The director of public works, or other officer, in addition to the specific powers granted in this act, shall also have and may exercise, relative to freeways or limited access highways, any and all additional authority now or hereafter vested in his office relative to highways or streets. Said director or other officer so authorized,

No person shall have any right of ingress or egress to, from or across limited access highways to or from abutting lands, except at such designated points at which access may be permitted, upon such terms and conditions as may be specified from time to time.

SEC. 12. *Easements Over or Below Railroad Property.* Nothing in this act shall be construed to authorize the city of Providence to condemn any portion of the land, location or right of way of any railroad company except that said city may condemn all necessary rights and easements for the purpose of crossing the same either above or below grade, by means of a street, highway, limited access highway or freeway, or any part thereof, together with entrances and exits thereto and therefrom, and for the purpose of maintaining suitable and convenient supports for such crossing, freeway or limited access highway, in such manner as not to render unsafe or to impair the usefulness of such land, location or right of way for railroad purposes.

SEC. 13. *Removal of Buildings.* Said city of Providence, for the purpose of mitigating damages or for the purpose of providing suitable accommodations for persons dispossessed by reason of the improvement, may purchase other lands and re-

No purchaser of any of said bonds, however, shall be in any way responsible for the proper application of the proceeds derived from the sale thereof.

SEC. 3. The city of Providence shall annually appropriate a sum sufficient to pay the interest upon the bonds issued and outstanding under the authority of this act, and also to pay the principal of the bonds maturing in any such year, until said bonds are paid in full. SEC. 5. This act shall take effect upon its passage and all acts and parts of acts inconsistent herewith are hereby repealed.

It is enacted by the General Assembly as follows:

SECTION 1. Section 121 of chapter 832 of the public laws of 1940 entitled "An act to revise, consolidate and amend chapter 598 of the public laws of 1866 entitled 'An act to revise, consolidate and amend the act entitled "An act to incorporate the city of Providence," and the several acts in addition thereto and in amendment thereof', and the several acts in addition thereto and in amendment thereof," as amended by chapter 1243 of the public laws of 1942, is hereby amended to read as follows:

CHAPTER 2307.

An Act Providing for Off-street Parking Facilities in Providence.

It is enacted by the General Assembly as follows:

SECTION 1. It is hereby found and declared that the lack of adequate off-street parking facilities in the city of Providence creates congestion, obstructs the free circulation of traffic, diminishes property values, and endangers the health, safety and general welfare of the public; that the provision of conveniently located off-street parking facilities attractive in cost and the simultaneous public control of curb parking are therefore necessary to alleviate such conditions; and that the establishment of public off-street automobile parking facilities and fostering the provision of commercial and special-purpose off-street automobile parking facilities are deemed to be a proper public or municipal purpose for which public moneys may be expended.

SEC. 2. For the purpose of this act (1) public off-street parking facilities are defined as accommodations provided by public authority for the parking of automobiles off the street or highway, and open to public use, with or without charge. Provided, however, that within the central downtown area as defined and described by regulation of the traffic engineer or such other officer as may be designated by the city of Providence issued after due public notice and hearing, no such facility within three hundred (300) feet of any commercial off-street parking facility capable of accommodating thirty-five (35) or more cars shall be open to the public use without charge. Such facilities may be publicly owned and publicly operated, or they may be publicly owned and privately operated; (2) commercial off-street parking facilities are defined as accommodations provided by private enterprise for the parking of automobiles off the street or highway, open to public use for a fee; (3) special-purpose off-street parking facilities are defined as accommodations provided by public authorities, private groups, or individuals, for restricted use in connection with public improvements, particular businesses, theatres, hotels, and other private enterprises or combinations thereof, or as adjuncts to housing developments or private residences. Such facilities may or may not be cooperatively established and operated; (4) combined off-street parking facilities are defined as accommodations provided by joint action of public and private interests.

Parking facilities may consist of lots, garages, or other structures and accessories, they may be surface facilities or facilities above or under the ground.

SEC. 3. The city of Providence is hereby authorized to establish and administer public off-street parking facilities and to foster the provision of commercial and special-purpose off-street parking facilities within the city of Providence.

SEC. 4. The city plan commission, in collaboration with the traffic engineer and the redevelopment agency, shall formulate for public presentation, a general plan of automobile parking facilities, as a guide for the future provision of parking facilities, properly integrated with present and proposed traffic facilities

and the Providence master plan, subject to alteration as necessary. The general plan of automobile parking facilities shall include recommended design and location of proposed parking facilities which may include improved or unimproved lots, single or multistoried garages, or other structures and accessories; and shall further include estimates of costs of the various projects therein included, a construction program, and recommended methods of financing. Where the inclusion in any proposed structure of rental space for other than parking purposes will materially reduce net public expenditures or be in the interest of sound development of the area, such rental space may be included in the plan.

SEC. 5. For the purposes of this act the city of Providence is hereby authorized to acquire public or private, real or personal, property and property rights, above, at, or below the surface of the earth, necessary for off-street parking facilities, by purchase, condemnation, gift, contribution, lease, bequest, devise or grant in the same manner as said city is now or hereafter may be authorized by law to acquire such property or property rights in connection with highways or streets; provided, however, that no off-street parking facility may be acquired without the consent of the owner and occupant unless such facility is to be incorporated within an off-street parking facility with a capacity at least 100% greater than the facility to be taken, and provided, further that the owner of an off-street parking facility who refuses to allow acquisition by the city of Providence cannot discontinue use as an off-street parking facility without first allowing the city to acquire or take the property. Where property so acquired by the city of Providence for off-street parking facilities is being operated at the time of acquisition as a commercial off-street parking facility then the operator of said commercial off-street parking facility shall be permitted to continue to operate said facility until alterations to the property shall have been commenced by the city of Providence.

