A. E. ALDEN'S NEW PHOTOGRAPH ROOMS!

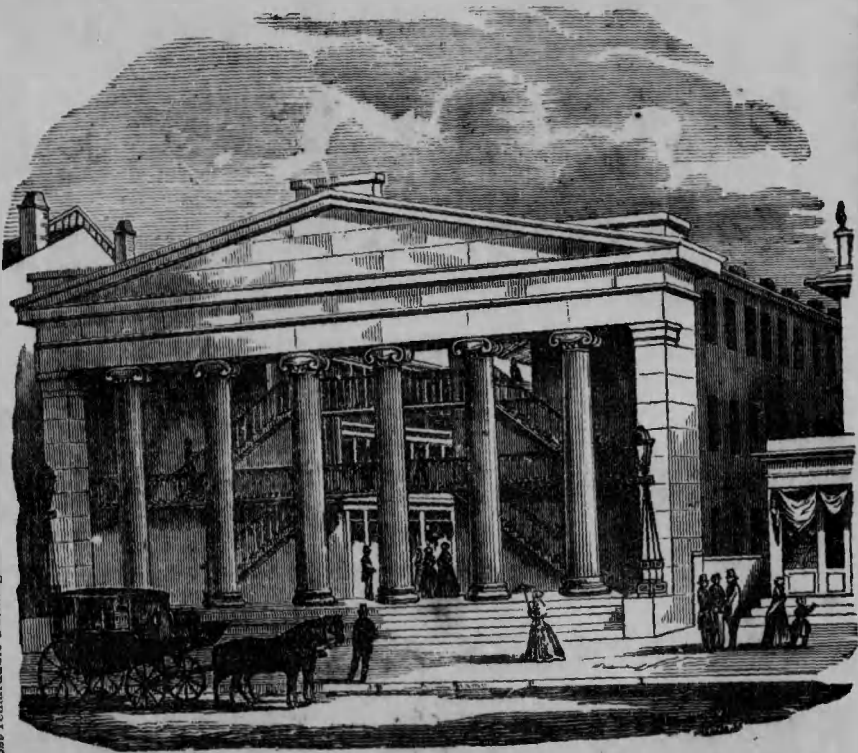

Nos. 59, 61, 63 & 65 ARCADE,

Emporium of
Fine Arts.

PROVIDENCE, R. I.

Call and
see Specimens.

We give a fine view of the celebrated ARCADE, our place of business in Providence, R. I.,—one of the most remarkable Buildings in the Country. It is on the west side of the River, and fronts on two Streets,

running through from Westminster St. to Weybosset St.,—having a Doric portico on each. It is 225 feet long, 80 feet wide, and 53 feet high: divided into three stories, containing upwards of 25 Stores in each.

A. E. ALDEN would respectfully announce to the citizens of Providence and vicinity, that he has purchased the entire interest of MANCHESTER BROS., and F. HACKER, in their New Photograph Rooms, located Nos. 59, 61, 63 and 65,—Arcade. It is further desired that the patronage so liberally bestowed by the citizens heretofore, shall be continued. Having assented the services of FRANCIS HACKER, the well-known Photographer, I feel it no arrogance to assert that Photographs taken at our rooms will be equal if not superior to any taken in this City, New York or Boston. Mr. Hacker is well known among Artists as one of the best in New England.

Our Card Visites, Vignettes, Full Sized Photographs,

shall equal if not excel any made in the United States; no pains being spared to suit and guarantee satisfaction. Particular attention paid to

Copying and Enlarging Photographs, from Daguerreotypes, Ambrotypes and Portraits.

We can produce a more Perfect Picture than the one copied from. Photographs in Water Colors and Oil, or touched in India Ink. Also, Visites and Vignettes Colored. In fact, all that pertains to the Art will be executed in a manner to please those who may favor us with a call.

We invite all to examine our Photographs, as it is by comparison only that good work will be justly appreciated.

GREAT EXCITEMENT!--Something New---Patent Pictures by Machinery!

We also take this opportunity to inform the public that we own the exclusive Patent Right for the City of Providence, for taking the GEM PICTURES, or TINY TYPES—as many call them.

A large assortment of Photograph Albums constantly on hand and for sale cheap. Also, Tin Type Albums, at

CHILSON'S PATENT CONE FURNACES — AND — DOUBLE OVEN COOKING RANGES.

