Dear Mr. Whelan:

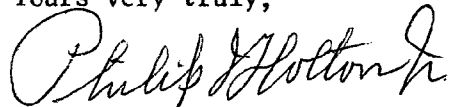

Under date of April 7, 1961 we received a letter from Edwin G. Avery, Commissioner of Public Works for the City of Cranston, requesting permission for a 30 ft. easement across our property in the vicinity of Ambrose Street, Cranston in which the 66" steel aqueduct is located. This parcel is identified in the records of the City of Cranston as Lot 1809, Plat 17, owned by the City of Providence.

This easement is required to enable the City of Cranston to lay a 14" cast iron sewer line encased in a 42" steel pipe under the 66" steel aqueduct. The sewer line will not be laid in open trench under the aqueduct. The 42" steel sleeve encasement will be jacked under the aqueduct to prevent any soil disturbance to this important primary feeder.

At the meeting of the Water Supply Board held on May 5, it was voted that our Legal Advisor prepare the necessary resolution for the consideration of the Mayor and the Council at the meeting to be held on Thursday, May 18. We have forwarded to Mr. Walsh a copy of the easement which will accompany the resolution that he is preparing for the Council. I am holding the original copy in this office which we will submit for the Mayor's signature provided the Council acts favorably upon this request.

We are enclosing 29 copies of the plan showing the proposed easement which will enable you to submit a copy to each member of the Council.

Yours very truly,
