INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,400 city, county, state and national Directories, present to subscribers and the general public, this, the 1968 edition of the Providence City Directory.

Confidence in the continued growth of Providence's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Providence to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Providence Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a large commercial and industrial center like Providence, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Providence, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE on green paper, is the third major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, the fourth major department, is printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Providence.

The Providence Directory Library

Through the courtesy of the publishers of the Providence City Directory, a Directory Library is maintained in the offices of the Greater Providence Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and profes-

Providence is one of the nation's leading cities in Urban Renewal, with a total investment of 200 million dollars in projects completed, in process, and planned. The "Downtown Master Plan—1970" is one of the most significant projects. Others include the East Side Renewal Project, Lippitt Hill, Weybosset Hill, and the Central-Classical Development Project. The Westminster Mall, dedicated August of 1965, is an outstanding pedestrian mall, and a feature of Providence's downtown renewal effort, as is the development of two major complexes for apartment living in downtown—The Recency and Beneficent House. The Cathedral Square Project at Weybosset Hill is another dramatic renewal plan for the downtown area. A Convention Hall-Sports Arena under joint City-State sponsorship is now planned for the Weybosset Hill Project Area which already features a new 275 room Motor Inn under construction.

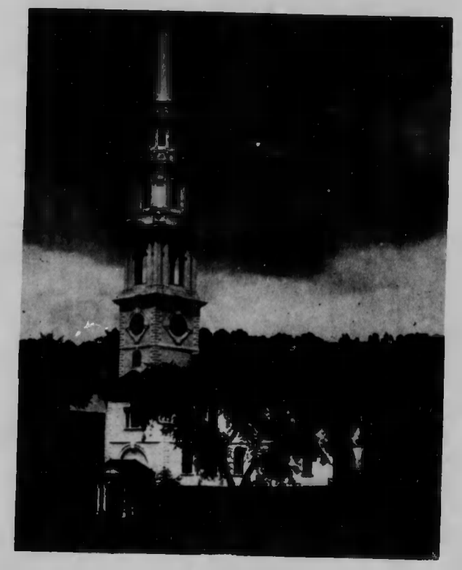
PROVIDENCE . . *A New-Old City*

New in Spirit and Vigor—

Old in History and Tradition



State Capitol Building, Providence, R. I.

Providence was founded in 1636 by Roger Williams, who received a deed for the land from the Narragansett Indians. The primeval forest were gradually cleared from the hills, and what is now a thriving city gradually developed during the intervening centuries. The fame and importance of Providence has given it a high place among the nation's cities. The name of Roger Williams will always be perpetuated in Providence because it was here for the first time that a charter proclaimed a doctrine of non-interference with the religious beliefs of the people. This doctrine of religious freedom has had much to do with the spirit and growth of the city. People of many nationalities and diverse religious faiths live together in tolerance and mutual respect.

The forefathers of many families which still reside in Rhode Island contributed greatly to the original enterprise of the city and state. These early inhabitants established mills, factories, shipping yards, counting houses, and sailing fleets by which means Providence became an important commercial and industrial center of the Thirteen Colonies. Its prestige has been maintained and broadened so that today metropolitan Providence includes some of the largest single industries in the country and is the largest center in the world for certain industrial products.

Providence is of interest historically by reason of its fine old houses and public edifices that are excellent examples of Colonial architecture. There are the First Baptist Meeting House, built in 1775; the old State

House, the old Market Building in Market Square, and private residences too numerous to mention which principally are located on the hill. It is safe to say that there are more varied examples of residential architecture in Providence than in any other city in the U. S., each one a type of the best in architecture covering the period from the Colonial days to the present.

First Baptist Church

The population of Rhode Island is the largest per square mile of any state, and is the smallest state in the Union. Providence is considered the world's largest jewelry manufacturing center and one of the nation's largest centers for the distribution of petroleum products. The city is important in the manufacture of machine tools, rubber goods, iron and steel products, silverware, and textiles, including silk, rayon, cotton, woolen and worsted products. Situated between New York and Boston, which furnish large markets, Providence is in a strategic location for the distribution of goods and services of all kinds. Also, a very considerable foreign trade originated in Providence factories, which send their products to all corners of the world.