CHILSON'S CONE FURNACE.
[Patented in America, England, and France.]

The extensive use of this superior Furnace in the United States has acquired for it a reputation too well and favorably known to need more at this time than to call the special attention of those in want of the best possible means of warming dwellings, public buildings, etc., with pure, fresh, healthful heat (free from that dry, red-hot iron heat and coal gas, so common to hot-air Furnaces), to an examination of this superior invention, which represents a cluster of Cones, or tapering Radiators over a broad flaring shallow fire-pot. These cones being large at the base, and small at the top, secure the great and important object of retaining and holding the smoke and gases back, in contact with the burning fuel—thus thoroughly consuming the gases, while their heat is compressed up into the Cones, and made to impinge against and radiate from the tapering surfaces.—thereby securing twice the heat from a given amount of coal that can be obtained from any other plan known to man. This Furnace is very simple in its construction, and easily managed and much less liable to need repairs than any other plan of Furnace in use.

Also five sizes of PORTABLE FURNACES, on the same principle, that are giving the most perfect satisfaction. The Cone Furnace received a Gold Medal at a recent fair in Boston, and the only gold medal ever awarded to a Furnace in Massachusetts.

PARLOR STOVES.

CHILSON'S NEW PARLOR STOVE has great improvements over any other Stove in the market, for its great economy in fuel, keeping fire day and night, and warming the cold air near the floor for a great distance around Call and see this Stove. Its arrangements for ventilating the room are complete.

CHILSON'S NEW FLAT-IRON HEATER.—Just patented. Arranged so as to set into one of the boiling holes of a Range or Stove. The nicest invention ever devised for the purpose of effecting a great saving of Fuel and Labor. A new Laundry Stove on the same principle.

CHILSON'S NEW GRIDIRON.—Just patented. This is unquestionably the most perfect invention ever seen for broiling steak, etc., nice and quick, without one particle of smoke or odor from it in the room.

CHILSON'S NEW VENTILATOR AND DAMPER COMBINED.—Just patented. May be attached to the Smoke Pipe of any Furnace, Stove, etc., effecting a saving of at least 50 per cent. in fuel, and keeping one continuous fire through the season. Please notice this invention.

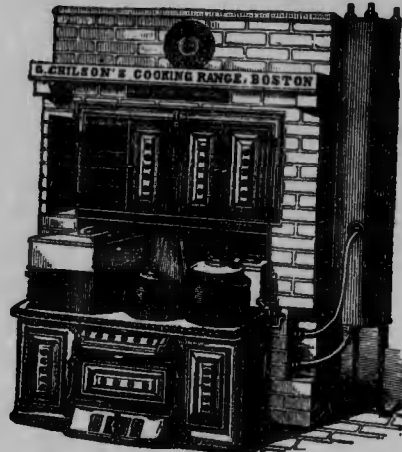

Circulars giving full descriptions of the above sent to any address.
Registers, Ventilators, Mantels, Frame Grates, Stoves, etc., with every variety of Heating, Cooking, and Ventilating Apparatus.

Personal attention given to their erection when desired. The above may be obtained at wholesale or retail, at MY STORE, 99 AND 101 BLACKSTONE STREET, BOSTON, OR AT MY FOUNDRY IN MANSFIELD, MASS.

GARDNER CHILSON.

The above articles may be obtained in Providence, of my authorized Agents,
Messrs. WM. H. FENNER & CO., 121 Broad Street.

**CHILSON'S PATENT
ELEVATED DOUBLE-OVEN COOKING RANGE.**

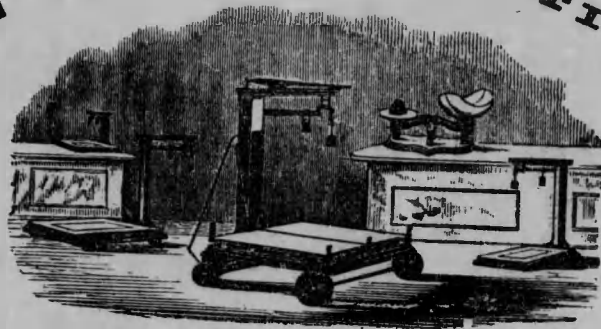

Housekeepers and others interested in the use of Ranges or Stoves, whether wishing to purchase or not, are invited to examine the great improvements secured by five patented claims in this truly superior Range, now in so general use.

