### STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.  
 From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of High Street No. 324 comes, you look at High Street, upon page 16, and find that Spring Street runs from 296, and Winter Street from 323, showing that 324 High Street would come about half-way between Spring and Winter Streets.

<p><b>A Street</b>, from 40 Lester to Rice, Ward 6.  <i>Left. **TELEGRAPHIC FIRE ALARM.**

*New Code of Fire Alarm Signals.*

Directions to be observed when a fire is discovered:  
 1. Go to the nearest box and open the door, pull the hook down as far as you can (firmly, without jerking), and then let it slide back, close the door and remove the key.  
 2. On giving an alarm, if the small bell inside is heard ringing, it is an indication that an alarm is being sent over the wires; in all such cases, count the signals being sounded, and be certain whether it is for the same fire or not; if not for the same fire, wait until the signals have entirely ceased, before pulling the box.  
 Key holders are cautioned not to give an alarm until certain of a fire; not to give an alarm for a fire seen at a distance; and to be sure, after giving an alarm, that the door is securely closed before leaving the box.

**The Providence Sunday Dispatch**

IS THE

**LEADING SUNDAY NEWSPAPER**

Printed in Rhode Island, and has the largest regular Sunday circulation of any newspaper in New Eng-  
 land, save one.

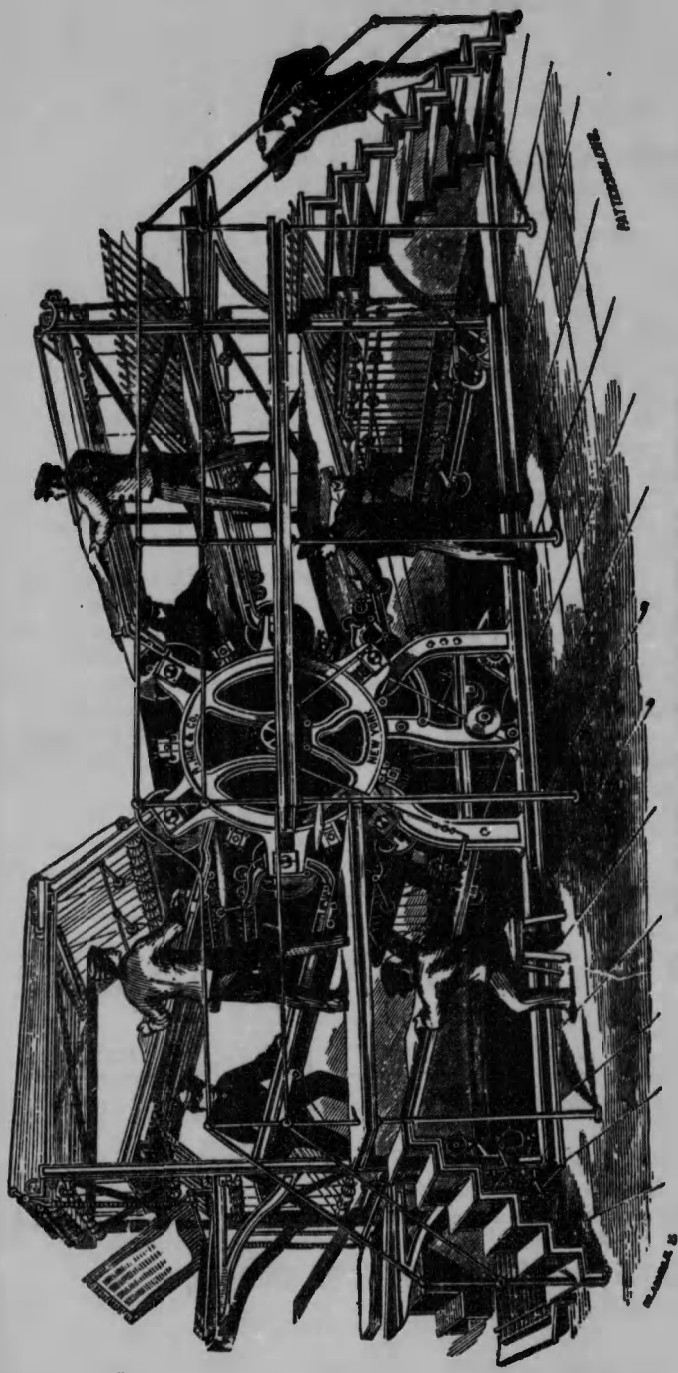

The columns of the SUNDAY DISPATCH are not controlled by any Political Clique, and reflect,  
 as near as can be, an INDEPENDENT PUBLIC OPINION.