SEC. 6. The city of Providence may sell, encumber, or exchange property and property rights acquired under the pro-

visions of section 5 of this act, if by so doing the interests of the public will be best served. The city of Providence may in conformance with the provisions of section 8 hereof lease property and property rights acquired under the provisions of section 5 of this act.

SEC. 7. The city of Providence is hereby authorized to construct or cause to be constructed off-street parking facilities above, at, or below the surface of the earth, including buildings, structures, equipment, entrances, exits, fencing, and all other accessories necessary or desirable for the safety and convenience of motorists using the facilities.

SEC. 8. The city of Providence is hereby authorized, to maintain and operate public off-street parking facilities or to contract therefor, or lease the same by competitive bidding to any individual, firm or corporation, upon such terms and conditions as the public interest may warrant, provided, however, that the city of Providence shall not within or on any public off-street parking facility sell or dispense any products, nor shall the lessee of any public off-street parking facility sell or offer for sale petroleum products at any entrance to, or exit from, any such facility; and provided further that prior to operating any such facility said city of Providence shall first have offered such facility for lease as aforesaid. Such facility shall be leased if the highest bid therefor is at least equal to an annual return sufficient with all other prospective sources of net income from the property to amortize the total cost of the facility within 35 years. Only in the event that the amount bid shall not yield a sufficient annual return shall the city of Providence operate such a facility and in such event such operation shall be limited to a period of one year from and after the date of the commencement of such operation at which time said facility shall again be offered for lease as aforesaid and the procedure herein set forth shall again be followed.

The city of Providence is authorized to prescribe regulations for the orderly use of off-street parking facilities provided wholly or in part by public authorities, including the fixing of maxi-

mum and minimum rates for each such facility, said rates to be fixed prior to the issuance of any invitation for proposals for leasing of such off-street parking facility and to be included in any such proposal. During any period in which any facility is operated by the city of Providence, the rates charged shall not exceed the maximum rates fixed in the last offer to lease such facility. The minimum rates charged in any such period shall be sufficient to enable such facility to be operated on a self-liquidating basis over a period of thirty-five (35) years unless it shall appear that such rate would substantially impair the probable maximum use of the facility.

In fixing rates, the due allowance shall be made for the desirability of creating a reasonable parking turnover in any facility located in a highly congested district, and consideration shall be given to any other factors affecting the usefulness of the facility for ameliorating parking and traffic difficulties.

The provisions of this section and of section 6 of this act shall be carried out by such official, committee, board, commission or agency as the city of Providence may designate, or the city many enter into an agreement with the redevelopment agency for such purpose.

SEC. 9. The city of Providence is hereby authorized, subject to the requirements of state law and municipal ordinance, to finance the planning, maintenance, and operation of off-street parking facilities by any one or any combination of the following methods: (a) general fund appropriation or (b) gift, contribution, bequest, devise or grant; and to finance the design, acquisition of property for, construction, alteration, or enlargement of off-street parking facilities by any one or any combination of the following methods: (a) special or benefit asseessments, equal to not more than one-half (½) of the total cost of land and improvements, to be assessed against benefited property in proportion to benefit derived, in accordance with the procedure hereafter prescribed; (b) revenue bonds payable solely out of revenue from off-street parking facilities, issued upon conditions prescribed by the city council; (c) general fund appropriation; (d) state and federal grants and aids; (e)

gift, contribution, bequest, devise or grant. In the use of the special or benefit assessment method of financing, the downtown area of Providence, as designated by the city traffic engineer, shall be deemed to constitute one and only one benefit district.

SEC. 10. The Providence city council shall have the power and be required to determine the necessity and extent of any expenditure by the city for the purpose of establishing public off-street parking facilities and to determine what part of the expense shall be defrayed by special assessment upon the property especially benefited.

SEC. 11. In each instance wherein the city council shall have before it for consideration a proposal to expend money for the purpose of establishing off-street parking facilities there shall be filed with the city council, signed by the mayor and the traffic engineer, a report of said proposed project including the necessary plans, profiles, specifications, and estimates of the cost, including the cost of any necessary property acquisition; an estimate of the income yield of the facility; a description of the proposed special assessment district or districts involved; and such other pertinent information as will permit the city council to decide the necessity, extent, cost and income yield of the proposed facility, and what proportion, if any, of the cost should be paid by special assessments upon the property benefited and what portion, if any, should be met by other methods as enumerated in section 9 of this act. The council shall not determine to proceed with the authorization of any expenditure by the city for the purpose of establishing off-street parking facilities until such a report of the mayor and traffic engineer has been filed, nor until after a public hearing has been held by the city council for the purpose of hearing objections to the establishment of such off-street parking facilities.

SEC. 12. After the mayor and traffic engineer have filed the report required in section 11, and the city council has reviewed said report, the city council may pass a resolution determining the necessity of the improvement; setting forth the nature thereof; prescribing within the limits established by

section 9 what part or proportion of the cost of such improvement, if any, shall be paid by special assessment upon the property benefited, and what part, if any, shall be met by other methods as enumerated in section 9 of this act; designating the special assessment district or districts and the basis of special assessments to be levied; placing the complete information on file in the office of the city clerk where the same may be found for examination; and directing the city clerk to publish a notice of public hearing on the proposed project at which time and place opportunity will be given interested persons to be heard. Such notice shall be made by publication in a newspaper, published or circulated within the city, at least one (1) week prior to the holding of the hearing. All property owners in the special assessment district or districts shall be notified by registered mail addressed to their last and usual places of abode of the date of the public hearing on the proposed project at least three weeks prior to said public hearing. It shall be the duty of the city clerk to notify said property owners. The hearing required by this section may be held at any regular, adjourned, or special meeting of the city council.