The subscriber confidently asserts these improvements to be far in advance of any other plan of Range or Stove in the United States, and believes an examination of them, together with the many thousand testimonials received from those in use, will fully substantiate this assertion. Sizes adapted for Hotels, Dwellings, Restaurants, or any public or private institution, fitted when desired with hot water backs for bathing and other washing purposes; hot air fixtures for heating additional rooms, and hot closets or plate warmers.

TWELVE PATENTS ISSUED ON THESE SCALES ARE NOW IN FORCE,

Which are a guarantee that the inventive skill and enterprise of the manufacturers has not slackened with the growth of their UNRIVALLED REPUTATION.

LLOYD'S
SUPERPHOSPHATE OF LIME.

MANUFACTURED AT PROVIDENCE, R. I.

From many years' experience, the proprietors can, with confidence, recommend their SUPERPHOSPHATE OF LIME as a TOP DRESSING for WHEAT, CLOVER, GRASS. (*Pasture or Meadow,*) and at time of sowing or drilling, for INDIAN and SPRING CORN, POTATOES, CARROTS, TURNIPS, ONIONS, CELERY, &c.

Weight per acre, from five to six hundred pounds where farm yard manure is not used with it; but when the land receives, say half a dressing of farm yard manure, then from two to three hundred pounds will be sufficient.

If sown broadcast, the land should be immediately harrowed or ridged up, so that the manure will not be exposed to the air or sun; when drilled, it must be well mixed with loam, and care taken that the seed and manure do not come in immediate contact.

Scholfield's Improved Water
Wheel Regulator,

With
Patent Compensating
Adjustment.

I build and keep constantly on hand SCHOLFIELD'S IMPROVED WATER-WHEEL REGULATOR, with Patent Compensating Adjustment, which I will warrant to act with more than double the rapidity of any other kind of governor now in operation, without impairing its efficiency by excessive action. For in every case, its adjustment may be so proportioned, as to make it impossible that its own restoring action should carry the speed too far.

These Machines are furnished to order and sent to any address. Please send for a Circular describing the particular mode of action in this new method of Regulating.

PROVIDENCE NEW GYMNASIUM.

SWEDISH MOVEMENT CURE

AND

TURKISH BATH.

NO. 27 SOUTH MAIN STREET.

J. G. TRINE, }
A. L. WOOD, } Physicians.

THE NEW GYMNASTICS

IS the most complete and perfect system of Physical Culture ever devised, being adapted to persons of all ages and both sexes, who have a fair amount of health and strength, and who have no special weakness or deformity. Ladies and Gentlemen exercise together, the whole class in concert, and every movement is adapted to and accompanied by music.

The special objects of the New Gymnastics are to promote the health, increase the strength, develop beauty and symmetry of form, give an erect and graceful carriage, impart flexibility, precision, activity, and endurance, and furnish a social, healthful, and pleasant means of recreation.

THE SWEDISH MOVEMENT CURE

is entirely different and distinct from the Gymnasium. It is the scientific application of motion to the removal of disease by localized movements and special manipulations. The movement cure is for persons of low vitality, and those who suffer from some Chronic Disease, local weakness, or deformity.

Its aim is to develop harmony and equilibrium between the muscular and nervous energies.

There is scarcely a Chronic Malady which is not treated with more or less success by the special exercises of the *Movement Cure*. For *deviation of the spine* it is the only rational mode of treatment.

Children with small, flabby muscles, narrow chests, and other evidences of feeble vitality, will be rapidly and permanently improved.

Ladies in delicate health will find substantial relief in the gentle but at length thorough exercises of the movement Cure.

The Movement Cure is particularly applicable to cases of Spinal Curvature, Drooping Head and Shoulders, Stiff Joints, Paralysis, Imperfect Circulation of the Blood and Coldness of the Extremities, Scrofula, Incipient Consumption, Asthma, Nervous Affections, Dyspepsia, Torpidity of the Liver, Constipation, Hemorrhoids, Periodical Headache, Uterine Diseases, and all Chronic Maladies in which the loss of symmetry and muscular strength are the prominent features.

