SUBJECT: Referral No. 1194 - ZONING CHANGE ON THE NORTHEASTERLY SIDE OF
CAXTON STREET

Gentlemen:

The subject referral received consideration by the City Plan Commission at a meeting held on Tuesday, February 28, 1961.

This referral is a request to rezone Lot 44 on City Assessor's Plat 78 from an R-3 General Residence Zone to an M-1 General Industrial Zone; said lot being situated on the northeasterly side of Caxton Street. The property in question contains 88,430 square feet of land.

Reference is made to a previous Commission recommendation, Referral No. 1179 dated October 20, 1960:

"On an inspection and photographic survey it was determined that the site was heavily wooded, submarginal and undeveloped. It was also noted that the undeveloped parcel of land is abutting residential properties on its westerly and easterly extremities and separated by a stream from a large industrial zone."

In the above recommendation, the Commission felt that the land should be retained as an R-3 General Residence Zone in order to protect the quality of the adjoining and adjacent properties from the effects of blight and obsolescence.

The proposed rezoning of this area would adversely affect the value of the adjoining property. The wooded area under consideration acts as an effective buffer between the industrial plant to the north and the residential area to the south of Caxton Street. Such continued protection would insure the economic attractiveness of the land and promote new residential construction in

those vacant parcels of land fronting on Caxton Street. Therefore,
