THE

Corliss Safe.

The Corliss Safe is radically different from all others in form and in the material used in its construction.

The Corliss Safe is the only safe ever made without a door (*The weakest point in all other safes.*)

The form and construction of **The Corliss Safe** is a guarantee of its proof against the practical use of explosives.

The Corliss Safe is the only safe that cannot be opened by tearing its fastenings apart by means of wedges and slight explosives, for it is practically one solid piece.

The Corliss Safe is the only structure made from which the contents cannot be abstracted by the use of the blow-pipe and drill.

The Corliss Safe is the only safe ever made that really merits the name of **Burglar-Proof, it never having been Buglarized.**

Pamphlets and Photographs illustrating and giving full description of the Corliss Safe and Patent Vault Doors, will be sent on application, to parties desiring to purchase.

SAMPSON, MURDOCK, & CO.,

54 NORTH MAIN STREET, - - PROVIDENCE, R. I.

DIVIDEND PAYING STOCKS.—"E" & "F."

CLASS "E" GUARANTEED COUPON 7 per cent. Full Paid Stock. Costs $102 per share. $2 premium. Each certificate bears 16 coupons at 7 per cent., payable semi-annually by The Minnesota Loan & Trust Company as Trustee and Registrar. Balance of earnings are credited to other classes of stock in consideration of guarantee. Called in and redeemed in currency at par in 8 years, or at purchasers' option on any interest day after 3 years.

VALUE OF GUARANTEE.—This stock is guaranteed by the entire earnings and assets of this Company, in consideration that all earnings in excess of 7 per cent. shall be credited to the other classes of stock. It is especially intended as an investment for Trust Funds, Institutions, etc., requiring the *largest fixed income, and as near an absolutely safe investment as is obtainable.*

From $500 to $25,000 received.

CLASS "F" PARTIAL DIVIDEND 6 per cent. Prepaid Stock. Cost $51 per share. $1 premium. Each certificate bears 20 coupons at 6 per cent., payable semi-annually by The Minnesota Loan & Trust Company as Trustee and Registrar. Balance of earnings credited are compounded and accumulated until each share is worth $100. This stock is withdrawable at purchaser's option on any interest day after 2 years at $50 per share and accrued coupons (6 per cent. interest), and after 8 years with full earnings credited (limited to 12 per cent). Thus it is as profitable as the best improved City Real Estate without the risks of same, and safer than a single First Mortgage or a railroad bond. *This stock is considered one of the most desirable dividend paying investments obtainable.*

From $1,000 to $50,000 received.

COUPONS.—Rhode Island Stockholders matured Coupons are payable on presentation at the office of the Rhode Island Hospital Trust Company of Providence.

INSTALLMENT STOCK—"A" & "B."

A DEFINITE CONTRACT.

CLASSES "A" & "B" are payable 60 cts. a share per month for 84 months, and $1 per share the first month. Total in 85 payments $51.40. Earnings $48.60. Maturity value, payable in currency, $100 per share. Unless stock is withdrawn or transferred all earnings accumulate until each share is worth $100. The first payment of $1 per share is a membership fee and must be paid to the agent at date of subscription. All other payments *must be made direct to the Germania Bank, or its correspondent, the Rhode Island Hospital Trust Company.*

THE UNITED STATES COMPANY has loaned over $1,000,000, and is now safely loaning about $50,000 per month. *It is one of the oldest and largest of the national Savings Associations.* Its record is real—*not prospective*, and its thousands of stockholders attest the results eminently satisfactory. This with the continuation of its past policy to adopt all *worthy* new features, and the increased activity of the management which has placed it in the front rank of all Co-operative Banks is an earnest of perpetuity and continued success.

THE PROVIDENCE

Steam Carpet Beating Company,

New Number 151 Summer Street.

Telephone No. 1539.

Economy! Neatness!! Dispatch!!!

Old Carpets made to look nearly as good as new by the use of the Patent Carpet Beating Machine. Grease removed by a new process. Special rates for renovating. By this method of cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, *yet thoroughly expel all the dust and moths.* The dust and dirt as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moths or lava which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

If it be found necessary, we can apply our *heated steam process* in addition to the machine for removing dust and dirt; and this process will effectually relieve the carpet of all impurity, and in doing this bring the colors out almost like new. The moths and vermin are killed and not likely to trouble the fabric for a long time to come. Health and comfort are both promoted thereby. The carpets are not only beaten and cleaned but are thoroughly aired, there being a constant supply of fresh air going through the machine at all times.

Orders sent by Mail or Telephone to the Factory will receive prompt attention. Open every working day of the year. ☞ALL WORK GUARANTEED.

CARPETS, RUGS, BLANKETS, ETC., WASHED.

