THE SAME BE RECEIVED.

_____ CLERK

OBJECTIVE

I am looking to move into the public sector and apply my analytics skills to use in a policy role.

SKILLS

I am a skilled data analyst with extensive data engineering skills and experience. My expertise is in merging data, contextual information and narrative into concise and targeted policies

EXPERIENCE

ANALYTICS CONSTULTANT • UPD CONSULTING
06/19 - PRESENT
I am the product owner of our proprietary K-12 education analytics tools. I work directly with school systems and teacher prep programs on building out analytics capacity, on doing statistical analysis and on their journeys from data to insights to policy.

DATA ENGINEER • LABS • OLIVER WYMAN (CONTRACT)
12/18 – 04/19
Working on an Oracle to Postgres Data Migration for a technology modernization project.

FOUNDER • SOLTIEMPO
04/18 – 12/18
Solteimpo was a startup that attempted to create both hardware and web-based software, grid edge, demand response solutions that would change the way our everyday devices behaved.

PRINCIPAL DATA ENGINEER • ADVANCED ANALYTICS • HASBRO
11/16 – 04/18
Built new analytics pipelines including writing ETL scripts using Python and Azure Data Factory. I built and managed SQL Server databases. The other major part of my job was building dashboards in PowerBI and helping business teams with advanced analysis projects. I worked exclusively in the MS Azure environment. I worked largely with the eComm and digital marketing teams.

DATA SCIENTIST • CVS HEALTH-PHARMACY CENTER OF EXCELLENCE
06/16 – 11/16
Performed various statistical, time series and segmentation

analysis using data that was mostly in a Teradata SQL database. I built Tableau dashboards and made presentations to business partners and senior management.

LEAD DATA ANALYST • CVS HEALTH-DIGITAL
05/15 – 06/16
I helped start the drive to adopt Tableau as the delivery method of choice for digital analytics. I was the Tableau Server site admin. I also created Tableau dashboards using web data. I also performed various statistical, time series and segmentation analysis.

DATA PROGRAM DIRECTOR • INSUREMYTRIP.COM • 05/14 – 05/15
Redesigned the data architecture. Lead implementation of new BI tool, moving all reporting towards a single source of truth. I also lead a team of analysts, provided training on programming, report and dashboard design, and advanced statistical methodology. Additionally, I performed the "big picture" analysis projects.

DATA SOLUTIONS ENGINEER • CHITIKA • 12/12 – 04/14
I Built statistical models to predict the value of an impression to use with the real time bidding system for enterprise level publishers. I performed market research and create Chitika Insights reports including taking over our monthly marketingland.com post.

ADDITIONAL EXPERIENCE AVAILABLE ON LINKEDIN

EDUCATION

BS • EAST CAROLINA UNIVERSITY
Dual degree earner in Mathematical Statistics and Quantitative Economics. I won several scholarships and was named most outstanding graduate in both departments. Finished with a 3.8 GPA.

AS • COMMUNITY COLLEGE OF RI
General Studies major with a certificate in Accounting. I won several scholarships and finished with a 4.0 GPA.