THE TURKISH OR HOT AIR BATH

is specially adapted to free the system of Scrofula, Humors, and all morbid matter and impurities. It is invaluable in all Rheumatic and Neuralgic affections, and in relieving Common Colds its beneficial effects are immediate, a single bath being usually sufficient. By its use the skin is so invigorated that the person is fortified against sudden and severe atmospheric changes, and is not subject to Coughs or Colds.

It is among the greatest of luxuries, and, by its purifying and cleansing effect upon the skin, renders the countenance clearer, fresher, and more beautiful.

"The Bath," says a high medical authority, "which cleanses the inward as well as the outward man, which is adapted to make health *healthier*, and alleviate disease, whatever its stage or severity, deserves to be regarded as a national institution, and merits the advocacy of all men."—ERASMUS WILSON on the Turkish Bath.

"In the THERMÆ the skin acquires color, freshness, firmness, and elasticity: it loses the muddy and faded hues of ill-health; and it loses equally the parched and arid dryness and wrinkled aspect of infirmity and old age."—ERASMUS WILSON, F. R. S., in the British Medical Journal.

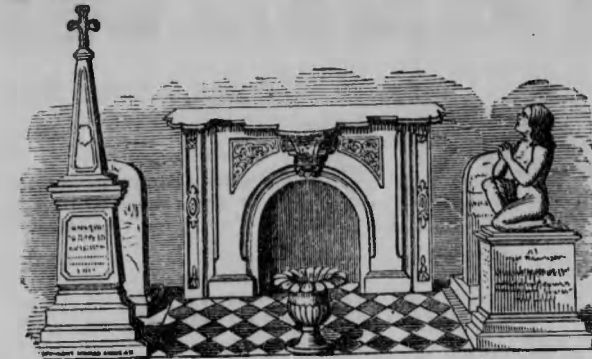

"It is extraordinary how large a quantity of sebaceous matter will first be softened, then expelled by the Hot-Air Bath, from a skin apparently washed clean with soap and water."—ABRAHAM TOULMIN, M. D., before the Harveian Society, London.

"We are prepared to speak of this Bath from personal knowledge, and can assure our friends and the public that as a medium for the cure of diseases of an obstinate nature, we know its success to have been signal."—*Norfolk County Journal*.

"We have a personal knowledge of the exquisite pleasure which persons in health experience in these baths."—*Boston Transcript*.

**BAILEY'S PATENT SPRING ROLL
WASHING AND WRINGING
MACHINE.**

The only Machine which runs the Clothes both ways without change of Tubs or Machine.

W. S. HOYT, SC. PROP.

S. A. BAILEY'S CELEBRATED WASHING AND WRINGING MACHINES have been in constant and satisfactory use for more than four years, and have a well-earned reputation for perfection of work. The proprietors invite housekeepers, and all other persons desirous of procuring the best machine ever invented for the wash-room, to call and examine their stock of machines before purchasing elsewhere. Having had five years' experience in the Wringing Machine business, they are able to furnish a much more perfect machine than any other parties in this or any other market. They claim and believe they can satisfy persons about to purchase a Wringing Machine, and who will call and examine for themselves,—

1. That their machine, as a whole, is much more durable than any other in the market; and that the Rolls especially are, by a very large per cent., more durable and powerful than any other.
2. That their machine will do the work more perfectly than any other.
3. That their machine will do the work faster than any other.
4. That their machine will save over the old way of washing and wringing clothes more than half the labor, and fully one-half the wear and tear to clothes, and a large per cent. more than any other Wringing Machine in the market.
5. That their machine is what every family needs, and what nearly every family can better afford to have than to do without.
6. That AN OSCILLATING BOARD to a Wringing Machine is an almost indispensable attachment, when used for washing.
7. That the EXCLUSIVE USE of such a board, to turn the water from the rolls of a Wringing Machine to a tub on either side of the same, is secured to them by Letters Patent.
8. That persons using an oscillating board, for the purpose of guiding the water from the rolls of a Wringing Machine, unless furnished by the proprietors of this machine, will be liable for damages.
9. That whether a board be used, or some other substance similar in form and operation be substituted, and whether the same oscillates horizontally, perpendicularly, or otherwise, it infringes their rights the same.

Large rolls and Machines, well adapted to the work of Laundries, Dye Houses, Manufactories, &c., supplied to order.