SEC. 13. If at or prior to such meeting of the city council the owners of more than fifty per cent (50%) of privately owned real property to be assessed for the purpose of establishing public off-street parking facilities, such fifty per cent (50%) to be computed on the basis of the values of their properties exclusive of improvements as valued and assessed in the last preceding city tax roll, shall object in writing to the proposed project, the project shall not be undertaken as provided herein without a four-fifths (4/5) vote of the members of the city council. If seventy-five per cent (75%) of owners of property object in writing the project shall not be undertaken.

SEC. 14. At the public hearing on the proposed public off-street parking facility all persons interested shall be given an opportunity to be heard, after which the city council may modify the scope of the project, if necessary, in such manner as they shall deem to be in the best interest of the city as a whole. If the determination of the city council shall be to proceed with

the project, a resolution shall be passed approving the necessary profiles, plans, specifications, and estimates of cost, and directing the city assessor to prepare a special assessment roll in accordance with the city council's determination and report the same to it for confirmation.

SEC. 15. When any portion of the cost of the establishment of a public off-street parking facility is to be paid by special assessment, no deviation from original plans or specifications as adopted shall be permitted by any officer or employee of the city without authority of the city council by resolution. A copy of the resolution authorizing such changes or deviation shall be certified by the city clerk and attached to the original plans and specifications on file in his office.

SEC. 16. Within the limits prescribed by section 9 the city council shall specify the provisions and procedures for financing the improvements. When any portion of the cost of the establishment of a public off-street parking facility is to be paid by special assessment, no contract or expenditure, except for the cost of preparing necessary profiles, plans, specifications, and estimates of cost, shall be made for the same until special assessments to defray the costs of the improvement shall have been levied.

SEC. 17. The city assessor shall make a special assessment roll of all lots and parcels of land within the designated district benefited by the proposed improvement and assess to each lot or parcel of land the amount benefited thereby. The amount spread in each case shall be based upon the detailed estimate of the mayor and traffic engineer as approved by the city council. In no case shall the whole amount to be levied by special assessment upon any lot or premises within the period of twenty (20) years for any improvements provided for herein exceed ten per cent (10%) of the value of such lot or parcel of land exclusive of improvements thereon as valued and assessed in the last preceding tax roll or more than five per cent (5%) of the value of such lot including such improvements as so valued, whichever

is greater. Any cost exceeding that per cent, which would otherwise be chargeable on any such lot or parcel of land, shall be financed by one or any combination of the methods enumerated in section 9 of this act, special assessments excluded.

SEC. 18. When the city assessor shall have completed such assessment roll, he shall file the same with the city clerk for presentation to the city council for review and certification by it.

SEC. 19. Upon receipt of such special assessment roll, the city council by resolution, shall accept such assessment roll and order it to be filed in the office of the city clerk for public examination; shall fix the time and place the city council will meet to review such special assessment roll, and direct the city clerk to publish a notice of a public hearing for the purpose of giving an opportunity for interested persons to be heard. Such notice shall be made by publication at least one (1) week prior to the holding of the hearing. The hearing required by this section may be held at any regular, adjourned, or special meeting of the city council. At this meeting, all interested persons or parties shall present their objections, if any, to the assessments against them in writing. The city assessor shall be present at every meeting of the city council at which a special assessment is to be reviewed.

SEC. 20. The city council shall meet at the time and place designated for the review of such special assessment roll and, at such meeting or proper adjournment thereof, shall consider all objections thereto submitted in writing. The city council may correct said roll as to any special assessment or description of any lot or parcel of land or other errors appearing therein; or it may, by resolution, annul such assessment roll and the same proceedings shall be followed in making a new roll as in the making of the original roll. If, after hearing all objections and making a record of such changes as the city council deems justified, the city council is satisfied with said special assessment roll, it shall thereupon pass a resolution

confirming such roll, placing it on file in the office of the city clerk, and directing the city clerk to attach his warrant to a certified copy within ten (10) days, therein commanding the city assessor to spread the various sums and amounts appearing thereon on a special assessment roll or upon the tax rolls of the city for the full amounts or in annual installments as directed by the city council, but in no instance shall the amount to be paid as a special assessment in any year be more than ten per cent (10%) of the amount payable as the regular assessment against such property in such year. Such roll shall have the date of confirmation endorsed thereon and shall from that date be final and conclusive for the purpose of the improvement to which it applies, subject only to adjustment to conform to the actual cost of the improvement, as provided in section 24 of this chapter.

SEC. 21. All special assessments, except such installments thereof as the city council shall make payable at a future time as provided in this chapter, shall be due and payable upon confirmation of the special assessment roll.

SEC. 22. The city council may provide for the payment of special assessments in annual installments, and shall so provide when the amount of such assessment would otherwise exclude the limits placed in paragraph 20. Such annual installments shall not exceed twenty (20) in number, the first installment being due upon confirmation of the roll and the deferred installments being due annually thereafter or, in the discretion of the city council, may be spread upon and made a part of each annual city tax roll thereafter, until all annual installments have been spread.

SEC. 23. Special assessments and all interest and charges thereon, from the date of confirmation of the roll, shall be and remain a lien upon the property assessed of the same character and effect as the lien created by general law for the city taxes until paid. From such date after confirmation as shall be fixed by the city council, the same collection fees shall be col-

lected on delinquent special assessments and upon delinquent installments of such special assessments as are provided by law to be collected on delinquent city taxes. Such delinquent special assessments shall be subject to the same penalties and the lands upon which the same are a lien shall be subject to sale therefor the same as are delinquent city taxes and the lands upon which they constitute a lien.