As an Advertising Medium in Rhode Island, the SUNDAY DISPATCH is unexcelled. Advertis-  
 ements are received at the Publication Office,

**No. 5 WASHINGTON ROW,**

from 9 A.M. to 5 P.M., and until MIDNIGHT, Saturday.

**SUBSCRIPTION RATES.****ONE YEAR, . \$2.50. . . . SIX MONTHS, . \$1.25.****Three Months, 65 cts. One Month, 25 cts.**

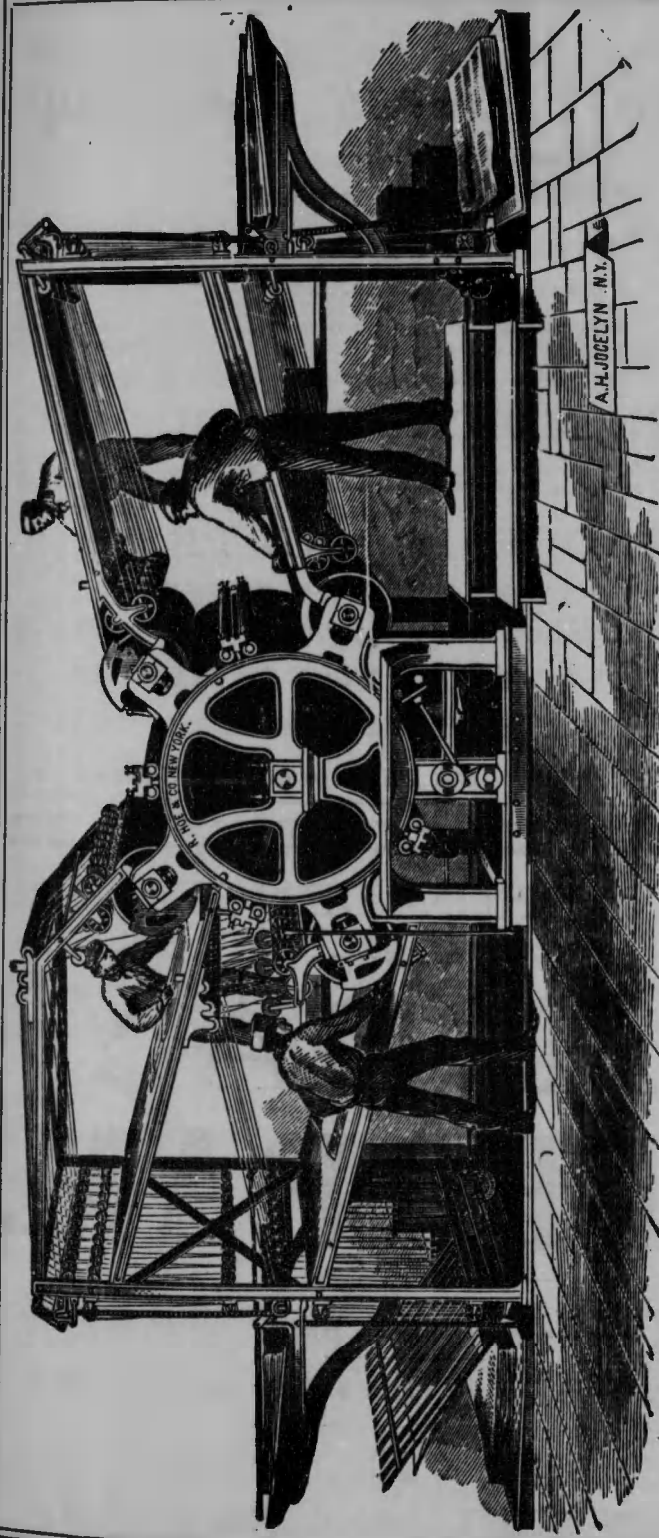

**THE SIX CYLINDER ROTARY PRINTING MACHINE,**

Used for Printing the **EVENING BULLETIN**, at the rate of 12,000 to 14,000 per hour.

The circulation of the **EVENING BULLETIN** having increased so rapidly as to require faster machinery, the Publishers, three years since, at large expense, added to their office a Six-Cylinder Type-Revolver Press, capable of throwing off printed sheets at a rate exceeding 200 per minute, and devoted that machine to the service of the Bulletin. The daily circulation of the **EVENING BULLETIN** now ranges from 16,000 to 19,500 copies, having increased about 3,000 in the past year, and the Publishers are compelled to consider the imminent need of still more rapid printing facilities. The Bulletin reaches every considerable town and village in the State, and along the borders of Massachusetts, on the evening of its issue, and is a most effective medium of communication with the people. It is a complete newspaper in all respects; contains the morning as well as evening dispatches from every quarter of the world, and is furnished at the low price of Six Dollars per annum. Village Clubs receive liberal consideration.

