CITY OF PROVIDENCE MILK DEPARTMENT

JOSEPH SMITH, M. D.
Superintendent of Health
Inspector of Milk, ex-officio
Health Dept., 161 Fountain St.

RICHARD S. MCKENZIE, B.S.
Deputy Inspector of Milk
Laboratory and Office at
Charles V. Chapin Hospital

QUARTERLY REPORT OF THE QUALITY OF MILK SOLD IN PROVIDENCE BY RETAIL DISTRIBUTORS

The following table gives the results of the average of analyses made by this department during the fourth quarter of the year 1960:

No distributor's name is listed under a particular grade of milk unless at least four samples of that grade were analyzed during the quarter. The standard plate count of colonies of bacteria is obtained by using the logarithmic average set forth in the United States Public Health Service Milk Code.

CERTIFIED MILK

The legal standards for Certified Milk are those adopted by the American Association of Medical Milk Commissions, Inc. and in effect at the time of production.

Unless otherwise indicated on the label it shall contain an average of 4.0% of butter fat with a minimum of 3.5% for individual samples and a minimum of 12% of total solids.

The average bacterial count of Pasteurized Certified Milk shall not exceed 500 colonies of bacteria per cubic centimeter.

NAME OF DEALER	BUTTER FAT	TOTAL SOLIDS	Standard Plate Count. Colonies of Bacteria in One Cubic Centimeter
	Per Cent	Per Cent	
Hillside Farms, Inc.	4.07	13.03	25
Hood, H. P., & Sons.	4.19	13.49	20

GRADE A MILK—PASTEURIZED

Grade A Pasteurized milk is produced on farms scoring not less than 85% using the dairy score card of the U. S. Department of Agriculture. It shall have been pasteurized within 24 hours of the time of milking and delivered to the consumer within 30 hours after pasteurization. The butter fat shall average not less than 3.50% for any four samples taken in a period of not less than 30 days or more than 90 days. The bacteria count shall have a logarithmic average of not greater than 10,000 for any 4 consecutive samples.

The Total Solids Content shall average 12%.

PASTEURIZED SELECTED MILK

Under state law only three grades of milk are recognized, Certified, Grade "A", and Regular. Milk may also be classified as homogenized, skim, or defatted. Buttermilk and Cultured Buttermilk are other recognized types defined by state law. Goat milk is also defined. All milk sold in the City of Providence is required to be pasteurized.

While there is no separate legal classification of Pasteurized Selected Milk, some dealers utilize this "grade" as a price differential. Check this grade with dealer's Grade "A" or Regular.

THE HOUSING AUTHORITY OF THE CITY OF
PROVIDENCE, RHODE ISLAND

The Honorable Walter H. Reynolds
Mayor of Providence
City Hall
Providence, Rhode Island

THE PROVIDENCE HOUSING AUTHORITY was established in 1939 to provide low-income families with decent, sanitary housing at a price they could afford. The area of most pressing need has shifted from time to time ... from the unemployed of the depression to defense workers to returning veterans, etc. ... but the Authority's sense of responsibility to the community has remained firm.

In recent years, the Authority's attention has been drawn to one of the nation's most serious problems: the effect of inflation and higher costs of living on elderly people.

As this Twenty-first Annual Report of the Providence Housing Authority shows, the Authority has not only recognized the needs of the elderly, but has already completed the first step of a far-reaching program designed to overcome the problem.

Respectfully,

Joseph P. Carroll

Chairman

IN CITY COUNCIL

D. Everett Whelan
CLERK

ON MAY 27, 1960, a 36-unit development on Chad Brown Street in Providence was dedicated. This development is Sunset Village. The first tenants moved in on June 1, 1960, and by June 15, 1960, the development was completely leased.

The completion of Sunset Village brought to eight the number of projects built and maintained by the Authority. This most recent development is the first of the eight to be specifically and exclusively built for the aged, however. It graphically demonstrates the Authority's concern for Providence's most pressing housing problem. The sub-standard housing conditions of the past had been eliminated for most groups by the first seven projects, but in an age of spiralling costs, the aged were required to seek a decent way of living without sufficient means.

Sunset Village is the first step in a program that will enable the elderly to enjoy a decent way of living ... at a price they can afford.

IN OCTOBER OF 1959, the Public Housing Administration reduced the eligibility age for public housing from 65 to 62. Thus the number of elderly persons who are eligible for -- and definitely need -- public housing is rising rapidly.

The need for a much larger development for the elderly in Providence became even more acute with the passage of this amendment, if the Authority was to meet its responsibility to the community.

And so Sunset Village became just the first step in a far-reaching program . . .

Page 5

"BE IT RESOLVED:" By a resolution adopted in early July of 1959, the Providence City Council authorized the Authority to consider development of a 200-unit Public Housing Project for elderly persons. Dexter Manor will be ready for occupancy in the Spring of 1962.

This building has 10 living levels (with two elevators), ample parking space and a beautiful garden setting. It is located on Broad Street, approximately five minutes' walk from the main shopping district. It was planned and developed in cooperation with city agencies and civic communities.

Dexter Manor will be the first structure to implement the Downtown Master Plan. Thus, our elderly citizens will have a most significant role in the renewal of downtown Providence.