SEC. 24. The city controller shall, within sixty (60) days after the completion of each local or special public improvement, compile the actual cost thereof and certify the same to the city assessor, who shall adjust the special assessment roll to correspond therewith, subject to the limitation contained in section 17. When any special assessment roll shall prove insufficient to meet the costs of the improvement for which it was made, the city council may make an additional pro rata assessment, but the total assessed shall not exceed the maximum amount permitted by section 17. Should the assessment prove larger than necessary by five (5) per cent or less, the same shall be reported to the city council which may place the excess in the city treasury or make a refund thereof pro rata according to assessments. If the assessment exceeds five (5) per cent, the entire excess shall be refunded to owners of property upon which payments have been made in full, pro rata according to assessments.

SEC. 25. In any case where the provisions of this act may prove to be insufficient to carry into full effect the making of any special assessment, the city council shall provide by ordinance any additional steps or procedures required to effect the improvement by special assessment.

SEC. 26. In the event the city council permits installment payment of special assessments as provided in section 22 of this act the city of Providence shall be and hereby is authorized to issue special assessment bond notes to finance only that portion of the cost of the project that will ultimately be met by the special assessment levied. Within one year of the completion

of the project, provided installment payment of special assessments permitted by the council extend over a period of three years or more, the special assessment bonds notes issued in accordance with this section shall be funded by the issue of special assessment bonds. Said special assessment bonds shall be issued by the city council in such manner as the city council shall provide; provided that the last installment of each such special assessment bond issue shall be due and payable not later than one year after the due date of the last installment payment of the special assessment levied for the particular project.

SEC. 27. Except as otherwise provided in this act, moneys raised by special assessment to pay the cost of the establishment of public off-street parking facilities shall be held in a special fund to pay such cost or to repay any money borrowed therefor. Each special assessment account must be used only for the improvement project for which the assessment was levied, except as otherwise provided in this chapter.

SEC. 28. Except and unless notice is given to the city council in writing of an intention to contest or enjoin the collection of any special assessment for the construction of any public off-street parking facility or facilities, within forty-five (45) days after the date of the resolution of the city council confirming the assessment roll for such improvement, as required by section 19 of this chapter, which notice shall state the grounds on which the proceedings are to be contested, no suit or action of any kind shall be instituted or maintained for the purpose of contesting or enjoining the collection of such special assessment.

SEC. 29. Whenever the city council shall deem any special assessment invalid or defective for any reason whatever, or if any court of competent jurisdiction shall have adjudged such assessment to be illegal for any reason whatever, in whole or in part, the city council shall have the power to cause a new assessment to be used for the same purpose for which the for-

mer assessment was made, whether the improvement or any part thereof has been completed or not, and whether any part of the assessment has been collected or not. All proceedings on such reassessment and for the collection thereof shall be made in the same manner as provided for the original assessment. If any portion of the original assessment shall have been collected and not refunded, it shall be applied upon the reassessment and the reassessment shall to that extent be deemed satisfied. If more than the amount reassessed shall have been collected, the balance shall be refunded to the person making such payment.

SEC. 30. If any provision of this act or the application thereof to any person or circumstances shall be held invalid, such invalidity shall not affect the provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of the act are declared to be severable.

SEC. 31. This act shall take effect upon its passage and all acts and parts of acts inconsistent herewith are hereby repealed.

CHAPTER 2324.

An Act Authorizing the City of Cranston at Its Initial Expense to Cause the Installation of Water Lines by the City of Providence; to Issue Bonds or Notes to an Amount Not in Excess of $100,000. at Any One Time Outstanding for the Purpose of Defraying Such Expense; and to Impose an Assessment for the Purpose of Recouping Such Expense.

It is enacted by the General Assembly as follows:

SECTION 1. The commissioner of public works of the city of Cranston, with the approval of the city council of said city, is hereby authorized from time to time on behalf of said city to apply for the installation by the city of Providence of water lines in any of the public streets or highways of said city of Cranston. The city of Providence is hereby authorized and directed to cause the installation of the water lines so applied for upon the same terms and conditions as to cost and performance as are accorded by the city of Providence to private citizens. Said city council of the city of Cranston is hereby authorized and directed to make appropriation for and pay to the city of Providence the amount of the charges made by the city of Providence for such installations.

SEC. 2. Upon completion of the installation of water lines in any street or highway pursuant to application made under section 1 hereof, and upon payment to the city of Providence of its charges for such installation, said commissioner of public works shall make an assessment upon all land abutting upon that portion of such street or highway in which water lines have been so installed, at a uniform rate for each front foot of such land upon such street or highway. Such rate shall be determined by dividing the charges so imposed by the city of Providence by the total number of front feet of such land upon such street or highway; *provided, however,* that in any case where by reason of the location of any such land between or at the intersection of two streets or otherwise, such land shall have been previously assessed under this section or water lines installed independently of this act shall already be available to such land, such land shall not be subject to assessment with respect to the second of such streets or highways and its front footage upon such second street or highway shall not be included in computing total front footage upon such second street or highway for purposes of determining the assessment rate; and *provided, further,* that upon the petition of the owner of a lot of land of irregular shape or which by reason of location or otherwise is deemed to be inequitably assessed, said commissioner of public works, subject to the approval of the city council, may adjust the assessment on any such lot.