**KNOWLES, ANTHONY & DANIELSON, Office, No. 2 Weybosset Street.**

**Four Cylinder Type Revolving Press, on which the PROVIDENCE JOURNAL is printed.**

The Publishers of the **PROVIDENCE JOURNAL** continue to bestow labor and expense in unlimited measure to meet the demands of the people of the City and State for a complete newspaper. Having secured a location central and convenient, they are constantly adding features of interest to their counting-room equipments, and increased facilities for newspaper-making in their other departments. Their presses are capable of making twenty thousand impressions in an hour, and their working force is large enough to secure the prompt publication of the news by day or night. The terms of subscription have not been advanced since the establishment of the **JOURNAL** in 1820, but have rather been reduced, as postage is now prepaid on newspapers sent by mail for which the subscription price has been remitted. The terms of subscription are as follows:—

**DAILY \$8.00** per annum.  
**SEMI-WEEKLY**, (Monday and Thursday,) **\$3.50** in advance,  
**WEEKLY (Friday)**, **\$2.00** in advance.

The **JOURNAL** is recognized as one of the best advertising mediums in the Country, and its prices are uncommonly reasonable for the service rendered.

# PROVIDENCE STEAM & GAS PIPE CO.

## STEAM HEATING

Public Buildings and Manufactories made a Specialty.

Where MANUFACTORIES are Heated by EXHAUST STEAM a great saving in Fuel is effected where the EXHAUST STEAM is used without the excessive back pressure usually produced on the Engine. By our system we guarantee to UTILIZE THE EXHAUST STEAM with the highest degree of Economy, in a simple and inexpensive manner. Abundant Reference given.

### SPRINKLING PIPING

AND

### Parmelee Automatic Sprinkler,

For EXTINGUISHING FIRE IN COTTON, WOOLEN and PLANING MILLS, and other Buildings used for MANUFACTURING PURPOSES. SPRINKLING APPARATUS is acknowledged a necessity, not only in Picker rooms, but also in Carding and Spinning rooms, owing to the rapidity with which the fire spreads, and the GREAT AREA EXPOSED.

It is put up in accordance with the requirements of the INSURANCE COMPANIES, and secures a GREAT REDUCTION IN PREMIUMS.

Estimates of Cost made on receipt of sketch of buildings and rooms to be Protected, or will call and examine the property.

The PARMELEE AUTOMATIC SPRINKLER has been practically proved to be the most efficient Fire Apparatus ever invented. The Water is liberated by the effects of heat. It concentrates all available water on the fire, thus securing GREATER EFFICIENCY and LESS DAMAGE BY WATER, than the presence system of sprinkling.

## TO COTTON MANUFACTURERS.

### STOP MOTIONS FOR DRAWING FRAMES.

This STOP MOTION has been in constant use for the last five years with the best results, giving good satisfaction. This MOTION prevents single drawing from passing into the Cans, also prevents rollers lapping. When a breakage occurs between the Calender and Draft Rolls, or a bunch chokes the Trumpet, or when the Frame begins to make waste for any cause whatever, the MOTION shifts the belt from the fast to the loose pulley instantaneously. 12,000 in operation.

### STOP MOTIONS FOR RAILWAY HEADS.

This MOTION is a counterpart, or modification of the Stop Motion used upon the Drawing Frame, equally simple and efficient, being built strictly upon mechanical principles, and springs of all kinds have been avoided.

The Belt Shipper is a novelty, and is operated by gravity and the belt combined. No weights, no springs. It strikes a Gong Bell when it stops the Head, calling the attention of the attendant to the stoppage of the machine. It has been in constant use for the last two years. 934 have been sold up to Nov. 1, 1877. We are Making them Rapidly. This inducement to MANUFACTURERS I have to offer, viz.,

## More Yards & Better Cloth at Less Cost from a Bale of Cotton.

The saving by the use of these Stop Motions will cover their ENTIRE COST in one year's run of a Cotton Mill, and in many mills they will save twice or thrice their cost in a single year. I feel warranted in this assertion by the voluminous testimonials received from all around, copies of which are for distribution. These Stop Motions are easily and quickly applied to all frames now in operation, and will last as long as the frame lasts.

Again, I have a GRADUATING BAR for keeping the number on Railway Heads, the weight being changed by a screw, turned by a key, which may be carried by the man in charge, in his vest pocket. Manufacturers have long felt the need of something more accurate for keeping the numbers of yarns, and this want is supplied by the GRADUATING BAR.

