PREFACE.

The issue of this volume, the 48th number in the series, marks the commencement of another DIRECTORY YEAR.

To some it may not be fully understood why the Directory is published in the sixth month instead of the first month of the Calendar year, but the simple statement that by so doing we are able to give in the new edition many of the changes that have occurred in the spring months of the new year, (when a large proportion of the year's changes in residences and business locations are made), will give satisfactory explanation and show the propriety of such an arrangement.

Within a few days, Broad and Canal streets have been renumbered, and as this was done after our general directory had been printed, the numbers on these streets, given in this book, are the old ones. It seems a little unfortunate that this renumbering should have been made just before the issuing of the new Directory, but that it was much needed and has been thoroughly done there can be no doubt. We have, however, published separately, and shall give to our patrons, the new and old numbers on these streets so arranged as to be easily applied to the information given in the Directory.

Shortly after the publication of the Directory of 1887, the commissioners, appointed for that purpose, presented the new Ward boundaries of the City, and as soon as it was possible for us to do so, we issued a Supplement giving a Street Directory with new Ward locations, and a colored map with the new Ward boundaries, and delivered a copy to each of our patrons in the city and state. The Map and Streets in the Directory of 1888 are thoroughly revised and give full information respecting the new Ward lines.

Providence, during the last twelve months, has shown no wonderful gain in population, neither has it given evidence of any remarkable advancement in commercial enterprise, such as we are accustomed to look for in the cities of the West, but there is every reason to believe that she is steadily improving in the direction of a healthful growth and a substantial prosperity; and in the late action of the City Government, and the earnest and judicious efforts of our business men, toward the consummation of improved terminal facilities, there is much to encourage and create large hopefulness for the future of the second city in New England.

The changes which have occurred among our citizens during the past year, so far as the Directory takes cognizance, are as follows:—

Of those whose names appeared in the Directory of 1887, 11,685 have changed the location of their residences, 2,613 their business location, 1,948 the nature of their business or occupation, and in 226 firms changes have been made either in their names or membership.

The following is a list of citizens whose names appeared in the first Directory of Providence, published in 1824, and are recorded in the Directory of 1888. The year of birth is also given:

Philip W. Martin, 1795; Thomas Harkness, 1799; James C. Bucklin, 1801; James H. Read, 1801; David W. Pettey, 1801; R. H. N. Bates, 1801; Edward Congdon, 1802; Thomas R. Briggs, 1807; John S. Harris, 1809; Jeremiah S. Barrett, 1810.

SAMPSON, MURDOCK & CO.

CHANGES IN THE PROVIDENCE DIRECTORY.

*Names in Directory of 1888 (including 1,476 Johnston names)	58,443
Names in Directory of 1887 (including 1,450 Johnston names)	57,377
Increase	1,066
Names added in preparing Directory for 1888	10,140
Names erased in preparing Directory for 1888	9,074
Changes in the address of names, etc.	16,679
Whole number of changes in preparing Providence General Directory	35,898

*This number includes the names of 2,300 individuals who have died since the canvass of the Directory of 1887, with date of death, or have removed from this city, with locality to which they have gone.

SHAFTS FOR HYDRAULIC ELEVATORS.

Pumping Appliances, either Hand, Steam, Caloric or Wind Power Furnished and Set up.

DRY : : WELLS : : DEEPEMED.

Pumps to Let. Torpedo Explosions.

DELBERT L. BARKER, CONTRACTOR,

Mechanics' Exchange, Opp. Post Office,

9 Custom House Street, Providence, R. I.

We have the most complete and extensive outfit and the widest experience of any party in New England. With new and special tools we can sink or deepen Cement-Tube Wells so that they will never go dry; have left twenty-six feet of water in a thirty-inch tube. We can sink wells in ledge for one-half the price of blasting. We can show any Water Supply Committee 1,612,800 gallons of pure water per day being pumped from our wells. We will show one drilled well earning \$25.00 per day, one earning \$5.50 per day, one \$65.00 well earning \$180.00 a year.

I can refer to any of my patrons, a few of whom are
 U. S. Naval Training Station, Newport, R. I.

PROVIDENCE STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.
 From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of High Street No. 324 comes, you look at High Street, upon page 16, and find that Spring Street runs from 296, and Winter Street from 332, showing that 324 High Street would come about half-way between Spring and Winter Streets.

Artesian and Driven Wells.

Prospecting with Diamond Drills for Minerals. Cement Tube Wells, and Blasting. Testing for Building, Bridge Pier, and Dam Foundations.

SHAFTS FOR HYDRAULIC ELEVATORS.
Pumping Appliances, either Hand, Steam, Caloric or Wind Power Furnished and Set up.

DRY : WELLS : DEEPEINED.
Pumps to Let. Torpedo Explosions.

DELBERT L. BARKER, CONTRACTOR,
Mechanics' Exchange, Opp. Post Office,
9 Custom House Street, Providence, R. I.

We have the most complete and extensive outfit and the widest experience of any party in New England. With new and special tools we can sink or deepen Cement Tube Wells so that they will never go dry; have left twenty-six feet of water in a thirty-inch tube. We can sink wells in ledge for one-half the price of blasting. We can show any Water Supply Committee 1,612,800 gallons of pure water per day being pumped from our wells. We will show one drilled well earning \$25.00 per day, one earning \$5.50 per day, one \$65.00 well earning \$160.00 a year.

I can refer to any of my patrons, a few of whom are

PROVIDENCE STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.
From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of High Street No. 324 comes, you look at High Street, upon page 16, and find that Spring Street runs from 324, and Winter Street from 323, showing that 324 High Street would come about half-way between Spring and Winter Streets.
