Year ending December 31, 1960

Honorable Walter H. Reynolds
Mayor of Providence
City Hall, Providence, R. I.

Dear Mayor Reynolds:

The Bureau of Licenses submits herewith a report of its activities for the year ending December 31, 1960.

The Bureau has authorized the issuance of 12,979 licenses of various types, has held approximately ninety informal hearing, and there were sixty-eight licensees warned for minor violations without hearings. During the year survey work was completed on tracts Nos 9, 10, 11 and 12 and work was started on Tract No. 32. Because of the extreme deterioration in many of its structures and the consequent possibility of future redevelopment work, the area north of Atwells Avenue in tract No. 9 was not surveyed. However, complaints in this sector of tract No. 9 were answered promptly and violation notices issued.

Tract No. 32 is among the better of the 37 U.S. Census tracts in Providence in measure of well-maintained dwelling units. The survey of this tract was made at the request of the Providence Redevelopment Agency. Because of the exodus from Lippitt Hill many former residents of the Hill were moving into the southwestern corner of this tract and this section, for a number of reasons, was beginning to experience neglect and its resulting deterioration. The Mount Hope Neighborhood Improvement Association had also requested that this survey be conducted. This Association is composed of civic-minded people interested in keeping their community attractive.

The press has continued its strong and constant support of the work and objectives of this Division and one newspaper story revealed that, since bathing facilities became mandatory on September 9, 1959, there has been an average of one bathtub per day installed in Providence.

The record of the inspectors in the field continues to

be outstanding. Since May 13, 1957 they have performed approximately 125,000 inspections, each visit conducted in a manner friendly and efficient.

The Division's public relations remain excellent. The people are steadily becoming more aware and appreciative of the progress being made in the fight to give clean decent homes to all our citizens. Community groups in various localities are now anxiously seeking surveys in their neighborhood.

With the addition of two more field inspectors in 1961 and the hope of continued growth of the Division, the City of Providence will accelerate its march towards the objective of being the first city in the world history where a sub-standard, let alone slum house, will be as rare as a case of small pox.

REPORT ON PROPOSED PARKING FACILITY

(Blocks Bounded by Washington, Aborn, Fountain and Beverly Streets)

The parking problem in Providence was studied through a comprehensive parking survey conducted in 1945 through the cooperative efforts of the Rhode Island Department of Public Works, Highway Planning Section and the Bureau of Public Roads of the United States Department of Commerce. A report on the results of this survey was published by the Rhode Island Department of Public Works in 1946, copies of which are on file in the office of the City Plan Commission and the Traffic Engineering Department.

In 1950, the City Plan Commission, in collaboration with the Redevelopment Agency and the Traffic Engineer, published a report entitled "Parking in Downtown Providence." This report comprised a general plan for automobile parking facilities in the Providence Central Business District. The report was published in September 1950, and copies were filed with the City Clerk and distributed at that time.

During 1959 and 1960 the City Plan Commission, in collaboration with the Traffic Engineer and others, formulated a Downtown Master Plan which was presented to the public on May 3, 1960. This Master Plan included a general plan of automobile parking facilities. The accompanying letter signed by Mr. Edward Winsor, Chairman of the City Plan Commission, indicates that the parking facility proposed in this report is in conformance with the general plan as required by Sections 3 and 8 of Article III of Chapter 121 of the Public Laws of 1960, "An Act Providing for Off-Street Parking Facilities in the City of Providence."

SUBJECT: Purchase of land on Washington, Aborn, Fountain
and Beverly Streets for Parking Purposes

Gentlemen:

In connection with the Off-Street Parking Plan, submitted by the Traffic Engineer, this is to report that this Off-Street Parking Plan is in conformity with the General Plan and also with the Downtown Master Plan, developed by the City Plan Commission in collaboration with the Traffic Engineer, in accordance with provisions of Article 3 Section 3 of the Providence public parking act; and that the City Plan Commission at a meeting today Voted: to recommend approval and execution of this Plan as being necessary in the public interest.

