

CITY OF PROVIDENCE MILK DEPARTMENT

JOSEPH SMITH, M. D.
Superintendent of Health
Inspector of Milk, ex-officio
Health Dept., 161 Fountain St.

RICHARD S. MCKENZIE, B.S.
Deputy Inspector of Milk
Laboratory and Office at
Charles V. Chapin Hospital

QUARTERLY REPORT OF THE QUALITY OF MILK SOLD IN PROVIDENCE BY RETAIL DISTRIBUTORS

The following table gives the results of the average of analyses made by this department during the third quarter of the year 1964.

No distributor's name is listed under a particular grade of milk unless at least four samples of that grade were analyzed during the quarter. The standard plate count of colonies of bacteria is obtained by using the logarithmic average set forth in the United States Public Health Service Milk Code.

CERTIFIED MILK

The legal standards for Certified Milk are those adopted by the American Association of Medical Milk Commissions, Inc. and in effect at the time of production.

Unless otherwise indicated on the label it shall contain an average of 4.0% of butter fat with a minimum of 3.5% for individual samples and a minimum of 12% of total solids.

The average bacterial count of Pasteurized Certified Milk shall not exceed 500 colonies of bacteria per cubic centimeter.

NAME OF DEALER	BUTTER FAT	TOTAL SOLIDS	Standard Plate Count. Colonies of Bacteria in One Cubic Centimeter
	Per Cent	Per Cent	
Hillside Farms, Inc.....	3.99	12.61	450

GRADE A MILK—PASTEURIZED

Grade A Pasteurized milk is produced on farms scoring not less than 85% using the dairy score card of the U. S. Department of Agriculture. The butter fat shall average not less than 3.50% for any four samples taken in a period of not less than 30 days or more than 90 days. The bacteria count shall have a logarithmic average of not greater than 5,000 for any 4 consecutive samples.

The Milk Solids Not Fat shall average 8.50%.

* STANDARD PLATE COUNT—The counts as listed are not all in accord with the "Standard Methods for the Examination of Dairy Products" as at present in force. Inasmuch as Standard Methods tries to overcome human errors as much as possible, only plate counts between 30 and 300 are to be tabulated. Inasmuch as direct plating, without dilution, would render the plate difficult to count through the milk cloud, most dilutions are 1:10 or 1:100. As most of the plates show a count under 30, Standard Methods insists that such plates be listed and averaged as less than 300, (30 times 10), organisms per millilitre. It is our feeling, however, that our method serves as a goal and greater incentive towards purer milk. This heading should preferably read PLATE COUNT.

Respectfully submitted,

JOSEPH SMITH, M.D.

Inspector of Milk

TO THE HONORABLE
THE CITY COUNCIL
City Clerk's Office
City Hall
Providence, Rhode Island

RE: Petition relative to
45 Ninigret Street -
Plat 41, Lot 266

Gentlemen:

I wish to report that this department has had the property at 45 Ninigret Street under observation since August 3, 1964.

While there were no conditions present that called for *our* prosecution, this department did notify the owner, Miss Violet Ajootian, 62 Locust Street, Providence, Rhode Island, on September 11, 1964 and again on September 14, 1964, that the lot be levelled.

We also notified the Building Inspector, as by law he is authorized to prosecute.

Enclosed is a Health Department photo showing condition as of December 1, 1964.

Respectfully yours,

Joseph Smith

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

Department of Public Works - Division of Roads and Bridges

NOTICE OF PUBLIC HEARING

In accordance with the provisions of Section 116(c) of the Federal-aid Highway Act of 1956 which requires the holding of a public hearing at which officials and other citizens of a city, town, or village affected by the location of a Federal-aid project may be heard, the Department of Public Works of the State of Rhode Island hereby calls to the attention of all interested citizens and officials of the City of Providence and the Town of North Providence, Rhode Island, that a public hearing will be held in the North Providence Town Hall, 2008 Smith Street, North Providence, Rhode Island, at 7:30 P.M. on Friday, January 15, 1965, at which time proposed plans for the widening and reconstruction of Fruit Hill Avenue for a distance of 1.38 miles from Manton Avenue, Providence, to Smith Street, North Providence, will be available for review and discussion.

A public display of the plans for the project will be exhibited in the North Providence Town Hall, 2008 Smith Street, North Providence, on Friday, January 15, 1965 from 2:30 P.M. to 7:30 P.M.