Carpets called for, Cleaned and returned without regard to weather. Cartage free. Carpets taken up and relaid when desired. Send for circulars.

THOMAS EVANS,

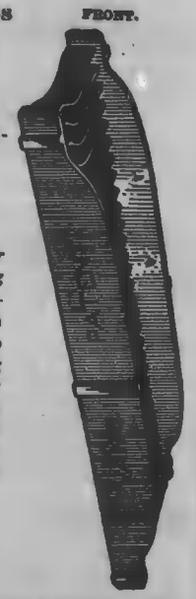
Steam Engineer.

FRONT.

Examinations and Test of Steam Plants for securing economy of fuel. Steam Engines Indicated and Power carefully measured.

Investigations made on the performance of Steam Engines and Boilers under all working conditions.

Thomas Evans' Patent Grate Bar.



To STEAM USERS:

One of the chief features of this grate bar is "*A Uniform Air Space*," free from sharp angles and curves, the air flowing through this bar meets with the least possible resistance, enabling a large amount of air to pass through with minimum amount of draught. The very large amount of air necessary to form a perfect combustion under ordinary conditions in burning coal demands a carefully designed grate bar, one that will allow free access of air or oxygen to the incandescent fuel and at the same time allow the refuse ashes to fall through freely. This bar contains from 46 to 65 per cent., air space, according to nature of fuel used. To all parties using grate bars, it is worth their serious consideration.

Yours truly,

THOMAS EVANS, Steam Engineer,

A Card.

THE ATTENTION of Real Estate Owners and Improvers, Manufacturers, and consumers of Paint generally, whether large or small, is respectfully invited to the FACT that we have at 18 to 24 Mathewson street, in Providence, the LARGEST and MOST THOROUGHLY EQUIPPED paint factory to be found in NEW ENGLAND. In addition to this our Superintendent is known in THIS COUNTRY and GREAT BRITAIN as one of the best and most practical paint manufacturers and chemists in the business.

These facilities enable us to manufacture Paints of every description, including WHITE LEAD, COLORS of all kinds, VARNISHES, etc., second to none in the country, and at prices which defy competition. The knowledge of these facts will, we trust, interest buyers in this section and lead them to avail themselves of the superior advantages offered by us.

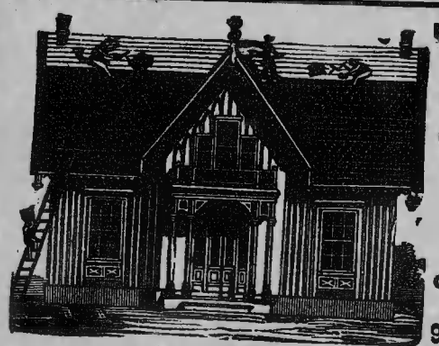
1850. **ARE YOU INSURED?** 1893.

IF SO IS IT THE RIGHT KIND TO CARRY?

Many people are depending wholly upon assessment insurance which protects NO ONE and benefits NO ONE except the Insurance Agent.



The OLD NATIONAL LIFE INSURANCE COMPANY of VERMONT which has carried on a successful business for over 40 years, will insure you for $12.80 per $1000.00., and upwards, according to age, and GUARANTEE that it will never cost you more than the Annual Premium.

NO ASSESSMENTS. NO ANNUAL DUES.
NO FEE FOR MEDICAL EXAMINATION.

If at any time after a policy has been in force 3 years, you desire to give it up, the Company will buy it of you or loan you money upon it.

Investigate this plan at once. For full particulars of the INSURANCE or AGENCY CONTRACTS call upon or address

PREFACE.

The PROVIDENCE DIRECTORY and RHODE ISLAND BUSINESS DIRECTORY herewith presented to the public contains, we believe, so far as a Directory can do so, a faithful representation of the business enterprise, commercial growth and increasing population of our City and State.

There are upon the pages of this book many indications of the advanced position Providence is taking among the larger cities of the country. There is no truer indication of a city's progress than is found in the increase of diversity in business within its limits, and that this increase is going on in our city is readily discerned by a reference to the Business Directory in this volume and a comparison with those of previous editions.

It is a fact that Providence is making rapid strides not only in the variety of its industries, the extension of its commercial relations and the development of large manufacturing interest, but also in its population.

The City Census taken last January, under the direction of the City Registrar, afforded a surprise to most of our citizens and apparently demonstrated the inaccuracy and incompleteness of the census of 1890, so far as the simple enumeration of the inhabitants was concerned. The population of Providence as shown by the United States Census of 1890 was 132,146, and by the State Census of 1885, 118,070, giving an increase in *five* years of 14,076, while the City Census taken in January, 1893, showed an increase in *two and one-half* years of 16,798.

