

# RESOLUTION OF THE CITY COUNCIL

No. 226

Approved March 29, 1975

RESOLVED, that the Traffic Engineer is requested to cause a study to be undertaken of the present traffic pattern at the intersection of Narragansett Avenue and Roger Williams Avenue, at which point numerous, serious motor vehicle accidents have occurred, and

BE IT FURTHER RESOLVED, that the Traffic Engineer is further requested to submit a written report to Councilman Tomasso, Councilman Garan and the City Clerk, the result of such study and his recommendation, to alleviate the apparent accident problem at that intersection.

The Honorable City Council  
Committee on Public Works  
City Hall  
Providence, Rhode Island

RE: Resolution No. 226  
Dated - March 29, 1975

Gentlemen:

We are aware of the traffic condition at the intersection of Narragansett Avenue and Roger Williams Avenue, and have made numerous studies in the past.

We have determined that the installation of a traffic signal would definitely improve the safety features of the intersection. Unfortunately, because of financial conditions and other locations in the City which we have determined have a higher priority, we will not be able to install this traffic signal at this time. Should our financial condition change as stated above, we already have this location on our priority list for installation of traffic signals.

Very truly yours, ..

A handwritten signature in cursive script, reading "Frank A. Tibaldi".

Frank A. Tibaldi  
Traffic Engineer