Said commissioner of public works shall annually on or before the first day of July certify to the city treasurer of the city of Cranston all assessments made by him since the date of the last previous such certification. Said assessments shall be a lien on the land on which they are made from the time said certificate is filed with said city treasurer until such assessment is paid in full, and if not paid when due and payable shall be collected in the same manner that taxes assessed upon real estate are by law collected. Except as hereinafter provided such assessments shall be due and payable at the time the regular city taxes are due and payable next after the date of receipt by the city treasurer of said certificate, and the city treasurer shall without further warrant collect such assessments in the

same manner and at the same time the regular city taxes are collected. Interest at the rate per annum fixed for non-payment of the regular city taxes in the year such assessments become due and payable shall be charged and collected on all overdue assessments from the date they become due and payable until paid.

The owner of any land against which an assessment is made as herein provided shall have the option either of paying such assessment at the time it becomes due and payable as above provided, or of paying one-tenth of such assessment at said time and the balance in nine annual installments of equal amounts, each of which shall become due and payable at the time the regular city taxes are due and payable for the year in which such installment becomes due. In case of election of the latter option there also shall become due and payable as a part of each installment interest on the unpaid balance of such assessment at a rate per annum equal to the highest interest rate per annum theretofore accrued on any of the bonds or notes issued by the city under this act, plus one-half of one per cent.

Any person who intends to avail himself of the option to pay his assessment in annual installments as aforesaid, must notify said city treasurer in writing of such intention at or before the time the regular city tax is due and payable in the year such assessment is first due, and any person who so avails himself of such option may at any time thereafter, when any such installment becomes due and payable, pay the balance of such assessment then remaining unpaid, in which event the obligation to pay interest shall cease and terminate except as to interest accrued up to the date of such payment.

In case of default in the payment of the regular city tax on the real estate which is the subject of such assessment, or of any installment of said assessment when it becomes due and payable as aforesaid, the balance of the assessment then remaining unpaid shall at once become due and payable.

SEC. 3. The receipts from the assessments provided for in

section 2 of this act shall be kept in a separate fund and shall be used as directed by the city council of the city of Cranston for the payment to the city of Providence of its charges for the installation of water lines as authorized by this act, for the reimbursement of the treasury of said city of Cranston for amounts paid to said city of Providence for such installation, or for the payment of the principal or interest of any bonds or notes issued under the authority of this act. The foregoing provisions shall not be construed as a limitation upon the power and duty of said city council to appropriate and raise in the regular city tax such amounts as may be necessary for the payment to the city of Providence of amounts due it and for the prompt payment of principal and interest maturing upon all outstanding bonds or notes issued under this act.

SEC. 4. The city of Cranston is hereby authorized and empowered, in addition to and not in substitution for authority previously granted, to issue, in addition to the bonds heretofore issued and now outstanding under its corporate name and seal, bonds in serial form to an amount not exceeding one hundred thousand dollars at any one time outstanding. Said bonds shall be in any denomination not exceeding twenty thousand dollars each; shall bear interest at the rate of not exceeding four per cent per annum payable semi-annually; the principal thereof and the interest thereon shall be payable in any coin or currency of the United States of America which at the time of payment is legal tender for public and private debts; and the debts secured by said bonds shall be obligatory on said city in the same manner and to the same extent as other debts lawfully contracted by said city. The dates of maturity of said bonds shall in no case be more than twelve years after the date of issue and not more than twenty thousand dollars of said bonds shall become due and payable in any one year.

SEC. 5. Said bonds shall be signed by the mayor and city treasurer and countersigned by the city clerk of said city of Cranston, and shall be issued and sold by said city at such times and in such amounts as the city council of said city shall deter-

mine; *provided, however,* that the premiums, if any, less the cost of preparing, issuing and marketing the same, arising from the sale of said bonds shall be applied to the payment of the principal of said bonds in the order of their maturity. The proceeds arising from the sale of said bonds shall be delivered to the city treasurer of said city, and such proceeds, except as hereinbefore provided in respect to the premiums arising from the sale thereof, shall be expended as directed by said city council for the payment to the city of Providence of its charges for the installation of water lines as authorized by this act or for the reimbursement of the treasury of said city of Cranston for amounts paid to said city of Providence for such installations. No purchaser of any of said bonds, however, shall be in any way responsible for the proper application of the proceeds derived from the sale thereof.

SEC. 6. The city of Cranston is hereby authorized and empowered to borrow temporarily upon the credit of said city from time to time such sums as may be fixed by the city council of said city and to issue temporary notes therefor, the proceeds of which shall be used only for the purposes specified in section 5 hereof. Each authorized issue shall constitute a separate loan. Each such issue may bear such distinguishing designation, if any, as said city council may in its discretion determine. Each such issue may be for a period of not more than three years, and notes issued under this section for a shorter period than three years may be refunded or renewed from time to time by the issue of other temporary notes, provided that the period from the date of issue of the original loan to the date of maturity of the refunding or renewing loans shall not be more than three years. Temporary notes issued under this section 6 may bear interest or be sold at a discount. The interest or discount on said temporary notes, including renewals thereof, and expense of preparing, issuing and marketing the same may be included in the cost of the works herein provided for and may either be borrowed temporarily under the provisions of this section 6 or funded as hereinafter in this section provided. The period and discount or interest rate and other particulars

of such temporary notes and renewal notes shall be fixed by said city council, except that such notes shall be executed in the manner and be payable in such money as is provided in sections 4 and 5 for serial bonds. Such temporary notes and renewals thereof, including interest or discount on the same and the expense of preparing, issuing and marketing the same, shall, unless otherwise taken care of, be funded by the issue of serial bonds under the provisions of section 4 hereof. The aggregate principal amount of temporary notes issued and outstanding hereunder shall not at any time exceed in the aggregate the sum of one hundred thousand dollars less the aggregate principal amount of bonds then outstanding under the provisions of section 4; but temporary notes which have become due and for the payment of which adequate funds have been provided and are presently available shall not be considered to be outstanding.