Also, I have another great improvement in the weighting of calender rolls on RAILWAY HEADS and DRAWING FRAMES, etc. A very simple device, which I call a Compensating Weight Clip, which takes the place of the ordinary levers, weights, springs, etc. By this device the weight is applied in a direct line to the centre, and at right angle to the strand passing through the rolls, and it matters not at what pitch or angle the calender rolls are set. Therefore, no power is lost by pressing the bearings of the rolls, upon or against their stands. In the ordinary way of weighting calender rolls, the weight applied to the top roll has to be sustained by the bearings of the bottom roll, hence the heavy driving and wearing out of bearings and stands. The Clip entirely does away with this evil, inasmuch as there is more friction or pressure on the bearings of the bottom roll, whether there is little or much pressure on the roller of cotton passing through the rolls. CALENDER ROLLERS that are nearly worn out, may still be run as long as new ones, by the application of this device. Also an Improved LEVER and WEIGHT, for keeping the numbers on RAILWAY HEADS, a great advantage in keeping numbers.

TRUMPET CLEARER AND CONDENSER combined for Cotton Cards, taking out selvage, waste, leaf, sand, dirt, etc. Send for sample.

I am supplying an improved CUT ROLL for Power Looms, which winds the cloth snug and square upon the same. A cure for oily and dirty selvages, simple and good. Also a simple mechanism which automatically closes the Window when it rains. By mail, 50 cents each.

I keep a large stock on hand and am prepared to execute orders at Short Notice. For further information apply to

ECONOMY, NEATNESS, AND DESPATCH!

Old Carpets made to look Nearly as Good as New by the use of the

PATENT CARPET BEATING MACHINE.

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

Orders sent by Mail or otherwise to the Factory will receive prompt attention. Open every working day of the year. **All Work Guaranteed.**

# SCHOLFIELD'S Commercial College,

No. 137 Westminster Street,  
PROVIDENCE, R. I.

This institution was founded by its present proprietor, A. G. Scholfield, in 1846, and has been in successful operation thirty-two years.

The object and aim of this institution is to impart to both sexes a

## BUSINESS EDUCATION,

embracing WRITING, BOOKKEEPING, and the LAWS OF BUSINESS, and the COMMON and HIGHER ENGLISH BRANCHES, MECHANICAL and PERSPECTIVE DRAWING.

## DAILY LECTURES

will be given before the Students by the Principal, on COMMERCIAL LAW, POLITICAL ECONOMY, PARTNERSHIP, AGENCY, BILLS OF EXCHANGE, MERCANTILE CORRESPONDENCE, ETC., ETC. This institution approximates nearer to actual business in its plan of teaching the Science of Bookkeeping than that of any other institution in America. No Text Books are used, and each Student is favored with Separate and Special Instruction. For further particulars, call or send for our Illustrated Circular and Catalogue. Address,

A. G. SCHOLFIELD.

As indisputable evidence of the merits of this Institution as a Business College, I submit the following Testimonial from a few of its Graduates:—

### TESTIMONIAL.

The undersigned, at various times pupils of A. G. Scholfield, Teacher of Book-keeping, cheerfully bear testimony to the following facts:

1st. His method is *scientific*, indicating a thorough acquaintance with the fundamental principles on which the various systems of Book-keeping are based.

2d. His system is eminently *practical*, well adapted to give his scholars a thorough insight into the various transactions of business life; and all his illustrations and solutions are made in such a plain and impressive manner as to leave every essential point perfectly intelligible to the pupil and fasten it indelibly upon his memory.