It certainly is a little singular that there should be the largest increase in a period one-half as long as one immediately preceding it. We find, however, a parallel case developed by the City Census of 1883, when there was a gain of 11,903 over that of U. S. Census of 1880, and in the succeeding two and one-half years a gain of only 1,315 as shown by the State Census of 1885. Both the United States and State Censuses involve much detail and complexity and many of those employed in gathering information for it are comparatively unadapted to the requirements of the work, while in the City Census the conditions are different, the information to be obtained being simple and the enumerators in most cases experienced canvassers. We may therefore be assured that the population of Providence in January, 1893, as shown by the City Canvass, (148,944), is reasonably correct, and certainly the large increase of names in this Directory warrants this conclusion.

To put the matter plainly we give the following figures:

U. S. Census,	June,	1880,	104,852.		
City "	Jan.	1883,	116,755.	Increase in 2½ years,	11,903.
State "	June,	1885,	118,070.	" " 2½ "	1,315.
U. S. "	June,	1890,	132,146.	" " 5 "	14,076.
City "	Jan.	1893,	148,944.	" " 2½ "	16,798.

It will be interesting to note, in this connection, the figures of the census of 1895, should the world stand so long, and that thing come to pass.

Since the last Directory was issued, there have been over one hundred and twenty-five streets renumbered, some of which have been extended, others have been renamed and

still others discontinued. The most notable change is the extension of Westminster street along the line of what was formerly High street, involving also the renumbering of the whole street. All these changes have necessarily increased the labor of canvassing and compiling the Directory and given unusual opportunity for inaccuracies, but we have been able through the courtesy of the Superintendent of Street Numbering to incorporate in this book the latest changes made before going to press.

The HOUSE DIRECTORY, published for the first time in our last issue, was an experiment so far as public appreciation was concerned. It has, however, developed into a most practical and valuable feature of the book, and there has been an almost universal demand for its repetition. We have therefore published it in the larger part of this edition. The STATE BUSINESS DIRECTORY, which is an exceedingly valuable and well appreciated portion of this book, has been thoroughly corrected in both the Alphabetical and Classified departments.

The MAP OF PROVIDENCE has undergone a complete revision and contains in addition to other new features, the boundaries of Voting Districts indicated by dotted lines, and the territory lately acquired from Cranston comprising Cunliff's Pond and involving the extension of Roger Williams Park.

The changes which have occurred among our citizens during the past year, so far as the General Directory takes cognizance, are as follows:—

Of those whose names appeared in the Directory of 1892, 11,590 have changed the location of their residences, 3375 their business location, 2891 the nature of their business or occupation, and in 314 firms changes have been made either in their names or membership.

In 1884, we published a list of twenty-one citizens then living in Providence, whose names appeared in the first Directory of Providence issued in 1824. Of that number there are but two remaining, viz:—Edward Congdon, born in 1802, and Thomas R. Briggs, born in 1807.

Attention is respectfully directed to the table of "Changes in the Directory" on page 4, also to "Contents" on page 5.

We have the most complete and extensive outfit and the widest experience of any party in New England. We can sink wells in ledge for one-half the price of blasting. We can show any Water Supply Committee **3,052,800** gallons of pure water per day being pumped from our wells. We will show one drilled well earning $25.00 per day, one drilled well yielding 350 gallons of pure water per minute, one $65.00 well earning $180.00 a year.

I can refer to any of my patrons, a few of whom are:

DELBERT L. BARKER, CONTRACTOR,

Builders and Traders Exchange, Opp. Office,

211 EDDY STREET, PROVIDENCE, R. I.

We have the most complete and extensive outfit and the widest experience of any party in New England. We can sink wells in ledge for one-half the price of blasting. We can show any Water Supply Committee **3,052,800** gallons of pure water per day being pumped from our wells. We will show one drilled well earning $25.00 per day, one drilled well yielding 360 gallons of pure water per minute, one $65.00 well earning $180.00 a year.

I can refer to any of my patrons, a few of whom are:

PROVIDENCE HOUSE DIRECTORY.

In this House Directory the numbers have been arranged in regular succession, without distinctive reference to either side of the street. Names of house-keepers and boarders are given at residences, being designated by the abrreviations h. and b. after the name. When neither of these abbreviations appear, business places are indicated, and at such places the names under which the business is carried on (individual, firm or company), are given. When at the same street number, more than one name appears, they are arranged alphabetically, except, that where different rooms or apartments are given by numbers, these are arranged numerically, and the names of their occupants, in corresponding relation.

The abbreviation r. between the street number and the name signifies "rear," but when it follows the name, "rooms."

The streets are arranged in alphabetical order.

The usual Street Directory, giving the location of each street, and showing what other streets, places, etc. run from it or across it, is published on pages 17 to 35.