SEC. 7. The city of Cranston shall annually appropriate a sum sufficient to pay the interest on the bonds and notes outstanding under the authority of this act and also to pay the principal of the bonds and notes maturing in any one year until said bonds and notes are paid in full. All obligations of said city which are incurred under authority of this act shall be excepted from the operation of section 25 of chapter 329 of the general laws, 1938, and of chapter 1428 of the public laws, January session 1895, and acts in addition thereto and in amendment thereof, and such obligations shall not at any time be included in ascertaining the borrowing power of said city.

SEC. 8. This act shall take effect upon its passage.

CHAPTER 2355.

An Act in Amendment of Section 9 of Chapter 680 of the Public Laws, 1925.

It is enacted by the General Assembly as follows:

SECTION 1. Section 9 of chapter 680 of the public laws of 1925 is hereby amended to read as follows:

"Sec. 9. Beginning in the year 1949, the school committee shall annually in the month of March file with the city council of the city of Providence its budget, and a copy thereof with the commissioner of education, and shall show therein the sum of money required during the next succeeding fiscal year of said city, as an appropriation from the general tax levy, for the support of public schools, not including payments of interest or payments of principal on indebtedness incurred for school purposes or payments for the purchase of land for school purposes or for the improvement of the same or for the construction of school buildings or of additions thereto or for the furnishing of new buildings or additions to buildings erected for or buildings newly appropriated to school purposes, and the city council shall thereupon appropriate for such support of public schools during such fiscal year the sum of money so shown as required as an appropriation from the general tax levy: Provided, however, that the city council shall not be required to so appropriate any sum in excess of 35% of the average annual revenues of the city derived from general taxation at a rate not in excess of 2½% of the ratable value of the taxable property ordered by the city council during the three fiscal years next preceding the fiscal year during which said budget is filed. Nothing herein shall be construed to prevent the appropriation by said city council of additional sums of money for the support of public schools."

SEC. 2. This act shall take effect upon its passage, and said chapter 680, public laws, 1925, as heretofore amended, shall be in all other respects considered as reenacted, and all other acts and actions heretofore taken in pursuance of and under the authority of said chapter 680 as heretofore amended, are hereby ratified and approved.

CHAPTER 2409.

An Act Authorizing the City of Providence to Appropriate Not Exceeding Fifteen Hundred ($1,500.) Dollars to Innocenzio DeClemente, Father of Joseph DeClemente.

It is enacted by the General Assembly as follows:

SECTION 1. The city council of the city of Providence is hereby authorized and empowered to appropriate and pay to Innocenzio DeClemente, father of Joseph DeClemente, deceased, such sum not exceeding fifteen hundred ($1500.) dollars as said city of Providence may deem expedient as reimbursement for medical and funeral expenses incurred on behalf of the said Joseph DeClemente, who died as a result of injuries received in a gymnasium accident at Mt. Pleasant high school in Providence.

SEC. 2. This act shall take effect upon its passage.

JANUARY 3, 1949

No. 1. Resolution Adopting the Rules of the City Council for 1949-1950.

(Approved January 3, 1949.)

RESOLVED, That the following rules be and they are hereby adopted as the Rules of the City Council for the ensuing term 1949-1950:

Rule 1. The President, and in his absence the President Pro Tempore of the City Council, shall preside. In case of the absence of both the President and President Pro Tempore or the inability of both of them to discharge the duties of the office of President, the City Council shall elect one of its other members to perform such duties during the absence or disability of both the President and the President Pro Tempore.

Rule 2. The City Council shall hold regular meetings in the Council Chamber of the City Hall at 8 o'clock P. M. on the first and third Thursday in each month, excepting, however, the months of June, July and August, when summer recess is held, and during said months of June, July and August the City Council shall hold meetings at 8 o'clock P. M. on the first Thursday of said months. All meetings of the City Council shall be open to the public; but the City Council may upon the affirmative vote of two-thirds of its members authorize an Executive Session. If any regular meeting day shall fall on a legal holiday the meeting shall be held on the day following.

Rule 3. Special meetings of the City Council shall be called by the City Clerk, or in his absence by one of his assistants thereunto duly authorized by said City Clerk or by said City Council, upon the written request of the Mayor, or of one-sixth of the members of the City Council. Notice of any special meeting shall be served personally on each member, or at least two days' notice thereof shall be given each member in any other manner prescribed by Ordinance.

Rule 4. At all special meetings called by the Mayor or the City Council or the City Clerk as provided for in Section 20, Chapter 832, Public Laws of 1940, the first order of business shall be the special business for which such meeting is called and shall be taken up and exclusively considered until it is finally acted upon or considered at such meeting, and no other business shall be acted upon or considered at such meeting except by the consent of a majority of the whole number of members elected to the City Council.

Rule 5. The President shall take the chair at the hour designated for the meeting of the City Council, and shall promptly call the members to order. A majority of all members of the City Council shall constitute a quorum. A less number of members of the City Council than a quorum may adjourn from time to time and compel the attendance of absent members in such manner and under such penalties as may be prescribed by Ordinance. The President shall preserve decorum and order; he shall decide all questions of and points of order subject to an appeal to the City Council by any one member. No other business shall be in order until the question on appeal shall have been decided by a majority of the members present. He may speak on points of order, in preference to other members. He may speak on general questions as other members, but he shall take the floor to do so.