Very truly yours,

EDWARD WINSOR
CHAIRMAN
CITY PLAN COMMISSION

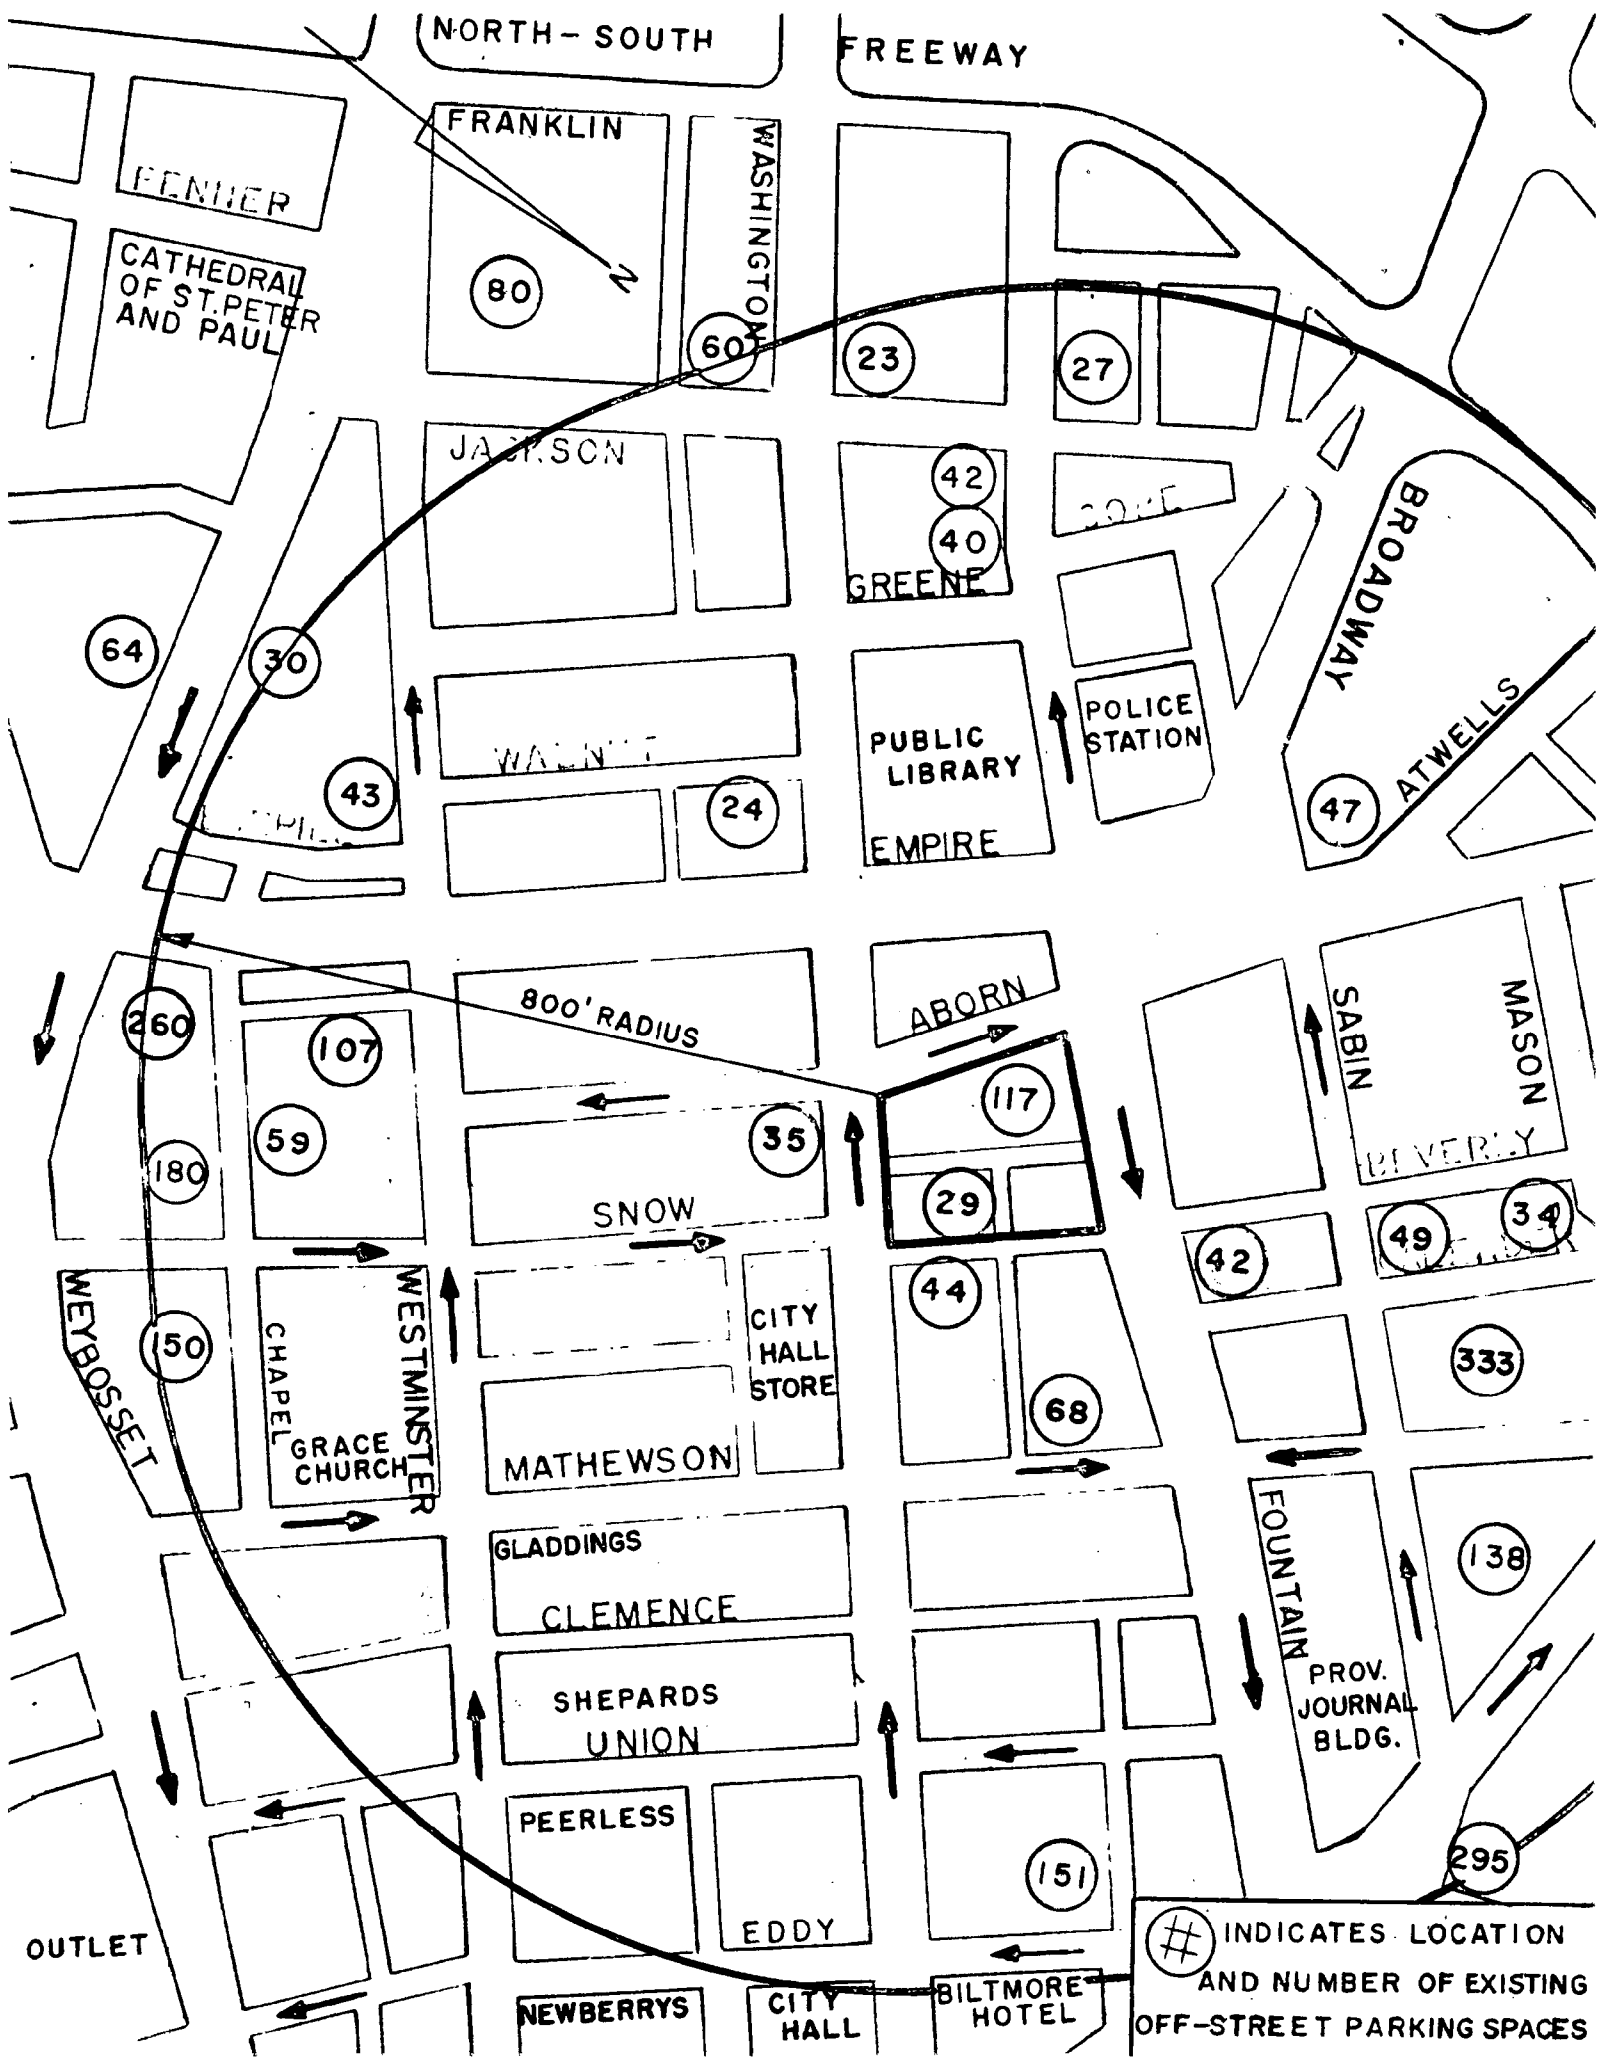

EW:MMH

The inventory of off-street and on-street parking in the downtown area has been maintained on a current basis to reflect all changes that have been made, including all new facilities, as well as the loss of any spaces to other land uses. During the past fifteen years there have been a significant number of such changes in land use by private developments of one form or another, in addition to the loss of approximately 2,800 spaces for construction of the North-South Freeway.

While the total number of spaces in public off-street parking lots has changed from 5,091 in 1945 to 7,233 as of January 1961 for an increase of 2,142 spaces, 1,929 of these spaces were created by the City of Providence or by the combined effort of the City working with other interests. These 1,929 spaces are accounted for in three facilities--Pershing Square Parking Plaza (334 metered spaces), Park N' Lock (1,500 spaces), and the Francis Street Parking Deck (95 spaces)--all three being located on the northwesterly edge of the Central Business District.