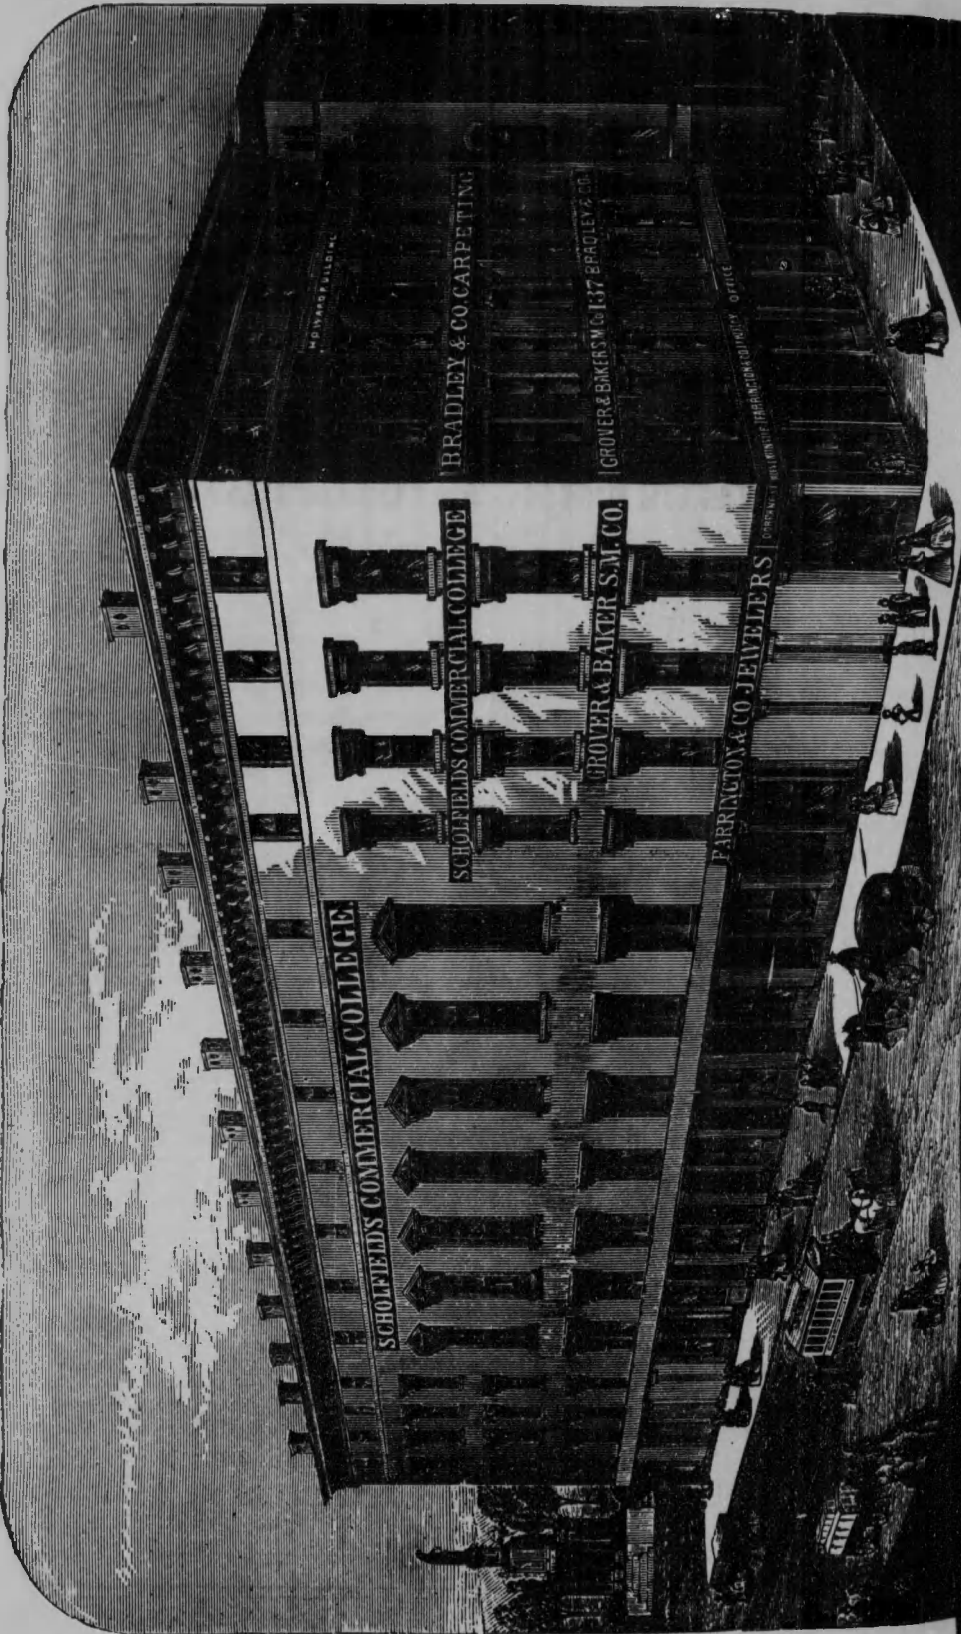

3d. His mode of teaching is *original*. Following no "illustrious predecessor," he adopts his *own* rules and examples, which, though simple and easily understood, are nevertheless *thorough and comprehensive*. With a knowledge of the best methods by other authors, he brings to the work, what we esteem of far greater value, *his own mature experience* as a practical accountant.

In conclusion, we would only add our *entire confidence* in Mr. S. as a *man and a teacher*. His long experience, close application, faithfulness and unwearied devotion to his favorite pursuit, entitle him, as we believe, to the entire confidence and liberal encouragement of this enlightened community.