Rule 6. The President of the City Council shall distinctly put every question. On all Ordinances, Resolutions and questions in relation to and involving the expenditure of City funds, the selling and leasing of City property and acting on the Mayor's

veto the vote shall be by roll call. The "Yeas" and "Nays" of the members of the Council shall, at the desire of one-sixth of those present be taken and entered on the records of said City Council. After a roll call vote has been ordered, said roll call shall not be interrupted, delayed or stopped by the President or any member of the Council for any reason whatsoever, including points of order, personal privilege or for a member to explain his vote. After the roll call and before the President announces the result any member may change his vote. All roll calls shall be taken alphabetically, except that the name of the President of the Council shall be called first. In case of a tie vote the motion is not carried or passed. No motion shall be debated until it has been seconded. A member may explain his vote only with the unanimous consent of the Body. Any motion may be withdrawn by the mover at any time before the taking of a vote thereon or before an amendment is made to such motion.

Rule 7. Any member desiring to speak, shall address the President, and after his right to speak has been recognized he shall not be interrupted, while speaking, except by a call to order, or for the correction of a mistake, or to yield to a member. He shall confine his remarks to the question under debate and shall avoid personalities. No member shall speak more than once on the same question, until all other members desiring to speak thereon shall have done so, and in no event, shall a member speak more than twice on any question. There shall be no conversation among members while a member is speaking, while a roll call is being taken, while any paper is being read or while a question is being stated by the President.

Rule 8. The President shall enforce order and decorum among persons outside the rail and any person addressing the City Council by permission or by request shall, while speaking, be subject to the same rules and shall be entitled to the same privileges of order as pertain to a member of the City Council; provided, however, that a member of the City Council may interrupt such speaker for the purpose of asking a question or of obtaining information. No persons, other than the Mayor,

members of the City Council, members of the City Clerk's office, members of the City Sergeant's office, members of the Law Department and members of the press shall be allowed inside the rail and on the floor of the City Council, without receiving an invitation from the President, or from a member of the City Council through and with the approval of the President. On request of one-sixth of the members of the City Council, present, a department head or any employee of the City of Providence shall appear before the City Council to answer questions of members and explain any matter members may desire information about.

Rule 9. The order of precedence of motions shall be as follows:

1. Fix the time to which to adjourn.
2. Adjourn.
3. Take a recess.
4. Raise a question of privilege.
5. Lay on the table.
6. Suspension of the rules.
7. Previous question.

James B. Canning was born in County Leitrim, Ireland, in 1871 and was the son of the late John and Ann (Creamer) Canning. He came to this country at an early age and has made his home in Providence for the past seventy-six years. A gardener and florist by profession, Mr. Canning established the Capitol Hill Greenhouses in 1889 with which he was connected until his death.

His interest in municipal affairs, plus his popularity in his district, led to his election to the old Common Council where he represented the people of the old Fourth Ward from 1902 to 1905. He served on the Committees on Highways and North Burial Grounds.

Mr. Canning's passing is lamented by the legion of friends he made during a long life of service to the people of his district. The members of this City Council extend to his widow and family their profound expression of sympathy in the hour of their bereavement.

No. 170. Resolution from the Mayor's Committee on Comic Books and Related Publications Informing the City Council of Its Findings and Soliciting Its Cooperation.

(Approved February 18, 1949.)

Whereas, A committee of citizens appointed by the Mayor of Providence, has made an earnest study of the problem of comic books and related publications. Sensitive to the great danger to the moral and educational development of the boys and girls and "teen-agers" of our City as they become exposed to many of these periodicals in their present state and following consultation with representatives of publishers and distributors, this committee recommends to the public the following considerations for reflection and action:

First, the committee desires to avoid censorship, believing that this will be unnecessary if publishers, distributors, local dealers and others associated with the comic books industry would establish and adhere to the highest standards of practice.

Second, the genuine and continued interest of those who are responsible for the moral and educational development of our youth will lead to higher standards of comic books and related literature.

To this end, BE IT THEREFORE RESOLVED, That

(1) Publishers be and are hereby advised to adhere to their accepted codes and to abstain from publishing any text or illustration which violates said codes or the highest standards of comic books publishing.

(2) Distributors and local dealers be and are hereby urged to scrutinize all comics and related publications and to assume responsibility for rejecting such periodicals as do not conform to the accepted codes of the highest standards of comic books publishing.

(3) This committee appeals to schools, to libraries, to social, civic and religious bodies and above all to parents, to encourage wholesome reading and to discourage the purchase of publications that offend common and moral decency.

(4) The Mayor be requested to communicate with such local organizations, capable of exerting influence on the reading habits of our young people, seeking their cooperation in arousing a public consciousness of the present evil of certain comic books and related literature, and enlisting their help to discourage their sale.

No. 174. Resolution in Protest of the Incarceration of Josef Cardinal Mindszenty.

(Approved February 18, 1949.)

Whereas, The people of the City of Providence, Rhode Island, were privileged to offer the sacrifice of their sons to secure for all people everywhere the four freedoms for which America pledged its life, its material resources and its sacred honor; and

Whereas, The government of Hungary, by the peace treaty of February 10, 1947 had pledged to recognize and preserve political, humanitarian and religious freedom; therefore, be it

RESOLVED, That the City Council of Providence in solemn meeting assembled, do hereby give voice to the anger, anguish and anxiety of our people over the travesty of justice and tyranny-terrorism exemplified in the case of His Eminence, Josef Cardinal Mindszenty, Roman Catholic Primate of Hungary. There is anger because our honored dead are defrauded of their victory, the covenant of tolerance and equity. There is anguish, as among freedom-loving people everywhere without distinction of race or religion, that governments anywhere dare to torture men for their belief in God. There is anxiety lest the promise of peace vanish with this studied destruction of good will, inviting the very disappearance of civilization itself; and be it further

RESOLVED, That this protest be certified as a petition to our Commander-in-Chief, President Harry S. Truman, to invoke the power of his office through every means at his disposal so that the immediate wrong to Josef Cardinal Mindszenty may be righted; and so that there shall be responsibility among governments and respect among men for that human dignity under God upon which this republic is predicated and to which this democracy is dedicated.

