Know Your Endorser

• The United States Secret Service has launched a "KNOW YOUR ENDORSER" campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for forged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. DEMAND PROPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in *your presence.* Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*–Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine–Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*–Saw-tooth points around rim are usually uneven, broken off.
	Genuine–Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*–Poorly printed, badly spaced, uneven in appearance.
	Genuine–Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*–Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine–Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U.S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10¢ each, or $7.50 per 100 from the Superintendent of Documents, Government Printing Office, Washington, D.C.

POLK'S
PROVIDENCE

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1958

Copyright, 1958, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

*Denotes incorrectly numbered.

The letter h following a name denotes place of business and residence address are the same.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Information." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

POLK'S
PROVIDENCE

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1958

Copyright, 1958, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

*Denotes incorrectly numbered.

The letter h following a name denotes place of business and residence address are the same.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No information." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)
