Re: Juvenile Hearing Board

September 22, 2017

To whom it may concern,

I am writing to you to inform you that I have decided to resign from the Providence Juvenile hearing board. My decision has been made for multiple reasons; however, the main reason being the politics behind the selection of the board. I was a part of the original group of members that went through the entire training process and dedicated my time to ensure I was present at all local and statewide meetings and trainings. The community members that originally showed interest in the board exhibited a passion for helping the youth in our city; however, I feel as though this was not taken into account with the recent selection of official members. It was extremely disappointing that upon selection, very few of the original participants were chosen, when we were the individuals who were passionate about this initiative from the beginning. I wish the board nothing but the best, as I continue to remain invested in the youth of our city.

Thank you,

Alex DeRita