ONE OF THE UNIQUE PROBLEMS of retired people is what to do with their abundance of leisure time. Dexter Manor provides more than a decent place to live; it helps provide a decent way of life. There is community recreation space on the first floor, and further community space in a penthouse at roof level. The site of Dexter Manor is 118,000 square feet, and the garden setting should be the most beautiful in the Downtown area.

All of the particular problems of the elderly have been taken into account in the planning of Dexter Manor. It is located close to the downtown shopping area for convenience, because it has been shown that older people prefer city living.

The design has met with the approval of the Human Relations Task Force and the Design Task Force Committees of the Downtown Master Plan Advisory Committee. The architects are Kent, Cruise and Aldrich, and the General Contractor is the low bidder, E. Turgeon Company, Inc. The total development cost is \$2,922,318.00 with contingency.

WHILE SUNSET VILLAGE AND DEXTER MANOR command the greatest share of attention, the work of maintaining and supervising the other seven developments goes on. Of these seven, six are Federal-aided, and one, Valley View, is City-aided. Each of the projects is maintained under careful, experienced management. All operating and administrative costs, except for debt service, are met by the rent income. Any extra income is used to reduce the Federal subsidy.

The careful maintenance of the eight developments is one of the most important tasks of the Authority. The economical and still first-rate discharging of this duty by the Maintenance Department deserves high commendation. Constant examination of procedures insures the continuing efficiency of the whole management program.

THE AUTHORITY HAS UNDERTAKEN a most challenging problem. Sunset Village was the first part of the solution. Dexter Manor will be the next step. It will be more than an adequate solution; it will not only provide decent housing for the elderly, but it will give them a happier life and enable them to become once more an important part of the Providence community.

THE YEAR'S HIGHLIGHTS

JULY

Commissioners Cornelius J. Mulcahy and Rev. Paul C. Perrotta, O.P. complete twenty years of outstanding service for the Authority.

Valley View completes ten years of occupancy.

SEPTEMBER

National Housing Act to provide more adequate facilities for larger families and elderly persons signed by President Eisenhower.

OCTOBER

Eligibility age for elderly reduced from 65 to 62 by Public Housing Administration.

NOVEMBER

Maximum income limits for admission and continued occupancy amended.

DECEMBER

Dexter Manor named after Ebenezer Knight Dexter.

FEBRUARY

Public Housing Authority approves preliminary plans for Dexter Manor.

APRIL

Twentieth Annual Report, "Twenty Years of Progress," distributed on April 12, 1960.

Authority makes arrangements for dedication and public inspection of Sunset Village.

MAY

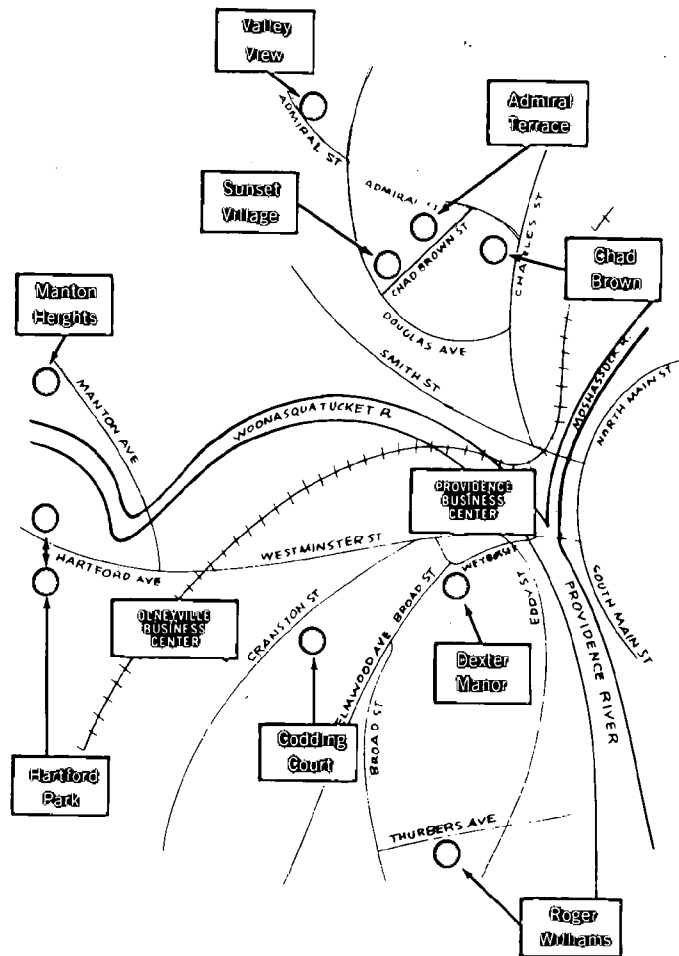

Downtown Master Plan for the City of Providence is presented to the public in the School of Design Auditorium and on a television program. On both occasions, Dexter Manor is shown as the first new construction to implement the Master Plan.

Sunset Village is dedicated.

JUNE

Plans for Dexter Manor construction bidding laid.

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States.

$\frac{d}{dt} \left(\frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$

1. The first of these is the "Museum of the City of New York," which is a collection of the city's history and culture. It is located in the city's oldest building, the City Hall, and is open to the public. It is a very interesting place to visit, and it is a great way to learn about the city's history and culture.