This means that while commercial parking lot operators and private investors have made substantial contributions to the downtown area in the creation of several improved parking structures during the past fifteen years, the effect in terms of the total number of parking spaces provided has been primarily one of changing land uses and improvement of the type of facility provided, without any significant increase in the total number of parking spaces. Therefore, in the public interest and for the economic welfare of the citizens of Providence it becomes necessary that the supply of off-street parking spaces continues to be increased at every opportunity. These increases should also be made to assure the continued high valuation of the Central Business District, and to assure the creation and continuation of conveniently located off-street parking facilities.

It is proposed that the City acquire the land and buildings in the blocks bounded by Washington, Aborn, Fountain and Beverly Streets as indicated on assessors plat 25 and tabulated as follows:

It is estimated that the total cost of acquiring this property will be approximately \$600,000.00, and that the existing buildings can be razed for approximately \$10,000.00, making a total capital expenditure for the land amounting to approximately \$610,000.00.

It is further proposed and recommended that this land be used as a site for the construction of a multi-deck off-street parking structure in general accordance with the schematic plans included in this report. It is proposed that the parking structure be constructed and operated by private enterprise, providing a satisfactory response is obtained as a result of a public invitation for proposals for its construction and operation.

Specifications setting forth the qualification of the bidders, the review and approval of the proposed structure that will be required by the City of Providence, the maximum and minimum rates that may be charged, and such other rules and regulations that may be necessary to effectuate the public purposes of this facility will be prepared by the City of Providence prior to the issuance of any invitation for proposals for the construction and operation of this facility.
