# *The Return Circuit in Advertising*

*The circuit must be completed before the bell will ring*
*The Buyer must find the Seller before a Sale is made*

---

**Creative Advertising**—in newspapers, magazines, billboards, etc., tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

**This Directory** is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

---

Have you made it easy for Buyers to find ***You?***

# Locating Missing Heirs Finding Lost Persons

***This is only one of the many offices that a modern directory successfully fills***

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

***Make more use of Your City Directory !!***

## Reprinted from Bulletin of The Business Branch of a Public Library

**Directories and Business Men**

The Business Branch has a collection of approximately 2,400 current directories on which it spends $2,500 a year. Forty per cent of the use of the Business Branch is of the directory collection specifically. Is this sufficient justification, in any but a superficial way, for this expenditure in money as well as in the proportionate share of overhead?

**Of What Use Are Directories?**

What particular use are these directories? Why should Mr Jones ever need the Seattle directory or Mr Smith the directory for Kansas City? Why are so many city directories used to answer the calls that come over the telephone? The obvious use, giving the address of a certain person in a particular city is only a small part of the whole. Besides this, the manufacturer, using direct mail advertising, will wish to reach all the dentists or plumbers or steamfitters in cities of a certain size or section of the country. Is it worth while to enable him to increase his market in this way?

His friend, who wishes to reach only retail jewelers may use the same directories or any entirely different set. An insurance company, cannot decide whether a street address is meant for Grove or Grand. The city directory lists only the latter, so the papers can be drawn up correctly and without question. Mr Jones dies without a will; a sister, Mrs Hague, is supposed to live in Pittsburgh. Again the directory is called into play.

In order to bring suit, another lawyer needs to know the names of the partners in Jones & Smith of Fresno. The city directory can furnish this. Data on the city, the names of the various city, county, state and federal officials, all are there, as well as a mass of other information.

The trade directories are used from another angle. Here the manufacturer of a product known only under its trade name may be discovered; or the address of a manufacturer whose firm name only is known. This has helped many times when replacement of some part was necessary and the information about the manufacturer limited.

The research student or statistician can solve many of his problems through this collection. He may discover, through directories, the subdivisions and ramifications of any industry; and in what sections of the country it is most fully developed. The purchasing agent who wishes to consider other sources of supply will find help; as will the sales manager looking for more customers in a given line.

So much for the directory collection and its obvious uses. Another question has been raised, however, that of the fundamental use such a collection is to the citizens.

Its fundamental use is as a convenience and time saver. All of the questions asked at the Business Branch are of immediate importance in connection with some activity of the inquirer. A question may be asked and answered here in a short time. Without the directory collection at the Branch the information would take time, effort, and probably expense, to procure.

At a proportionately small cost to the taxpayer, the answers to countless questions of moment in his business life are made available to him, his clients or competitors. In many cases the directory collection will furnish information for the better understanding and development of his business.

Just what the value of this collection is to the development of the world-at-large, is problematical. According to one authority, the prime purpose of a library is "to place the right books in the proper hands; to get more joyful and wise thoughts into the minds of its owners." This last the directory collection may not do directly. Instead through saving the inquirer's time and effort by answering promptly a question relating to his day's progress, it allows him the free mind and time needed for possible indulgence in "joyful and wise thoughts."

### Directories and Business Men

The Business Branch has a collection of approximately 2,400 current directories on which it spends $2,500 a year. Forty per cent of the use of the Business Branch is of the directory collection specifically. Is this sufficient justification, in any but a superficial way, for this expenditure in money as well as in the proportionate share of overhead?

### Of What Use Are Directories?

What particular use are these directories? Why should Mr Jones ever need the Seattle directory or Mr Smith the directory for Kansas City? Why are so many city directories used to answer the calls that come over the telephone? The obvious use, giving the address of a certain person in a particular city is only a small part of the whole. Besides this, the manufacturer, using direct mail advertising, will wish to reach all the dentists or plumbers or steamfitters in cities of a certain size or section of the country. # This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9 To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