According to the U. S. Census of 1960, Providence has 207,498 inhabitants. It should be borne in mind however, in regard to the population figure, that the city limits include only 18.91 square miles, in contrast to the 100 or more square miles of most cities of comparable importance. The State of Rhode Island has 929,000 people, all of whom are in the immediate trading territory of the city, much of which can be considered "bedroom communities" for those who do business and work in Providence. From a commercial standpoint, the trading area of metropolitan Providence includes not only all of Rhode Island, but southern Massachusetts and eastern Connecticut, with a total population of well over 1,500,000.

In addition to excellent port facilities, including both State and Municipal piers, Providence has rail transportation furnished by the New York, New Haven & Hartford Railroad System, extensive overland truck lines, bus service by the New England Transportation Co., Greyhound Lines, Short Line and others, and air service in all directions furnished by the American, Eastern, National, United, Mohawk and Allegheny Air Lines.

Providence is distinguished for its cultural and educational institutions. Colleges and schools which draw students from all over the world include Brown University, one of the oldest and most distinguished institutions of learning in the U. S. Other colleges are Providence College, founded by the Dominicans; Rhode Island School of Design, Rhode Island College, Pembroke College of Brown University, Bryant College, Johnson & Wales College of Business, Roger Williams Junior College and the University of Rhode Island, at Kingston. Other cultural and educational advantages include a concert series by the Boston Symphony Orchestra; the Rhode Island Philharmonic Orchestra, which presents a regular schedule of concerts; the Community Concert Association, the Rhode Island Civic Choral, the Providence Art Club, which sponsors many art exhibits; and the Trinity Square Players—a nationally known Repertory Theater Group.

The excellent library facilities include the Providence Public Library; the John Hay, Rockefeller Carter Brown and Ann Mary Brown libraries at Brown University, the Providence Athenaeum, and the Medical Library of the Rhode Island Medical Association. The museums include a natural history exhibition of Roger Williams Park, and a comprehensive museum display at the Rhode Island School of Design, which houses the famous Pendleton collection of furniture.

The people who work and live in Providence have ample and exceptional opportunities for play and recreation. Rhode Island is a natural playground, with miles of coast line and with beautiful sandy bathing beaches. As mentioned before, the Bay is a great recreational area. The hinterland is beautiful rolling country, dotted with many ponds, lakes and streams. Golf courses, tennis courts, yacht clubs and other recreational facilities are scattered throughout the state. Fine roads and short distances make them all accessible.

Roger Williams Park in Providence is a showplace, with its beautiful flower gardens, acres of shady fields, and a large body of water. This park maintains a zoo and public tennis courts. In winter, residents and visitors also have recreational advantages and sports. The state has developed an area at Diamond Hill for skiing and other winter sports. Professional hockey and other sports are enjoyed at the Rhode Island Auditorium. The world's first fully automatic post office is located in Providence's West River Industrial Park, and the city is now protected from hurricane flooding by the Fox Point hurricane barrier which became operative in September of 1965.

Providence is a city small enough to be thoroughly hospitable and have its people know one another, and at the same time large enough to include the advantages of a great city.

