Dear Sir:

Pertaining to Resolution of the City Council—please be advised that upon a recent inspection of that shack located at 24-26 Lancashire Street, on Assessor's Plat 99, Lot 335, my inspector reports that said shack has been demolished. The only thing that remains on the property is debris.

As far as this department is concerned there is nothing much we can do in this regard. However, if it is causing a health hazard it should be referred to the Health Department or Fire Prevention Bureau.

If I can be of further assistance please let me know.

RESOLVED, that the Director of the Department of Building Inspection is requested to condemn for the demolition of that building located at 37 Putnam Street.

December 30, 1971

Dear Sirs:

Please be advised that building located at 37 Putnam Street (rear house), was re-inspected on December 28, 1971 and building was found to be secure but there were three broken windows.

The owner was notified on October 13, 1971 to replace broken windows.

We have been in contact with Attorney Norman D'Andrea, who is handling the estate, and he has indicated because of economic circumstances it is almost impossible for them to repair the building at this time. The attorney further indicated that he would like a little more time to work out some possible solution before they abandon the property and have the city demolish it.

Since the building is not in a dangerous condition, we have given the attorney another week or so to find some some solution to this problem.

Dear Sir:

Regarding Resolution of the City Council pertaining to building located at 37 Putnam Street, please be advised that we have been communicating with Attorney Norman D'Andrea who has informed me that they are in the process of selling this building and the new owner intends to rehabilitate the structure.

In the meantime, I have been assured by the attorney that the building will be made secure until such time as repairs can be started.

Since the building is not in a dangerous condition and the attorney has expressed their desire to rehabilitate the structure, we have granted a little more time so that this problem can be solved.