He attended local public schools and as a youth, entered the employ of the Providence Journal Company with which concern he remained for nineteen years, becoming successively reporter, special writer and secretary to the editor. For the past thirty two years, Mr. Rider has been advertising manager for the Cherry and Webb Company and educational director of that company's broadcasting station—WPRO.

From 1939 to 1941 he was a member of the Board of Commissioners of North Burial Ground, a work in which he was particularly interested.

In addition to his civic interests, Mr. Rider gave much of his time and energy to the business life of the community, promoting co-operation between the downtown merchants and the municipality. He was Director of the Providence Business and Traffic Association of the Providence Better Business Bureau and was an Associate Director of the Retail Board of Trade of the Providence Chamber of Commerce. One of his most recent accomplishments was the planning of Providence Day.

(Approved August 5, 1949.)

Whereas, Almighty God in His divine wisdom has called to his eternal reward, Arthur Henius, prominent civic leader, exemplary citizen and able administrator, and

Whereas, It is but fitting and proper that a public record be made of his outstanding efforts on behalf of his fellow citizens;

NOW, THEREFORE, BE IT RESOLVED, That this City Council expresses the great loss sustained by our community in the death of Mr. Henius.

He was born in Copenhagen, Denmark February 6, 1870, the son of Isadore and Salina Henius. Coming here as an immigrant boy, he achieved an outstanding success in the mercantile field. While he sought no elective office, his talents were always available to his adopted City, State and Nation in any matter that pertained to the good of this community. He served his City as a member of the Zoning Board of Review from its inception in 1923 until 1939 and was its Chairman. From 1918 to its termination he was a member of the Metropolitan Park Commission of the State of Rhode Island.

He answered the call of his country and served with distinction under Presidents Hoover and Roosevelt, heading various governmental agencies in the local area among which were: the

campaign to get idle capital into circulation, the National Recovery Administration, the Federal Housing Administration, and Local Board 7 of Selective Service. He was honored by the American Red Cross for his long and devoted service to that cause by being chosen Chairman of the National Convention held at Washington in 1931. Since 1930 he has been a leader in the battle against infantile paralysis. A large estate at Quonset was acquired by him in 1920 and deeded to the American Legion for use by underprivileged children as a memorial to his son, Cyril Henius, who gave his life in World War I. His was a long life of devoted service to his community and an inspiration to fellow citizens.

BE IT FURTHER RESOLVED, That this Resolution be spread upon the records of this City Council and a copy of same transmitted to his bereaved sister, Miss Flora Henius, his sole survivor.

No. 671. Mayor's Veto of Zoning Ordinance.

October 29, 1949

TO THE HONORABLE
THE CITY COUNCIL
CITY OF PROVIDENCE
PROVIDENCE, RHODE ISLAND

GENTLEMEN:

This is to inform your Honorable Body, that on the 29th day of October, 1949, I have vetoed two Ordinances, namely, an Ordinance in amendment of Chapter 36 of the Revised Ordinances of the City of Providence of 1946 by changing from an Apartment House C-1 District to a Business C-1 District, Lot 251 on Assessor's Plat 16, said lot being located on the northerly side of John street (42 John street), and, an Ordinance in amendment of Chapter 36 of the Revised Ordinances of the City of Providence by changing from an Apartment House C-1 District to a Business C-1 District, Lot 315 on Assessor's Plat 32, said lot being located on the westerly side of Bridgham street.

A committee of the City Council carefully considered the petitions for said zoning changes and made favorable recom-

mendations to the City Council for reasons which, in the committee's opinion, justify such changes.

Having respect and appreciation for the committee's conscientious deliberations on these petitions, I felt it incumbent upon me before arriving at a decision to avail myself of all information and to visit the premises in question.

After visiting said premises and talking with many of the people concerned with the proposed changes, I find that in the case of the petition for 42 John street that in that area private interests have made great investments for the purpose of creating a residential section containing modern housing units.

Everyone realizes the desirability of encouraging such action on the part of private investors.

The proposed extension of the Business C-1 District in this area will, in my opinion, discourage further investment in family units and consequently be detrimental to the general welfare of the City.

Granting of a proposed change of the existing zone from an Apartment C-1 District to a Business C-1 District will likewise be detrimental to the residential character of the area proximate to the premises located on Bridgham street. This action would cause irreparable harm to the property values in the immediate neighborhood.

I realize that the Council in considering these petitions might have been motivated by a desire to aid individuals seeking a livelihood, which is, of course, laudable, but it is the Chief Executive's responsibility to ascertain, if possible, the ultimate consequences of proposed zoning changes

In these immediate cases it could be reasonably argued that the proposed use of the property by the individuals petitioning for a change would not be such as to cause a loss of value or deterioration of the surrounding area, but the change of zones sought by these petitions would be permanent and it is obvious that the ultimate result would not be in the best interests of the immediate neighborhoods nor of the City of Providence.

Therefore, considering all facts and circumstances involved in the Ordinances under consideration, I deem it to be in the best interests of the City of Providence to veto said Ordinances.

Respectfully,

/s/ DENNIS J. ROBERTS,
DENNIS J. ROBERTS,
Mayor of Providence.
