolen, cotton, and printed goods that have remained in this Soap for six months, and have come out much stronger and brighter than when put in, — which can be seen if desired.

ONE HUNDRED DOLLARS will be paid to any person who can produce a piece of goods that this Soap will not make Stronger, Brighter, and Whiter.

It is warranted to make hard or salt water Soft as rain water, and will wash in hot or cold water with less than half the amount of Time, Labor, or Expense of any other soap.

These Soaps have taken over thirty premiums in Gold and Silver Medals, since 1845. They never have found an equal, but are superior, and claim the field as monarchs of all other soaps.

N. B. — The process of making the Chemical Olive and Imperial Soaps is not known to any other person in the world than the proprietor.

MANUFACTURED ONLY BY

T. P. MERRIAM,

THE SOLE INVENTOR AND PROPRIETOR OF THE COPYRIGHT.

MERRIAM'S Chemical Olive Soap; Imperial Chemical Soap; superior Erasive Soap; superior Navy or Marine Soap, warranted to make Salt water Soft; Washerwoman's True Friend; superior Scouring Oil Soap, for woolen manufacturers; N. & T. Chemical Erasive Soap, for silk manufacturers; Chemical Brown Winsor Soap, in balls; Chemical Depurating Floating Soap, in ½ lb. balls, for Hotels, Steamboats, Bathing, &c.; American Castile Soap; Vegetable Cosmetic Oil of Soap, in bottles; Fulling and Soda Soaps.

P. S. — All Orders must be addressed to

T. P. MERRIAM, Agent,

34 RIVER STREET, (Near Olneyville,) PROVIDENCE, R. I.

CAUTION TO THE PUBLIC.

Beware of the Spurious Articles now in the market, under the name of Chemical Olive Soaps, as there are a number of soap manufacturers that have had the mean audacity to STEAL the NAME of my Soap, to deceive the public and palm off their inferior articles.

WILLIAM W. TUPPER & CO.,

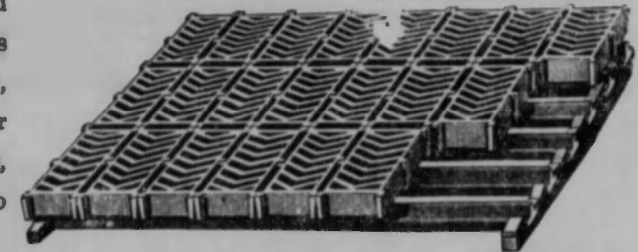

No. 206 WEST ST., NEW-YORK,

Patent Sectional Grate & Grate Bars,

For Steamboats, Steamships, Locomotives, and other Furnaces.

No 1.

We are now prepared to furnish these Grates with greater dispatch, having completed our series of Iron Patterns, which will enable us to deliver at short notice.

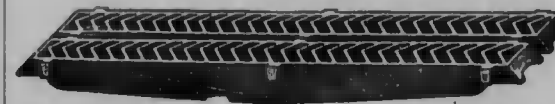

Our Patterns are of the following sizes, and are marked respectively, thus:

A—1-4 inch opening and 3-8 inch iron,	for burning Screenings.
B—3-8 " " " 3-8 " "	for Pea Coal.
C—1-2 " " " 1-2 " "	for Large Nut Coal.
D—5-8 " " " 1-2 " "	for Stove Coal.
E—3-4 " " " 1-2 " "	for Grate Size.
F—7-8 " " " 1-2 " "	for Steamers.
G—1 " " " 1-2 " "	for Ocean Steamer Lump.

PLEASE TAKE NOTICE.

Those who may favor us with orders for these Grates will please specify No. 1, or "Sectional Grate," and the letter corresponding with the opening, or size of coal used; giving, if possible, a diagram of Furnace. State if the Fire-Box be of Brick or Iron. Give the exact dimensions of depth and width in the clear. If of iron, measure width from the rivet heads in the corner laps. We make the allowance or margin for expansion.

No. 2,

Average weight of this Grate, 50 pounds to the square foot.

Is our long bar section with the diagonal openings. The bars are the same length as ordinary Grate Bars, and designed for the use of both hard and soft coal, where it is necessary to break up the coke or clinker by raking underneath. These bars have great air opening, and more strength and durability, with less weight, than any other grate bar now in use.

This is to certify that I have used W. W. Tupper & Co.'s Grate Bars for the last six years, and find them to be in every respect superior to any Bar I have ever used in making steam easier and saving all of 15 per cent. of fuel.

PROVIDENCE, April 1st, 1870.
EUGENE CAHILL,
Engineer for Gorham Manufacturing Co.

PEPPERHILL MILLS, BIDDEFORD, Me., June 16th, 1868.

W. W. Tupper & Co.: Gents—Your Patent Grate Bars have been in use in these Mills for about two years, and have thus far given the best satisfaction. On referring to our account of coal used during the period, I find that we have not only saved a large percentage of coal, but have driven our steam from five boilers where we were formerly using six — the Mills also being kept at a warmer temperature than formerly.

Truly yours,

F. HAINES, Agent.

—:—

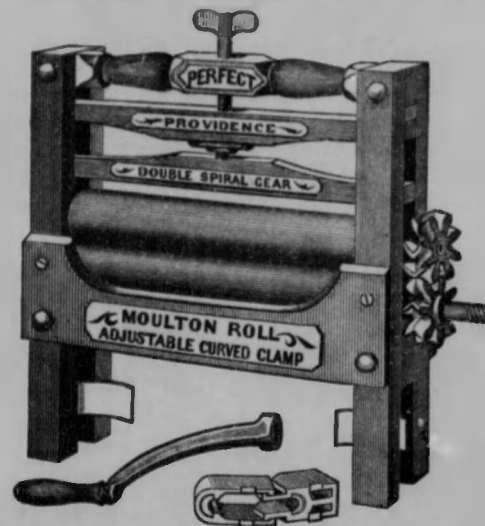

“PROVIDENCE.”

NEW!

PERFECT!

A Great Improvement over all other Wringers.

IT SAVES LABOR.
IT SAVES THE CLOTHES.

IT SAVES TIME.
It will Save its Cost Every Year.

IT WRINGS FASTER THAN BY HAND.

We consider the Providence superior to all others for the following reasons:—

1st. The ROLLERS, of large size and best quality of White Rubber, are all secured to their Shafts in the most permanent manner, by the MOULTON PROCESS, making the BEST ROLLER IN THE WORLD.

2d. THE PATENT METAL JOURNAL CASINGS prevent any wear upon the journals. [The wooden journals in which the iron shafts of other machines run, soon wear, and the efficiency of this Wringer is hereby greatly reduced.]

3d. THE DOUBLE SPIRAL COGS used on the Wringer give the utmost ease and steadiness in working, while the double stop prevents them from bottoming or being thrown out of gear. We furnish either single or double gear PROVIDENCE, as desired.

4th. The ADJUSTABLE CURVED CLAMP readily adjusts this machine to tubs of any size or thickness, making a perfect fastening. No wooden pegs or rubber straps on this Clamp.

5th. SIMPLICITY, STRENGTH and BEAUTY, are combined in this Machine, with all the requisites of a first-class WRINGER.

UNION MUTUAL FIRE INSURANCE CO.,