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

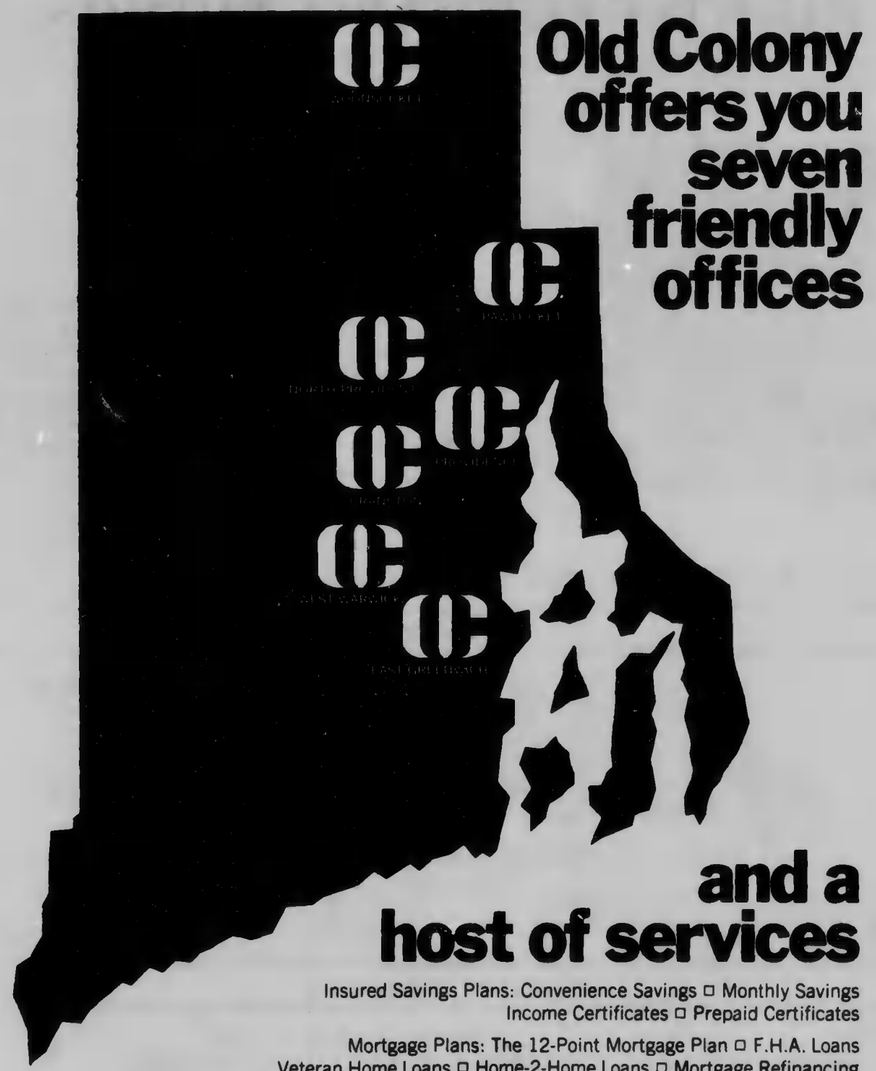
THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100 PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000 PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.



And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

BETTER BUSINESS BUREAU

Our Bureau is one of 139 BBB's located throughout the United States, Puerto Rico, Canada, Mexico and Israel. During the past year American Consumers made 3,500,000 calls to Better Business Bureaus. It is interesting to note that for every one complaint there 9 inquiries—people who simply wanted to check on the reputation or reliability of a company before doing business. Consumers in increasing numbers, are observing the Bureau's slogan "Investigate before you invest" and as a result are more pleased with their business relationships.

BBB's are private, nonprofit membership corporations, receiving no state or Federal tax money. There is never a charge for their service. They are supported and maintained entirely by business and express the business community's concern for the consumer. Their aim is to protect the integrity of honest business by seeking to eliminate the cloud of suspicion cast on all business when a few deal unfairly.

By their actions and support our members visibly demonstrate the spirit of a great business community—a spirit that goes beyond any possible law in protecting the business-consumer relationship. They support the bureau not in self-interest, but rather in the best interest of all legitimate business and all of us who are consumers.

Membership is open to reputable established business and industrial firms and individuals located or doing business in the Greater R. I. Trading area. Inquiries as to membership are invited from qualified business organizations.

Want to know more about the work and function of the BBB? Write or call the Manager.

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

ANOTHER INNOVATION FROM AMERICA'S FOREMOST BEAD HOUSE

Healy . . . originators of the only beads, balls and findings offered in an exclusive array of Florentine, Brocade, Baroque and Paisley finishes plus other exotic and custom surface treatments . . . once again introduces an exciting new concept.

EXCLUSIVE HEALY TAILORED GEOMETRIC FINDINGS

offer the freshest approach in sight. Some tried and true basic shapes . . . some entirely new and intriguing . . . but all interpreted with the ingenious flair of appealing new geometric "tricks." The few styles shown only scratch the surface. Hundreds of others already exist in a line which is expanding every day. Or perhaps you'd prefer working with our talented designers to develop special shapes and custom designs of your own. Regardless, these exceptional new findings deserve a place of importance in your line. Please write or call for further information, samples and prices.

Think what your designers can do with these

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Q. How do you get this form and texture across to the reader?

A. With GRAVURE printing.

Photographs are more definite than words, more exact than words, quicker than words and more convincing than words.

They are excellent salesmen if your product appeals because of its texture, taste, color, pattern or general superior quality.

In printing fine photographs Gravure is the ultimate in quality reproduction. Investigate its sales possibilities.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION . . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. ***Insist on being well represented in its pages.***
